[File Nos. 54-127, 59-3, 59-12]

ELECTRIC BOND AND SHARE CO. ET AL

SUPPLEMENTAL ORDER RELEASING JURISDICTION CONCERNING ATTORNEYS' FEE

DECEMBER 8, 1953.

The Commission having previously by order entered, June 5, 1953, released jurisdiction over certain applications for allowances in connection with Plan II-B of Electric Bond and Share Company ("Bond and Share"), a registered holding company, including, among other things, fees payable to Simpson Thacher & Bartlett, Counsel for Bond and Share, representing services rendered to that company up to the date of filing the applications therein during the latter part of 1952 (Holding Company Act Release No. 11978); and

Simpson Thacher & Bartlett having filed an affidavit setting forth that such firm has, subsequent to the filing of its previous applications for fees herein, rendered certain additional services in connection with the Plan II-B proceedings, including particularly services rendered in connection with an appeal brought by certain holders of $5 preferred stock certificates of Bond and Share, which appeal was dismissed by the Court of Appeals for the Second Circuit during June 1953, which affidavit requests that Bond and Share proposes to pay Simpson Thacher & Bartlett $1,000 in payment for such services, subject to release of jurisdiction over such fee by this Commission; and

The Commission having considered said affidavit, and it appearing to the Commission that the requested additional allowance is reasonable and that an order should be entered releasing jurisdiction with respect thereto so as to permit payment thereof;

*It is hereby ordered*, That jurisdiction be and is hereby released with respect to the payment by Bond and Share of the sum of $1,000 to Simpson Thacher & Bartlett, as compensation for such additional legal services rendered in these proceedings.

By the Commission.

MISSION OIL CO. ET AL.

NOTICE OF FILING REGARDING CONSOLIDATION OF PROPERTIES, ELIMINATION OF HOLDING COMPANY, REQUEST FOR ORDERS AND ORDER REGARDING SOLICITATION MATERIAL

DECEMBER 7, 1953.

In the matter of the Mission Oil Company, Southwestern Development Company, and subsidiaries and Sinclair Oil Corporation, File Nos. 54-196, 59-97; Albert R. Jones, et al., File No. 70-2681; Southwestern Development Company, Amarillo Gas Company, Amarillo Oil Company, Clayton Gas Company, Dalhart Gas Company, Red River Gas Company, West Texas Gas Company, File No. 70-3156.

Notice is hereby given that an application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Southwestern Development Company ("Southwestern"), a registered holding company, and by its wholly owned subsidiary companies, Amarillo Gas Company ("Amarillo Gas"), Amarillo Oil Company ("Amarillo Oil"), Clayton Gas Company ("Clayton"), Dalhart Gas Company ("Dalhart"), Red River Gas Company ("Red River"), and West Texas Gas Company ("West Texas"). Applicants-declarants have designated sections 7, 10 and 12 of the act as applicable to the proposed transactions which are summarized as follows:

In brief, it is proposed that the gas utility properties of the Southwestern holding-company system be consolidated into Amarillo Gas, the name of which will be changed to Pioneer Natural Gas Company ("Pioneer"), and that its non-utility properties be consolidated into Amarillo Oil, which will be a subsidiary of Pioneer, and that Southwestern be liquidated and dissolved after distributing the common stock of Pioneer to be held by it to Southwestern's existing common stockholders, including Sinclair Oil Corporation ("Sinclair"), a partially exempt registered holding company, which owns approximately 53 percent of the common stock of Southwestern and will receive a like percentage of the common stock of Pioneer, and A. R. Jones, an individual, who owns approximately 9 percent of the common stock of Southwestern and will receive a like percentage of the common stock of Pioneer.

The steps in the program are as follows:

(a) Amarillo Oil will transfer its transmission line properties to West Texas in exchange for the latter's production properties (gasoline plant, gathering lines and any other production facilities). This exchange will be made on the basis of the respective book values of the properties, with Amarillo Oil paying West Texas in cash the excess of the book value of the West Texas properties over that of Amarillo Oil in the amount of approximately $142,300.00.

(b) Southwestern will make a contribution to the capital of West Texas by canceling all indebtedness owing by West Texas to Southwestern.

(c) Under a plan of reorganization to be entered into between Southwestern, Amarillo Oil and Red River, Amarillo Oil will amend its charter to authorize an additional number of shares of its stock (approximately 87,000 shares) of a par value of $25 per share having an aggregate par value equal to the net book value of Red River's properties and the indebtedness of Amarillo Oil to Southwestern. Red River will subscribe for such part thereof as will equal the book value of all of its properties less its liabilities, which properties will be transferred by Red River to Amarillo Oil in payment for such stock, Amarillo Oil assuming Red River's liabilities. Southwestern will subscribe for the balance of such shares and pay therefor by canceling the indebtedness owing by Amarillo Oil to Southwestern. Red River will dissolve and distribute its holdings of Amarillo Oil stock to Southwestern in cancellation of Red River's stock held by Southwestern.

(d) Under a plan of reorganization to be entered into between Southwestern and Amarillo Gas, Amarillo Gas will amend its corporate charter so as to change its name to Pioneer, reclassify its capital stock, and make other provisions necessary to the consummation of the transactions involved in the program, as well as to provide additional protection for investors.

(e) Also pursuant to the plan of reorganization between Southwestern and Amarillo Gas, Southwestern will (1) surrender the presently outstanding 5,000 shares of capital stock of Amarillo Gas, par value $100 per share, owned by it for conversion into 66,666⅔ reclassified shares of the par value of $7.50 per share, and (2) cancel all indebtedness owing by Amarillo Gas to Southwestern and transfer to Amarillo Gas all of the assets and properties of Southwestern other than Amarillo Gas $7.50 par value capital stock held by it, including all of the outstanding capital stocks of Amarillo Oil, West Texas, Dalhart, and Clayton, in payment for the unissued 1,388,847⅓ shares of the $7.50 par value capital stock of Amarillo Gas (including 66,666⅔ shares of reclassified treasury stock) which 1,388,847⅓ shares will be issued to Southwestern. As a part of

the consideration for the transfer of these assets by Southwestern, Amarillo Gas will assume all of the liabilities of Southwestern including $9,450,000 principal amount of notes having varying maturities and interest rates from 2½ percent to 3¼ percent per annum.

(f) Immediately following the completion of the steps set forth in paragraph (e) above, West Texas, Dalhart, and Clayton will transfer, in liquidation, all of their properties to Amarillo Gas subject to and upon the assumption of all of their liabilities by Amarillo Gas. West Texas, Dalhart, and Clayton will then be dissolved.

(g) Upon the completion of the steps set forth above, a meeting of the stockholders of Southwestern will be held to authorize the distribution of Southwestern's assets to its stockholders and its dissolution.

(h) Southwestern will transfer to the holders of the 727,757 shares of its capital stock in exchange for the surrender for cancellation by such stockholders of the shares of $5.00 par value capital stock of Southwestern presently held by them, two shares of Pioneer $7.50 par value capital stock for each share of Southwestern stock so held.

(i) After consummation of all of the foregoing transactions, Southwestern will be dissolved.

It is stated that the right of Southwestern stockholders to receive Pioneer capital stock in exchange for the surrender for cancellation of their shares of Southwestern capital stock shall be without limitation as to time, and that Southwestern will, however, during a reasonable period following the beginning of such distribution and transfer make every reasonable effort from time to time to locate such Southwestern stockholders who are entitled to receive Pioneer capital stock but whose Southwestern stock has not been surrendered for exchange.

Southwestern proposes to furnish to each of its stockholders a copy of the Commission's Notice of Filing promptly after its issuance.

The declaration states that The New Mexico Public Service Commission has jurisdiction over the sale of the stock or properties of Clayton and that no other State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Southwestern has also requested an order of the Commission pursuant to section 5 (d) of the act to be issued upon the filing of a certificate of notification of consummation of the transactions as proposed in the application-declaration, which order shall direct that Southwestern has ceased to be a holding company under the act and that its registration under the act has ceased to be in effect.

Southwestern and Sinclair have applied, in certain proceedings captioned "In the Matter of The Mission Oil Company, Southwestern Development Company and Subsidiaries, and Subsidiaries, and Sinclair Oil Corporation, File Nos. 54-196, 59-97, and In the Matter of Albert R. Jones, et al., File No. 70-2681", filed under section 11 (e) of the act, wherein the Commission approved a plan of reorganization by its Findings, Opinion and Order dated December 21, 1951 (Holding Company Act Release No. 10969) for a Supplemental Order containing recitals conforming to Supplement R and section 1803 (f) of the Internal Revenue Code. Under the provisions of the plan approved by the Commission's order of December 21, 1951, Sinclair was to acquire (and has now acquired) from Southwestern and from The Mission Oil Company a total of 384,860.86 shares of the reclassified $5 par value common stock of Southwestern. It was further provided in such plan that Sinclair was to sell, at public or private sale, such 384,860.86 shares of Southwestern stock, and to invest an amount equal to the proceeds of such sale as a contribution to the capital of Sinclair Refining Company, a wholly-owned subsidiary of Sinclair. Since it is proposed that Sinclair and the other stockholders of Southwestern are to receive stock of Pioneer in lieu of their investment in Southwestern, it is now requested that the Commission find that the distribution and transfer by Southwestern to its shareholders, in exchange for the surrender of Southwestern's stock, of the shares of Pioneer stock, the sale by Sinclair of the Pioneer stock received by it, and the investment by Sinclair of an amount equal to the proceeds of the above mentioned sale by it of the Pioneer stock as a contribution to the capital of said Sinclair Refining Company are necessary or appropriate to effectuate the purposes of section 11 (b) of the act: *Provided*, That such steps or the transactions may be carried out within six months from the date of the Commission's order, or within such longer time as the Commission may by further order direct. A similar finding is requested with respect to the various transactions (outlined above) with respect to the consolidation of the properties of Southwestern holding company system into Pioneer.

It is requested that the Commission's orders entered herein become effective upon the issuance thereof.

Notice is further given that any interested person may, not later than December 22, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

Southwestern having also filed a certain letter to be transmitted to its stockholders immediately after the issuance of this notice and order, with which will be transmitted a copy of this notice and order, and having requested that the declaration with respect thereto pursuant to Rule U-62 be made effective and the Commission being satisfied that such request should be granted:

*It is ordered*, That said declaration with respect to such letter be and become effective forthwith.

By the Commission.

NEW ENGLAND ELECTRIC SYSTEM

ORDER AUTHORIZING ACQUISITION OF SECURITIES

DECEMBER 7, 1953.

New England Electric System ("NEES"), a registered holding company, having filed an application with this Commission, pursuant to sections 9 and 10 of the Public Utility Holding Company Act of 1935 (the "act"), with respect to the following proposed transaction:

NEES presently holds a promissory note of What Cheer Associates, Inc., ("What Cheer") with a balance due of $2,235,400. This note is secured by 37,500 shares of common stock of United Transit Company ("UTC"), a transit company organized and operating in Rhode Island, and that company's 4 percent ten-year mortgage note presently outstanding in the principal amount of $2,235,400. What Cheer owns all of UTC's secured notes and all but 383 shares of its outstanding 42,604 shares of capital stock.

UTC has the approval of the Public Utility Administrator, Department of Business Regulation of the State of Rhode Island to reduce its capital in the amount of $1,278,120 and to transfer $1,278,120 from its capital stock account to a special reserve account to which losses anticipated upon the retirement of certain trackless trolley equipment will be charged. The reduction in capital will be effected by the surrender by all holders of UTC capital stock of all shares held by them in exchange for seven-tenths as many shares of new UTC capital stock. Such transactions by UTC are not subject to this Commission's jurisdiction. In connection with such transactions the 37,500 shares of UTC capital stock pledges with NEES will be exchanged for 26,250 shares of new UTC stock. In the application to this Commission NEES seeks authority to acquire the new UTC stock in substitution for the old UTC stock held. Both before and after the exchange, 88 percent of UTC's outstanding capital stock will be pledged with NEES.

The application states that there are no fees, commissions or other remuneration involved. It further states that incidental services in connection with the proposed transaction will be performed, at the actual cost thereof, by New England Power Service Company, an affiliated service company, such services being estimated not to exceed a cost of $500. It further states that no State or Federal commission, other than this Commission, has jurisdiction over the transaction proposed by NEES.

NEES requests that the Commission's order herein become effective forthwith upon issuance.

Due notice having been given of the filing of the application and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that said application be granted forthwith:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, that said application be, and it hereby is, granted forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION OVER RESULTS OF COMPETITIVE BIDDING IN SALE OF PREFERRED STOCK

DECEMBER 7, 1953.

The Commission, by orders dated September 8, 1953, and November 30, 1953, having granted the application, as amended, of Duquesne Light Company ("Duquesne"), a subsidiary of Philadelphia Company, a registered holding company and a subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both also registered holding companies, proposing, among other things, the issuance and sale by Duquesne of 100,000 shares of its authorized but unissued preferred stock as a new series to be known as its "----- percent Preferred Stock", of the par value of $50 per share ("New Preferred Stock"), subject to reservations of jurisdiction with respect to the results of competitive bidding under Rule U-50 and the fees and expenses to be incurred in connection with the proposed transaction; and

Duquesne having on December 7, 1953, filed a further amendment to its application herein setting forth the action taken by it to comply with the requirements of Rule U-50, and stating that, pursuant to the invitation for competitive bids, the following bids have been received:

| Group headed by— | Annual dividend rate (percent) | Price to Company (dollars per share) | Annual cost to Company (percent) |
|---|---|---|---|
| The First Boston Corp.---- | 4.20 | 50.21 | 4.182 |
| Lehman Bros. ---------- | 4.25 | 50.4015 | 4.216 |
| Kidder, Peabody & Co., Merrill Lynch, Pierce, Fenner & Beane, and White, Weld & Co ---- | 4.25 | 50.29 | 4.225 |
| Kuhn, Loeb & Co. and Smith, Barney & Co.---- | 4.25 | 50.267 | 4.227 |
| Blyth & Co., Inc.---------- | 4.25 | 50.19 | 4.233 |

The amendment having further stated that Duquesne has accepted the bid of the group headed by The First Boston Corporation, as set forth above, and that the New Preferred Stock will be reoffered to the public at a price of $51.21 per share, resulting in an underwriting spread of $1.00 per share or an aggregate of $100,000; and

The record not having been completed with respect to the fees and expenses to be incurred in connection with the proposed transaction; and

The Commission having examined the amendment and having considered the record herein and observing no basis for imposing terms and conditions with respect to the price to be received for said New Preferred Stock, the dividend rate and the underwriter's spread, or otherwise, and it appearing appropriate to the Commission that jurisdiction heretofore reserved over the results of competitive bidding with respect to the issuance and sale of the New Preferred Stock be released:

*It is ordered*, That the application, as further amended, be, and the same hereby is, granted forthwith, and that the jurisdiction heretofore reserved over the results of competitive bidding with respect to the aforesaid sale of New Preferred Stock be, and the same hereby is, released, subject to the terms and conditions prescribed in Rule U-24.

*It is further ordered*, That the jurisdiction heretofore reserved with respect to the fees and expenses to be incurred in connection with the proposed sale of New Preferred Stock be, and the same hereby is, continued.

By the Commission.

IRON OR STEEL ARTICLES; MIDDLE ATLANTIC TERRITORY

THIRD SUPPLEMENTAL ORDER

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 7th day of December A. D. 1953.

The matter of rates and charges maintained by motor common carriers on iron or steel articles between points in various States being under consideration; and good cause appearing therefor:

*It is ordered*, That the above-entitled investigation be, and it is hereby, broadened to include investigation into and concerning the reasonableness, and the lawfulness otherwise, of the rates, charges, and regulations maintained by motor common carriers for the transportation in interstate or foreign commerce of iron or steel articles between points in Delaware, Kentucky, Maryland, New Jersey, New York, Ohio, Pennsylvania, and West Virginia, on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania, West Virginia, and the District of Columbia, with a view to making such findings and entering such order or orders or taking such other action, as the facts and circumstances shall appear to warrant.

*It is further ordered*, That all common carriers by motor vehicle engaged in the transportation described in the next preceding paragraph hereof be, and they are hereby, made respondents in this proceeding.

*It is further ordered*, That notice of this proceeding be given to the respondents and to the general public by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of Federal Register.

*And it is further ordered*, That this proceeding be assigned for hearing at such times and places as may hereafter be fixed.

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

a. *Findings.* 1. Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

b. *Order, as amended.* The provisions in paragraph (b) (1) (i) of § 914.307 (Navel Orange Regulation 7, 18 F. R. 7842) are amended to read as follows:

(i) District 1, 1,300 carloads.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 10th day of December 1953.

*Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

Subchapter G—Procurement

PART 590—GENERAL PROVISIONS

PART 593—COORDINATED PROCUREMENT

PART 596—CONTRACT CLAUSES AND FORMS

MISCELLANEOUS AMENDMENTS

1. In § 590.306–1 a new paragraph (c) is added as follows:

§ 590.306–1 *Domestic shipments.* * * *
(c) When it has been determined that shipments will be made on the basis of all transportation charges paid to destination (Contractor's Account), care will be exercised in designating exact receiving points. An example of an exact designation is "F. O. B. Receiving Dock, _____ General Depot, X City, Y State". Exact designation of the receiving point precludes unnecessary additional drayage and handling charges accruing to the Government.

2. A new § 593.102 is added to Part 593 and in § 593.109 (d), Item 7 is revised, as follows:

§ 593.102 *Execution and administration of contracts.* When submitting requests to the Departments of the Navy and Air Force and to joint procuring agencies under the single department procurement program, Department of the Army requirements for contractual instruments will be limited to seven copies.

§ 593.109 *Preparation of procurement requests.* * * *
(d) *Instructions for preparation.* * * *

ITEM 7. *Distribution of contracts and related documents.* Name and address of Office(s) to which copies of contracts and related documents are to be mailed. Also list number of copies desired. See § 593.102.

3. In § 596.103–11 (g), subparagraphs (10), (11), (12), and (13) are revised as follows:

§ 596.103–11 *Default.* * * *
(g) *Report of termination of contract (Reports Control Symbol FIN–51).* * * *

(10) Attach 1 copy of the following:
(i) Terminated contract.
(ii) Repurchase contract, if any.
(11) Attach 2 copies of the following:
(i) Notice of termination.
(ii) Notice to cure default, if any. See paragraph (d) (5) of this section.
(iii) Computation of liquidated or actual damages.
(iv) Correspondence from Contracting Officer to delinquent Contractor relative to the indebtedness.
(12) Attach original and 1 copy of correspondence from delinquent contractor to contracting officer relative to indebtedness.
(13) Attach 2 copies of any other papers or documents deemed to be required as evidence for prosecution of claim or litigation against defaulting contractor.

* * * * *

4. Section 596.104–12 is revoked and Subpart B, comprising §§ 596.203–4 and 596.203–7, is revoked as follows:

§ 596.104–12 *Military security requirements.* [Revoked.]

SUBPART B—CLAUSES FOR COST-REIMBURSEMENT TYPE CONTRACTS

[Revoked]

§ 596.203–4 *Allowable cost, fixed-fee and payment.* [Revoked.]

§ 596.203–7 *Records.* [Revoked.]

5. Section 596.579 is rescinded and the following substituted therefor:

§ 596.579 *Security Requirements Check List; DD Form 254.* (a) This form consists of DD Form 254 and the appendage thereto, DD Form 254–1. For requirements as to use see § 406.104–12 of this chapter and § 592.212–2 of this subchapter.

(b) This form is available for supply from adjutant general publications depots.

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

WRANGELL NARROWS, ALASKA

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.800 is amended by the addition of a paragraph to govern the speed of vessels in portions of Wrangell Narrows and by other minor revisions where reference is made to navigational aids, as follows:

§ 207.800 *Wrangell Narrows, Alaska; use, administration, and navigation—*(a) *Definitions.* (1) The term "Wrangell Narrows" includes the entire body of water shown on United States Coast and Geodetic Survey Chart No. 8170 between Wrangell Narrows North Entrance Lighted Bell Buoy 63 and Midway Rock Light.

(2) The term "raft section" refers to a standard raft of logs or piling securely fastened together for long towing in Alaska inland waters in the manner customary with the local logging interests, i. e., with booms, swifters, and tail sticks. It normally contains 30,000 to 70,000 feet board measure of logs or piling and has a width of 45 to 60 feet and a length of 75 to 100 feet.

(3) The term "horsepower" refers to the manufacturer's rating of the towboat engine as shown in standard catalogs or on the name plate fixed to the engine.

(b) *Fish traps.* No fish traps shall be towed through Wrangell Narrows without specific authority, in each case, from

the District Engineer, Alaska District, Corps of Engineers, Anchorage, Alaska.

(c) No vessel shall exceed a speed of seven (7) knots between Wrangell Narrows Channel Light 52 and an unmarked point in the channel one (1) nautical mile to the southward and between Wrangell Narrows Channel Light 58 and Wrangell Narrows Lighted Buoy 60.

(d) *Tow channel.* (1) The following route will be taken by all tows passing through Wrangell Narrows when the towboat has a draft of nine feet or less (northbound, read down; southbound, read up):

East of Battery Islets:
  East of S1TC and S3TC.
  West of S4TC.
East of Colorado Reef:
  East of Wrangell Narrows Channel Light 21 Occ. G.
  West of Wrangell Narrows Channel Lighted Buoy 23 FG.
West of Petersburg:
  East of Wrangell Narrows Channel Light 54 FR.
  East of Wrangell Narrows Channel Light 56 Qk FR.
  East of Wrangell Narrows Channel Light 58 FR., thence proceeding to west side of channel and leaving Wrangell Narrows by making passage between Wrangell Narrows Channel Daybeacon 61 and Wrangell Narrows North Entrance Lighted Bell Buoy 63 F.

(2) For towboats drawing more than nine feet, application shall be made to the District Engineer, Alaska District, Corps of Engineers, Anchorage, Alaska, for authority to use the ship channel for each trip.

(e) *Size of tows.* The maximum tows permitted shall be as follows:

(1) *Towboats of 25 horsepower or less.* Not permitted to take any tows through Wrangell Narrows other than fuel logs, not to exceed 500 feet board measure per horsepower up to a maximum of 10,000 feet board measure.

(2) *Towboats of 26 to 49 horsepower.* Fuel logs not to exceed 10,000 feet board measure, or one freighting scow not larger than 30 feet by 60 feet, or one raft section.

(3) *Towboats of 50 to 89 horsepower.* Fuel logs, not to exceed 10,000 feet board measure if in "tandem" (not bound together) or 15,000 feet board measure if chained or cabled, or one anchor lifter, or one pile driver, or two units of other towable equipment, or two raft sections.

(4) *Towboats of 90 horsepower or over.* Fuel logs not to exceed 10,000 feet board measure if in "tandem" (not bound together) or 15,000 feet board measure if chained or cabled, or one anchor lifter, or one pile driver, or three units of other towable equipment, or seven raft sections.

(f) *Arrangement of tows.* (1) No towline or aggregate of towlines between towboat and separated pieces shall exceed 150 feet in length.

(2) Tows shall not exceed 65 feet in width overall.

(3) Tows other than rafts shall be taken alongside the towboat whenever possible.

(g) *Anchorage.* No craft or tow shall be anchored in Wrangell Narrows in either the main ship channel or the towing channel, nor shall any craft or tow be anchored so that it can swing into either of these channels.

(h) *Disabled craft.* Disabled craft in a condition of absolute necessity are exempt from the regulations in this section.

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

Subchapter A—Alaska

[Circular No. 1865]

### PART 62—FUR FARMING

Part 62 is revised to read as follows:

FUR FARM LEASES

Sec.
62.1 Statutory authority.
62.2 Policy.
62.3 Definitions.
62.4 Area subject to lease.
62.5 Lands subject to lease.
62.6 Qualifications of applicants.
62.7 Application for lease.
62.8 Form of lease; rental and royalty; report of annual operations.
62.9 Assignments and subleases.
62.10 Renewal of leases.
62.11 Commencement of operations; stocking land.
62.12 Rights reserved; protection of improvements and roads.
62.13 Termination of lease; cancellation.
62.14 Removal of improvements and personal property.
62.15 Appeals.

AUTHORITY: §§ 62.1 to 62.15 issued under sec. 2, 44 Stat. 822, 48 U. S. C. 361.

FUR FARM LEASES

§ 62.1 *Statutory authority.* The act of July 3, 1926 (44 Stat. 821, 48 U. S. C. secs. 360, 361), authorizes the Secretary of the Interior to lease public lands on the mainland of or islands in Alaska, with the exception of the Pribilof Islands, for fur farming, for periods not exceeding ten years.

§ 62.2 *Policy.* (a) The authority to lease the public lands in Alaska for fur-farming purposes was granted in order to promote the development of the production of furs in Alaska.

(b) No lease for the purpose of raising beavers will be granted on any area already occupied by a beaver colony nor will any such lease be granted on streams or lakes where the activities of beavers may interfere with the run or spawning of salmon.

(c) In order to offer more people an opportunity to lease lands, and to avoid tying up large areas of land unnecessarily, fur-farming leases on public lands will not be granted for areas greater than are justified by the needs and experience of the applicant.

§ 62.3 *Definitions.* As used in this part: (a) "Secretary" means Secretary of the Interior; (b) "Director" means Director, Bureau of Land Management; (c) "Regional Administrator" means Regional Administrator, Bureau of Land Management, Anchorage, Alaska; and (d) "Manager" means Manager, Land Office, Bureau of Land Management, in whose district the lands involved are situated.

§ 62.4 *Area subject to lease.* (a) On the mainland such leases may be for an area not exceeding 640 acres. A lease may cover an entire island, provided the area thereof does not exceed 30 square miles, and provided the need for such entire island is clearly established. Islands so close together that animals can cross from one to the other, and whose combined area does not exceed 30 square miles, will be treated as one island. Islands having an area of more than 30 square miles will be treated as mainland.

(b) Where a lease is granted for an area in excess of 640 acres on an island, the manager may, after notice to the lessee, reduce the area to an amount not less than 640 acres, if he determines that the lessee cannot reasonably use all of the area for which the lease was granted.

§ 62.5 *Lands subject to lease.* (a) Vacant, unreserved, and unappropriated public lands are subject to lease.

(b) Except for lands under the jurisdiction of the Fish and Wildlife Service and the National Park Service, public lands withdrawn or reserved for any purpose are subject to lease if the department or agency having jurisdiction thereof consents to the issuance of the lease.

§ 62.6 *Qualifications of applicants.* Any person who is a citizen of the United States, or any group or association composed of such persons, or any corporation organized under the laws of the United States, or of any State or Territory thereof, authorized to conduct business in Alaska may file an application.

§ 62.7 *Application for lease.*[1] An application for lease should be filed in duplicate in the proper land office. No specific form of application is required, but the application should contain or be accompanied by the following:

(a) Applicant's full name, post office address, the general nature of his present business, and the principal place of business.

(b) (1) A statement of the age and of the citizenship status, whether native-born or naturalized, of the applicant, if an individual, or of each partner or member of a partnership or association. A copartnership or an association applicant shall file a copy of whatever written articles of association its members have executed.

(2) A corporation shall file a certified copy of its articles of incorporation, evidence that it is authorized to transact business in the Territory of Alaska, and a copy of the corporate minutes or resolution authorizing the filing of the application and the execution of the lease.

(c) Description of the land for which the lease is desired, by legal subdivision, section, township, and range, if surveyed, and by metes and bounds, with the approximate area, if unsurveyed. The metes and bounds description should be connected by course and distance with some corner of the public-land surveys, if practicable, or with reference to rivers, creeks, mountains, towns, islands, or other prominent topographical points or natural objects or monuments.

(d) A statement as to the applicant's experience in and knowledge of fur farming.

(e) A statement as to the kind of fur-bearing animals to be raised, and, if foxes, the color type; the number of fur-bearing animals the applicant proposes to have on the leased land within one year from the date of the lease, and whether it is proposed to purchase or trap the stock; and that before commencing operations under any lease which may be issued the applicant will procure from the Alaska Game Commission, or its designated agents, whatever licenses are required under the Alaska Game Law (48 U. S. C. 191–213), and the act of April 30, 1946 (7 U. S. C. 433–434).

(f) A detailed statement of the reasons for the need for any area in excess of 640 acres but not exceeding 30 square miles, when the land applied for is comprised of an island, or islands.

(g) A statement of the nature and results of the investigation made by applicant as to whether the land and climate are suited to raising the kind of animals proposed to be stocked.

(h) A statement as to whether the land is occupied, claimed, or used by natives of Alaska or others; and, if so, the nature of the use and occupancy and the improvements thereon, if any.

(i) If beavers are to be raised, a statement as to (1) whether a beaver colony exists on the land, and (2) whether salmon streams or lakes are on or adjacent to the land proposed to be leased.

(j) A statement that the applicant is acting solely on his own account and not under any agreement or understanding with another.

(k) The serial numbers of all other applications filed or leases obtained under this act by applicant, or applicant's spouse or business associate, or in which applicant has a direct or indirect interest.

(l) The showing as to hot or medicinal springs required by § 292.8 of this chapter.

§ 62.8 *Form of lease; rental and royalty; report of annual operations.* (a) Leases will be issued on Form 4–230.

(b) Prior to the issuance of a lease and annually thereafter, the lessee shall pay an advance rental of $5 per annum if the lease embraces 10 acres or less, a rental of $25 per annum if the leased area is more than 10 acres but not more than 640 acres, and a rental of $50 per annum if the leased area exceeds 640 acres.

(c) Within 60 days after the end of each lease year the lessee shall file with the Manager a report on Form 4–230a, in duplicate, showing his operations under the lease and his gross receipts thereunder from the sale of live animals and pelts for the preceding lease year. The lessee shall pay, at the time of filing the report, a royalty of 1 percent of such gross receipts deducting therefrom the amount of the advance rental payment made for such preceding lease year.

§ 62.9 *Assignments and subleases.* A proposed assignment of a lease, in whole or in part, or a sublease, must be filed in duplicate with the land office within 90 days from the date of its execution; must contain all of the terms and conditions agreed upon by the parties thereto; and must be supported by a statement that the assignee or sublessee agrees to be bound by the provisions of the lease. The assignee or sublessee must submit with the assignment or sublease the information or statements required by § 62.7 (a), (b), (d), (e), (j) and (k). No assignment or sublease will be recognized unless and until approved by the Manager.

§ 62.10 *Renewal of leases.* Upon an application filed in the proper land office within 90 days preceding the expiration date of the lease, if it is determined that a renewal lease should be granted, the lessee will be offered such lease by the Manager, upon such terms and conditions and for such duration as may be fixed, not exceeding 10 years. The filing of an application for renewal does not confer on the lessee any preference right to a renewal. The timely filing of an application will, however, authorize the exclusive fur-farming use of the lands by the lessee in accordance with the terms of the prior lease pending final action on the renewal application.

§ 62.11 *Commencement of operations; stocking lands.* The lessee shall, within one year from the date of issuance of the lease, commence operations by taking possession of the leased area, and by placing thereon within that period such improvements as may be needed for such operations and as will show good faith, and shall thereafter develop the fur-farming enterprise on the leased area with reasonable diligence. The lessee shall stock the leased area with the minimum of fur-bearing animals required by the lease within the periods specified in the lease.

§ 62.12 *Rights reserved; protection of improvements and roads.* Nothing in this part or any lease issued under this part shall interfere with or prevent:

(a) The prospecting, locating, development, entering, leasing, or patenting of mineral resources in the leased area under laws applicable thereto.

(b) The use and disposal of timber or other resources on or in the leased area under applicable laws.

(c) The use and occupation of parts of leased areas for the taking, preparing, manufacturing, or storing of fish or fish products, or the utilization of the lands for purposes of trade or business, to the extent and in the manner provided by law, and as authorized by the Regional Administrator.

(d) The acquisition or granting of rights-of-way or easements under applicable laws and regulations.

(e) Hunting and fishing under applicable Federal and Territorial hunting and fishing laws and regulations, but the Regional Administrator may prohibit or restrict, or he may authorize the lessee to prohibit or restrict hunting or fishing on such parts of the leased area and for such periods as he may determine to be necessary in order to prevent any substantial interference with the purposes for which the lease is issued.

§ 62.13 *Termination of lease; cancellation.* (a) The manager may terminate a lease at the request of the lessee if the lessee shall make satisfactory showing that such termination will not adversely affect the public interest and that he has paid all charges due the Government thereunder.

(b) A lease may be canceled by the manager if the lessee shall fail to comply with any of the provisions of this part or of the lease, or shall devote the lease area primarily to any purpose other than the rearing of fur-bearing animals as authorized. No lease will be canceled until the lessee has been formally notified of such default and such default shall continue for 60 days after service of such notice.

§ 62.14 *Removal of improvements and personal property.* (a) Improvements or personal property may not be removed from the lands, except fur bearing animals disposed of in the regular course of business, unless all moneys due the United States under the lease have been paid. The lessee shall be allowed 90 days from the date of expiration or termination of the lease within which to remove his personal property and such improvements as are not disposed of in the manner set forth in paragraph (b) of this section, which he has a right to remove; if not removed or otherwise disposed of within the said period, such improvements or personal property shall become the property of the United States.

(b) Upon the expiration of the lease or the earlier termination thereof, the manager may, in his discretion and upon a written petition filed by the lessee within 30 days from the date of such expiration or termination, require the subsequent lease applicant, prior to the execution of a new lease, to agree to compensate the lessee for any improvements of a permanent nature that he

[1] Title 18, U. S. C., sec. 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

may have placed upon the leased area for fur-farming purposes during the period of the lease. If the interested parties are unable to reach an agreement as to the amount of compensation, the amount shall be fixed by the manager. All such agreements, to be effective, must be approved by the manager. The failure of the subsequent lessee to pay the former lessee in accordance with such agreement will be just cause for cancellation of the lease.

§ 62.15 *Appeals.* An appeal may be taken from any decision of the manager to the Director; and from any decision of the Director to the Secretary of the Interior pursuant to Part 221 of this chapter.

NOTE: The reporting requirement of this regulation has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

DOUGLAS MCKAY,
*Secretary of the Interior.*

### Internal Revenue Service

### [ 26 CFR Parts 182, 183, 184 ]

[Regs. 3, 4, 5]

INDUSTRIAL ALCOHOL; PRODUCTION OF DISTILLED SPIRITS; PRODUCTION OF BRANDY

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U. S. C. 1001, et seq.), approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted, in writing, in duplicate, to the Commissioner of Internal Revenue, Washington 25, D. C., within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in sections 3105, 3124, and 3176 of the Internal Revenue Code (53 Stat. 358, 364, 375; 26 U. S. C. 3105, 3124, 3176).

[SEAL] O. GORDON DELK,
*Acting Commissioner, of Internal Revenue.*

The purposes of these amendments are (a) to conform the regulations to the provisions of section 2901, Internal Revenue Code, as amended by Public Law 448—81st Congress, by providing procedure for the remission of tax on distillates lost while in transit in bond from registered or fruit distilleries to denaturing plants, or while on storage at denaturing plants prior to denaturation; and (b) to provide that the proprietor of the denaturing plant to which distillates are being transferred shall be liable for the tax thereon from the time the distillates are removed from a distillery for transfer to his denaturing plant.

PARAGRAPH 1. Whenever the term "district supervisor" appears in the sections of the regulations revised by this Treasury decision, such term is hereby amended to read "Assistant Regional Commissioner."

PAR. 2. Regulations 3 (26 CFR Part 182) are amended as follows:

a. Section 182.692 is amended as follows:

1. By striking from the first sentence of paragraph (b) the phrase "to cover the receipt," and inserting in lieu thereof the phrase "to assume liability for the payment of the tax on such distillates from the time they leave the registered distillery or fruit distillery from which they are removed, including the transportation, receipt,".

2. By striking the last sentence of paragraph (c), which begins, "The liability of the distiller".

3. By adding a new paragraph (e) to read as follows:

(e) *Voluntary destruction.* If the distillates, after removal from the registered distillery or fruit distillery where produced, are found to be unfit for denaturation, they may be destroyed at the denaturing plant upon filing notice of intent so to do and application for supervision of destruction. The notice and application shall be filed, in triplicate, with the storekeeper-gauger in charge, and shall contain a description of the distillates as shown on the Form 1520 received from the distillery, and shall show the reasons for destruction. The storekeeper-gauger will verify the description of the distillates, including the quantity reported, and will then supervise their destruction. Upon destruction of the distillates, the storekeeper-gauger will prepare a report on the back of the notice and application showing the method of destruction and certifying to the accuracy of the description of the distillates contained in the notice and application, and will forward the original thereof to the Assistant Regional Commissioner, return one copy to the proprietor, and retain the remaining copy for his files. The proprietor shall make proper entry on Form 1468–A covering the destruction of the distillates.

b. Paragraph (a) of § 182.700 is revoked.

c. There are inserted, immediately following § 182.700, the following new sections:

§ 182.700a *Loss by theft.* The tax shall be collected on distillates stolen while in transit to a denaturing plant or while stored therein prior to denaturation, unless the denaturer submits proof as to the cause of the loss and establishes to the satisfaction of the Assistant Regional Commissioner that it did not occur as the result of connivance, collusion, fraud, or negligence on the part of the denaturer, distiller, consignor, consignee, bailee, or carrier, or the employees of any of them. Claim for remission of tax on distillates lost by theft shall be filed as provided in §§ 182.700f to 182.700h. The tax on distillates lost by theft may be remitted or refunded only to the extent that the claimant is not indemnified or recompensed for such tax.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700b *Unauthorized voluntary destruction.* The tax shall be collected on distillates voluntarily destroyed after removal from the registered distillery or fruit distillery where produced, except as provided in § 182.692 (e).

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700c *Losses except by theft.* The tax on distillates lost otherwise than by theft while in transit to the denaturing plant or while stored therein prior to denaturation, may be remitted. In the case of any such loss, the Assistant Regional Commissioner may require the denaturer to submit proof as to the cause of such loss and, where deemed necessary, to file a claim for remission of the tax as provided in §§ 182.700f to 182.700h.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700d *Report of losses.* Losses of distillates in transit to a denaturing plant or while stored therein prior to denaturation must be reported to the Assistant Regional Commissioner by the denaturer immediately after the losses are discovered. Where losses of distillates in the denaturing plant occur or are discovered while a Government officer is on duty, the officer will immediately make a full report of the loss to the Assistant Regional Commissioner. The reports should set out the nature, cause, and extent of the loss in sufficient detail to bring out all the known material facts and circumstances surrounding the loss. The condition of each tank or other container from which the loss has been sustained, and the quantity lost therefrom, should be reported.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700e *Investigation by Assistant Regional Commissioner.* The Assistant Regional Commissioner will consider the nature and extent of any loss reported by the denaturer or Government officer and will immediately make such investigation and require such evidence to be submitted as he may deem necessary.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700f *Filing of claims.* Claims for remission of tax on distillates lost on the premises of a denaturing plant or in transit thereto, when required, will be filed promptly with the Assistant Regional Commissioner of the region in which the plant is located. Where a required claim for remission of tax on such distillates is not filed as provided in §§ 182.700a and 182.700c, the Assistant Regional Commissioner will require immediate payment of tax on the quantity lost.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700g *Form of claims.* Claims for remission of tax for losses occurring on denaturing plant premises, or in transit thereto, shall be made on letter size paper (original only) and shall set forth, under oath, the following information:

(a) The name of the denaturer and the registry number and location of the denaturing plant;

(b) The serial numbers of the tanks or other containers from which the distillates were lost;

(c) The quantity of distillates lost from each tank or other container, and the total quantity of distillates covered by the claim;

(d) The total amount of tax for which the claim is filed;

(e) The date of the loss or, if such date is not known, the date on which the loss was discovered, and the cause and nature thereof, together with all the facts surrounding the loss;

(f) The name of the carrier, if any;

(g) If lost by theft, whether the loss occurred as a result of connivance, collusion, fraud, or negligence on the part of the denaturer, distiller, owner, consignor, consignee, bailee, or carrier, or the employees of any of them;

(h) Whether the claimant is indemnified or recompensed for the tax, and, if so, the amount and nature of such indemnity or recompense. The actual value of the distillates, less the tax, must be stated explicitly, and where required, certified copies of all policies of insurance or other documents of indemnity covering the distillates must be furnished.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700h *Supporting statements.* Claims for remission of tax on distillates lost while on the premises of a denaturing plant or in transit thereto, must be supported by affidavits of persons having personal knowledge of the loss.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700i *Action on claim by Assistant Regional Commissioner.* When a claim for remission of tax is received by the Assistant Regional Commissioner, he will carefully examine the same to see that all the required information has been furnished, and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary. Upon completion of his investigation, if any, the Assistant Regional Commissioner will allow or disallow the claim in accordance with existing law and regulations.

(53 Stat. 340 as amended, 346, 358, 364, 375; 26 U. S. C. 2901, 2916, 3105, 3124, 3176)

§ 182.700j *Records.* Losses of distillates in transit to the denaturing plant or while stored therein shall be shown as a separate entry in the same columns in which losses of alcohol are shown on Form 1468–A.

(53 Stat. 346, 358, 364, 375; 26 U. S. C. 2916, 3105, 3124, 3176)

(d) Section 182.779 is amended to read as follows:

§ 182.779 *Distillates.* The tax on distillates lost while in transit to a denaturing plant or while stored therein prior to denaturation may be remitted in accordance with the provisions of §§ 182.-700a to 182.700i.

PAR. 3. Section 183.408 of Regulations 4 (26 CFR Part 183) is amended by striking therefrom the last sentence, which reads "The liability of the distiller to tax on such distillates removed for denaturation shall continue until they have been deposited in the denaturing plant."

PAR. 4. Section 184.441 of Regulations 5 (26 CFR Part 184) is amended by striking therefrom the last sentence, which reads "The liability of the distiller to tax on such distillates removed for denaturation shall continue until they have been deposited in the denaturing plant."

This Treasury decision will be effective on the 31st day after publication in the FEDERAL REGISTER.

### [ 29 CFR Parts 655, 703, 710 ]

PUERTO RICO; SPECIAL INDUSTRY COMMITTEE NO. 15

NOTICE OF HEARING CONCERNING EVIDENCE TO BE CONSIDERED IN RECOMMENDING MINIMUM WAGE RATES FOR EMPLOYEES IN VARIOUS INDUSTRIES

In conformity with sections 5 and 8 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C., and Sup., 201 et seq.), and in accordance with § 511.11 of the regulations issued pursuant thereto (29 CFR Part 511), notice is hereby given to all interested persons that a public hearing will be held beginning on January 11, 1954 at 10:00 a. m., in Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce, Puerto Rico for the purpose of receiving evidence to be considered by Special Industry Committee No. 15 for Puerto Rico in recommending minimum wage rates for employees in the industries in Puerto Rico hereinafter enumerated.

Special Industry Committee No. 15 for Puerto Rico was created by Administrative Order No. 433, published in the FEDERAL REGISTER on December 11, 1953. It is charged, in accordance with the provisions of the Fair Labor Standards Act of 1938, as amended, and regulations promulgated thereunder, with the duty of investigating conditions in the following industries in Puerto Rico, as defined in said administrative order: The needlework and fabricated textile products industry; the corsets, brassieres, and allied garments industry; and the men's and boys' clothing and related products industry.

The Committee is further charged with the duty of recommending to the Administrator the highest minimum wage rates (not in excess of 75 cents per hour) for all employees in Puerto Rico in the industries cited above who, within the meaning of said act, are "engaged in commerce or in the production of goods for commerce", excepting employees exempted by the provisions of section 13 (a) and employees coming under the provisions of section 14,

which, having due regard to economic and competitive conditions, will not substantially curtail employment in such industries and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico. Before any minimum wage rates recommended by the Committee are made effective, a public hearing will be held pursuant to section 8 of the act, at a time and place to be announced by the Administrator, and at which all interested persons will have an opportunity to be heard.

Any person who, in the opinion of the Committee or its duly authorized subcommittee, has a substantial interest in the proceeding and is prepared to present material pertinent to the question under consideration may appear on his own behalf or on behalf of any other person. Persons wishing to appear are requested to file with James G. Johnson, Territorial Director of the Wage and Hour Division, Post Office Box 9061, Santurce 29, Puerto Rico, not later than December 28, 1953, a notice of intention to appear. A copy of such notice must also be filed by such persons with the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., on or before the same date. The notice of intention to appear should contain the following information:

1. The name and address of the person appearing.

2. If he is appearing in a representative capacity, the name and address of the person or persons whom, or the organization which, he is representing.

3. The approximate length of time which his presentation will consume.

All testimony will be taken under oath and subject to reasonable cross-examination by any interested person present. Testimony so received will be offered as evidence at the public hearing to be held on such minimum wage recommendations as Special Industry Committee No. 15 for Puerto Rico may make.

Written statements of persons who cannot appear personally will be considered by the Committee: *Provided*, That such statements are sworn and that at least 12 copies thereof are received not later than January 11, 1954, at the Wage and Hour Division of the United States Department of Labor, Room 412, New York Department Store Building, Stop 16½, Ponce de Leon Avenue, Santurce 29, Puerto Rico. Any person appearing at the hearing who offers written material must submit at least 12 copies thereof.

Signed at San Juan, Puerto Rico, this 9th day of December 1953.

A. CECIL SNYDER,
*Chairman, Special Industry Committee No. 15 for Puerto Rico.*

## FEDERAL POWER COMMISSION

[Docket No. G-2314]

MANUFACTURERS LIGHT AND HEAT CO.

NOTICE OF APPLICATION

DECEMBER 8, 1953.

Take notice that on November 16, 1953, The Manufacturers Light and Heat Company (Applicant), a Pennsylvania corporation, address, Pittsburgh, Pennsylvania, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximaately 6 miles of 12¾ inch O. D. natural-gas transmission pipeline in Washington County, Pennsylvania, extending southeast from a point of connection on Applicant's existing Line No. 7215, north of its Hugus Compressor Station, to the Borough of Allenport, Pennsylvania.

Applicant proposes, by means of the said facilities, to increase the existing capacity of its pipeline system serving Allenport, and the adjacent area in the vicinity of Charleroi, California, Brownsville, and Beallsville, Pennsylvania. The proposed facilities will be used to transport natural gas at a daily rate of 20,900 Mcf, of which 17,300 Mcf will be delivered at Allenport and the remainder will be distributed through other connecting lines. Applicant states that it has experienced pressure difficulties on its existing facilities serving the Allenport area, and because of their age, such facilities cannot be safely increased in capacity by increasing pressures to transport gas required for 1953-1954 peak-day requirements. The proposed facilities are expected to enable Applicant to maintain adequate service to an existing market area, and no new service is proposed to be rendered by means thereof.

The estimated total overall capital cost of the proposed facilities is $260,000. The funds required to finance such costs will be provided by Applicant's parent, The Columbia Gas System, Inc., which has made capital contributions to Applicant and has agreed to purchase Applicant's notes.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of December 1953. The application is on file with the Commission for public inspection.

[Docket No. G-2321]

WEST TENNESSEE PUBLIC UTILITY DISTRICT OF WEAKLEY, CARROLL AND BENTON COUNTIES, TENNESSEE

NOTICE OF APPLICATION

DECEMBER 8, 1953.

Take notice that West Tennessee Public Utility District of Weakley, Carroll, and Benton Counties, Tennessee (Applicant), a Tennessee public corporation, address Dresden, Tennessee, filed on November 27, 1953, an application pursuant to section 7 (a) of the Natural Gas Act for an order directing Tennessee Gas Transmission Company (Tennessee Gas) to establish physical connection of its transportation facilities with the facilities of Applicant's proposed natural gas distribution system, and to sell natural gas to Applicant for local distribution to the public in the Tennessee municipalities of Bruceton, Camden, Dresden, Greenfield, Hollow Rock, Huntingdon, McKenzie, and Sharon, and in the areas adjacent thereto.

Applicant proposes to interconnect its facilities with those of Tennessee Gas at a point approximately 2 miles south of Decaturville, Tennessee. Delivery of gas is to be made to the above-named communities through 40 miles of an 8-inch pipe line extending to a point near Huntingdon, Tennessee, and lateral lines extending therefrom.

Applicant's annual gas requirements are stated to 319,083 Mcf for the first year and 674,419 Mcf for the fifth year. Its first year peak day requirements are stated to be 2,539 Mcf while its fifth year requirements are 5,754 Mcf.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 28th day of December 1953. The application is on file with the Commission for public inspection.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3237]

ADOLF GOBEL, INC.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 9th day of December A. D. 1953.

The Commission by order adopted March 13, 1953, pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, having summarily suspended trading in the $1.00 par value common stock of Adolf Gobel, Inc., on the American Stock Exchange for a period of ten days from that date, and subsequently having entered additional orders further suspending such trading in order to prevent fraudulent, deceptive or manipulative acts or practices; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on that Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder, for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

*It is ordered*, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, effective at the opening of the trading session on said Exchange on December 10th, 1953, for a period of ten days.

By the Commission.

INTERNATIONAL HYDRO-ELECTRIC SYSTEM

ORDER APPROVING ADDITIONAL INTERIM ALLOWANCE TO BARTHOLOMEW A. BRICKLEY AND OLIVER R. WAITE

DECEMBER 8, 1953.

Bartholomew A. Brickley and Oliver R. Waite, counsel to the said Bartholomew A. Brickley, Trustee of International Hydro-Electric System ("IHES"), a registered holding company under order of liquidation pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 ("the act"), whose assets are now being held and administered under the direction of the United States District Court for the District of Massachusetts ("the Court") pursuant to section 11 (d) of the act, having filed a joint application pursuant to Rule U-63 for an additional interim allowance in the amount of $220,000 for their legal services herein; and

A hearing having been held on said application and the Commission having filed its memorandum opinion herein:

*It is ordered*, That an additional interim allowance in the maximum amount of $220,000 be and is hereby approved for payment by IHES to Brickley and Waite for their services to IHES in all capacities, such payment being subject to the further approval of the court.

NEW ENGLAND GAS AND ELECTRIC ASSN.

NOTICE OF PROPOSED VOLUNTARY EXCHANGE OFFER BY HOLDING COMPANY FOR MINORITY INTEREST IN COMMON STOCK OF SUBSIDIARY

DECEMBER 9, 1953.

Notice is hereby given that New England Gas and Electric Association ("Negas"), a registered holding company, has filed with this Commission an application-declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a), 7, 9, and 10 of the act as applicable to the proposed transaction, which is summarized as follows:

Negas owns 276,722.4 shares or 97.61 percent of the outstanding common stock of its public-utility subsidiary, New Bedford Gas and Edison Light Company ("New Bedford"), the balance of 6,763.4 such shares or 2.39 percent being held by approximately 200 other holders, including three officers or directors of New Bedford who hold in the aggregate 165 shares. Negas proposes to offer to such holders, during a 60-day period, common shares of Negas at the rate of 4¾ common shares of Negas for each share of common stock of New Bedford surrendered for exchange. No fractional shares of Negas will be issued, but in lieu thereof Negas will pay for each fractional share cash at the rate of $15 per whole share of Negas common. Based on the holdings of record on October 23, 1953, Negas estimates that it would issue 32,055 of its common shares and would make cash payments aggregating $1,070.33, in lieu of fractional shares, if all the New Bedford shares held by the minority interest should be exchanged.

The book value of the New Bedford shares at September 30, 1953, was $64 70 per share. Although no active market quotations are available due to the small number of shares held by the public,

the Trustees of Negas estimate the fair market value of the New Bedford shares to be $71.25 per share. A recent market quotation for Negas common shares is shown at 15⅞ bid and 17 asked.

Exchanges will be effected through Old Colony Trust Company, Boston. Negas intends to invite certain dealers to solicit exchanges, and proposes to pay to such dealers a commission of $1.25 per share for all New Bedford shares surrendered for exchange pursuant to such solicitations. Negas' financial adviser, The First Boston Corporation, will act as manager of such dealers without additional compensation.

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than December 23, 1953 at 1:00 p. m., e. s. t., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration as amended which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application-declaration, as now amended or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

OHIO EDISON CO.

NOTICE IN RESPECT OF ISSUANCE AND SALE OF BONDS AND ISSUANCE AND SALE PURSUANT TO A RIGHTS OFFERING OF ADDITIONAL SHARES OF COMMON STOCK

DECEMBER 9, 1953.

Notice is hereby given that Ohio Edison Company ("Ohio"), a registered holding company and a public-utility company, has filed an application-declaration, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and has designated sections 6 (a), 7, 12 (c), and 12 (d) of the act and Rules U-42 and U-50 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Ohio proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $30,000,000 principal amount of First Mortgage Bonds, __ percent Series of 1954 due 1984. The bonds will be issued under and secured by the existing Mortgage and Deed of Trust, dated as of August 1, 1930, as previously supplemented and amended, and as to be further supplemented and amended by a supplemental indenture dated as of January 1, 1954. The price to be received by the company (which shall not be less than 100 percent nor more than 102¾ percent of the principal amount) for said bonds, and the rate of interest thereon (which shall be a multiple of ⅛ of 1 percent) will be determined by competitive bidding.

Ohio also proposes to issue and sell, with an underwriting, 527,830 additional shares of its authorized but unissued $12 par value common stock, pursuant to a rights offering to its stockholders on the basis of one share of additional common stock for each ten shares held of record at the close of business on January 14, 1954, at a price to be fixed prior to the offering. The subscription rights will be evidenced by transferable warrants, to be mailed on or before January 16, 1954, which will afford the holder the right to subscribe for the new shares ("Right") and the privilege to subscribe, at the subscription price, subject to allotment, for such additional number of unsubscribed shares as the warrant holder may elect ("additional subscription privilege"). Warrants will expire at 3:30 p. m., e. s. t., January 29, 1954. No fractional shares will be issued. The company, through its subscription agents, to be designated on the warrant, will provide facilities for the purchase of Rights (not exceeding nine in any one case) as may be necessary for a subscription to one full share, or the sale of Rights (not exceeding nine in any one case) in excess of those necessary for the purchase of full shares. Warrants for not more than nine Rights, not exercised for subscription, may be sold through the subscription agents.

The Company proposes, if it deems it necessary or desirable, during the period commencing with the second full business day prior to the time for submission of bids on the common stock and continuing until such time, to stabilize the price of its common stock for the purpose of facilitating the offering of such additional common stock, by the purchase through brokers with the payment of regular stock exchange commissions, on the New York Stock Exchange and the Midwest Stock Exchange, or otherwise, not to exceed 52,783 shares of its common stock.

In effectuating the issue and sale of additional shares of common stock, the company proposes, on or about December 31, 1953, publicly to invite bids from underwriters in respect of the amount of compensation to be paid by the company to such underwriters for their services and agreement to purchase, at the subscription price, any shares of such additional common stock, not subscribed for as a result of the offering to the stockholders, plus such number of additional shares of common stock, if any, as may have been purchased by the company, prior to the acceptance of a proposal, in connection with stabilizing transactions. Bids will be received on or about January 13, 1954, and prospective underwriters will be notified of the subscription price prior to 5:00 p. m., e. s. t., on the second full business day prior to the time for the submission of bids.

It is stated that the net proceeds to be received from the proposed sale of bonds and common stock will be used primarily to finance property additions, approximately $44,100,000 being required for such purpose during 1954. The balance of approximately $4,400,000 will be used for other corporate purposes, including sinking fund requirements for 1954 of $2,355,000.

It is further stated that the proposed transactions are subject to the jurisdiction of The Public Utilities Commission of Ohio, and that appropriate orders of that Commission will be obtained.

All interested persons are referred to said application-declaration on file at the offices of this Commission for a statement of the transactions therein proposed.

Notice is further given that any interested person may, not later than December 28, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, the issues of fact or law, if any, raised by the said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 28, 1953 said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

CENTRAL OHIO LIGHT & POWER CO.

NOTICE OF FILING REGARDING ISSUANCE OF SHORT TERM BANK LOAN NOTES

DECEMBER 9, 1953.

Notice is hereby given that Central Ohio Light & Power Company ("Central"), a public utility subsidiary of American Gas and Electric Company, a registered holding company, has filed a declaration, and an amendment thereto, with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act") regarding its proposal to issue to six banking institutions its notes in a total amount not to exceed $3,500,000 outstanding at any one time. The declarant has designated section 7 and Rules U-42 and U-50 (a) (2) as applicable to the proposed transactions which are summarized as follows:

Central has established a line of credit with six banking institutions in the aggregate amount of $3,500,000 and proposes to borrow from time to time prior to December 31, 1954, up to but not to exceed $3,500,000 outstanding at any one time and to issue and deliver to said banks its notes as evidence of such borrowings. The notes to be issued by Central will in each case be dated as of the date of such borrowings, will bear interest from the dates thereof at the then prime interest rate, which is presently 3¼ percent per annum, and will mature not more than 270 days after the date of issuance. Central may prepay the notes from time to time, in whole or in part, without premium, and partial payments would be made ratably on all of the notes on the date or dates designated by Central.

The amount of not to exceed $3,500,000 outstanding at any one time proposed to be borrowed will be used by Central for the following purposes:

(a) The payment, simultaneously with the initial borrowing under such line of credit, on or before January 11, 1954, of:

(1) All of Central's then outstanding 3½ percent Sinking Fund Debentures due 1963, in the face amount of $900,000, at the redemption price thereof of 102.25 percent of par together with accrued interest to the date of redemption;

(2) All of Central's presently outstanding notes payable, which mature on January 11, 1954, in the face amount of $1,600,000, at the face amount thereof; and

(3) All of Central's presently outstanding notes payable to banks, which mature on January 7, 1954, in the face amount of $400,000, at the face amount thereof; and

(b) To finance part of the costs of Central's construction program which it estimates at $964,000 for 1954.

Central agrees that provision will be made in its next permanent financing for the prepayment of all of the notes then outstanding and that, at such time, the authorization requested herein with respect to such notes shall terminate.

No finders' fees or commissions are to be paid by Central in connection with the proposed issuance of the notes. Expenses to be incurred by Central are estimated not to exceed $500.

Central requests that the Commission's order permitting its declaration to become effective be issued as soon as practicable pursuant to Rule U-23 promulgated under the act, waives the 30-day waiting period and requests that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than December 22, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, said declaration, as amended, or as further amended, may be permitted to become effective as provided in Rule U-23 promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof.

By the Commission.

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING AUTHORIZING SALE BY PARENT OF SECURITIES OF SUBSIDIARY

DECEMBER 1, 1953.

Notice is hereby given that Electric Bond and Share Company ("Bond and Share"), a registered holding company, has filed an application-declaration pursuant to sections 9, 10, and 12 (d) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-44 (a) promulgated thereunder with respect to the following proposed transactions:

Bond and Share heretofore filed with the Commission its Final Comprehensive Plan as finally amended July 7, 1953 (the "Plan") under section 11 (e) of the act. The Plan was approved by orders of the Commission dated February 20, 1953, and July 15, 1953, and by order of the United States District Court for the Southern District of New York dated July 16, 1953.

The Plan proposed, among other things, that Bond and Share would dispose of certain of its holdings of common stock of United Gas Corporation ("United Gas") by capital distribution, dividend distributions and rights offerings to the Bond and Share stockholders. Provision was also made that the remainder of the shares of United Gas stock to be disposed of under the Plan should be disposed of by Bond and Share in such manner and on such terms as it deemed appropriate within two years after the effective date of the Plan which was July 16, 1953. Bond and Share now holds 1,755,053 shares of United Gas common stock (being approximately 13.6 percent of the outstanding shares of such stock).

Bond and Share now proposes to sell at public offering after receiving competitive bids 100,000 shares of its present holdings of United Gas common stock plus such additional shares not exceeding 15,000 as Bond and Share may acquire during the course of stabilizing operations effected by the declarant in connection with the proposed sale. The declarant presently intends to publish its notice of public invitation for bids not later than December 18, 1953, and to receive bids not earlier than 3:45 p. m. on December 21, 1953. Declarant proposes to comply with the provisions of Rule U-50 of the Commission with the exception that the declarant requests that the Commission reduce its 10-day period provided by sub-division (b) of that rule to the extent necessary to permit the declarant to carry out the time schedule just described respecting the publication of its invitation for bids and the receipt of bids.

The declarant requests permission from the Commission to purchase not more than 15,000 shares of United Gas common stock for the purpose of stabilizing the market for that stock on the New York Stock Exchange. The declarant contemplates that such stabilizing purchases may commence immediately upon the issuance of the order of the Commission relating to this declaration and that such purchases will be effected at a price (exclusive of a commission) not in excess of the last preceding sale price of the United Gas common stock on the New York Stock Exchange. The declarant further contemplates that such stabilizing purchases may continue up to the receipt by the declarant of bids for the shares of United Gas common stock herein proposed to be sold. As above indicated all shares of such stock purchased for stabilizing purchases will be sold by the declarant together with the 100,000 shares of United Gas stock proposed to be sold as herein provided.

Notice is further given that any interested person, not later than December 17, 1953, at 12:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 17, 1953, said application-declaration as filed, or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[No. 31405]

LOUISIANA INTRASTATE PASSENGER FARES AND CHARGES

NOTICE OF INVESTIGATION AND HEARING

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 2d day of December A. D. 1953.

It appearing, that in Southern Pacific-Missouri Pacific Increased Passenger Fares, 288 I. C. C. 339, the Commission authorized carriers subject to the Interstate Commerce Act, parties thereto, to make certain increases in their basic interstate one-way and round-trip passenger fares; and that increases under such authorization have been made;

It further appearing, That a petition dated October 20, 1953, and filed by the Texas and New Orleans Railroad Company and other common carriers by railroad operating to, from and between points in the State of Louisiana, averring that the Louisiana Public Service Commission has refused to authorize or permit petitioners to increase their Louisiana intrastate passenger fares corresponding to those authorized by this Commission in said I. C. C. 339 causes and results in undue and unreasonable advantage, preference and prejudice as between persons and localities in intrastate commerce on the one hand and interstate commerce on the other hand, and undue or unreasonable and unjust discrimination against interstate commerce, in violation of section 13 of the Interstate Commerce Act; and for good cause appearing:

*It is ordered*, That an investigation be, and it is hereby, instituted and that a hearing be held therein to receive evidence from said petitioners and any other persons interested to determine whether the one-way and round-trip fares and charges of the petitioners for the intrastate transportation of passengers made or imposed by authority of the State of Louisiana, cause any undue or unreasonable advantage, preference or prejudice, as between persons or localities in intrastate commerce on the one hand, and interstate or foreign commerce on the other, or any undue, unreasonable, or unjust discrimination against interstate commerce; and to determine what fares and charges, if any, or what maximum or minimum, or maximum and minimum fares and charges, shall be prescribed to remove the unawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

*It is further ordered*, That all common carriers by railroad operating within the State of Louisiana, subject to the jurisdiction of this Commission be and they are hereby, made respondents to this proceeding; that a copy of this order be served upon said respondents; and that the State of Louisiana be notified of this proceeding by sending copies of this order and of said petition by registered mail to the Governor of that State and to the Louisiana Public Service Commission at Baton Rouge, La.

*It is further ordered*, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.:

*And it is further ordered*, That this proceeding be assigned for hearing at such time and place as the Commission may hereafter direct.

By the Commission, Division 1.

# FEDERAL REGISTER

VOLUME 18 NUMBER 244

*Washington, Wednesday, December 16, 1953*

## TITLE 3—THE PRESIDENT

### EXECUTIVE ORDER 10505

AMENDING THE SELECTIVE SERVICE REGULATIONS

By virtue of the authority vested in me by Title I of the Universal Military Training and Service Act (62 Stat. 604), as amended, I hereby prescribe the following amendments of the Selective Service Regulations prescribed by Executive Orders No. 10292 of September 25, 1951, and No. 10420 of December 17, 1952, and constituting portions of Chapter XVI of Title 32 of the Code of Federal Regulations:

1. Paragraphs (e) and (f) of section 1622.12 of Part 1622, *Classification Rules and Principles*, are amended to read as follows:

"(e) Every registrant who after being inducted into the armed forces under the provisions of section 4 (a) of title I of the Universal Military Training and Service Act, as amended, has served honorably therein for a period of six months or more, and who (1) has been separated therefrom by honorable discharge or discharge under honorable conditions, or by an equivalent type of release from service, except when such discharge or release was because of erroneous induction, or (2) has been transferred to a reserve component of the armed forces, each such registrant who has been transferred to a reserve component of the armed forces shall be identified with the abbreviation 'Res.' in the manner provided in § 1622.65, and every other such registrant shall be identified with the abbreviation 'Disc.' in the manner provided in § 1622.64, and upon attaining an age beyond the maximum age of liability for military service under the provisions of the selective service law, all such registrants shall be reclassified in Class V–A.

"(f) Every registrant who on or after June 24, 1948, has entered upon active duty in the armed forces, other than active duty for training only or active duty for the sole purpose of undergoing a physical examination, and has served honorably therein for a period of six months or more, and (1) who has been separated therefrom by honorable discharge or discharge under honorable conditions or by an equivalent type of release from service, except when such discharge or release was because of minority or erroneous enlistment, or (2) who has been separated therefrom by honorable discharge or discharge under honorable conditions or by an equivalent type of release from service and transferred to a reserve component of the armed forces, or (3) who has been transferred to a reserve component of the armed forces. Each such registrant who has been transferred to a reserve component of the armed forces shall be identified with the abbreviation 'Res.' in the manner provided in § 1622.65, and every other such registrant shall be identified with the abbreviation 'Disc.' in the manner provided in § 1622.64, and upon attaining an age beyond the maximum age of liability for military service under the provisions of the selective service law, all such registrants shall be reclassified in Class V–A."

2. Paragraphs (c) and (e) of section 1650.8 of Part 1650, *Registration, Classification, Physical Examination, Selection, and Induction of Persons in Medical, Dental, and Allied Specialist Categories*, are amended to read as follows:

"(c) In registering persons who are in priority one or priority two, as defined in paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, the registrar shall not issue the Registration Certificate (SSS Form No. 2) after the Registration Card (SSS Form No. 1) has been signed by a special registrant but shall give the special registrant a Classification Questionnaire (SSS Form No. 100), three copies of Initial Data for Classification and Commissioning in Medical Services for Medical, Dental and Veterinary Corps (DD Form No. 390), and a return envelope addressed to the local board of the registrar, which forms shall be completed by the special registrant and mailed to the local board in the return envelope within five days after his registration."

Part 8 (proposed) 8248

in paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, the registrar shall not issue the Registration Certificate (SSS Form No. 2) after the Registration Card (SSS Form No. 1) has been signed by a special registrant but shall deliver the registration card to the local board of the registrar. The Registration Card (SSS Form No. 1) of such a special registrant shall then be processed, and the Registration Certificate (SSS Form No. 2) shall be prepared and mailed to the special registrant, in the manner provided in paragraph (d) of this section. The Classification Questionnaire (SSS Form No. 100) and the Initial Data for Classification and Commissioning in Medical Services for Medical, Dental and Veterinary Corps (DD Form No. 390) shall not be delivered to registrants who are in priority three or four until such time as is fixed by the Director of Selective Service."

3. (a) Subparagraph (2) of paragraph (e) of section 1650.11 of Part 1650 is amended to read as follows:

"(2) A special registrant shall be placed in Class I–C if he has been inducted into the armed forces under the provisions of section 4 (i) of the Universal Military Training and Service Act, as amended, and thereafter has served on active duty for a period of twelve months or more, and has been separated from the armed forces by honorable discharge or discharge under honorable conditions or by an equivalent type of release from service, or has been so separated and transferred to a reserve component of the armed forces. Each such special registrant who has been transferred to a reserve component of the armed forces shall be identified on all records by following his classification with the abbreviation 'Res.', and every other such special registrant shall be similarly identified with the abbreviation 'Disc.'. Upon attaining the fifty-first anniversary of the day of his birth, each such special registrant shall be reclassified in Class V–A."

(b) Paragraph (l) of section 1650.11 is amended to read as follows:

"(l) (1) A special registrant shall be placed in Class IV–A if he is the sole surviving son of a family of which one or more sons or daughters were killed in action or died in line of duty while serving in the Armed Forces of the United States, or subsequently died as a result of injuries received or disease incurred during such service.

(2) A special registrant shall be placed in Class IV–A if he has served in the active service, as defined in paragraphs (4) and (5) of section 4 (i) of the Universal Military Training and Service Act, as amended, since September 16, 1940, for a period of twenty-one months or more.

(3) A special registrant shall be placed in Class IV–A if he is not registered and is not required to register under section 3 of the Universal Military Training and Service Act, as amended, and subsequent to September 9, 1950, was called or ordered to active duty as a commissioned member of a reserve component of the Armed Forces of the United States, and thereafter has served on active duty for a period of twelve months or more, and has been separated from such reserve component by discharge or acceptance of his resignation of his commission."

4. Paragraph (e) of section 1650.30 of Part 1650 is amended to read as follows:

"(e) The State Director of Selective Service shall maintain a record at State Headquarters of the name, local board, date of birth, specialist category, and number of order of priority under paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, of each special registrant who has been found acceptable for service in the armed forces. After the State Director of Selective Service has entered this information on such record, he shall forward the records received from the final examining agency of the armed forces for each special registrant to the registrant's local board."

5. Paragraph (b) of section 1650.40 of Part 1650 is amended to read as follows:

"(b) Special calls for specified numbers of male persons in any medical, dental, or allied specialist category shall, on the basis of the best information then available, be allocated, by the Director of Selective Service among the several States and by each State Director of Selective Service among the local boards in his State, in such manner that special registrants in each specialist category who are in Class I–A and Class I–A–O and have been found acceptable for service in the armed forces shall, on a Nation-wide basis within the Nation and a State-wide basis within each State, be ordered for induction in the following manner:

(1) Within each specialist category, those special registrants who are in a lower numbered order of priority as defined in paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, shall be ordered to report for induction before special registrants who are in a higher numbered order of priority.

(2) Those special registrants who are in priority one or priority three, as defined in paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, shall be ordered to report for induction in the order of their dates of birth with the youngest being selected first.

(3) Those special registrants who are in priority two or priority four, as defined in paragraphs (2), (4), and (5) of section 4 (i) of title I of the Universal Military Training and Service Act, as amended, shall be ordered to report for induction according to their length of active service, as defined in paragraphs (4) and (5) of section 4 (i) of that Act, with those having the least number of full months of such service being selected first."

## EXECUTIVE ORDER 10506

DELEGATING CERTAIN FUNCTIONS OF THE PRESIDENT UNDER THE PUBLIC HEALTH SERVICE ACT

By virtue of the authority vested in me by section 301 of title 3 of the United States Code, and as President of the United States, it is ordered as follows:

SECTION 1. The Secretary of Health, Education, and Welfare is hereby authorized and empowered, without the approval, ratification, or other action of the President, to perform the following-described functions vested in the President under the Public Health Service Act (58 Stat. 682), as amended:

(a) The authority under section 203 (42 U. S. C. 204) to appoint commissioned officers of the Reserve Corps.

(b) The authority under section 206 (b) (42 U. S. C. 207 (b)) to prescribe titles, appropriate to the several grades, for commissioned officers of the Public Health Service other than medical officers.

(c) The authority under section 207 (a) (2) (42 U. S. C. 209 (a) (2)) to terminate commissions of officers of the Reserve Corps without the consent of the officers concerned.

(d) The authority under sections 210 (a), (k), and (l) (42 U. S. C. 211 (a), (k), and (l)) to make or terminate temporary promotions of commissioned officers of the Regular Corps and Reserve Corps.

(e) The authority under section 211 (d) (42 U. S. C. 212 (d)) to approve the voluntary retirement of the Surgeon General.

(f) The authority to prescribe regulations under the following-designated sections: 207 (a), 207 (b), 208 (b), 208 (e), 210 (a), 210 (b), 210 (d) (1), 210 (h), 210 (i), 210 (j) (1), 210 (k), 211 (c), 215 (a), 218 (a), 219 (a), and 510 (42 U. S. C. 209 (a), 209 (b), 210 (b), 210 (e), 211 (a), 211 (b), 211 (d) (1), 211 (h), 211 (i), 211 (j), (1), 211 (k), 212 (c), 216 (a), 218a (a), 210–1 (a), and 228).

(g) The authority under sections 321 (a) and 364 (a) (42 U. S. C. 248 (a) and 267 (a)) to approve the selection of suitable sites for and the establishment of additional institutions, hospitals, stations, grounds, and anchorages; subject, however, to the approval of the Director of the Bureau of the Budget, except as he may otherwise provide.

SEC. 2. The Surgeon General is hereby authorized and empowered, without the approval, ratification, or other action of the President, to perform the function vested in the President by sections 203 and 207 (a) (2) of the Public Health Service Act (58 Stat. 683, 685), as amended (42 U. S. C. 204 and 209 (a)

(2)), or otherwise, of accepting voluntary resignations of commissioned officers of the Regular Corps or the Reserve Corps.

SEC. 3. All actions heretofore taken by the President with respect to the matters affected by this order and in force at the time of the issuance of this order, including any regulations prescribed or approved by the President with respect to such matters, shall, except as they may be inconsistent with the provisions of this order, remain in effect until amended, modified, or revoked pursuant to the authority conferred by this order.

SEC. 4. Paragraph 2 of Executive Order No. 9993 of August 31, 1948, is hereby amended to read as follows:

"2. *Exercise by the Secretary of Health, Education, and Welfare of certain powers of the President.* The Secretary of Health, Education, and Welfare is authorized to exercise the powers of the President (a) to terminate temporary promotions under section 6 (b) of the act of February 28, 1948, 62 Stat. 45, and (b) to specify ports under section 366 (a) of the Public Health Service Act.

SEC. 5. As used in this order, the term "functions" embraces duties, powers, responsibilities, authority, or discretion, and the term "perform" may be construed to mean "exercise".

## EXECUTIVE ORDER 10507

FURTHER AMENDMENT OF EXECUTIVE ORDER NO. 9805,[1] PRESCRIBING REGULATIONS GOVERNING PAYMENT OF CERTAIN TRAVEL AND TRANSPORTATION EXPENSES

By virtue of authority vested in me by the act of August 2, 1946, 60 Stat. 806, as amended, it is ordered that Executive Order No. 9805 of November 25, 1946, entitled "Regulations Governing Payment of Travel and Transportation Expenses of Civilian Officers and Employees of the United States when Transferred from One Official Station to Another for Permanent Duty," as amended by Executive Orders No. 9933 of February 27, 1948, No. 10196 of December 20, 1950, and No. 10274 of July 18, 1951, be, and it is hereby, further amended as follows:

SECTION 1. Section 12 of the said Executive Order No. 9805, as amended, is hereby further amended to read as follows:

"SEC. 12. (a) *Commutation of expenses—general.* In lieu of the payment of actual expenses of transportation, packing, crating, drayage, and unpacking of household goods and personal effects in the case of transfers between points within the continental United States, reimbursement shall be made to the employee on a commuted basis at rates per hundred pounds as fixed by zones in Schedule A which is attached to and made a part of these regulations. The amount payable shall be the product of the applicable rate and the net weight of household goods and personal effects actually transported (within the weight limitation prescribed by section 16 hereof). In case the weight of the household goods transported is less than the one-thousand-pound minimum weight allowance chargeable under applicable tariffs, the employee may be reimbursed to the extent of the minimum tariff requirement. Government bills of lading shall not be used.

(b) *Commutation of expenses—temporary storage.* In lieu of the payment of actual expenses of temporary storage of household goods and personal effects in the case of transfers between points within the continental United States and in addition to allowances under Schedule A, reimbursement shall be made to the employee at the commuted rate of $2.00 per hundred pounds for the first 30 days of storage or fraction thereof plus 50¢ per hundred pounds for the next 30 days or fraction thereof: *Provided, however*, that the amount of the reimbursement shall not exceed the amount actually paid by the employee for the storage in question. Any claim for reimbursement for temporary storage shall be supported by the original or certified copy of the receipted warehouse bill."

SEC. 2. Schedule A attached to and forming a part of the said Executive Order No. 9805, as last amended by the said Executive Order No. 10274, is hereby further amended to read as follows:

NOTE: The tariffs approved by the Interstate Commerce Commission include minimum weight provisions to insure that, in instances where the charges computed in one bracket exceed those computed for the same mileage in the next higher bracket, the lower rate is used. The breakpoint columns in Schedule A are designed as a convenience in determining the proper amount of reimbursement in such instances.

[1] The rate applicable for the transportation of 1,999 pounds, net, or less for the applicable mileage, column (a), is that shown in column (b) unless the net weight exceeds the number of pounds shown in column (c) for the applicable mileage; in the latter case the applicable rate is that shown in column (d) for the same mileage and the applicable weight is the minimum hundredweight of that column instead of the actual weight of the goods transported.

[2] In the case of transportation of household goods weighing 2,000 to 3,999 pounds, net, the amount of reimbursement is computed by using the applicable rate in column (d), (e), and (f) in the same manner as described above for columns (b), (c), and (d).

[3] In the case of transportation of household goods weighing 4,000 to 7,000 pounds, net, the amount of reimbursement is the product of the applicable rate in column (f) for the applicable mileage multiplied by the number of hundredweight transported.

To illustrate: The amount of reimbursement for the transportation of 1,800 pounds, net, for 900 miles is computed by using the applicable rate in column (d), $4.69 (since 1,800 pounds exceeds the applicable column (c) weight, 1,755 pounds) and the minimum hundredweight of column (d), 20. The amount so computed is $93.80. The amount of reimbursement for the transportation of 1,700 pounds, net, a distance of 400 miles is the product of the applicable rate in column (b), $5.41 (since 1,700 pounds does not exceed the applicable weight in column (c), 1,735 pounds) multiplied by the net hundredweight transported, 17. The amount so computed is $91.97.

*Additional Allowances*

*Island Shipments.* To the amount of reimbursement computed from the foregoing table add $3.50 per hundred pounds for each shipment by common carrier having Martha's Vineyard, Massachusetts, as its origin or destination or (b) $5.00 per hundred pounds for each shipment by common carrier having its origin or destination on any other island of one of the coastal States that can be reached by line-carrier transportation only by use of ferry or ship.

*Metropolitan Areas.* To the amount of reimbursement computed from the foregoing table add (a) 30 cents per hundred pounds for each shipment by common carrier originating or terminating, or both, in one of the areas described below or (b) add 60 cents per hundred pounds for each shipment by common carrier originating in one of the areas described below and terminating in another of such areas:

Illinois: Chicago and Cook and Lake Counties and any point within the territory bounded by Lake Michigan and Indiana State Line on the east, U. S. Highway 30 on the south, State Highway 31 on the west, and State Highway 120 on the north, including corporate limits of points and places on the specified highways.

Indiana: Gary, and any point in Lake County.

New York: New York City, and any point in Nassau, Suffolk, and Westchester Counties.

Ohio: Cleveland, and any point in Cuyahoga County.

Pennsylvania: Philadelphia, and any point in Delaware, Montgomery, and Philadelphia Counties. Pittsburgh, and any point in Allegheny County.

This order shall be effective in any case in which the transportation involved is authorized and commenced on or after May 8, 1953.

[Docket 5710]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

LOUIS SHAPIRO AND PURO CO.

Subpart—*Advertising falsely or misleadingly:* § 3.75 *Free goods or services;* § 3.155 *Prices*—Exaggerated as regular and customary. Subpart—*Misbranding or mislabeling:* § 3.1213 *Free goods;* § 3.1280 *Price.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1955 *Free goods.* In connection with the offering for sale, sale and distribution in commerce, of "Puro", or any other merchandise, representing, directly or by implication: (1) That a price which is in excess of the price at which said merchandise is regularly sold is the customary or usual price of said merchandise; and (2) that any article of merchandise is being given free or as a gift or without cost where some or all of the cost of said article has been added to the regular price of other merchandise, the purchase of which is required as a condition for receiving said article; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Louis Shapiro trading as Puro Company, Chicago, Ill., Docket 5710, November 19, 1953]

*In the Matter of Louis Shapiro, an Individual Trading as Puro Company*

Pursuant to the provisions of the Federal Trade Commission Act, the Commission, on November 10, 1949, issued and subsequently served its complaint in this proceeding upon Louis Shapiro, an individual trading as Puro Company, charging him with unfair and deceptive acts and practices in commerce in violation of the provisions of that act. After the issuance of said complaint and the filing of respondent's answer thereto, a hearing was held at which testimony and other evidence in support of and in opposition to the allegations of the complaint were introduced before a hearing examiner of the Commission theretofore duly designated by it, and such testimony and other evidence were duly recorded and filed in the office of the Commission. Thereafter, on June 13, 1952, the hearing examiner filed his initial decision herein which was duly served on the parties.

On July 7, 1952, counsel for respondent filed with the Commission an appeal from said initial decision. Thereafter this proceeding regularly came on for consideration by the Commission upon the record herein, including briefs in support of and in opposition to said appeal (oral argument not having been requested) and the Commission issued its order granting said appeal in part and denying it in part; and the Commission, being now fully advised in the premises, finds that this proceeding is in the interest of the public and makes the following findings as to the facts,[1] conclusion[2] and order to cease and desist, the same to be in lieu of the initial decision of the hearing examiner.

*It is ordered,* That respondent, Louis Shapiro, individually and trading and doing business as Puro Company or under any other name, and his agents, representatives, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of "Puro," or any other merchandise, do forthwith cease and desist from representing, directly or by implication:

(1) That a price which is in excess of the price at which said merchandise is regularly sold is the customary or usual price of said merchandise.

(2) That any article of merchandise is being given free or as a gift or without cost where some or all of the cost of said article has been added to the regular price of other merchandise, the purchase of which is required as a condition for receiving said article.

*It is further ordered,* That respondent, Louis Shapiro, shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

Issued: November 19, 1953.

PART 130—FUR INDUSTRY

RESCISSION OF PART

In the matter of Trade Practice Rules for the Fur Industry; File No. 21-295.

Whereas, the Commission on June 17, 1938 promulgated trade practice rules for the Fur Industry which were codified in the Code of Federal Regulations (Title 16, Part 130); and

Whereas, the rules and regulations under the Fur Products Labeling Act (Title 16, Part 301), effective August 9, 1952, superseded on that date all provisions of the said Fur Rules relating to misbranding and false or deceptive advertising and invoicing of furs or fur products; and

Whereas, proceedings for the revision of the rules for the Fur Industry do not appear under the circumstances to be warranted in the public interest;

*It is ordered*, That the said rules be and the same are hereby rescinded.

By the Commission.

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

#### Subchapter F—Personnel

PART 573—APPOINTMENT OF COMMISSIONED OFFICERS AND WARRANT OFFICERS

MISCELLANEOUS AMENDMENTS

1. The opening statement of § 573.2, subparagraphs (1) and (5) of paragraph (c), subparagraphs (1), (3) and (5) of paragraph (d), subparagraphs (1) and (2) of paragraph (e), and subparagraphs (1) and (2) of paragraph (f) are amended to read as follows:

§ 573.2 *Age and special eligibility requirements.* The age requirement for appointment in the various corps of the Army Medical Service, Regular Army, as prescribed in § 573.10, is restated for information and guidance of all concerned, together with special eligibility requirements for each corps as indicated. Female applicants for the Army Nurse Corps and the Women's Medical Specialist Corps must be unmarried and have no dependent or dependents under 18 years of age or a child or children under 18 years of age. Such applicants who have any legal or other responsibilities for custody, control, care, maintenance, or support of any child or children under 18 years of age will be ineligible. These special requirements are in addition to general eligibility requirements prescribed by § 573.10, for appointment in the Regular Army.

* * * * *

(c) *Veterinary Corps.* Applicants must: (1) Have reached 21st birthday but not the 32d birthday on date of appointment. The latter date may be advanced by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years. Applicants must be eligible according to age requirements on that date which is 6 months after the end of the application period (§ 573.5 (c) (3) (i)).

* * * * *

(5) Be on active duty at time of application and screening but need not be on active duty at time of appointment.

(d) *Medical Service Corps.* Applicant must: (1) Have reached 21st birthday but not the 30th birthday on date of appointment. The latter date may be advanced by the number of years, months, and days of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, but not to exceed a total of 5 years. Applicants must be eligible according to age requirements on that date which is 6 months after the end of the application period (§ 573.5 (c) (3) (i)).

* * * * *

(3) Hold a Reserve commission. Be assigned to any branch and have completed 18 months active Federal commissioned service in the United States Army, performed within the 3-year period immediately preceding submission of an application. Tours of active duty of 90 days or less may not be included in computing service for this program.

* * * * *

(5) Be on active duty at time of application and screening but need not be on active duty at time of appointment.

* * * * *

(e) *Army Nurse Corps.* Applicant must: (1) Have reached the 21st birthday on date of appointment but not have passed the 27th birthday on date of nomination by the President, for appointment in the grade of second lieutenant; have reached the 21st birthday on date of appointment but not have passed the 30th birthday on the date of nomination by the President, for appointment in the grade of first lieutenant. These maximum ages are increased by the number of years, months, and days of active Federal commissioned service performed subsequent to December 31, 1947, but not to exceed a total of 5 years.

(2) Hold a Reserve commission and be assigned to the Army Nurse Corps branch in the Army, and have served on active duty for at least 6 months immediately prior to appearance before evaluation board.

* * * * *

(f) *Women's Medical Specialist Corps.* Applicant must: (1) Have reached the 21st birthday on date of appointment but not have passed the 27th birthday on date of nomination by the President, for appointment in the grade of second lieutenant; have reached the 21st birthday on date of appointment but not have passed the 30th birthday on date of nomination by the President, for appointment in the grade of first lieutenant. These maximum ages are increased by the number of years, months, and days of active Federal commissioned service performed subsequent to December 31, 1947, but not to exceed a total of 5 years.

(2) Hold a Reserve commission and be assigned to the Women's Medical Specialist Corps branch of the Army, and have served on active duty for at least 6 months immediately prior to appearance before evaluation board.

* * * * *

2. Sections 573.3 and 573.4 are rescinded and the following substituted therefor:

§ 573.3 *Service credit.* (a) Each individual appointed in the Regular Army under the Officer Personnel Act of 1947 (61 Stat. 795), as amended, and the Army-Navy Nurses Act of 1947 (61 Stat. 41) as amended, shall at time of appointment be credited with an amount of service equivalent to the total period of active Federal service performed after attaining the age of 21 years as a commissioned officer in the Army of the United States subsequent to December 31, 1947, and prior to appointment in the Regular Army, but not to exceed 5 years.

(b) In addition to paragraph (a) of this section, individuals appointed in the following corps will be given service credit on the basis of professional training as indicated below:

| Corps: | Credit (years) |
|---|---|
| Medical Corps | 4 |
| Dental Corps | 3 |
| Veterinary Corps | 2 |
| Medical Service Corps | [1] 3 |

[1] If at time of appointment the individual holds a degree of doctor of philosophy or comparable degree recognized by The Surgeon General in a science allied to medicine.

§ 573.4 *Grade determination.* (a) Upon the basis of service credited in § 573.3, individuals appointed in the Army Nurse Corps and the Women's Medical Specialist Corps who have less than 3 years' service credit shall be appointed in the grade of second lieutenant; 3 or more years but not to exceed 5, shall be appointed in the grade of first lieutenant. Individuals appointed in other corps of the Medical Service who have less than 3 years' service credit shall be appointed in the grade of second lieutenant; 3 or more years but less than 7, shall be appointed in the grade of first lieutenant; 7 or more years shall be appointed in the grade of captain.

(b) Appointments in the Medical or Dental Corps will be in grades determined according to the applicant's age and years of active professional experience subsequent to graduation from a medical or dental school acceptable to the Department of the Army.

| Grade | Professional experience (years) | Maximum age |
|---|---|---|
| First lieutenant | None | Not have attained 28th birthday. |
| Captain | 4 | Not have attained 32d birthday. |
| Major | 11 | Not have attained 40th birthday. |
| Lieutenant colonel | 18 | Not have attained 48th birthday. |

Initial appointments in the Medical or Dental Corps in the grade of colonel are

authorized. Persons appointed in this grade will possess outstanding qualifications for special positions determined by The Surgeon General as requirements necessitate.

3. In § 573.5 paragraph (a) and subparagraph (3) (iii) of paragraph (c) are amended to read as follows:

§ 573.5 *Application.* (a) Applications will be submitted on DA Form 61 (Application for Appointment), in duplicate. DA Form 61 may be requisitioned through normal publications supply channels, on or about December 15, 1953.

* * * * *

(c) Applications will be forwarded as follows:

* * * * *

(3) Applications for appointment in the Veterinary Corps and Medical Service Corps:

* * * * *

(iii) If 60 or more duty days have elapsed since the submission of a complete efficiency report, the applicant's file will include a special, complete efficiency report. When the period subsequent to the last efficiency report does not permit coverage of 60 days, a certificate executed by the applicant's immediate superior officer will be attached to the application file. This certificate, in lieu of the special efficiency report, will state that such efficiency report cannot be submitted and that observed performance of duties does not disclose evidence of a nature to preclude favorable consideration. The certificate will, in addition indicate that the applicant's performance of duty is of sufficiently high caliber to indicate qualities of leadership, aptitude for military service, and attributes considered requisite to a successful career as a Regular Army officer. If a special efficiency report is included in the file, the next efficiency report to be rendered will commence with the date immediately following the closing date of the special report. Such reports will not duplicate any period of other reports previously rendered.

* * * * *

4. Section 573.7 is amended to read as follows:

§ 573.7 *Action within Department of the Army.* (a) Upon receipt of an application and allied papers, The Adjutant General will review the case, including available Department of the Army records, in order to determine statutory and administrative eligibility, and will then forward all papers to The Surgeon General. The Surgeon General will recommend appointment or nonappointment and return each case to The Adjutant General. When applicable, recommendations for appointment will include grade in which appointment is to be made. Recommendations for nonappointment will include reasons therefor, and such applicants will be notified promptly by The Adjutant General.

(b) Report of medical examination will be requested at the appropriate time and will then be referred to The Surgeon General by The Adjutant General for determination of physical qualifications. Those applicants found disqualified physically will be notified promptly.

(c) The Adjutant General will transmit names of applicants recommended for appointment to the Secretary of the Army for action to effect appointments, and will issue necessary instructions through commanders of major commands concerned to consummate such appointments.

### ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnet C. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion appears desirable to discontinue the approach.

### Chapter I—Civil Service Commission

PART 22—APPEALS OF PREFERENCE ELIGIBLES UNDER THE VETERANS' PREFERENCE ACT OF 1944

NOTIFICATION OF ADVERSE DECISIONS OF ADMINISTRATIVE OFFICERS OF AGENCIES; APPEALS TO COMMISSION

Sections 22.3 and 22.4 are amended to read as follows:

§ 22.3 *Notification of adverse decisions of administrative officers of agencies.* Adverse decisions by administrative officers following notification of proposed adverse action, charges and opportunity for answer shall be in writing, dated, and submitted to the employee promptly after such decisions have been made. The employee shall also be advised, in the same notification, of his right to appeal, to the appropriate office of the Civil Service Commission, as provided in § 22.4.

§ 22.4 *Appeals to the Commission*—(a) *Submission of appeals.* A preference eligible may appeal to the Civil Service Commission from an adverse decision of discharge, suspension for more than thirty (30) days, furlough without pay, or reduction in rank or compensation within the scope of section 14 of the Veterans' Preference Act of 1944, as amended. Appeals may be submitted immediately upon notice of the decision, during the period before the decision is effected, or thereafter within the time limits provided in paragraph (b) of this section.

(b) *Time limits on appeals.* Ten days after the date that an adverse decision is effected by actual discharge, suspension for more than thirty (30) days, furlough without pay, or reduction in rank or compensation shall be considered a reasonable time limit for the preparation and submission of an appeal except as provided below.

(1) The time limit on an appeal of a reduction resulting from a classification decision of an employing agency, where there is a right to appeal the position classification to the agency under its established administrative procedures, shall be either ten (10) days after the effective date of the adverse decision or ten (10) days after the decision by the agency on the administrative position classification appeal, at the election of the employee.

(2) The time limit on an appeal of a postmaster appointed by the President and confirmed by the U. S. Senate, who is notified of an adverse decision of discharge and continues in office until a successor is installed, shall be ten (10) days after receipt of the notice.

(c) *Extension of time limits.* The time limit may be extended in the discretion of the Commission upon a showing by the employee that he was not notified of his right to appeal as provided in § 22.3 and was unaware of his right in this respect or, that circumstances beyond his control prevented him from filing an appeal within the prescribed ten (10) days.

## TITLE 46—SHIPPING

### Chapter I—Coast Guard, Department of the Treasury

**Subchapter N—Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels**

[CGFR 53-54]

PART 146—TRANSPORTATION OR STOWAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

MISCELLANEOUS AMENDMENTS

A notice regarding proposed miscellaneous changes in the regulations gov-

erning the transportation or stowage of explosives or other dangerous articles or substances and combustible liquids on board vessels was published in the FEDERAL REGISTER dated September 9, 1953, 18 F. R. 5434, 5435, as Items XVII to XXVI, inclusive, on the Agenda to be considered by the Merchant Marine Council on September 29, 1953, at Washington, D. C. All comments, views, and data submitted were considered and where practicable incorporated into the regulations.

The amendment to 46 CFR 146.02–20 changes the specific regulations governing repair work involving welding or burning on board vessels handling dangerous cargo. The changes require additional precautions and are intended to further protect against the possibility of fire or other casualty. This amendment is based on Item XVII of the agenda.

The amendments to 46 CFR 146.03–19, 146.04–5, 146.05–3, 146.05–15 (g), and 146.05–16, change the requirements so that they will be as nearly parallel as practicable with the revised regulations of the Interstate Commerce Commission which govern the land transportation of various dangerous and hazardous cargoes. These changes deal with requirements regarding inside containers, listing of explosives and other dangerous articles and combustible liquids, requirements regarding mixed packing, and the marking and labeling for domestic shipments only and for mixed packages. These amendments are based on Item XVIII on the Agenda.

The amendments to 46 CFR 146.20–7 (s), (u), 146.20–9 (c), 146.20–11 (d), (g), (q), (r), 146.20–13 (a), 146.20–90, 146.20–100, and 146.20–300, bring up to date the requirements governing explosives and are as nearly parallel as practicable with the Interstate Commerce Commission regulations governing the land transportation of explosives. The amendments deal with class A explosives with respect to boosters, bursters, and supplementary charges, and charged oil well jet perforating guns; class B explosives with respect to special fireworks; class C explosives with respect to percussion fuzes, igniters, etc., and common fireworks, samples of explosives and explosive articles for laboratory and examination purposes; stowage and storage of explosives and other dangerous articles; Table A—Classification: Class A; Dangerous Explosives, and Table C—Classification: Class C; Relatively Safe Explosives. These amendments are based on Item XIX of the Agenda.

The amendments to 46 CFR 146.21–1, 146.21–65 and 146.21–100 and the deletion of 46 CFR 146.21–5 revise the requirements regarding inflammable (flammable) liquids so that they will be as nearly parallel as practicable with similar regulations of the Interstate Commerce Commission governing the transportation of inflammable liquids. The amendments revised the definition of inflammable (flammable) liquids, revise the requirements regarding limited quantity shipments, and Table D—Classification: Inflammable Liquids. These amendments are based on Item XX of the Agenda.

The amendments to 46 CFR 146.22–25 (d) and 146.22–100 revise the requirements governing inflammable solids and oxidizing materials so that they will be as nearly parallel as practicable with similar regulations of the Interstate Commerce Commission governing the land transportation of inflammable solids and oxidizing materials. These amendments deal with nickel catalyst finely divided, actuated or spent, and revised requirements in Table E—Classification: Inflammable Solids and Oxidizing Materials. A new § 146.22–35, regarding the bulk transportation of elemental phosphorus in water is added to 46 CFR Part 146. These amendments are based on Item XXI of the Agenda.

The amendment to 46 CFR 146.23–100 revised the requirements governing corrosive liquids so that they will be as nearly parallel as practicable with similar regulations of the Interstate Commerce Commission governing the land transportation of corrosive liquids. The amendment revises and brings up to date the requirements in Table F—Classification: Corrosive Liquids. This amendment is based on Item XXII of the Agenda.

The amendments to 46 CFR 146.24–1 and 146.24–100 and the deletion of 46 CFR 146.24–5 revised these requirements so that they will be as nearly parallel as practicable to similar regulations of the Interstate Commerce Commission governing the land transportation of compressed gases. These amendments revised the definition of compressed gases and certain requirements in Table G—Classification: Compressed Gases. The amendments to 46 CFR 146.24–30 to 146.24–50, inclusive, and 146.24–80 revised the requirements for "On deck" and "Under deck" stowage of cylinders of compressed gases and requirements governing the transportation of liquid chlorine in bulk. These amendments are based on Item XXIII of the agenda.

The amendments to 46 CFR 146.25–55 and 146.25–200 revised the requirements governing poisonous articles so that they will be as nearly parallel as practicable with similar regulations of the Interstate Commerce Commission governing the land transportation of poisonous articles. These amendments bring up to date and revised the requirements regarding exemptions for poisons, Class B, and revised the requirements in Table H—Classification: Class B, Less Dangerous Poisons. These amendments are based on Item XXIV of the agenda.

The amendment to 46 CFR 146.26–100 revises the requirements with respect to leather cement and furfural in Table J—Classification: Combustible Liquids. This amendment is based on Item XXV of the agenda.

The amendment to 46 CFR 146.27–100 deletes the requirements and conditions for loading, stowing, and transporting baled cotton from Table K—Hazardous Articles and inserts a reference to a new § 146.27–25 which contains these requirements and conditions, which section is being added to 46 CFR Part 146. The new regulation, designated 46 CFR 146.27–25, contains the revised requirements and brings up to date the safety precautions to be followed in the transportation of cotton. These amendments are based on Item XXVI of the agenda.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective 90 days after date of publication of this document in the FEDERAL REGISTER, except as otherwise indicated in the regulations:

SUBPART—GENERAL REGULATIONS

Section 146.02–20 is amended to read as follows:

§ 146.02–20 *Repairs or work involving welding or burning or other hazards.* (a) A vessel having on board explosives or other dangerous articles as cargo shall not proceed to a ship repair plant or enter upon a drydock or marine railway or otherwise undertake repairs, or any work involving welding or burning, or the use of powder actuated tools or appliances which may produce intense heat, in violation of any of the following provisions:

(1) No such repairs or work, except emergency repairs to the vessel's main propelling or boiler plant or auxiliaries thereto, shall be undertaken while any explosives as cargo are on board.

(2) No such repairs or work shall be undertaken in holds containing any other dangerous articles as cargo, nor in compartments adjoining holds in which other dangerous articles as cargo are stowed except necessary repairs to the vessel's main propelling or boiler plant or auxiliaries thereto, including tail shaft and propeller.

(3) No such repairs or work shall be undertaken in or upon boundaries of holds, after the discharge of any cargo of explosives or inflammable solids or oxidizing materials, until all precautions are taken to see that no residue of cargo is left to create a hazard.

(4) No such repairs or work shall be undertaken in, or upon boundaries of, holds that have lately contained substances capable of giving off inflammable or explosive vapors, until such holds have been determined gas free.

(b) None of the provisions in paragraph (a) of this section shall apply to permitted articles of ships' stores and supplies of a dangerous nature, although provisions shall be taken to afford safe storage and protection to such stores from any risk incident to the repair work.

(c) Contrary to the provisions set forth in this section, emergency repairs may be undertaken when in the judgment of the master, such repairs are necessary for the safety of the vessel, its passengers and crew.

9. After "Charcoal, wood screenings, *other than "pinon" wood screenings* Inf. S. Yellow", insert the following in columns 1 and 2:
*Charged oil well jet perforating guns* ---- Not permitted.

11. After "Cyanide of calcium, solid ---- Pois. B. Poison", insert the following in columns 1, 2, and 3:
Cyanide of calcium mixtures, solid ---- Pois. B ---- Poison.

12. After "Cyclohexane Inf. L. Red", insert the following in columns 1, 2, and 3:
Cyclohexyltrichlorosilane ---- Cor. L ---- White.

13. After "Cyclopropane Inf. G. Red gas", insert the following in column 1:
*Cyclotrimethylenetrinitramine, desensitized.* (See: "High explosives.")
*Cyclotrimethylenetrinitramine, wet with not less than 10% of water.* (See: "High explosives.")

14. After "Dichlorodifluoromethane and difluoroethane mixture (*constant boiling mixture*) Noninf., G. Green gas", insert the following in columns 1, 2, and 3:
Dichlorodifluoromethane - monofluorotrichloromethane Noninf. G ---- Green gas.
mixture.

15. After "*Dimethylarsenic acid, solid* (See: "Cacodylic acid, solid")," Insert the following in columns 1, 2, and 3:
Dimethyl dichlorosilane (see: "Ethyl trichlorosilane") ---- Inf. L ---- Red.

16. After "Dispersent gas, N. O. S. Noinf. G. Green gas", insert the following in columns 1, 2, and 3:
Dodecyltrichlorosilane ---- Cor. L ---- White.

17. After "Ethyl lactate Comb. L.", insert the following in columns 1, 2, and 3:
Ethyl mercaptan (see "Mercaptans") ---- Inf. L ---- Red.

18. After "Ethylene glycol monomethyl ether acetate (*methyl "Cellosolve" acetate*) Comb. L.", insert the following in columns 1, 2, and 3:
Ethylene imine, inhibited ---- Inf. L ---- Red.

19. Amend "Furfural Comb. L." by adding an asterick as follows in column 1:
*Furfural.

20. After "*Grenades, hand or rifle, explosive, with gas, smoke, or incendiary material* (See: "Explosive hand or rifle grenades")", insert the following in column 1:
*Grenades, hand or rifle, with gas, smoke, or incendiary material but without bursting charges.* (See: "Chemical ammunition, class A or B poison" or "Fireworks, special.")

21. After "*Hessian* (See: "Burlap cloth")", Insert the following in columns 1, 2, and 3:
Hexadecyltrichlorosilane ---- Cor. L ---- White.

22. After "Igniters Expl. C", insert the following in column 1:
*Illuminating projectiles, fuzed or not fuzed, with expelling charge.* (See: "Fireworks, special.")

23. Delete the following items in column 1:
*Illuminating projectiles fuzed and with expelling charges.* (See: "Ammunition for cannon with illuminating projectiles.")
*Illuminating projectiles not fuzed and without expelling charges.* (See: "Fireworks, special.")

SUBPART—DEFINITIONS OF WORDS AND TERMS CONTAINED WITHIN THE REGULATIONS IN THIS SUBCHAPTER

Section 146.03–19 is amended to read as follows:

§ 146.03–19 *Inside containers.* The following abbreviations when used in the tables indicate that the substance is packed in "Inside Containers" of the following descriptions:

"WIC" means With Inside Container, which may be glass, earthenware, metal, polyethylene or other authorized materials.
"WIL" means With Inside Liners.
"WMC" means With Inside Metal Containers.
"WML" means With Inside Metal Liners.
"WPL" means With Inside Paper Liners.

SUBPART—LIST OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ARTICLES SUBJECT TO THE REGULATIONS IN THIS SUBCHAPTER

Section 146.04–5 is amended by inserting, or amending or deleting the following articles as indicated:

§ 146.04–5 *List of explosives and other dangerous articles and combustible liquids.*

| Article | Classed as | Label required |
|---|---|---|
| * * * | | |
| 1. After "Alcohol, wood (methanol)" "Inf. L.", "Red", insert the following in columns 1, 2, and 3: | | |
| Aldrin | Pois. B | Poison. |
| Aldrin mixture, dry, with more than 15% aldrin | Pois. B | Poison. |
| Aldrin mixture, liquid | Pois. B | Poison. |

| | | |
|---|---|---|
| Propyl mercaptan (See "Mercaptans") | Inf. L | Red. |

40. After "Propylene Inf. G. Red gas", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Propylene oxide | Inf. L | Red. |

40a. Opposite "Saltpeter (See: "Potassium nitrate"), in columns 2 and 3 delete "Inf. S." and "Yellow".

40b Opposite "Saltpeter, Chile (See: "Sodium Nitrate") in columns 2 and 3 delete "Inf. S." and "Yellow".

41. After "Smokeless powder for cannon or small arms (See: "Propellant explosives" or "High explosives"), insert the following in column 1:

*Smoke projectiles with bursting charges.* (See: "Explosive projectiles with bursting charge.")

*Smoke projectiles with expelling charge but without bursting charge.* (See: "Fireworks, special.")

41a. Amend "Sulfide of potassium (See: "Potassium sulfide") and "Oxy. M." to read as follows in columns 1 and 2:

Sulfide of potassium (see: "Potassium sulfide") Inf. S.

42. After "Sulfuric acid, spent, in bulk (See: § 146.23–40 and 146.23–45)", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Sulfuryl chloride | Cor. L | White. |
| Supplementary charges (explosive) (see: "Boosters") | Expl. A | |

43. After "Trimethylamine, aqueous solution (See: "Dimethylamine, aqueous solution") (Inf. L. Red", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Trimethyl chlorosilane (see: "Ethyl trichlorosilane") | Inf. L | Red. |

44. After "Vinyl methyl ether, inhibited Inf. L. Red", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Vinyl trichlorosilane (see: "Ethyl trichlorosilane") | Inf. L | Red. |

45. After "Zirconium, metallic, dry Inf. S. Yellow.", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Zirconium, metallic, solutions or mixtures thereof, liquid. | Inf. L | Red. |

SUBPART—SHIPPER'S REQUIREMENTS RE: PACKING, MARKING, LABELING AND SHIPPING PAPERS

Section 146.05–3 is amended to read as follows:

§ 146.05–3 *Mixed packing.* (a) Outside containers having interior packages containing substances possessing different dangerous characteristics, the mixture of which is liable to cause evolution of heat or gas or produce a corrosive acting substance, shall not be offered for transportation or storage on board vessels to which the regulations in this part apply unless so packed as to prevent admixture.

(b) The offering for transportation of any package or container of any liquid, solid or gaseous material which under conditions incident to transportation may polymerize (combine or react with itself) so as to cause dangerous evolution of heat or gas is prohibited. Such materials may be offered for transportation when properly stabilized or inhibited.

Section 146.05–15 (g) is amended to read as follows:

§ 146.05–15 *Marking and labeling applying to domestic shipments only.*

* * *

(g) Each package containing "Any Other Dangerous Article" as defined by the regulations in this part shall be conspicuously labeled by the shipper as follows except as otherwise provided:

(1) "Red label" as described and illustrated in § 146.05–17 (f) on containers

of inflammable liquids, except when exempted by the regulations in this part. If inflammable liquid is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(2) "Yellow label" as described and illustrated in § 146.05–17 (g) on containers of inflammable solids and oxidizing materials, except when exempted by the regulations in this part. If inflammable solid or oxidizing material is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(3) "White label" as described and illustrated in § 146.05–17 (h) on containers of acids, except when exempted by the regulations in this part. If the acid is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(4) "White label" as described and illustrated in § 146.05–17 (j) on containers of corrosive liquids, except when exempted by the regulations in this part. If the corrosive liquid is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(5) "White label" as described and illustrated in § 146.05–17 (k) on containers of alkaline caustic liquids, except when exempted by the regulations in this part. If the alkaline caustic liquid is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(6) "Red label" as described and illustrated in § 146.05–17 (l) on containers of inflammable compressed gases, except when exempted by the regulations in this part. If the inflammable compressed gas is also a class A poison or a radioactive material poison D, the "poison gas" label or the "radioactive materials" label must also be applied to the package.

(7) "Green label" as described and illustrated in § 146.05–17 (m) on containers of noninflammable compressed gases except when exempted by the regulations in this part. If the noninflammable compressed gas is also a class A poison or a radioactive material poison D, the "poison gas" label or "radioactive materials" label must also be applied to the package.

(8) "Poison gas label" as described and illustrated in § 146.05–17 (n) on containers of class A poisons.

(9) "Poison label" as described and illustrated in § 146.05–17 (o) on containers of class B poison liquids, or solids, except when exempted by the regulations in this part. If the class B poison liquid or solid is also a radioactive material poison D, the "radioactive materials" label must also be applied to the package.

(10) "Tear gas label" as described and illustrated in § 146.05–17 (p) on containers of class C poisons.

(11) "Radioactive materials label" as described and illustrated in § 146.05–17 (q) on containers of group I and group II radioactive materials.

(12) "Radioactive materials label" as described and illustrated in § 146.05–17 (r) on containers of group III radioactive materials.

(13) "Empty label" as described and illustrated in § 146.05–17 (u) shall be applied to empty containers when such application is required by the regulations in this part.

(14) "Bung label" as described and illustrated in § 146.05–17 (v) on metal barrels or drums containing inflammable liquids with vapor pressures exceeding 16 pounds per square inch absolute.

Section 146.05–16 is amended to read as follows:

§ 146.05–16 *Labels for mixed packing.* (a) Use the red label only when red and other labels are prescribed, except when poison gas label or radioactive materials label is prescribed, then both the red label and the poison gas label or red label and radioactive materials label must be used.

(b) Use white acid (alkaline caustic liquid or corrosive liquid) label only when white acid (alkaline caustic liquid or corrosive liquid) and yellow or poison labels are prescribed or poison labels (class B) are prescribed, except when poison gas label or radioactive materials label is prescribed, then both the white acid label and the poison gas label or white acid and radioactive materials label is prescribed, then both the white acid label and the poison gas label or white acid and radioactive materials label must be used.

(c) Use the yellow label only when yellow and poison labels are prescribed, except when poison gas label or radioactive materials label is prescribed, then both the yellow label and the poison gas label or the yellow label and the radioactive materials label must be used.

Section 146.20–7 is amended by changing paragraph (s) and adding a new paragraph (u), reading as follows:

§ 146.20–7 *Class A explosives.* * * *

(s) *Boosters, bursters and supplementary charges.* Boosters and supplementary charges consist of a casing containing a high explosive and are used to increase the intensity of explosion of the detonator of a detonating fuse. Bursters consist of a casing containing a high explosive and are used to repture a projectile or bomb to permit release of its contents.

* * * * *

(u) *Charged oil well jet perforating guns.* Charged oil well jet perforating guns are steel tubes or metallic strips into which are inserted shaped charges connected in series by primacord. These devices are not permitted to be shipped on board any vessel subject to the regulations in this subchapter.

Section 146.20–9 (c) is amended to read as follows:

§ 146.20–9 *Class B explosives.* * * *

(c) Special fireworks are manufactured articles designed primarily for the purpose of producing visible or audible pyrotechnic effects by combustion or explosion. (See class C explosives for "fireworks, common"). Examples are toy torpedoes, railway torpedoes, some firecrackers and salutes, exhibition display pieces, aeroplane flares, illuminating projectiles, incendiary projectiles and smoke projectiles fuzed or unfuzed and containing expelling charges but not containing bursting charges, flash powders in inner units not exceeding 2 ounces each, flash sheets in interior packages, flash powder or spreader cartridges containing not over 72 grains of flash powder each (see "Black powder and low explosives", Class B explosives, for shipments made as low explosives) and flash cartridges, consisting of a paper cartridge shell, small-arms primer, and flash composition, not exceeding 180 grains all assembled in one piece. Fireworks must be in a finished state, exclusive or mere ornamentation, as supplied to the retail trade and must be so constructed and packed that loose pyrotechnic composition will not be present in packages in transportation.

Section 146.20–11 is amended by changing paragraphs (d), (g), (q), and (r) to read as follows:

§ 146.20–11 *Class C explosives.* * * *

(d) Percussion fuzes, combination fuzes, and time fuzes are devices designed to ignite powder charges of ammunition or to initiate an intermediate charge (booster) in projectiles, bombs, etc. When such fuzes are assembled with booster charges they are properly described as "detonating fuzes" (see § 146.20–5 (g) (3)).

* * * * *

(g) Igniters consist of fiberboard, plastic, paper or metal tubes containing a small quantity of igniting compound which is ignited by the action of a primer, pull wire or scratch composition.

* * * * *

(q) Common fireworks are fireworks devices suitable for use by the public and designed primarily to produce visible effects by combustion. Some small devices designed to produce audible effects are also included in this class. The types, sizes and amount of pyrotechnic contents of these devices are limited as enumerated in this paragraph. No component, of any device listed in this paragraph, which is designed to produce an audible effect shall contain pyrotechnic composition in excess of 2 grains in weight. (Propelling or expelling charges consisting of a mixture of sulfur, charcoal and saltpeter are not considered as designed to produce audible effects.) Any new device, not enumerated in this paragraph, must be approved by the Bureau of Explosives before being offered for transportation as common fireworks. Common fireworks must be in a finished state exclusive of mere ornamentation as supplied to the retail trade and must be so constructed and packed that loose pyrotechnic composition will not be present in packages in transportation. Fireworks, other than common fireworks as defined in this paragraph, and those forbidden for transportation by § 146.20–3, are classed as special fireworks (see class B explosives). The devices are:

(1) Roman candles, not exceeding 10 balls spaced uniformly in the tube, total pyrotechnic composition not to exceed 20 grams each in weight. The inside tube diameter shall not exceed ⅝ inch.

24. After "Isopropanol (See: "Alcohol or alcohol, N. O. S.") Inf. L. Red", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Isopropyl mercaptan (see: "Mercaptans") | Inf. L | Red. |

25. Amend "Lithium hypochlorite compounds, dry, containing more than 8 80 available oxygen (39% available chlorine) (See: "Calcium hypochlorite compounds, dry, etc.") Oxy. M. Yellow", to read as follows in columns 1, 2, and 3:

| | | |
|---|---|---|
| Lithium hypochlorite compounds, dry, containing more than 39% available chlorine) (see: "Calcium hypochlorite compounds, dry, etc.") | Oxy. M | Yellow. |

26. Amend "Methanol *(methyl alcohol)* (See: "Alcohol or alcohol, N. O. S.") Inf. L. Red", to read as follows in columns 1, 2, and 3:

| | | |
|---|---|---|
| *Methanol (methyl hydrate) (methyl alcohol)* (see: "Alcohol or alcohol, N. O. S.") | Inf. L | Red. |

27. After "Methyl mercaptan Inf. G. Red gas", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Methyl parathion, liquid (see "Parathion, liquid") | Poi. B | Poison. |
| Methyl parathion mixture, liquid (see: "Parathion mixture, liquid.") | Poi. B | Poison. |

28. After "Methyldichlorarsine Pois. A. Poison Gas", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Methyl trichlorosilane (see: "Ethyl trichlorosilane.") | Inf. L | Red. |

30. After "Monochloroethylene (See: "Vinyl chloride, inhibited") Inf. G. Red gas", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Monochloropentafluoroethane | Nonlnf. G | Green gas. |

31. After "Nickel carbonyl Inf. L. Red", insert the following in columns, 1, 2, and 3:

| | | |
|---|---|---|
| •Nickel catalyst, finely divided, activated or spent | Inf. S | Yellow. |

32. After "Nitrate of soda (See: "*Nitrates*") Oxy. M.", insert the following in columns 1 and 2:

| | | |
|---|---|---|
| Nitrate of soda and potash (see: "*Nitrates*") | Oxy. M | |

33. After "Oakum Haz.", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Octadecyltrichlorosilane | Cor. L | White. |

34. Amend "*Photographic, flash powder* (See: "Fireworks, special")", to read as follows in column 1:

*Photographic flash powder.* (See: "Fireworks, special" or "Low explosives.")

35. After "•Polishing compounds, liquid (See: "Polishes, metal, stove, furniture, and wood, liquid") Comb. L", insert the following in column 1:

*Polymerizable materials.* (See: § 146.05–3.)

36. After "•Potato spray (arsenical), liquid (See: "Insecticide, liquid")", insert the following in columns 1, 2, and 3:

| | | |
|---|---|---|
| Pressurized inflammable (flammable) liquids, N. O. S. | Inf. L | Red. |

37. After "*Projectiles, gas, smoke, or incendiary, with burster or booster without detonating fuze* (See: "Ammunition, chemical, explosive")", insert the following in column 1:

*Projectiles, illuminating, incendiary or smoke with expelling charge but without bursting charge.* (See: "Fireworks, special")

38. Delete the following item in column 1:

*Projectiles, illuminating, incendiary or smoke.* (See: "Ammunition, projectiles, grenades, bombs, mines, and torpedoes" or "Fireworks, special.")

determined by flash point from Taglia-

(4) Butyl mercaptan.

(2) Sky rockets with sticks, total pyrotechnic composition not to exceed 20 grams each in weight. The inside tube diameter shall not exceed ½ inch. The rocket sticks must be securely fastened to the tubes.

(3) Helicopter type rockets, total pyrotechnic composition not to exceed 20 grams each in weight. The inside tube diameter shall not exceed ½ inch.

(4) Cylindrical fountains, total pyrotechnic composition not to exceed 75 grams each in weight. The inside tube diameter shall not exceed ¾ inch.

(5) Cone fountains, total pyrotechnic composition not to exceed 50 grams each in weight.

(6) Wheels, total pyrotechnic composition not to exceed 60 grams for each driver unit or 240 grams for each complete wheel. The inside tube diameter of driver units shall not exceed ½ inch.

(7) Illuminating torches and colored fire in any form, except items included in subparagraph (12) of this paragraph, total pyrotechnic composition not to exceed 100 grams each in weight.

(8) Sparklers and dipped sticks, total pyrotechnic composition not to exceed 100 grams each in weight. Pyrotechnic composition containing any chlorate or perchlorate shall not exceed 5 grams.

(9) Mines and shells of which the mortar is an integral part, total pyrotechnic composition not to exceed 40 grams each in weight.

(10) Firecrackers and salutes with casings, the external dimensions of which do not exceed 1½ inches in length or ¼ inch in diameter, total pyrotechnic composition not to exceed 2 grams each in weight.

(11) Novelties consisting of two or more devices enumerated in this paragraph, trick matches and cigarette plugs, when approved by the Bureau of Explosives.

(12) Railway fusees, truck flares, hand ship distress signals, smoke candles, smoke signals and smoke pots.

(r) Igniter cord consists of a wire, with or without textile countering, uniformly covered with a combustible chemical mixture, countered with strands of wire and overspun with textile yarns and/or wire, and water resistant coatings which, when ignited, burns at various rates according to design.

Section 146.20–13 (a) is amended to read as follows:

§ 146.20–13 *Samples of explosives and explosive articles for laboratory and examination purposes.* (a) New explosives, including fireworks and explosive devices, other than Army, Navy or Air Corps explosive or chemical ammunition of a security classification, must be examined and approved by the Bureau of Explosives as safe for transportation before being offered for shipment, except that a sample of such explosives, fireworks and explosive devices, not to exceed 5 pounds net weight, may be offered for transportation on board cargo vessels subject to the regulations in this subchapter for the purpose of this examination. Samples of explosives, except liquid nitroglycerin, other than new explosives for laboratory examination not exceeding 5 pounds net weight may be offered for transportation by cargo vessels subject to the regulations of this subchapter. For the purposes of the regulations in this part a new explosive, including fireworks and explosive devices, is the product of a new factory or an explosive or explosive device of an essentially new composition or character made by any factory.

Section 146.20–90 and the Table entitled "Stowage and Storage Chart of Explosives and Other Dangerous Articles" are amended as indicated below:

§ 146.20–90 *Stowage and storage chart of explosives and other dangerous articles.* • • •

1. In the fourth sentence of § 146.20–90 which begins with "The letter X at an intersection • • •", delete the phrase: "boosters (explosive)".

2. In vertical and horizontal descriptive columns 7 of Table entitled *"Stowage and storage chart of explosives and other dangerous articles"*, delete the phrase: "boosters (explosive)".

3. In vertical and horizontal descriptive columns 5 of Table entitled *"Stowage and storage chart of explosives and other dangerous articles"*, add the following: "• • • and boosters (explosive), bursters (explosive) or supplementary charges (explosive) without detonators.[1]

4. At the end of Table entitled *"Stowage and Storage chart of explosives and other dangerous articles"*, add the following footnote [1]:

Section 146.20–100 is amended by changing certain requirements for certain articles as follows:

NOTE: An "item" is defined for the purpose of these amendments as any article or group of articles within the table for which an individual set of stowage and container requirements is prescribed.

§ 146.20–100 *Table A—Classification: Class A; Dangerous explosives.* • • •

1. Amend the item headed *"Ammunition—Projectiles, grenades, bombs, mines and torpedoes"* as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Strong wooden or metal boxes. Gross weight of a box containing more than one projectile, grenade, bomb or mine must not exceed 250 lb.

Explosive projectiles, explosive torpedoes, explosive mines, or explosive bombs, exceeding 90 pounds in weight, and explosive projectiles of not less than 4½ inches in diameter, may be shipped without being boxed only by, for, or to the Departments of the Army, Navy and Air Force of the United States Government when securely blocked and braced in accordance with methods approved by the Bureau of Explosives.

2. Amend the item headed "High explosives (*when containing not more than 75% liquid explosive ingredient*)" as follows:

In column 2, *Characteristic properties, etc.*, delete the present requirements and insert the following in lieu thereof:

Each outside box must be plainly marked on top and on one side or end: "High explosives—Dangerous", except ICC–23G which must be so marked on the side or end.

The top of boxes (except ICC–23G) must be marked "This Side Up".

Observe "This Side Up" stowage.

3. Amend the item headed "High explosives (*when containing 10% or less of a liquid explosive ingredient*)" as follows:

In column 2, *Characteristic properties, etc.*, delete the present requirements and insert the following in lieu thereof:

Each outside box must be plainly marked on top and on one side or end: "High explosives—Dangerous", except ICC 23G which must be so marked on the side or end.

The top of boxes (except ICC–23G) must be marked "This Side Up".

Observe "This Side Up" stowage.

4. Amend the item headed "High explosives (*containing no liquid explosive ingredient*)" as follows:

In column 2, *Characteristic properties, etc.*, delete the present requirements and insert the following in lieu thereof:

Each outside box must be plainly marked on top and on one side or end: "High explosives—Dangerous," except ICC–23G which must be so marked on the side or end.

Each keg, drum or barrel must be marked on both ends: "High explosives—Dangerous."

5. Amend the item headed "High explosives (*containing no liquid explosive ingredient nor any chlorate*)" as follows:

In column 2, *Characteristic properties, etc.*, delete the present requirements and insert the following in lieu thereof:

Each outside box must be plainly marked on top and on one side or end: "High explosives—Dangerous", except ICC–23G which must be so marked on the side or end.

Each keg, drum or barrel must be marked on both ends: "High explosives—Dangerous."

6. Amend the item headed "High explosives (*in dry condition*)" as follows:

In column 1, *Descriptive name of article*, insert the following after "Ammonium picrate" and before "Nitroguanidine":

*Cyclotrimethylenetrinitramine (desensitized).*

7. Amend the item headed "High explosives (*wet with not less than 10 pounds of water to each 90 pounds of dry material*)" as follows:

In column 1, *Descriptive name of article*, insert the following after "Ammonium picrate" and before "Picric acid":

*Cyclotrimethylenetrinitramine.*

In column 4, *Required conditions for transportation—Cargo vessel*, add the following under "Outside containers":

Authorized only for "Cyclotrimethylenetrinitramine, wet with 10% water": Fiber drums (ICC–21A, 21B) WIC, not over 200 lb. net dry wt.

8. Amend the item headed "Boosters (explosive)" as follows:

[1] Bursters (explosive), boosters (explosive), or supplementary charges (explosive) without detonators when shipped by, to or for the Departments of the Army, Navy and Air Force of the United States Government may be stowed with any of he articles named, except those in columns 3, 4, 10, 16, 17, 18, 19, 20, 21, 22, 23, and 24.

In column 1, *Descriptive name of article*, insert the following after "Boosters (explosive)":

Bursters (explosive).
Supplementary charges (explosive).

In column 2, *Characteristic properties, etc.*, delete the present information and requirements and insert the following in lieu thereof:

Boosters and supplementary charges consist of a casing containing a high explosive and are used to increase the intensity of explosion of the detonator of a detonating fuze. Bursters consist of a casing containing a high explosive and are used to rupture a projectile or bomb to permit release of its contents.

Detonating fuzes are used in the military service to detonate the high explosive bursting charges of projectiles, mines, bombs, torpedoes and grenades. In addition to a powerful detonator, they may contain several ounces of a high explosive such as tetryl or dry nitrocellulose, all assembled in a heavy steel envelope.

Do not stow boosters, bursters, supplementary charges or detonating fuzes with any high explosive. Do not load at the same time as high explosives are being loaded.

Each outside container must be plainly marked "Detonating fuzes—Handle carefully—Do not store or load with any high explosives", or "Boosters (explosive)—Handle carefully", or Bursters (explosive)—Handle carefully", or "Supplementary charges (explosive)—Handle carefully", as the case may be.

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Strong tight wooden boxes, not over 100 lb. gr. wt. for detonating fuzes. Not over 300 lbs. gr. wt. for boosters, bursters, and supplementary charges.

9. Amend the descriptive name "Initiating explosives (*lead azide, dextrinated type only, wet with not less than 20% by weight of water*)" to read as follows:

Initiating explosives (*lead azide, wet with not less than 20% by weight of water*)

Section 146.20–300 is amended by changing certain requirements for "Igniter cord" as follows:

§ 146.20–300 *Table C—Classification: Class C; relatively safe explosives.* • • •

1. Amend the item headed "Igniter cord" as follows:

In column 2, *Characteristic properties, etc.*, delete the first sentence and insert the following in lieu thereof:

Igniter cord consists of a wire, with or without textile countering, uniformly covered with a combustible chemical mixture, countered with strands of wire and overspun with textile yarns and/or wire, and water resistant coatings which, when ignited, burns at various rates according to design. • • •

SUBPART—DETAILED REGULATIONS GOVERNING INFLAMMABLE LIQUIDS

Section 146.21–1 is amended to read as follows:

§ 146.21–1 *Definition of inflammable liquids.* (a) An inflammable (flammable) liquid is defined by the ICC regulations as any liquid which gives off inflammable (flammable) vapors (as determined by flash point from Tagliabue's open-cup tester, as used for test of burning oils) at or below a temperature of 80° F.

(b) A pressurized inflammable (flammable) liquid is defined by the ICC regulations as any mixture other than a compressed gas in which the gas is used as an expellant, if any one of the following occurs:

(1) Using the Bureau of Explosives' Flame Projection Apparatus,[1] the flame projects more than 18 inches beyond the ignition source with valve opened fully, or, the flame flashes back and burns at the valve with any degree of valve opening.

(2) Using the Bureau of Explosives' Open Drum Apparatus,[1] there is any significant propagation of flame away from the ignition source.

(3) Using the Bureau of Explosives' Closed Drum Apparatus,[1] there is any explosion of the vapor-air mixture in the drum.

(c) Such definitions are binding upon all shippers making shipments of inflammable (flammable) liquids by common carrier vessels engaged in interstate or foreign commerce by water. These definitions are accepted and adopted and form part of the regulations in this subchapter applying to all shippers making shipments of inflammable (flammable) liquids by any vessel, and shall apply to the owners, charterers, agents, master, or other persons, transporting, carrying, conveying, storing, stowing or using inflammable (flammable) liquids on board any vessel subject to R. S. 4472, as amended (46 U. S. C. 170), and the regulations in this subchapter.

Section 146.21–5 *Inflammable liquid defined* is deleted. (The text of this section is now incorporated in § 146.21–1.)

Section 146.21–65 is amended to read as follows:

§ 146.21–65 *Limited quantity shipments.* (a) Inflammable liquids, except those enumerated in paragraph (c) of this section, in inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

(b) Such shipments may be accepted on board vessels subject to the regulations in this subpart, provided the bill of lading or other shipping paper correctly describes the article in accordance with the true name as shown in the commodity list. Stowage shall be "On deck under cover" or "Tween decks" in a compartment not subject to artificial heat.

(c) The following articles in any quantity are not exempt from any of the provisions of the regulations in this subpart:

(1) Acrolein.
(2) Aliphatic mercaptan mixtures.
(3) Amyl mercaptan.
(4) Butyl mercaptan.
(5) Carbon bisulfide (disulfide).
(6) Ethyl chloride.
(7) Ethyl mercaptan.
(8) Ethyl trichlorosilane.
(9) Ethylene imine, inhibited.
(10) Ethylene oxide.
(11) Inflammable (flammable)) liquids which are also corrosive liquids or oxidizing materials under these regulations.
(12) Isopropyl mercaptan.
(13) Lithium aluminum hydride (ethereal).
(14) Nickel carbonyl.
(15) Pentaborane.
(16) Pressurized inflammable (flammable) liquids.
(17) Propyl mercaptan.
(18) Spirits of nitroglycerin in excess of one percent by weight.
(19) Trichlorosilane.
(20) Vinyl trichlorosilane.
(21) Zinc ethyl.
(22) Zirconium, metallic, solutions or mixtures thereof, liquid.

Section 146.21–100 is amended by changing certain requirements for certain articles as follows:

NOTE: An "item" is defined for the purpose of these amendments as any article or group of articles within the table for which an individual set of stowage and container requirements is prescribed.

§ 146.21–100 *Table D—Classification: Inflammable liquids.* • • •

1. Amend items with the following headings so as to include "21B" in every case where "(ICC–21A, 22A, 22B)" appears under "Outside container" requirements in columns 4, 5, 6, and 7, where permitted, so that the stowage requirement will read "Fiber or plywood drums, WIC (ICC–21A, 21B, 22A, 22B) not over 1 gal. cap." for each such item:

a. Acetaldehyde.
b. Acetone.
c. Alcohol or alcohol, N. O. S.
d. Allyl bromide.
e. Amyl nitrite.
f. Antifreeze compounds, liquid.
g. Benzene.
h. Box toe gum.
i. Butyraldehyde.
j. Cement, leather.
k. Coal tar distillate.
l. Collodion.
m. Compounds, cleaning, liquid.
n. Compounds, lacquer, paint or varnish, etc., removing reducing or thinning.
o. Crotonaldehyde.
p. Crude oil, petroleum.
q. Cyclohexane.
r. Diethylamine.
s. Dimethylamine, aqueous solution.
t. Drugs, chemicals, medicines or cosmetics (over 16 ounces or 1 quart).
u. Ether.
v. Ethyl acetate.
w. Ethyl formate.
x. Ethyl methyl ketone.
y. Ethyl nitrite.
z. Ethylene dichloride.
aa. Gasoline.
bb. Heptane.
cc. Hexane.
dd. Inflammable liquids, N. O. S.
ee. Ink.
ff. Insecticide, liquid.
gg. Isooctane.
hh. Isopentane.
ii. Lacquer base or lacquer chips, plastic (wet with alcohol or solvent)
jj. Methyl acetate.

[1] A description of the Bureau of Explosives' Flame Projection Apparatus, Open Drum Apparatus, Closed Drum Apparatus, and method of tests may be procured from the Bureau of Explosives, 30 Vesey Street, New York 7, New York.

kk. Methyl formate.
ll. Motor fuel, N. O. S.
mm. Neohexane.
nn. Oil.
oo. Paint, enamel, lacquer, stain, etc.
pp. Pentane.
qq. Polishes, metal, stove, furniture and wood, liquid.
rr. Pyridine.
ss. Road asphalt or tar, liquid.
tt. Solvents, N. O. S.
uu. Toluol.
vv. Turpentine substitutes.
ww. Vinylidene chloride, inhibited.
xx. Wet nitrocellulose, colloided, granular or flake.
yy. Xylol.

2. Amend items with the following headings so as to include "104A–AL–W" in every case where "(ICC–103, 103W, 103AL–W, 104, 104W, 104A, etc.)" appears under "Outside container" requirements in columns 4 and 7, where permitted, so that the stowage requirements will read "Tank cars (ICC–103, 103W, 103AL–W, 104, 104W, 104A, 104A–W, 104A–AL–W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, ARA–II, ARA–III, ARA–IV, ARA–IVA)" for each such item:

a. Acetaldehyde.
b. Acetone.
c. Alcohol or alcohol, N. O. S.
d. Allyl bomide.
e. Antifreeze compounds, liquid.
f. Benzene.
g. Box toe gum.
h. Butyraldehyde.
i. Cement, leather.
j. Coal tar distillate.
k. Collodion.
l. Compouds, cleaning, liquid.
m. Compounds, lacquer, paint, or varnish, etc., removing, reducing, or thinning, liquid.
n. Crotonaldehyde.
o. Crude oil, petroleum.
p. Cyclohexane.
q Diethylamine.
r. Dimethylamine, aqueous solution.
s. Drugs, chemicals, medicines or cosmetics, N. O. S. (over 16 ounces or 1 quart).
t. Ethyl acetate.
u. Ethyl methyl ketone.
v. Ethylene dichloride.
w. Gas drips, hydrocarbon.
x. Heptane.
y. Hexane.
z. Inflammable liquids, N. O. S.
aa. Ink.
bb. Insecticide, liquid.
cc. Isooctane.
dd. Methyl acetate.
ee. Motor fuel, N. O. S.
ff. Neohexane.
gg. Oil.
hh. Paint, enamel, lacquer, stain, etc.
ii. Pentane.
jj. Polishes, metal, stove, furniture and wood, liquid.
kk. Pyridine.
ll. Road asphalt or tar, liquid.
mm. Solvents, N. O. S.
nn. Toluol.
oo. Turpentine substitutes.
pp. Vinylidene chloride, inhibited.
qq. Xylol liquid.

3. Amend the item headed "Acrolein" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following under "Outside containers":

Tank Cars (ICC–105A500, 105A500W)

4. Amend the item headed "Carbon bisulfide (disulfide)" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following to "Tank cars" under "Outside containers":

103AL–W

5. Amend the item headed "Cement, leather" as follows:

In column 1, *Descriptive name of article*, add the following descriptive names:

Cement, linoleum.
Cement, tile.
Cement, wallboard.

In column 3, *Label required*, insert the following horizontally across from each of the above new descriptive names added to column 1:

Red.

6. Amend the two items headed "Drugs, chemicals, medicines, or cosmetics, N. O. S." as follows:

In column 1, *Descriptive name of article*, add the following substances after "Zinc ethyl":

Ethylene imine, inhibited.
Zirconium, metallic, solutions or mixtures thereof, liquid.
Amyl mercaptan.
Butyl mercaptan.
Ethyl mercaptan.
Aliphatic mercaptan mixtures.
Isopropyl mercaptan.
Propyl mercaptan.
Vinyl trichlorosilane.
Pressurized inflammable (flammable) liquids.

7. Amend the item headed "Ethyl trichlorosilane" as follows:

In column 1, Descriptive name of article, insert the following after "Ethyl trichlorosilane":

Methyl trichlorosilane.
Vinyl trichlorosilane.
Dimethyl dichlorosilane.
Trimethyl chlorosilane.

In column 2, *Characteristic properties, etc.*, delete the present information and requirements and insert the following in lieu thereof:

*Colorless liquids with acrid odor.*
*Evolve white fumes when exposed to moist air.*
*React violently with water to evolve heat and white, acrid fumes.*
*Fumes extremely corrosive.*
*May form explosive mixtures with air.*
*Flash points below 80° F.*
Handle carefully to avoid damage to containers and exposure of contents to air.

8. Insert the following new item after the item headed "Ethylene dichloride":

In column 1, *Descriptive name of article*, insert the following:

Ethylene imine, inhibited.

In column 2, *Characteristic properties, etc.*, insert the following:

*Oily volatile liquid, strongly alkaline.*
*Vapors very irritating to the eyes.*
*Vapors heavier than air.*
*Flash point below 80° F.*
*Miscible with water.*
Keep cool.

In column 3, *Label required*, insert the following:

Red.

In column 4, *Required conditions for transportation-Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
Outside containers:
Wooden boxes (ICC–15A, 15B) WIC not exceeding 5 pints cap.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

9. Amend the item headed "Ethylene oxide" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Steel barrels or drums (ICC–5P) lugged, not over 61 gal. cap. Drums marked "Keep this end up."
Wooden boxes (ICC–15A, 15B, 15C, 16A) WIC, not over 9 lb. net wt.
Fiberboard boxes (ICC–12B) WIC, not over 9 lb. net wt.
Cylinders as prescribed for any compressed gas except acetylene.
Tank cars (ICC–104A, 104A–W, 105A300, 105A300–W, 105A400, 105A400–W, 105A500, 105A500–W, 105A600, 105A600–W, ARA IV-A).

NOTE: Ethylene oxide may also be carried in strong incombustible nonspecification outside containers, WIC complying with ICC regulations, not over 100 grams net wt.

10. Amend the item headed "Inflammable liquids, N. O. S." as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, insert the following note under "Outside containers":

NOTE: Specification containers shall be of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

11. Insert the following new item after "Lithium aluminum hydride, ethereal":

In column 1, *Descriptive name of article*, insert the following:

*Mercaptans:*
Amyl mercaptan.
Butyl mercaptan.
Ethyl mercaptan.
Isopropyl mercaptan.
Propyl mercaptan.
Aliphatic mercaptan mixtures.
(When possessing a flash point at or below 80 F.).

In column 2, *Characteristic properties, etc.*, insert the following:

*Water-white to yellow liquids.*
*Strong offensive garlic-like odor.*
*Butyl mercaptan highly toxic, others are toxic to lesser degree.*
*Do not breathe vapors from these substances or allow in contact with eyes.*
*Flash points variable (ethyl—lowest; amyl—highest).*
*Immiscible with water.*
Keep cool. Stow well away from living quarters.

In column 3, *Label required*, insert the following:

Red.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."

Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B, 5C) not over 110 gal. cap.
(ICC–17C) STC, not over 55 gal. cap.
(ICC–17E) STC, not over 5 gal. cap.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 16 gal. cap.
Fiberboard boxes (ICC–12B) WIC, not over 65 lb. gr. wt.

Authorized only for mercaptans having a flash point above 20° F.:
Steel barrels or drums (ICC–17E) STC, not over 55 gal. cap.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

12. Insert the following new item after the item headed "Polishes, metal, stove, furniture and wood, liquid":

In column 1, *Descriptive name of article*, insert the following:

Pressurized inflammable (flammable) liquid, N. O. S.

In column 2, *Characteristic properties, etc.*, insert the following:

*A pressurized inflammable (flammable) liquid is any mixture (other than a compressed gas) in which a gas is used as an expellant, which meets the definition as set forth in § 146.21–1 (b).*

In column 3, Label required, insert the following:

Red.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks readily accessible."
Outside containers:
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 16 gals. cap.
Fiberboard boxes (ICC–12B) WIC, not over 65 lb. gr. wt.
Cylinders as prescribed for any compressed gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation;* insert the following:

Not permitted.

13. Amend the item headed "Wet nitrocellulose, colloided, granular or flake" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following under "Outside containers":

Authorized only for nitrocellulose or collodion cotton, fibrous, wet, or colloided nitrocellulose, granular or flake, wet: Aluminum barrels or drums (ICC–42F) not over 450 lb. gr. wt.

14. Insert the following new item after the item headed "Pressurized inflammable (flammable) liquids, N. O. S.":

In column 1, *Descriptive name of article*, insert the following:

Propylene oxide.

In column 2, *Characteristic properties, etc.*, insert the following:

*Colorless liquid, ethereal odor.*
*Explosive range: 2 to 22% in air.*
*Flash point below 0° F.*
*Miscible with water.*

In column 3, *Label required*, insert the following:

Red.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B, 5C, 5G) not over 110 gal. cap.
(ICC–5M) not over 55 gal cap.
(ICC–17C) STC, not over 55 gal. cap.
(ICC–17E) STC, not over 55 gal. cap.
Aluminum barrels or drums (ICC–42B, 42C) not over 110 gal. cap.
Wooden barrels or kegs (ICC–11A, 11B) WIC, not over 1 gal. cap.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 16 gal. cap.
Fiberboard boxes (ICC–12B) WIC, not over 65 lb. gr. wt.
Fiber or plywood drums (ICC–21A, 21B, 22A, 22B) WIC, not over 1 gal. cap.
Cylinders as prescribed for any compressed gas except acetylene.
Tank cars (ICC–103, 103W, 103AL–W, 104, 104W, 104A, 104A–W, 104A–AL–W, 105A300, 105A300W, 105A400, 105A400W, 105A500, 105A500W, 105A600,105A600W, ARA–II, ARA–III, ARA–IV, ARA–IV–A).

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

15. Insert the following new item after the item headed "Zinc ethyl":

In column 1, *Descriptive name of article*, insert the following:

Zirconium, metallic, solutions or mixtures thereof, liquid.

In column 2, *Characteristic properties, etc.*, insert the following:

*Finely divided zirconium suspended in an inflammable liquid.*
*Zirconium metal highly inflammable in dry state.*
*Flash point variable.*
Stow away from oxidizing materials.

In column 3, *Label required*, insert the following:

Red.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Wooden boxes (ICC–15A, 15B, 15C) WIC, not over 16 gal. cap.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

SUBPART—DETAILED REGULATIONS GOVERNING INFLAMMABLE SOLIDS AND OXIDIZING MATERIALS

Section 146.22–25 (d) is amended by inserting "Nickel catalyst, finely divided, activated or spent" after "Motion-picture film, old and worn out (nitrocellulose base)" and before "Paper stock, wet", as follows:

§ 146.22–25 *Exemptions for inflammable solids and oxidizing materials.* * * *
(d) * * *

Nickel catalyst, finely divided, activated or spent.

Part 146 is amended by adding a new § 146.22–35 reading as follows:

§ 146.22–35 *Elemental phosphorus in water in bulk*—(a) *General.* Elemental phosphorus, white or yellow, in water may be carried in bulk or barges in conformity with the following provisions:

(1) Barges shall be constructed or altered to meet the rules of the American Bureau of Shipping and as required by this section.

(b) *Types of cargo tanks.* (1) Tanks in which the vessel's structure forms a part thereof may be employed, provided void spaces are located surrounding the tanks on the sides and bottom.

(2) Tanks independent of the hull either cylindrical or of rectangular design may be employed. The plating of such tanks shall be not less than 9/16 inch thick.

(3) The tanks shall be designed and tested to a head of 8 feet above the tank top or the highest level the lading may rise, whichever is the greater.

(c) *Venting.* Each cargo tank shall be fitted with an approved pressure-vacuum relief valve set to discharge at a pressure not exceeding 2 pounds per square inch. The discharge therefrom shall lead overboard above the waterline.

(d) *Installation.* Adequate clearance shall be provided for the inspection and maintenance of independent cargo tanks, or such tanks shall be made moveable.

(e) *Openings in tanks.* Openings in tanks are prohibited below deck except for access openings used for inspection and maintenance of tanks. Manholes or access trunks shall be of not less than 20 inches diameter. Openings shall be fitted with bolted cover plates and gaskets resistant to the attack of phosphorus pent oxide.

(f) *Outage.* Sufficient outage shall be provided to prevent the tanks from being liquid full at any time, but in no case shall the outage be less than 1 percent.

(g) *Cargo discharging.* Pumps shall be employed in the discharge of cargo. The use of compressed air to discharge cargo is prohibited.

(h) *Cargo temperature.* Cargo shall be loaded at a temperature not exceeding 140° F. and then be cooled to a temperature not exceeding 105° F. prior to movement of the barge.

(i) *Heating coils.* Coils in which steam or hot water is circulated to heat the cargo so that it may be pumped shall be located outside the cargo tanks.

(j) *Void flooding.* A fixed ballast piping system, including a pump driven by an internal combustion engine, shall be installed so that any void space surrounding the fixed tanks may be flooded.

(k) *General requirements.* (1) All enclosed compartments containing independent cargo tanks and machinery spaces containing cargo pumps for han-

dling cargo shall be adequately ventilated.

(2) Cargo tanks shall be tested to a head of 8 feet above the tank top or the highest level the lading may rise, whichever is the greater.

(3) Cargo tanks shall be designed and tested to withstand a pressure of 2 pounds per square inch.

(4) Cargo tanks shall be designed to withstand the maximum pressure that may be developed by the cargo.

(5) Cargo tanks shall be designed to withstand the maximum stresses that may be developed in service.

(6) Cargo tanks shall be designed to withstand the maximum temperature that may be developed by the cargo.

(7) Cargo tanks shall be designed to withstand the maximum vacuum that may be developed in service.

(8) Cargo tanks shall be designed to withstand the maximum impact that may be developed in service.

(9) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(10) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(11) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(12) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(13) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(14) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(15) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(16) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(17) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(18) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(19) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(20) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(21) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(22) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(23) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(24) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(25) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(26) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(27) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(28) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(29) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(30) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(31) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(32) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(33) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(34) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(35) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(36) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(37) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(38) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(39) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(40) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(41) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(42) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(43) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(44) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(45) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(46) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(47) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(48) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(49) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(50) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(51) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(52) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(53) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(54) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(55) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(56) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(57) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(58) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(59) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(60) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(61) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(62) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(63) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(64) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(65) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(66) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(67) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(68) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(69) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(70) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(71) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(72) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(73) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(74) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(75) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(76) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(77) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(78) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(79) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(268) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(269) Cargo tanks shall be designed to withstand the maximum abrasion that may be developed in service.

(270) Cargo tanks shall be designed to withstand the maximum wear that may be developed in service.

(271) Cargo tanks shall be designed to withstand the maximum deterioration that may be developed in service.

(272) Cargo tanks shall be designed to withstand the maximum aging that may be developed in service.

(273) Cargo tanks shall be designed to withstand the maximum fatigue that may be developed in service.

(274) Cargo tanks shall be designed to withstand the maximum creep that may be developed in service.

(275) Cargo tanks shall be designed to withstand the maximum corrosion that may be developed in service.

(276) Cargo tanks shall be designed to withstand the maximum erosion that may be developed in service.

(277) Cargo tanks shall be design

dling liquid phosphorus shall be provided with effective means of ventilation.

(2) Cargo piping shall be of steel or wrought iron. Flanges and pipe fittings shall be of steel or malleable iron. Valves shall be of steel or bronze.

(3) Cargo lines shall be traced with steam piping and secured thereto by lagging to prevent solidification of cargo during pumping operations.

(4) A water hose shall be connected ready for immediate use and any spillage of phosphorus shall be immediately washed down.

(5) At least two fresh air masks or self-contained oxygen breathing apparatus shall be stowed on board the vessel at all times for use of personnel entering the tanks or adjacent spaces.

(6) Authorization from the Commandant, United States Coast Guard, shall be obtained to transport lading other than phosphorus in the cargo tanks.

(7) Mechanical ventilation of sufficient capacity to insure a change of air every three minutes shall be provided during the inspection and maintenance of the cargo tanks.

(8) During the time elemental phosphorus is laden in the tanks, the barge shall be under constant surveillance. A towing vessel engaged in transporting such barges shall not leave the barge unattended except when the barge is moored at a pier, wharf, dock or other terminal and then only if such facility is provided with watchman or guard service.

(9) The Interstate Commerce Commission standard "Dangerous" placard shall be displayed in four locations on the barge when elemental phosphorus is laden in the tanks. A placard shall be posted approximately amid ships on each side facing outboard, and a placard shall be posted at each end of the barge at about the end of the tanks facing outboard. After unloading and before a tank or tanks are cleaned, the placard shall be reversed to show the "Dangerous—Empty" legend.

(l) *Electrical bonding.* Independent cargo tanks shall be electrically grounded to the hull. The barge shall be electrically connected to the shore piping prior to connecting the cargo hose. This electrical connection shall be maintained until after the cargo hose has been disconnected and any spillage has been removed.

(m) *Tests and retests.* Each tank shall be tested before being put into service as prescribed in paragraph (b) (3) of this section. Tanks shall be retested, as prescribed, at intervals of ten years or less after the original test, and before being returned to service after any extensive repairs.

Section 146.22-100 is amended by changing certain requirements for certain articles as follows:

NOTE: An "item" is defined for the purpose of these amendments as any article or group of articles within the table for which an individual set of stowage and container requirements is prescribed.

§ 146.22-100 *Table E—Classification: Inflammable solids and oxidizing materials.* • • •

1. Amend the item headed "Benzoyl peroxide, dry" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Fiberboard boxes (ICC-12B) WIC, not over 70 lb. gr. wt.

2. Amend the item headed "Benzoyl peroxide, wet" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Steel barrels or drums (ICC-5, 5B, 6A, 6B, 6C) WIL, not over 350 lb. gr. wt.

3. Amend the item headed "Calcium hypochlorite compounds, dry, containing more than 8.80 percent available oxygen (39% available chlorine)" as follows:

In column 1, *Descriptive name of article*, delete the present descriptive names and insert the following in lieu thereof:

Calcium hypochlorite compounds, dry, containing more than 39 percent available chlorine.

Lithium hypochlorite compounds, dry, containing more than 39 percent available chlorine.

4. Amend the item headed "Chlorate and borate mixtures" as follows:

In column 2, *Characteristic properties, etc.*, delete the present sentence and insert the following in lieu thereof:

Mixtures of chlorates and borates or magnesium chloride in varying proportions containing no other hazardous additives.

5. Amend the item headed "Chlorobenzoyl peroxide (para), dry" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Fiberboard boxes (ICC-12B) WIC, not over 70 lb. gr. wt.

6. Amend the item headed "Inflammable solids, N. O. S." as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following note under "Outside containers":

NOTE: Specification containers shall be of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

7. Amend the item headed "Lauroyl peroxide, dry" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, under "Outside containers", amend the entry "Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt." to read as follows:

Fiberboard boxes (ICC-12B) WIC, not over 70 lb. gr. wt.

8. Insert the following new item after the item headed "Motion-picture film (processed, positive or negative, slow-burning)":

In column 1, *Descriptive name of article*, insert the following:

Nickel catalyst, finely divided, activated or spent (*wet with not less than 40% by weight of water or other suitable liquid*)

In column 2, *Characteristic properties, etc.*, insert the following:

Finely divided nickel suspended in a liquid.
*When dry, subject to spontaneous heating and ignition.*
Check containers to ascertain if leakage has occurred.
Reject leaking containers or those showing signs of having leaked.

In column 3, *Label required*, insert the following:

Yellow.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
Outside containers:
Steel barrels or drums (ICC-5, 5B, 6A, 6B, 6C) not over 55 gal. cap.
Wooden boxes (ICC-15A, 15B) WIMC, not over 100 lb. gr. wt.
Fiberboard boxes (ICC-12B), WIMC, not over 65 lb. gr. wt.

In column 5, *Required conditions for transportation—Passenger vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Steel barrels or drums (ICC-5, 6A, 6B, 6C) not over 55 gal. cap.
Wooden boxes (ICC-15A, 15B) WIMC, not over 100 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIMC, not over 65 lb. gr. wt.

In column 6, *Required conditions for transportation—Ferry vessel*, insert the following:

Stowage: Ferry stowage (AA).
Outside containers:
Steel barrels or drums (ICC-5, 6A, 6B, 6C) not over 55 gal. cap.
Wooden boxes (ICC-15A, 15B) WIMC, not over 100 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIMC, not over 65 lb. gr. wt.

In column 7, *Required conditions for transportation—R. R. car ferry*, insert the following:

Stowage: Ferry stowage (BB).
Outside containers:
Steel barrels or drums (ICC-5, 6A, 6B, 6C) not over 55 gal. cap.
Wooden boxes (ICC 15A, 15B) WIMC, not over 100 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIMC, not over 65 lb. gr. wt.

9. Amend the item headed "Nitrates" by inserting "Nitrate of soda and potash" after "Nitro-carbo nitrate" and before "Nitrates, N. O. S." as follows:

In column 1, *Descriptive name of article*, insert the following:

Nitrate of soda and potash.

In column 2, *Characteristic properties, etc.*, insert the following:

*Mixture of sodium and potassium nitrate.*
*Soluble in water.*
*Involved in a fire will greatly intensify the burning of all combustible materials.*
Stow separate from all combustible materials, explosives, inflammable liquids, or acids.
Nitrates in bulk or in bags should not be stowed in the same compartment with combustible materials, explosives, inflammable liquids (red label), or acids (white label).
Carefully clean and remove all residue of nitrate remaining in a compartment used for the stowage of this substance.

In column 3, *Label required*, insert the following:

No label required.

10. Amend the item headed "Oxidizing materials, N. O. S." as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following note under "Outside containers":

NOTE: Specification containers shall be of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

11. Amend the item headed "Potassium sulfide (fused or concentrated but not ground—*may be chipped, flaked, or broken*)" as follows:

In column 1, *Descriptive name of article*, amend the third sentence beginning "Sodium sulfide containing 35% or more combined water by weight, • • •" to read as follows:

Sodium sulfide containing 35% or more combined water by weight, fused or concentrated but not ground (may be chipped, flaked, or broken), is not subject to the regulations in this subchapter when packed in steel barrels or drums that are equipped with moisture-tight closures.

12. Amend the item headed "Succinic acid peroxide, dry" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Fiberboard boxes (ICC-12B) WIC, not over 70 lb. gr. wt.

13. Amend the item headed "Thorium metal, powdered" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following under "Outside containers":

NOTE: Thorium metal powder packed in tightly and securely closed metal cans, cushioned with incombustible material in strong outside wooden or fiberboard boxes, and not exceeding 4 ounces net weight in one outside shipping container, is exempt from specification packaging, marking other than name of contents, and labeling requirements.

14. Amend the item headed "Zirconium, metallic, dry" as follows:

In column 4, *Required conditions for transportation—Cargo Vessel*, add the following under "Outside containers":

Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.

SUBPART—DETAILED REGULATIONS GOVERNING CORROSIVE LIQUIDS

Section 146.23-100 is amended by changing certain requirements for certain articles as follows:

NOTE: An "item" is defined for the purpose of these amendments as any article or group of articles within the table for which an individual set of stowage and container requirements is prescribed.

§ 146.23-100 *Table F—Classification: Corrosive liquids* • • •

1. Amend items with the following headings as indicated below:

a. Antimony pentachloride solution.
b. Alkaline caustic liquids, N. O. S.
c. Boiler compound, liquid.
d. Caustic potash, liquid.
e. Chromic acid solution.
f. Compounds, cleaning, liquid.
g. Corrosive liquid, N. O. S.
h. Cupriethylene-diamine solution.
i. Drugs, chemicals, medicines or cosmetics, N. O. S.
j. Hexamethylene diamine solution.
k. Hydriodic acid.
l. Water treatment compound, liquid.

In columns 4, 5, 6, and 7, *Required conditions for transportation*, where transportation is permitted, add the following under "Outside containers":

Carboys, in plywood drums, polyethylene (ICC-1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC-1G) not over 15 gal. cap.
Steel barrels or drums (ICC-5C) not over 110 gal. cap.
Fiberboard boxes (ICC-12B), WIC, not over 65 lb. gr. wt.

3. Amend the item headed "Acids, liquid, N. O. S." as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following note under "Outside containers":

NOTE: Specification containers shall be of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

4. Amend the item headed "Batteries, electric storage, wet" as follows:

In columns 6 and 7, *Required conditions for transportation*, amend the sentence beginning "Carload or truckload shipments of electric storage batteries • • •" by deleting at the end thereof the period, inserting a colon and by adding the following: "• • • *Provided*, That such shipments constitute the only commodity being transported in the railroad car or motor vehicle body."

5. Amend the item headed "Corrosive liquid, N. O. S." as follows:

In columns 4, 6, and 7, *Required conditions for transportation*, insert the following note under "Outside containers":

NOTE: Specification containers shall be of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

6. Insert the following new item after the item headed "Cuprietylenediamine solution":

In column 1, *Descriptive name of article*, insert the following:

Cyclohexyl trichlorosilane.

In column 2, *Characteristic properties, etc.*, insert the following:

*A water-white liquid with a pungent irritating odor.*
*Somewhat combustible.*
*Fumes readily in moist air to evolve corrosive and irritating vapors.*
*In event of spillage, flush with large quantities of water.*

In column 3, *Label required*, insert the following:

White.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-5F) not over 11 gal. cap.
(ICC-17E) STC, not over 55 gal. cap.
Steel barrels or drums (ICC-17H, 37D) STC, WIC, not over 55 gal. cap.
Wooden boxes (ICC-15A, 16B) WIC, not over 200 lb. gr. wt.
Cylinders as prescribed for any gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

7. Insert the following new item after the item headed "Diphenyl dichlorosilane":

In column 1, *Descriptive name of article*, insert the following:

Dodecyl trichlorosilane

In column 2, *Characteristic properties, etc.*, insert the following:

*A water-white liquid with a pungent irritating odor.*
*Somewhat combustible.*
*Fumes readily in moist air to evolve corrosive and irritating vapors.*
*In event of spillage, flush with large quantities of water.*

In column 3, *Label required*, insert the following:

White.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-5F) not over 11 gal. cap.
(ICC-17E) STC, not over 55 gal. cap.
Steel barrels or drums (ICC-17H, 37D) STC, WIC, not over 55 gal. cap.
Wooden boxes (ICC 15A, 16B) WIC, not over 200 lb. gr. wt.
Cylinders as prescribed for any gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

8. Amend the item headed "Electrolyte (acid) battery fluid" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

For export shipment only:
Carboys, glass, in plywood drums (ICC-1EX) not over 6½ gal. cap.

9. Insert the following new item after the item headed "Formic acid":

In column 1, *Descriptive name of article*, insert the following:

Hexadecyl trichlorosilane.

In column 2, *Characteristic properties, etc.*, insert the following:

*A water-white liquid with a pungent irritating odor.*
*Somewhat combustible.*
*Fumes readily in moist air to evolve corrosive and irritating vapors.*
*In event of spillage, flush with large quantities of water.*

In column 3, *Label required*, insert the following:

White.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC–5F) not over 11 gal. cap.
(ICC–17E) STC, not over 55 gal. cap.
(ICC–17H, 37D) STC, WIC, not over 55 gal. cap.
Wooden boxes (ICC–15A, 16B) WIC, not over 200 lb. gr. wt.
Cylinders as prescribed for any gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

10. Amend the item headed "Hydrochloric (muriatic) acid" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Carboys, boxed, glass, earthenware, clay or stone (ICC–1A) not over 13 gal. cap.
Carboys, in kegs, glass, earthenware, clay or stone (ICC–1C) not over 13 gal. cap.
Carboys, boxed, glass (ICC–1D) not over 6½ gal. cap.
Carboys, in plywood drums, glass (ICC–1E) not over 6½ gal. cap.
Carboys, in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.
Steel barrels or drums (ICC–5D) rubber-lined not over 110 gal. cap.
Rubber drums (ICC–43A) not over 30 gal. cap.
Wooden barrels or kegs:
(ICC–10A) rubber-lined, not over 50 gal. cap.
(ICC–11A, 11B) WIC, not over 200 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 200 lb. gr. wt.
Portable tanks, rubber-lined (ICC–60) not over 8,000 lb. gr. wt.
Authorized only for hydrochloric acid not over 44½% strength by weight: Tank cars (ICC–103B100–W).
Authorized only for hydrochloric acid not over 38% strength by weight: Tank cars (ICC–103B, 103B–W, 108, 108A).
For export shipment only:
Carboys, boxed, glass, earthenware, clay or stone (ICC–1X) STC, not over 6 gal. cap.
Carboys, glass, in plywood drums (ICC–1EX) STC, not over 6½ gal. cap.

NOTE: Hydrochloric acid of not over 20% strength by weight (13.25° Baume) may also be accepted in:
Wooden barrels or kegs (ICC–10A) asphalt-lined not over 50 gal. cap.

In column 5, *Required conditions for transportation—Passenger vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Carboys boxed, glass, earthenware clay or stone (ICC–1A) not over 13 gal. cap.
Carboys, in kegs, glass, earthenware, clay or stone (ICC–1C) not over 13 gal. cap.
Carboys, boxed, glass (ICC–1D) not over 6½ gal. cap.
Carboys, in plywood drums, glass (ICC–1E) not over 6½ gal. cap.
Carboys, in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.
Steel barrels or drums (ICC–5D) rubber-lined, not over 110 gal. cap.
Rubber drums (ICC–43A) not over 30 gal. cap.
Wooden barrels or kegs:
(ICC–10A) rubber-lined, not over 50 gal. cap.
(ICC–11A, 11B) WIC, not over 200 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 200 lb. gr. wt.
Portable tanks, rubber-lined (ICC–60) not over 8,000 lb. gr. wt.
Authorized only for hydrochloric acid not over 44½% strength by weight: Tank cars (ICC–103B100–W).
Authorized only for hydrochloric acid not over 38% strength by weight: Tank cars (ICC–103B, 103B–W, 108, 108A).
For export shipment only:
Carboys, boxed, glass, earthenware, clay or stone (ICC–1X) STC, not over 6 gal. cap.
Carboys, glass, in plywood drums (ICC–1EX) STC, not over 6½ gal. cap.

NOTE: Hydrochloric acid of not over 20% strength by weight (13.25° Baume) may also be accepted in: Wooden barrels or kegs (ICC–10A) asphalt-lined not over 50 gal. cap.

In column 6, *Required conditions for transportation—Ferry vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Carboys, boxed, glass, earthenware, clay or stone (ICC–1A) not over 13 gal. cap.
Carboys, in kegs, glass, earthenware, clay or stone (ICC–1C) not over 13 gal. cap.
Carboys, boxed, glass (ICC–1D) not over 6½ gal. cap.
Carboys, in plywood drums, glass (ICC–1E) not over 6½ gal. cap.
Carboys, in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.
Steel barrels or drums (ICC–5D) rubber-lined, not over 110 gal. cap.
Rubber drums (ICC–43A) not over 30 gal. cap.
Wooden barrels or kegs:
(ICC–10A) rubber-lined, not over 50 gal. cap.
(ICC–11A, 11B) WIC, not over 200 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 200 lb. gr. wt.
Motor truck vehicles having cargo tanks.
For export shipment only:
Carboys, boxed, glass, earthenware, clay or stone (ICC–1X) STC, not over 6 gal. cap.
Carboys, glass in plywood drums (ICC–1EX) STC, not over 6½ gal. cap.

NOTE: Hydrochloric acid of not over 20% strength by weight (13.25° Baume) may also be accepted in: Wooden barrels or kegs (ICC–10A) asphalt-lined not over 50 gal. cap.

In column 7, *Required conditions for transportation—R. R. car ferry*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Carboys, boxed, glass, earthenware, clay or stone (ICC–1A) not over 13 gal. cap.
Carboys, in kegs, glass, earthenware, clay or stone (ICC–1C) not over 13 gal. cap.
Carboys, boxed, glass (ICC–1D) not over 6½ gal. cap.
Carboys, in plywood drums, glass (ICC–1E) not over 6½ gal. cap.
Carboys, in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.

11. Amend the item headed "Hydrofluoric acid (original bill of lading or other shipping paper shall certify to the strength of this acid)" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, under "Outside containers," delete the following:

Hydrofluoric acid of not over 60% strength may also be accepted in:
Carboys in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.

In column 4, *Required conditions for transportation—Cargo vessel*, under "Outside containers," insert the following above "Hydrofluoric acid of not over 65% strength may also be accepted in:":

Carboys in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.

12. Amend the item headed "Hydrofluoric acid, anhydrous" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Cylinders (ICC–3, 3A, 3AA, 3B 3C 3E, 4, 4A, 25, 38) and (ICC–4B, 4BA, 4C if not brazed).
Tank cars (ICC 105, 105A300, 105A300W, 105A500, 105A500W, ARA–V).

13. Amend the item headed "Hydrofluosilicic acid (must be packed in accordance with ICC requirements)" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following under "Outside containers":

Authorized only for hydrofluosilicic acid not exceeding 32 percent strength:
Fiberboard boxes (ICC–12B) WIC not over 65 lb. gr. wt.
Carboys, in plywood drums polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC 1G) not over 15 gal. cap.

14. Insert the following new item after the item headed "Nitrohydrochloric acid":

In column 1, *Descriptive name of article*, insert the following:

Octadecyl trichlorosilane.

In column 2, *Characteristic properties, etc.*, insert the following:

*A water-white liquid with a pungent irritating odor.*
*Somewhat combustible.*
*Fumes readily in moist air to evolve corrosive and irritating vapors.*
*In event of spillage, flush with large quantities of water.*

In column 3, *Label required*, insert the following:

White.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC–5F) not over 11 gal. cap.
(ICC–17E) STC, not over 55 gal. cap.
Steel barrels or drums (ICC–17H, 37D) STC, WIC, not over 55 gal. cap.
Wooden boxes (ICC–15A, 16B) WIC, not over 200 lb. gr. wt.
Cylinders as prescribed for any gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

15. Amend the item headed "Sodium chlorite solution (not exceeding 40% sodium chlorite)" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Carboys, in plywood drums, polyethylene (ICC–1F) not over 13 gal. cap.
Carboys, boxed, polyethylene (ICC–1G) not over 15 gal. cap.

For export shipment only:
Carboys, glass, in plywood drums (ICC–1EX) STC, not over 6½ gal. cap.

16. Insert the following new item after the item headed "Sulfuric acid, fuming (oleum) (Nordhausen) (not permitted to be stowed "under deck")":

In column 1, *Descriptive name of article*, insert the following:

Sulfuryl chloride.

In column 2, *Characteristic properties, etc.*, insert the following:

*Colorless liquid.*
*Pungent odor.*
*Rapidly decomposed by alkalies and by water.*
Keep dry.

In column 3, *Label required*, insert the following:

White.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
Outside containers:
Carboys, boxed, glass, earthenware, clay or stone (ICC–1A) not over 13 gal. cap.
Carboys in kegs, glass, earthenware, clay or stone (ICC–1C) not over 13 gal. cap.
Carboys, boxed, glass (ICC–1D) not over 6½ gal. cap.
Carboys, in plywood drums, glass (ICC–1E) not over 7 gal. cap.
Carboys, boxed, glass, earthenware, clay, or stone (ICC–1X) STC, for export only, not over 6 gal. cap.
Steel barrels or drums (ICC–5A) not over 110 gal. cap.
Nickel drums (ICC–5K) not over 110 gal. cap.
Wooden barrels or kegs (ICC–11A, 11B) WIC, not over 200 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 200 lb. gr. wt.
Portable tanks (ICC–60) not over 8,000 lb. gr. wt.
Tank cars (ICC 103A, 103A–W)

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

SUBPART—DETAILED REGULATIONS GOVERNING COMPRESSED GASES

Section 146.24–1 is amended to read as follows:

§ 146.24–1 *Definition of compressed gases.* (a) A compressed gas is defined by the Interstate Commerce Commission regulations as any material or mixture having in the container either an absolute pressure exceeding 40 pounds per square inch at 70° F., or an absolute pressure exceeding 104 pounds per square inch at 130° F., or both; or any liquid having a Reid vapor pressure [1] exceeding 40 pounds per square inch absolute at 100° F. (See §§ 146.25–1 to 146.25–400, inclusive, for gases defined and classified as poisonous).

(b) Any compressed gas, as defined in paragraph (a) of this section, shall be classified as an inflammable compressed gas if any one of the following occurs:

(1) If either a mixture of 13 percent or less (by volume) with air forms an inflammable mixture [2] of the inflammability range with air is greater than 12 percent regardless of the lower limit.

(2) Using the Bureau of Explosives' Flame Projection Apparatus,[3] the flame projects more than 18 inches beyond the ignition source with valve opened fully, or, the flame flashes back and burns at the valve with any degree of valve opening.

(3) Using the Bureau of Explosives' Open Drum Apparatus,[3] there is any significant propagation of flame away from the ignition source.

(4) Using the Bureau of Explosives' Closed Drum Apparatus,[3] there is any explosion of the vapor-air mixture in the drum.

(c) Such definitions are binding upon all shippers making shipments of compressed gases by common carrier vessels engaged in interstate or foreign commerce by water. These definitions are accepted and adopted and form part of the regulations in this subchapter applying to all shippers making shipments of compressed gases by any vessel, and shall apply to the owners, charterers, agents, master, or other persons, transporting, carrying, conveying, storing, stowing or using compressed gases on board any vessel subject to R. S. 4472, as amended (46 U. S. C. 170), and the regulations in this subchapter.

Section 146.24–5 *Compressed gas defined* is deleted. (This section is now incorporated in § 146.24–1).

Section 146.24–30 is amended to read as follows:

§ 146.24–30 *"On deck" stowage.* Compressed gases which are permitted any type of "On deck" stowage by the provisions of the table forming § 146.24–100, shall be properly secured, when so stowed, in a manner satisfactory to the master or other person in charge of the vessel consistent with the following conditions:

(a) That the vessel has open spaces on deck suitable for such purposes of stowage.

(b) That the vessel has sufficient freeboard to afford structural protection from seas or adequate protection and security by bulwarks.

(c) Cylinders shall be stowed on their sides unless boxes, cribs or racks are provided for vertical stowage.

(d) Cylinders shall not be carried "On deck" over holds containing coal.

(e) When stowed "On deck protected" the cylinders shall be protected from the direct rays of the sun by means of structural erections or awnings. Tarpaulins covering cylinders and in contact therewith are not considered adequate protection. Protection by use of wood dunnage is permitted.

Section 146.24–40 is amended to read as follows:

§ 146.24–40 *Stowage clearance.* Containers of compressed gas stowed either "On deck" or "Under deck" on board vessels shall be kept from direct contact with the vessel's side or bulwark by means of dunnage or shoring or other effective means.

Section 146.24–45 *Stowage clearance, vessels on inland waters* is deleted.

Section 146.24–50 is amended to read as follows:

§ 146.24–50 *Stowage securing means.* (a) Cylinders of compressed gas stowed on their sides shall be dunnaged under the first tier so that they will not rest directly on a steel or iron deck. Each additional tier shall be stowed in the cantlines of the lower tier and in no case shall cylinders be stowed bilge to bilge or directly on top of one another. The tiers may be stepped back and the ends alternated in order to clear the flange. Suitable lashing shall be provided to prevent movement in any direction.

[1] American Society for Testing Materials Method of Test for Vapor Pressure of Petroleum Products (D–323). Copies of this specification are available for reading purposes at U. S. Coast Guard Headquarters, Washington 25, D. C. This specification may be purchased from the American Society for Testing Materials, 1916 Race Street, Philadelphia 3, Pa.

[2] These limits shall be determined at atmospheric temperature and pressure. The method of sampling and the test procedure shall be acceptable to the Interstate Commerce Commission (Bureau of Explosives). The inflammability range is defined as the difference between the minimum and maximum percentage by volume of the material in mixture with air that forms an inflammable mixture.

[3] A description of the Bureau of Explosives' Flame Projection Apparatus, Open Drum Apparatus, Closed Drum Apparatus, and method of tests may be procured from the Bureau of Explosives, 30 Vesey Street, New York 7, N. Y.

(b) When cylinders are stowed in a vertical position they shall be stowed in a block, cribbed or boxed in with suitable sound lumber and the box or crib dunnaged at least 4 inches off the steel or iron deck. The cylinders in the box or crib shall be braced to prevent any movement. The box or crib shall be securely chocked and lashed to prevent movement in any direction.

(c) Lashings in all cases shall be secured to pad eyes or other permanent structural parts of the vessel. Pipe rails shall not be used to secure lashings.

Section 146.24-80 is amended to read as follows:

§ 146.24-80 *Liquid chlorine in bulk*—(a) *Scope.* (1) Liquid chlorine may be transported in bulk on steel barges when loaded in unfired pressure vessel type tanks independent of the structure of the vessel.

(2) Barges proposed to be used for the transportation of chlorine in bulk, the construction or conversion of which is contracted for on or after April 1, 1954, shall meet the requirements of Subchapter I (Cargo and Miscellaneous Vessels) of this chapter.

(b) *Design and construction of cargo tanks.* (1) The cargo tanks shall meet the requirements of Class I arc-welded unfired pressure vessels and shall be fabricated, inspected and tested in accordance with the applicable requirements of Subchapter F (Marine Engineering) of this chapter.

(2) Tanks shall be designed for a pressure of not less than 300 pounds per square inch gage.

(3) Each tank shall be provided with 15 x 18-inch or 18-inch minimum diameter manhole, fitted with a cover located above the maximum liquid level and as close as possible to the top of the tank.

(c) *Markings.* (1) Upon satisfactory completion of tests and inspection, the following markings at least ⅜ inch high shall be stamped into a noncorrodible plate permanently attached to the tank by welding.

(Name and address of fabricator)
——— p. s. i. ——— p. s. i.
(design pressure) (shop test pressure)
(Inspector's number, initials and CG symbol)
(Manufacturer's serial number)
——— ——— U. S. gallons
(Date of manufacture) (Water capacity)

(2) In addition to the markings required to be stamped on the tank, the legend "chlorine" shall be conspicuously and legibly marked upon the dome or upper portion of the tank in letters at least 4 inches high.

(3) All tank inlet and outlet connections, except safety relief valves shall be labeled to designate whether they terminate in the vapor or liquid space. Labels of noncorrodible material may be attached to the valves.

(4) All tank markings shall be permanently and legibly stamped in a readily visible position.

(d) *Installation of cargo tanks.* (1) Independent tanks shall be arranged in the barge so as to provide a minimum clearance of not less than 24 inches from the barge side and not less than 15 inches from the barge bottom. Where more than one tank is installed in a barge, the distance between such tanks shall not be less than 15 inches, unless otherwise approved by the Commandant. Alternate provisions may be made for moving such tanks to provide for adequate inspection and maintenance of barge structure and the tanks.

(2) The design shall show the manner in which the tanks are to be installed, supported, and secured on board the barge and shall be approved prior to the installation. Tanks shall be supported in steel saddles and securely anchored in place. No appendages shall be welded to the tanks after they have been stress-relieved unless authorized by the Commandant.

(3) Tanks may be installed "on deck" or "under deck" with the tank protruding above deck. On installations where a portion of the tank extends above the weather deck, provision shall be made to maintain the weather tightness of the deck, except that barges operating on protected inland waters may have tanks located in the holds of hopper type barges without water-tightness of the deck being maintained. All tanks shall be installed with the manhole opening and fittings located above the weather deck.

(4) The hold or holds in which tanks are located "under deck" shall be provided with mechanical ventilation of sufficient capacity to assure a change of air every 3 minutes.

(e) *Cargo tanks on barges.* Sides of tank barges shall be fitted with suitable guards as added precaution against the cargo tanks being damaged as a result of collision.

(f) *Valves, fittings and accessories.* (1) All valves, flanges, fittings and accessory equipment shall be of a type suitable for use with chlorine and shall be made of forged steel, cast steel, or nonferrous metal corrosion resistant to chlorine in either the gas or liquid phase. Valves, flanges and fittings shall be of the square or round tongue and groove type or of raised face, American Standard Association 300-pound standard minimum, fitted with sheet lead or other suitable gasket material. Welding fittings shall be used wherever possible, and the number of pipe joints held to a minimum. Screwed joints in cargo lines and vapor lines are prohibited.

(2) Each tank shall be provided with the necessary fill and discharge liquid and vapor shut-off valves, safety valves, and connections for pressure gages which shall be grouped in the smallest practicable space and shall be protected against mechanical damage and tampering by a suitable protective housing. Other openings in tanks, except as specifically permitted in this section, are prohibited. A drain connection shall be provided from the protective housing and lead overboard just above the deepest load line.

(3) All liquid and vapor connections to the tanks, except safety relief valves, shall have manually operated shut-off valves located as close to the tank as practicable.

(4) Excess flow valves, where required by this section, shall close automatically at the rated flows of vapor or liquid as specified by the manufacturer. The piping, including valves, fittings and appurtenances, protected by excess flow valves shall have a greater capacity than the rated flow of the excess flow valve.

(5) Liquid level gaging devices of any type are prohibited on chlorine tanks.

(6) Pressure gage connections need not be fitted with excess flow valves if the openings are not larger than No. 54 drill size.

(7) Excess flow valves shall be located on the inside of the tank. Back pressure check valves may be located on the inside of the tank or on the outside where the piping enters the tank. When installed on the outside, installation shall be in such a manner that any undue strain will not cause breakage between the tank and the back pressure check valve.

(8) Excess flow valves may be designed with a bypass, not to exceed No. 60 drill size opening, to allow for equalization of pressure.

(g) *Filling and discharge pipes.* (1) Filling connections shall be provided with one of the following:

(i) Combination back pressure check valve and excess flow valve;

(ii) One double or two single back pressure check valves; or

(iii) A positive shut-off valve in conjunction with either an internal back pressure check valve or an internal excess flow valve.

(2) All other liquid and vapor connections to tanks, except filling connections, safety relief valves, and pressure gage connections, shall be equipped with automatic excess flow valves.

(h) *Cargo piping.* (1) Piping shall be of seamless drawn black steel of a thickness of not less than schedule 80.

(2) Piping shall be provided with adequate support to take the weight of the piping off the valves and fittings. Where necessary, provision shall be made for expansion and contraction of piping by means of seamless steel pipe expansion bends. Slip type expansion joints are prohibited.

(3) In multiple tank installations the tanks shall not be interconnected by piping or manifolds. More than one cargo tank may be filled or discharged at a time, provided each tank is filled from or discharged to shore tanks through separate lines.

(i) *Safety relief valves.* (1) Each tank shall be fitted with one or more approved safety relief valves, designed, constructed and flow-tested for capacity in conformance with Subpart 162.018 in Subchapter Q (Specifications) of this chapter. The safety valve requirements in this paragraph are based on unlagged tanks. On lagged tanks the Commandant, United States Coast Guard, will give special consideration to safety valves proposed to be used.

(2) Each safety relief valve shall start to discharge at a pressure not in excess of the maximum allowable pressure of the tank.

(3) The safety relief valve(s) shall have a relieving capacity sufficient to prevent a rise of pressure in the tank of more than 20 percent above the maximum allowable pressure when the safety relief valve(s) are blowing.

(4) The minimum rates of discharge of safety relief valves used on unlagged tanks shall be not less than determined by the following formula:

$$Q = 53.526A^{0.82}$$

where:

$Q$ = minimum required rate of discharge, in cubic feet per minute, of standard air at 120 percent of the maximum set pressure of the safety relief valve. Discharge measured at 60° F. and atmospheric pressure (14.7 p. s. i. a.).

$A$ = total external surface area of the tank, in square feet. $\pi(D \times U)$, for cylindrical tank with hemispherical heads. $\pi D(U + 0.3D)$, for cylindrical tank with spherically dished or semi-ellipsoidal heads. $\pi D^2$, for spherical tank.

$D$ = outside diameter of the tank, in feet.

$U$ = external overall length of the tank, in feet.

(5) Safety relief valve(s) shall be attached to the tank near the highest point of the vapor space. Shut-off valves shall not be installed between the tanks and the safety relief valve(s).

(6) Each safety relief valve shall be tested in the presence of an inspector at the site of installation before or after mounting prior to being placed in service. The test shall prove that the safety relief valve will start to discharge at a pressure not in excess of the maximum allowable pressure of the tank. (For periodic tests see paragraph (o) (3) of this section.)

(j) *Filling density.* The filling density, or the percent ratio of the liquefied gas that may be loaded into the tank to the weight of water the tank will hold at 60° F., shall not exceed 125 percent.

(k) *Venting.* (1) Cargo tanks of tank barges shall have the safety relief valve outlets connected to individual or common risers which shall extend to a reasonable height above the deck, or, the safety relief valve escape may be led to a common discharge header. Where the escape of vapors from the venting system may interfere with towing operations or the operation of the barge in inland waters would be a hazard to installations extending above deck, an installation acceptable to the Commandant may be used. This arrangement shall be such as to minimize the hazard of escaping vapors.

(2) The capacity of branch vents or vent headers shall depend upon the number of cargo tanks connected to such branch or header as provided in Table 146.24-80 (k).

Table 146.24-80 (k)—Capacity of Branch Vents or Vent Headers.

| Number cargo tanks: | Percent total valve discharge |
|---|---|
| 1 or 2 | 100 |
| 3 | 90 |
| 4 | 80 |
| 5 | 70 |
| 6 or more | 60 |

(3) Return bends and restrictive pipe fittings are prohibited. Vents and headers shall be so installed as to prevent stresses on safety relief valve mountings.

(4) When vent discharge risers are installed, they shall be so located as to provide protection against physical damage and be fitted with loose raincaps.

(5) Suitable provision shall be made for draining the vent escape piping if liquid can collect therein.

(l) *Filling and discharging operation.* (1) The maximum amount of liquid chlorine that may be loaded into the cargo tanks shall be determined by weight and shall not exceed the filling density specified in paragraph (j) of this section.

(2) Prior to the start of filling operations, care shall be exercised to insure that the cargo tank(s) is empty and free from foreign matter. After all pipe connections and fittings are made tight, the cargo tank(s) shall be evacuated to at least 20 inches of mercury.

(3) The chlorine shall be loaded through a direct pipe line from the shore tank that is mounted on scales so that an amount of chlorine predetermined by weight is loaded into the cargo tank(s) on board the barge.

(4) After the filling operation is completed the vapor above the liquid chlorine in the cargo tank shall be analyzed to determine the percentage of gaseous chlorine in the vapor space. If it should contain less than 80 percent chlorine, vapors shall be withdrawn through the vent or vapor line until the vapor content in the cargo tanks show at least 80 percent chlorine.

(5) After filling connections are removed, upon completion of the loading of a cargo tank, all connections at the tank shall be tested for leakage of chlorine by the aqua ammonia method.

(6) The chlorine in the cargo tanks shall be discharged by the pressure differential method. Where the vapor pressure of the chlorine is not sufficient to force the liquid out of the tank, compressed air may be used to secure the desired rate of discharge, provided the air is oil-free and thoroughly dried by passing it over activated aluminum oxide, silica gel, or other acceptably drying agent. The compressed air system shall contain a relief valve arranged and set so that the air pressure in the cargo tank cannot exceed 150 pounds per square inch gage.

(7) After completion of the filling or discharge operations, the excess liquid chlorine in the cargo piping shall be removed. The filling and discharge piping shall be disconnected at the cargo tanks, except during filling and discharge operations. After disconnecting the cargo piping, both ends of the line shall be closed and all inlet and outlet valves on the tank shall be plugged or fitted with blind flanges.

(8) Plans showing alternate methods of filling and discharging the lading may be submitted for approval.

(m) *Cargo hose.* Schedule 80 black steel or wrought iron pipe having metallic flexible joints or other pipe acceptable to the Commandant, shall be fitted with liquid cargo or vapor lines during filling or discharge of the cargo tanks.

(n) *Special operating requirements.* (1) Repairs involving welding or burning shall not be undertaken on the tanks or piping while chlorine in either liquid or vapor state is present in the system.

(2) During the time chlorine is laden in the tanks the barge shall be under constant surveillance. A towing vessel engaged in towing such barges shall not leave the barge unattended except when the barge is moored at a pier, wharf, dock, or other terminal, and then only if such facility is provided with watchman or guard service. When the barge is at the consignor's or consignee's terminal, watchman or guard service shall be provided by said consignor or consignee.

(3) The Interstate Commerce Commission's standard "Dangerous" placard shall be displayed in four locations on the barge when chlorine is laden in the tanks. A placard shall be posted approximately amidships on each side and facing outboard. A placard shall also be posted on each end of the barge at about the ends of the tanks facing outboard. Racks for mounting such placards shall be so arranged as to provide clear visibility and be protected from becoming readily damaged or obscured. After unloading and before a tank or tanks are gas-freed, the placard shall be reversed to show the "Dangerous-Empty" legend.

(4) At least two units of self-contained oxygen breathing apparatus shall be carried on board the barge at all times. One unit shall be stowed forward of the cargo tanks and one unit aft of the cargo tanks.

(5) Unless authorized by the Commandant, no other kind of cargo except liquid caustic soda shall be on board a barge at the same time that chlorine in the liquid or vapor state is present in a cargo tank. Chlorine tanks shall not be installed within caustic soda tanks.

(6) Authorization from the Commandant shall be obtained to transport lading other than chlorine in tanks of this service.

(o) *Periodic inspection and tests.* (1) Each cargo tank shall be subjected to an internal and external examination biennially.

(2) Each cargo tank shall be subjected to hydrostatic test biennially of one and one-half times the maximum allowable pressure as determined by the safety relief valve setting.

(3) The safety relief valves shall be popped in the presence of an inspector by use of water, compressed air, or inert compressed gas at the time of the biennial inspection, or at such time as may be required by the inspector to determine the accuracy of adjustment; and, if necessary, such valves shall be repaired and reset.

(p) *Stores on board.* The following substances shall not be used as stores on board barges transporting chlorine in bulk: Hydrogen, methane, liquefied petroleum gases, coal gas, acetylene, ammonia, turpentine, compounds containing metallic powders, finely divided metals or finely divided organic materials.

Section 146.24-100 is amended by changing or adding certain requirements for certain articles as follows:

Cylinders:
(With valve protection cap.)
(With dished heads.)
(Boxed.)
Tank cars (ICC–105A300, 105A300W, 106A500, 106A500X, 110A500W).
Tanks (ICC–106A500, 106A500X, 110A-500W).

In column 5, *Required conditions for transportation—Passenger vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
"Cargo hatch trunkway."
Containers:
Cylinders:
(With valve protection cap.)
(With dished heads.)
(Boxed.)
Tanks (ICC–106A500, 106A500X, 110A-500W).

In column 6, *Required conditions for transportation—Ferry vessel*, insert the following:

Ferry stowage (AA).
Containers:
Cylinders:
(With valve protection cap).
(With dished heads).
(Boxed).
Tanks (ICC–106A500, 106A500X, 110A-500W).

In column 7, *Required conditions for transportation—R. R. car ferry*, insert the following:

Ferry stowage (BB).
Containers:
Cylinders:
Tank cars (ICC–105A300, 105A300W, 106A500, 106A500X, 110A500W).
Tanks (106A500, 106A500X, 110A500W).

2. Insert the following new item after the item headed "Monochlorodifluoromethane".

In column 1, *Descriptive name of article*, insert the following:

Monochloropentafluoroethane.

In column 2, *Characteristic properties, etc.*, insert the following:

*Noninflammable gas.*
*Excessive quantities in an enclosed space may cause suffocation.*

In column 3, *Label required*, insert the following:

Green gas.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
"Under deck away from heat."
Containers:
Cylinders:
(With valve protection cap).
(With dished heads).
(Boxed).

In column 5, *Required conditions for transportation—Passenger vessel*, insert the following:

Stowage:
"On deck protected."
"On deck under cover."
"Tween decks readily accessible."
"Cargo hatch trunkway."
Containers:
Cylinders:
(With valve protection cap).
(With dished heads).
(Boxed).

In column 6, *Required conditions for transportation—Ferry vessel*, insert the following:

Ferry stowage (AA).
Containers:
Cylinders:
(With valve protection cap.)
(With dished heads.)
(Boxed.)

In column 7, *Required conditions for transportation—R. R. Car ferry*, insert the following:

Ferry stowage (BB).
Containers:
Cylinders.

3. Amend the item headed "Tetrafluoroethylene, inhibited" as follows:

In column 2, *Characteristic properties, etc.*, delete "Noninflammable gas," and insert the following in lieu thereof:

Inflammable gas.

In column 3, *Label required*, delete "Green gas" and insert the following in lieu thereof:

Red gas.

In columns 4 and 5, *Required conditions for transportation*, under "Stowage" delete the following:

"Tween decks readily accessible" and "Under deck away from heat".

4. Amend the item headed "Trifluorochloroethylene" as follows:

In column 4, *Required conditions for transportation—Cargo vessels*, add the following under "Containers":

Tank cars (ICC–105A300, 105A300W, 106A-500, 106A500W).
Tanks (106A500, 106A500X).

In column 5, *Required conditions for transportation—Passenger vessel*, add the following under "Containers":

Tanks (106A500, 106A500X).

In column 6, *Required conditions for transportation—Ferry vessel*, add the following under "Containers":

Tanks (106A500, 106A500X).

In column 7, *Required conditions for transportation—R. R. car ferry*, add the following under "Containers":

Tank cars (ICC–105A300, 105A300W, 106A-500, 106A500W).
Tanks (106A500, 106A500X).

SUBPART 146.25—DETAILED REGULATIONS GOVERNING POISONOUS ARTICLES

Section 146.25–55 is amended to read as follows:

§ 146.25–55 *Exemptions for poisons, Class B.* (a) Poisonous liquids, Class B, as defined in this subpart, except aniline oil; chlorpicrin and chlorpicrin mixtures containing no compressed gas or poisons, liquid, Class A; hydrocyanic acid solutions; methyl bromide; motor fuel antiknock compound; parathion; phenyldichlorarsine; tetraethyl lead; thiophosgene; hexaethyl tetraphosphate; methyl parathion; tetraethyl dithio pyrophosphate; and tetraethyl pyrophosphate in tightly closed inside containers securely cushioned when necessary to prevent breakage, and packed as follows are exempt from specification packaging, marking other than name of contents, and labeling requirements:

(1) In glass or earthenware containers not over 1 quart capacity each, or in metal containers not over 1 gallon capacity each, packed in strong outside wooden boxes or barrels.

(2) In glass or earthenware containers not over 1 pint capacity each, or in metal containers not over 1 quart capacity each, packed in strong outside fiberboard boxes.

(b) Poisonous solids, Class B, except cyanides, other than those specified in paragraphs (c) and (d) of this section, and beryllium metal powder, in tightly closed inside containers, securely cushioned when necessary to prevent breakage and packed as follows are exempt from specification packaging, marking other than name of contents, and labeling requirements:

(1) In inside glass, earthenware or composition bottles or jars or metal containers or lock-corner sliding-lid wooden boxes, of not over 5 pounds capacity each, or chipboard, pasteboard, or fiber cartons, cans, or boxes, of not over 1 pound capacity each, packed in outside wooden or fiberboard boxes or wooden barrels or kegs. Net weight of contents of outside container not over 100 pounds.

(2) In inside chipboard, pasteboard, or fiber cartons, cans, or boxes, of not over 5 pounds capacity each, packed in outside fiberboard or wooden boxes. Not more than 5 of these cartons shall be packed in any outside container.

(c) Cyanides, except cyanide of calcium and mixtures thereof (see paragraph (d) of this section), when packed and described as follows are exempt from specification packaging and labeling requirements:

(1) Cyanides, or cyanide mixtures, in tightly closed glass, earthenware, or metal inside containers, not over 1 pound each, securely cushioned and packed in outside wooden or fiberboard boxes, or in wooden barrels. Net weight of cyanide mixtures in any outside container, not over 25 pounds.

(2) Cyanide mixtures in tightly closed glass, earthenware, or metal inside containers, securely cushioned and packed in outside wooden or fiberboard boxes, or in wooden barrels. Net weight of cyanide mixtures in any outside container not over 5 pounds.

(3) Cyanides of copper, zinc, lead and silver.

(d) Cyanide of calcium and mixtures thereof when packed and described as follows are exempt from specification packaging and labeling requirements:

(1) Cyanide of calcium and mixtures thereof in tightly closed metal inside containers, not over 1 pound each, securely cushioned and packed in outside wooden or fiberboard boxes, or in wooden barrels. Net weight of cyanide of calcium or mixtures thereof in any outside container, not over 25 pounds.

(2) Cyanide of calcium or mixtures thereof in tightly closed metal inside containers, securely cushioned and packed in outside wooden or fiberboard boxes, or in any outside container, not over 5 pounds.

(e) Such limited quantity shipments may be accepted on board all vessels subject to the regulations in this part provided the bill of lading or other shipping paper correctly describes the article in accordance with the true name as shown in the commodity list. Stowage shall be "On deck under cover" or "Tween decks" in a compartment not subject to artificial heat.

Section 146.25–200 is amended by changing certain requirements for certain articles as follows:

NOTE. An "item" is defined for the purpose of these amendments as any article or group of articles within the table for which an individual set of stowage and container requirements is prescribed.

§ 146.25–200 *Table H—Classification: Class B; less dangerous poisons.* * * *

1. Amend items with the following headings so as to include "5C" in every case where "(ICC–5, 5A, 5B)" appears in columns 4, 5, 6, or 7 under "Outside containers," "Steel barrels or drums" requirements so that it will read "(ICC–5, 5A, 5B, 5C) not over 55 gal. cap."

a. Acetone cyanhydrin.
b. Alcohol, allyl, liquid.
c. Arsenic chloride (arsenous), liquid.
d. Arsenical compounds or mixtures, N. O. S., liquid.
e. Dinitrobenzol, liquid.
f. Drugs, chemicals, medicines or cosmetics, N. O. S.
g. Insecticide, liquid.
h. Mercuric iodide, solution.
i. Nicotine hydrochloride.
j. Nitrobenzol, liquid.
k. Nitroxylol.
l. Poisonous liquids, N. O. S.
m. Sodium arsenite (solution), liquid.
n. Xylidene.

2. Insert the following new item after the item headed "Alcohol, allyl, liquid"; In column 1, *Descriptive name of article*, insert the following:

Aldrin.
Aldrin mixture, dry, with more than 15% aldrin.

In column 2, *Characteristic properties, etc.*, insert the following:

*Poisonous.*
*Do not breathe air laden with this substance.*
*Do not allow in contact with skin.*
Stow away from living quarters and foodstuffs.

In column 3, Label required, insert the following:

Poison.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC 5, 5A, 5B, 6B, 6C) not over 1,760 lb. gr. wt.
(ICC-6A) not over 880 lb. gr. wt.
(ICC 17E, 17H, 37D) STC, not over 300 lb. gr. wt.
(ICC-37H) STC, not over 200 lb. net wt.
Wooden barrels or kegs:
(ICC 10A, 10B, 10C) not over 600 lb. net wt.
(ICC-11A) not over 115 lb. net wt.
Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 100 lb. net wt.
Wooden kits (ICC-18B) WPL, not over 30 lb. net wt.
Fiberboard boxes (ICC-12B, 12C) WIC, not over 50 lb. net wt.
Fiber drums:
(ICC-21A) not over 225 lb. net wt.
(ICC-21B) not over 200 lb. net wt.
Plywood drums (ICC-22A) not over 115 lb. net wt.
Tank cars (ICC 103, 103A, 103W, 103A W).

Authorized only for dry mixtures containing not more than 20% aldrin and no other material classed as dangerous by the regulations in this part:
Triplex bags (ICC 36A, 36B) Multiwall paper bags (ICC-44B, 44C, 44D).

NOTE: Dry mixtures containing not more than 15% aldrin and no other material classed as dangerous under the regulations in this part are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 5, *Required conditions for transportation—Passenger vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B, 6B, 6C) not over 1,760 lb. gr. wt.
(ICC 6A) not over 880 lb. gr. wt.
(ICC–17E, 17H, 37D) STC, not over 300 lb. gr. wt.
(ICC–37H) STC, not over 200 lb. net wt.
Wooden barrels or kegs:
(ICC–10A, 10B, 10C) not over 600 lb. net wt.
(ICC–11A) not over 115 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 100 lb. net wt.
Wooden kits (ICC–18B) WPL, not over 30 lb. net wt.
Fiberboard boxes (ICC–12B, 12C) WIC, not over 50 lb. net wt.
Fiber drums:
(ICC–21A) not over 225 lb. net wt.
(ICC–21B) not over 200 lb. net wt.
Plywood drums (ICC–22A) not over 115 lb. net wt.

Authorized only for dry mixtures containing not more than 20% aldrin and no other material classed as dangerous by the regulations in this part:
Triplex bags (ICC–36A, 36B) Multiwall paper bags (ICC–44B, 44C, 44D)

NOTE: Dry mixtures containing not more than 15% aldrin and no other material classed as dangerous under the regulations in this part are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 6, *Required conditions for transportation—Ferry vessels*, insert the following:

Ferry stowage (AA).
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 6B, 6C) not over 1,760 lb. gr. wt.
(ICC 6A) not over 880 lb. gr. wt.
(ICC–17E, 17H, 37D) STC, not over 300 lb. gr. wt.
(ICC–37H) STC, not over 200 lb. net wt.
Wooden barrels or kegs:
(ICC–10A, 10B, 10C) not over 600 lb. net wt.
(ICC–11A) not over 115 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 100 lb. net wt.
Wooden kits (ICC–18B) WPL, not over 30 lb. net wt.
Fiberboard boxes (ICC–12B, 12C) WIC, not over 50 lb. net wt.
Fiber drums:
(ICC–21A) not over 225 lb. net wt.
(ICC–21B) not over 200 lb. net wt.
Plywood drums (ICC–22A) not over 115 lb. net wt.

Authorized only for dry mixtures containing not more than 20% aldrin and no other material classed as dangerous by the regulations in this part:
Triplex bags (ICC–36A, 36B.) Multiwall paper bags (ICC–44B, 44C, 44D).

NOTE: Dry mixtures containing not more than 15% aldrin and no other material classed as dangerous under the regulations in this part are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 7, *Required conditions for transportation—R. R. car ferry*, insert the following:

Ferry stowage (BB).
Outside containers:
Steel barrels or drums:
(ICC 5, 5A, 5B, 6B, 6C) not over 1,760 lb. gr. wt.
(ICC 6A) not over 880 lb. gr. wt.
(ICC–17E, 17H, 37D) STC, not over 300 lb. gr. wt.
(ICC 37H) STC, not over 200 lb. net wt.
Wooden barrels or kegs:
(ICC–10A, 10B, 10C) not over 600 lb. net wt.
(ICC–11A) not over 115 lb. net wt.
Wooden boxes (ICC–15A, 15B, 15C, 16A, 19A) WIC, not over 100 lb. net wt.
Wooden kits (ICC–18B) WPL, not over 30 lb. net wt.
Fiberboard boxes (ICC–12B, 12C) WIC, not over 50 lb. net wt.
Fiber drums:
(ICC–21A) not over 225 lb. net wt.
(ICC–21B) not over 200 lb. net wt.
Plywood drums (ICC–22A) not over 115 lb. net wt.
Tank cars (ICC–103, 103A, 103W, 103A W)

Authorized only for dry mixtures containing not more than 20% aldrin and no other material classed as dangerous under the regulations in this part:
Triplex bags (ICC–36A, 36B) Multiwall paper bags (ICC–44B, 44C, 44D)

NOTE: Dry mixtures containing not more than 15% aldrin and no other material classed as dangerous under the regulations

in this part are exempt from specification packaging, marking other than name of contents, and labeling requirements.

3. Insert the following new item after the item headed "Aldrin":

In column 1, *Descriptive name of article*, insert the following:

Aldrin mixture, liquid.

In column 2, *Characteristic properties, etc.*, insert the following:

*Poisonous liquid mixtures.*
*May be absorbed through the skin, through digestive organs, or from vapor through respiratory organs.*
Stow away from living quarters and foodstuffs.

In column 3, *Label required*, insert the following:

Poison.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-17C, 17E) STC, not over 55 gal. cap.
(ICC-37D) STC, not over 10 gal. cap.
Wooden barrels or kegs:
(ICC-10A, 10B, 10C) not over 50 gal. cap. and not exceeding 600 lb. net wt.
(ICC-11A, 11B) WIC, not over 200 lb. gr. wt.
Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Cylinders as prescribed for any compressed gas except acetylene.
Tank cars (ICC-103, 103A, 103W, 103A-W)
Authorized only for viscous mixtures or those which may become partially solid:
Steel barrels or drums (ICC-6A, 6B, 6C) not over 55 gal. cap.
Steel barrels or drums (ICC-17H) STC, not over 55 gal. cap.

In column 5, *Required conditions for transportation—Passenger vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-17C, 17E) STC, not over 55 gal. cap.
(ICC-37D) STC, not over 10 gal. cap.
Wooden barrels or kegs:
(ICC-10A, 10B, 10C) not over 50 gal. cap. and not exceeding 600 lb. net wt.
(ICC-11A, 11B) WIC, not over 200 lb. gr. wt.
Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Cylinders as prescribed for any compressed gas except acetylene.
Authorized only for viscous mixtures or those which may become partially solid:
Steel barrels or drums (ICC-6A, 6B, 6C) not over 55 gal. cap.
Steel barrels or drums (ICC-17H) STC, not over 55 gal. cap.

In column 6, *Required conditions for transportation—Ferry vessel*, insert the following:

Ferry stowage (AA).
Outside containers:
Steel barrels or drums:
ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-17C, 17E) STC, not over 55 gal. cap.
(ICC-37D) STC, not over 10 gal. cap.
Wooden barrels or kegs:
(ICC-10A, 10B, 10C) not over 50 gal. cap. and not exceeding 600 lb. net wt.
(ICC-11A, 11B) WIC, not over 200 lb. gr. wt.
Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Cylinders as prescribed for any compressed gas except acetylene.

Authorized only for viscous mixtures or those which may become partially solid:
Steel barrels or drums (ICC-6A, 6B, 6C) not over 55 gal. cap.
Steel barrels or drums (ICC-17H) STC, not over 55 gal. cap.

In column 7, *Required conditions for transportation—R. R. car ferry*, insert the following:

Ferry stowage (BB)
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B, 5C) not over 55 gal. cap.
(ICC-17C, 17E) STC, not over 55 gal. cap.
(ICC-37D) STC, not over 10 gal. cap.
Wooden barrels or kegs:
(ICC-10A, 10B, 10C) not over 50 gal. cap. and not exceeding 600 lb. net wt.
(ICC-11A, 11B) WIC, not over 200 lb. gr. wt.
Wooden boxes (ICC-15A, 15B, 15C, 16A, 19A) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Cylinders as prescribed for any compressed gas except acetylene.
Tank cars (ICC-103, 103A, 103W, 103A-W).

Authorized only for viscous mixtures or those which may become partially solid:
Steel barrels or drums (ICC-6A, 6B, 6C) not over 55 gal. cap.
Steel barrels or drums (ICC-17H) STC, not over 55 gal. cap.

4. Amend the item headed "Beryllium metal powder" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following under "Outside containers":

Fiber drums:
(ICC-21A) WIC, not over 225 lb. net wt.
(ICC-21B) WIC, not over 200 lb. net wt.

5. Amend the item headed "Carbolic acid (phenol) solid:" as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, under "Outside containers", amend the first entry under "Fiberboard boxes" to read as follows:

(ICC-12B) WIC, not over 84 lb. gr. wt.

6. Amend Item headed "Cyanides or cyanide mixtures, dry" as follows:

In column 1, *Descriptive name of article*, insert the following after "Calcium cyanide, solid":

Cyanide of calcium mixtures, solid

7. Amend the item headed "Methyl bromide" as follows:

In columns 4 and 7, *Required conditions for transportation*, under "Outside containers", delete the present "tank cars" and insert the following in lieu thereof:

Tank cars (ICC-104A, 104A-W, 105A300, 105A300-W, 105A400, 105A400W, 105A500, 105A500W, 105A600, 105A600W, 106A500, 106A500X, 106A800).

8. Amend the item headed "Parathion, liquid" as follows:

In column 1, *Descriptive name of article*, after "Parathion, liquid", add "Methyl parathion, liquid"; after "Parathion mixtures, liquid (*containing more than 50% parathion by weight*)", add "Methyl parathion mixtures, liquid (*containing more than 50% parathion by weight*)."

In column 2, *Characteristic properties, etc.*, amend the 6th sentence to read as follows: "*Liquid parathion or methyl parathion mixtures (solutions, emulsions or emulsifiable liquids) containing more than 50% parathion or methyl parathion by weight.*"

In column 4, *Required conditions for transportation—Cargo vessel*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B) WIMC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.
Authorized only for "Parathion, liquid" and "Methyl parathion, liquid":
Cylinders as prescribed for any compressed gas except acetylene.

9. Amend the item headed "Parathion mixtures, liquid (*containing not more than 50% parathion by weight*)" as follows:

In column 1, *Descriptive name of article*, after "Parathion mixtures, liquid (*containing not more than 50% parathion by weight*)", insert "Methyl parathion mixtures, liquid (*containing not more than 50% methyl parathion by weight*)."

In column 2, *Characteristic properties, etc.*, amend the first sentence to read as follows: "*Liquid parathion or methyl parathion mixtures (solutions, emulsions or emulsifiable liquids) containing not more than 50% parathion or methyl parathion by weight.*"

In columns 4, 5, 6, and 7, *Required conditions for transportation*, delete the present requirements under "Outside containers" and add the following in lieu thereof:

Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B, 15C) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.
Authorized only for mixtures that are not classified as flammable under the regulations in this part: Steel drums (ICC-17E) STC, not over 10 gal. cap.

NOTE: Mixtures (solutions, emulsions or emulsifiable liquids) containing not more than 25% parathion or methyl parathion by weight, in inside metal containers not over 8 fluid ounces capacity each, packed in strong outside containers together with sufficient absorbent material to completely absorb the liquid in the event of leakage, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

10. Amend the item headed "Perchloro-methyl-mercaptan" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following under "Outside containers":

Steel barrels or drums, lead-lined (ICC-5H) not over 33 gal. cap.

11. Amend the item headed "Phosgene" as follows:

In column 4, *Required conditions for transportation—Cargo vessel*, add the following under "Outside containers":

Authorized for "Phosgene" only: Tank cars (ICC-105A500, 106A500X) equipped with valve protection caps, gas tight, which must be approved by the Bureau of Explosives; containers must not be equipped with safety devices of any kind; containers must be filled so that they will not be liquid full at 130° F.

12. Amend the item headed "Poisonous liquids, N. O. S." as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following note at the end of "Outside containers":

NOTE: Poisonous liquids, N. O. S. must be packed in specification containers of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

13. Amend the item headed "Poisonous solids, N. O. S." as follows:

In columns 4, 5, 6, and 7, *Required conditions for transportation*, add the following note under "Outside containers":

NOTE: Poisonous solids, N. O. S., must be packed in specification containers of a design and constructed of materials that will not react dangerously with nor be decomposed by the chemical packed therein.

14. Delete the item headed "Tetraethyl pyrophosphate, liquid" and all descriptive names and requirements thereunder, and add the following two items in lieu thereof:

*First item:* In column 1, *Descriptive name of article*, insert the following:

Tetraethyl pyrophosphate, liquid.
Tetraethyl dithio pyrophosphate, liquid.
Hexaethyl tetraphosphate, liquid.
Tetraethyl pyrophosphate mixtures, liquid (*containing more than 50% tetraethyl pyrophosphate by weight*).
Tetraethyl dithio pyrophosphate mixtures, liquid (*containing more than 50% tetraethyl dithio pyrophosphate by weight*).
Hexaethyl tetraphosphate mixtures, liquid (*containing more than 50% hexaethyl tetraphosphate by weight*).

In column 2, *Characteristic properties, etc.*, insert the following:

*Water-white to amber colored liquids.*
*Miscible with water.*
*Very poisonous.*
*May be absorbed through the skin, through digestive organs, or from vapor through respiratory organs.*
*Mixtures may be solutions, emulsions or emulsifiable liquids.*

In column 3, *Label required*, insert the following:

Poison.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B) WIMC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 54 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.

Authorized only for "Tetraethyl pyrophosphate, liquid", "Tetraethyl dithio pyrophosphate, liquid", and "Hexaethyl tetraphosphate, liquid.":
Cylinders as prescribed for any compressed gas except acetylene.

In columns 5, 6, and 7, *Required conditions for transportation*, insert the following:

Not permitted.

*Second item:* In column 1, *Descriptive name of article*, insert the following:

Tetraethyl pyrophosphate mixtures, liquid (*containing not more than 50% tetraethyl pyrophosphate by weight*)
Tetraethyl dithio pyrophosphate mixtures, liquid (*containing not more than 50% tetraethyl dithio pyrophosphate by weight*)
Hexaethyl tetraphosphate mixtures, liquid (*containing not more than 50% hexaethyl tetraphosphate by weight*)

In column 2, *Characteristic properties, etc.*, insert the following:

*Solutions, emulsions or emulsifiable liquids containing not more than 50% of the active ingredient by weight.*
*Hazards and precautions similar to those under "Tetraethyl pyrophosphate, liquid" above.*
Stow away from living quarters and foodstuffs.

In column 3, *Label required*, insert the following:

Poison.

In column 4, *Required conditions for transportation—Cargo vessel*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
STC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B, 15C) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.

Authorized only for mixtures that are not classified as flammable under the regulations in this part: Steel drums (ICC-17E) STC, not over 10 gal. cap.

NOTE: Mixtures (solutions, emulsions, or emulsifiable liquids) containing not more than 25% tetraethyl pyrophosphate, tetraethyl dithio pyrophosphate, or hexaethyl pyrophosphate by weight, in inside metal containers not over 8 fluid ounces capacity each, packed in strong outside containers together with sufficient absorbent material completely to absorb the liquid in the event of leakage, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 5, *Required conditions for transportation—Passenger vessels*, insert the following:

Stowage:
"On deck in open."
"On deck under cover."
"Tween decks."
"Under deck."
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B, 15C) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.

Authorized only for mixtures that are not classified as flammable under the regulations in this part: Steel drums (ICC-17E) STC, not over 10 gal. cap.

NOTE: Mixtures (solutions, emulsions, or emulsifiable liquids) containing not more than 25% tetraethyl pyrophosphate, tetraethyl dithio pyrophosphate, or hexaethyl pyrophosphate by weight, in inside metal containers not over 8 fluid ounces capacity each, packed in strong outside containers together with sufficient absorbent material completely to absorb the liquid in the event of leakage, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 6, *Required conditions for transportation—Ferry vessel*, insert the following:

Stowage: Ferry stowage (AA).
Outside containers:
Steel barrels or drums:
(ICC-5, 5A, 5B) not over 55 gal. cap.
(ICC-17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC-37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC-15A, 15B, 15C) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC-12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC-21B) WIC, not over 200 lb. net wt.

Authorized only for mixtures that are not classified as flammable under the regulations in this part: Steel drums (ICC-17E) STC, not over 10 gal. cap.

NOTE: Mixtures (solutions, emulsions, or emulsifiable liquids) containing not more than 25% tetraethyl pyrophosphate, tetraethyl dithio pyrophosphate, or hexaethyl pyrophosphate by weight, in inside metal containers not over 8 fluid ounces capacity each, packed in strong outside containers to-

gether with sufficient absorbent material completely to absorb the liquid in the event of leakage, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

In column 7, *Required conditions for transportation—R. R. car ferry*, insert the following:

Stowage: Ferry stowage (BB).
Outside containers:
Steel barrels or drums:
(ICC–5, 5A, 5B) not over 55 gal cap.
(ICC–17C) STC, not over 55 gal. cap. and not exceeding 880 lb. gr. wt.
(ICC–37D) STC, WIC, not over 10 gal. cap.
Wooden boxes (ICC–15A, 15B, 15C) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC–12B) WIC, not over 65 lb. gr. wt.
Fiber drums (ICC–21B) WIC, not over 200 lb. net wt.

Authorized only for mixtures that are not classified as flammable under the regulations in this part: Steel drums (ICC–17E) STC, not over 10 gal. cap.

NOTE: Mixtures (solutions, emulsions, emulsifiable liquids) containing not more than 25% tetraethyl pyrophosphate, tetraethyl dithio pyrophosphate, or hexaethyl pyrophosphate by weight, in inside metal containers not over 8 fluid ounces capacity each, packed in strong outside containers together with sufficient absorbent material completely to absorb the liquid in the event of leakage, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

15. Amend the item headed "Tetraethyl pyrophosphate mixture, dry" as follows:

In column 2, *Characteristic properties, etc.*, amend first sentence to read as follows:

*Dry mixtures in which the liquid active ingredient is absorbed in concentrations greater than 2% but not exceeding 27% by weight in a dry inert material.*

In columns 4, 5, 6, and 7, *Required conditions for transportation*, delete the present requirements under "Outside containers" and insert the following in lieu thereof:

Steel barrels or drums:
(ICC–5, 5B, 6A, 6C) not over 55 gal. cap.
(ICC–17C, 17H) STC, not over 55 gal. cap.
(ICC–37H) STC, not over 100 lb. net wt.
Wooden boxes (ICC–15A, 15B) WIC, not over 150 lb. gr. wt.
Fiberboard boxes (ICC–12B, 12C) WIC, not over 65 lb. gr. wt
Fiber drums (ICC–21A, 21B) not over 200 lb. net wt.

NOTE: Dry mixtures containing not more than 2% by weight of tetraethyl phyrophosphate, tetraethyl dithio pyrophosphate, or hexaethyl tetraphosphate and in which the liquid is absorbed in an inert material, are exempt from specification packaging, marking other than name of contents, and labeling requirements.

SUBPART—DETAILED REGULATIONS GOVERNING COMBUSTIBLE LIQUIDS

Section 146.26–100 amended by changing certain requirements for certain articles as follows:

§ 146.26–100 Table J—*Classification: Combustible liquids.* * * *

1. Amend the item headed "Cement, leather" as follows:

In column 1, *Descriptive name of article*, add the following descriptive names:

Cement, linoleum.
Cement, tile.
Cement, wallboard.

2. Amend the item headed "Furfural" as follows:

In column 1, *Descriptive name of article*, amend by adding the following after the descriptive name:

(When possessing a flash point at or below 150° F. and above 80° F.)

In column 2, *Characteristic Properties, etc.*, delete the 3rd sentence "Flash point 130° F. to 145° F." and insert the following in lieu thereof:

*Flash point variable, over 140° F.*

SUBPART—DETAILED REGULATIONS GOVERNING HAZARDOUS ARTICLES

Part 146 is amended by adding a new § 104.27–25 reading as follows:

§ 146.27–25 *Requirements and conditions for loading, stowing and transporting baled cotton*—(a) *Scope.* Baled cotton may be transported on board vessels subject to R. S. 4472, as amended (46 U. S. C. 170), when the applicable requirements and conditions in this section are met.

(b) *Conditions of acceptance and stowage.* (1) All cotton shall be securely baled and bound and covered with bagging on at least three-fourths of its surface, including both ends of the bale. Poorly compressed bales shall not be accepted. Bales having damaged bindings shall not be accepted. Loose cotton shall not be accepted for transportation on board any vessel.

(2) Bales that are wet or have been wetted by rain or other moisture shall be stowed separate from dry cotton, preferably in a 'tween deck, not overstowed. Bales that are saturated shall not be accepted.

(3) "Burnt Cotton" shall be accepted for transportation under regulations as set forth in the inflammable solids table in § 146.22–100. Assorted burnt, scorched and discolored cotton pickings which have been air or steam dried and rebaled with standard bagging and ties, to a density not less than is customary for merchantable cotton, may be stowed in a 'tween deck but not overstowed.

(4) Bales showing contact with oil or grease shall not be accepted.

(5) Cotton shall not be stowed in a hold lately used for oil cargo unless such hold has been steamed or otherwise cleaned so as to completely remove all traces of oil residue. Particular care shall be exercised if the recent cargo contained any vegetable or animal oils. Holds which have been recently painted shall not be utilized for cotton stowage unless thoroughly dry.

(6) Upon completion of stowage, hatch openings shall be completely closed, tarpaulins where required shall be fitted and secured in place to provide a tight hold. Missing hatch cover sections shall not be permitted. During periods of temporary stoppage of loading the hatch may be left open. In such case a fire watch designated by the master shall be provided and stationed in the hold in which the cotton is stowed.

(7) Ventilator cowls feeding into holds containing cotton, shall have spark screens to prevent ingress of sparks.

(8) Cotton may be stowed in a hold having a division bulkhead which also forms a boundary of a boiler room, engine room, coal bunker or galley: *Provided*, That the cotton stowed in such hold is adequately dunnaged off the bulkhead. For a boiler room bulkhead such dunnaging shall provide at least a 6-inch space between the bulkhead and the cotton. For an engine room bulkhead such dunnaging shall provide at least a 2-inch space between the bulkhead and the cotton. This provision shall be observed when cotton is stowed under such conditions on board cargo vessels or passenger vessels.

(9) 'Tween deck hatches in holds in which cotton is stowed shall be closed off with hatch covers, tarpaulins, and dunnage.

(c) *General vessel requirements.* (1) The holds or compartments in which cotton is stowed shall be equipped with a carbon dioxide system or a steam smothering system or an installation of equivalent efficiency. The extinguishing system shall be examined, prior to loading, to assure that it is in good working condition.

(2) In ports where local regulations require, spark arrestors shall be fitted to funnels.

(3) The vessel, the dock, and lighters, alongside shall be checked and any source of spark or any naked lights shall be eliminated. Fires likely to produce sparks and which cannot be eliminated may be permitted under such conditions as in the judgment of the master or officer in charge of the vessel will serve to protect against fire to the cotton.

(4) Fire hose shall be connected. Fire pumps shall be seen in operation prior to loading and pressure shall be maintained on the fire mains during loading, ready for instant use. Portable fire extinguishers shall be so placed as to be readily available. Such fire hose, fire pumps and fire extinguishers may be the vessel's equipment or shore equipment.

(5) Smoking shall not be permitted on board a vessel loading or discharging cotton except at such times and in such places as designated by the master or officer in charge. "No smoking" signs shall be posted in appropriate places and the officer in charge of loading shall see that they are observed.

(6) The hold shall be clear of all debris and swept broom clean.

(d) *Cargo vessel; mixed storage requirements.* (1) Explosives. The engine and boiler spaces or one hatch shall intervene.

(2) Inflammable liquids, inflammable compressed gases, inflammable solids or oxidizing materials. These substances shall not be stowed in the same hold with cotton, or in a hold above or a hold below one containing cotton. When possible these substances should not be stowed in a hold adjacent to a hold containing cotton. When it is possible to provide such separation, these substances may be stowed in holds adjacent to one containing cotton: *Provided*, That the holds are separated by a tight steel bulkhead: *And provided further*, That the inflammable liquids, inflammable compressed gases, inflammable solids or oxidizing materials are packed in metal containers.

(3) Cotton shall not be stowed in the same hold with liquids having a flash point at or below 150° F. and above 80° F. Cotton may be stowed in a hold adjacent, any hold above or any hold below one containing these substances: *Provided*, That the holds are separated by a tight steel bulkhead or deck.

(4) Corrosive liquids. Corrosive liquids shall not be stowed in any hold over one in which cotton is stowed unless the deck is of steel and the hatch is fitted with a tight coaming and the deck itself is tight against leakage. In no event shall corrosive liquids be stowed over the square of the hatch.

(5) Poisonous articles. Extremely dangerous poisons. Class A; Tear gases or irritating substances, Class C; or Radioactive materials, Class D; shall not be stowed in the same hold with cotton.

(6) Cotton with sulfur in bulk. (i) Cotton may be stowed in the same hold over sulfur provided the sulfur has been trimmed and leveled and the hold thoroughly cleaned of sulfur dust. A tight floor of two 1-inch crossed clean dunnage boards shall be laid on the sulfur before cotton is stowed.

(ii) These substances may be stowed alongside each other in the same hold provided they are separated by a tight wood bulkhead constructed dustproof.

(iii) When bulk sulfur is loaded in a lower hold, cotton shall not be stowed in a 'tween deck hold until such hold has been thoroughly cleaned of all sulfur dust and the 'tween deck hatch covers are in place, and covered with tarpaulins and dunnage.

(7) Cotton with rosin or pitch. When practicable these commodities should be stowed in separate holds. When such stowage is not possible cotton may be stowed in the same hold with these substances provided the substances and the cotton are separated by clean dunnage or other cargo of a non-combustible nature. When such stowage within the same hold involves considerable amounts of these substances the rosin or pitch shall after stowage be floored off with at least two layers of 1-inch dunnaging and the cotton stowed above.

(8) Cotton with vegetable oils, animal oils, or rosin oil. (i) When possible the stowage of fish oils, whale oil, vegetable oils, animal oils or rosin oil should be arranged to be in separate compartments. If this is not possible it should be stowed so that there is no contact with these substances. If cotton is carried over fish oils, whale oil, vegetable oils, animal oils or rosin oil, a tight 2-inch floor of dunnage boards shall be laid over these oils before the cotton is placed on top.

(ii) Cotton shall not be stowed in the hold below one in which these substances are stowed, unless the 'tween deck hatch is fitted with a tight coaming and the deck is of steel and tight against leakage.

(9) Cotton with coal. Cotton and coal shall not be stowed in the same hold. Cotton may be stowed in a hold adjacent to one in which coal is stowed provided that the holds are separated by a tight steel bulkhead and the cotton is dunnaged 2 inches off such division bulkhead. Cotton may be stowed in the compartment above or below one in which coal is stowed provided the deck is of steel and hatches are closed off with hatch covers and tarpaulins.

(10) Cotton with synthetic nitrate of soda. These substances may be transported when stowed in adjacent holds, or holds above or below, provided the holds are separated by a tight steel bulkhead or deck and the hatch covers are in place and covered with tarpaulins.

(e) *Passenger vessels; mixed stowage requirements.* (1) Explosives. The engine and boiler spaces or one hatch shall intervene.

(2) Inflammable liquids, inflammable compressed gases, inflammable solids or oxidizing materials. These substances shall not be stowed in the same hold, an adjacent hold, the hold above or below one containing cotton.

(3) Liquids having a flash point at or below 150° F. and above 80° F. shall not be stowed in the same hold, the hold above or the hold below one containing cotton. These substances may be stowed in a hold adjacent to one containing cotton provided the holds are separated by a tight steel bulkhead.

(4) Corrosive liquids. Corrosive liquids shall not be stowed in any hold above one in which cotton is stowed unless the deck is of steel and the hatch is fitted with a tight coaming and the deck itself is tight against leakage. In no event shall corrosive liquids be stowed over the square of the hatch.

(5) Poisonous articles. Extremely dangerous poisons, Class A; tear gases or irritating substances, Class C; or radioactive materials, Class D; shall not be stowed in the same hold with cotton.

(6) Cotton with sulfur in bulk. (i) Cotton shall not be stowed in the same hold with sulfur in bulk. (ii) When bulk sulfur is loaded in a lower hold cotton shall not be stowed in a 'tween deck hold until such hold has been thoroughly cleaned of all sulfur dust and the 'tween deck hatches are in place, and covered with tarpaulins and dunnage.

(7) Cotton with rosin or pitch. When practicable these commodities should be stowed in separate holds. When such is not possible cotton may be stowed in the same hold with these substances provided the substances and the cotton are separated by clean dunnage or other cargo of a non-combustible nature. When stowage within the same hold involves considerable amounts of these substances the rosin or pitch shall be floored off with at least two layers of one inch dunnaging and the cotton stowed above.

(8) Cotton with vegetable oils, animal oils, or rosin oil. Cotton shall not be stowed in the same hold in which fish oils, whale oil, vegetable oils, animal oils, or rosin oil are stowed. Cotton shall not be stowed in a hold below one in which these substances are stowed unless the 'tween deck hatch is fitted with a tight coaming and the deck is of steel and tight against leakage.

(9) Cotton with coal. Cotton shall not be stowed in the same hold, a hold adjacent, the hold above or the hold below, one containing coal (as cargo).

Section 146.27–100 *Table K—Classification: Hazardous Articles* is amended by deleting under the item "cotton" under columns 4 to 7, inclusive, "Required conditions for transportation" reference "(See footnote 1)" and the text of footnote 1 and by inserting the following in lieu thereof in columns 4, 5, 6, and 7: "For requirements and conditions for loading, stowing and transporting baled cotton see § 146.27–25."

# PROPOSED RULE MAKING

## CIVIL AERONAUTICS BOARD

[ 14 CFR Part 42 ]

[Draft Release No. 53–32]

SPECIAL CIVIL AIR REGULATION; CERTIFICATION AND OPERATION RULES FOR STAR ROUTE AIR CARRIERS

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of a Special Civil Air Regulation which will provide that persons engaged in the carriage of United States mail pursuant to "star route" contracts obtain air carrier operating certificates in accordance with and comply with the provisions of Part 42.

Interested persons may participate in the making of the proposed rule by submitting such written data views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by Jan. 15, 1954. Copies of such communications will be available after Jan. 19, 1954, for examination by interested persons at the Docket Section of the Board,

Room 5412, Department of Commerce Building, Washington, D. C.

When the nature of the terrain in particular sections of the country is such as to make surface transportation impracticable, the Postmaster General has authority under the Experimental Air Mail Act of 1938, as amended, to award contracts for the transportation of all classes of mail by airplane. The routes for which these contracts are awarded are known as "star routes" and are generally in isolated areas and of comparatively short distance. In a few instances these routes are located completely within a State.

An "air carrier" under the Civil Aeronautics Act of 1938, as amended, is defined as anyone who engages in air transportation. "Air transportation" is defined as interstate, overseas, and foreign air transportation or the transportation of mail by aircraft. Thus, a "star route" operator, including one otherwise engaged exclusively in intrastate air transportation, is an "air carrier" within the meaning of the act.

While "star route" air carriers are exempted from certain areas of the Board's economic jurisdiction, they are subject to the Board's safety jurisdiction over air carriers. However, presently effective Parts 40 and 42 of the Civil Air Regulations apply to air carriers when engaged in interstate air transportation, but are not applicable to "star route" air carriers who are engaged only in intrastate transportation of mail. In view of the fact that the Civil Aeronautics Act requires each air carrier to have an air carrier operating certificate, it is necessary to make provision in the Civil Air Regulations for the issuance of this certificate to these "star route" air carriers.

This Special Civil Air Regulation provides air carrier certification and operation rules for all carriers engaged in carriage of mail pursuant to "star route" contracts. In view of the fact that these air carriers generally operate small planes and carry out relatively small operations, it appears desirable that they be certificated and comply with the provisions of Part 42 which are also applicable to air taxi operators. Thus, under this regulation, these air carriers are required to be certificated in accordance with Part 42 and to comply with the provisions of Part 42.

Accordingly, notice is hereby given that it is proposed to promulgate a Special Civil Air Regulation to read in substance as follows:

Persons engaged in the carriage of mail by aircraft pursuant to "star route" contracts awarded under the Experimental Air Mail Act of 1938, as amended, shall be certificated in accordance with and comply with the provisions of Part 42 of the Civil Air Regulations.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended, and may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560; 62 Stat. 1216)

Dated: December 10, 1953, at Washington, D. C.

By the Bureau of Safety Regulation.

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Part 3 ]

[Docket No. 10802]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing television broadcast stations; Docket No. 10802.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has under consideration a petition filed on November 6, 1953, by the Southeastern Ohio Television System, Zanesville, Ohio, requesting an amendment of the Table of Assignments, contained in § 3.606, rules governing television broadcast stations so as to assign Channel 18 to Zanesville or in the alternative to assign Channel 28 to Zanesville by deleting that assignment from Lancaster, Ohio, and substituting either Channel 66, 68, 78, 81, 82, or 83.

3. The assignment of Channel 18 to Zanesville appears to be technically feasible and may be made both in conformance with our assignment principles and without making any other changes in the table. It is therefore proposed to make this additional assignment to Zanesville.

4. In view of the foregoing, it is proposed to amend § 3.606 *Table of Assignments*, rules governing television broadcast stations, as follows:

| City: | *Channel No.* |
|---|---|
| Zanesville, Ohio | 18−, 50+ |

5. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

6. Any interested party who is of the opinion that the amendment proposed by petitioner should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before January 11, 1954 a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 10, 1953.

Released: December 11, 1953.

### [ 47 CFR Parts 7, 8 ]

[Docket No. 10377]

STATIONS ON LAND AND SHIPBOARD IN THE MARITIME SERVICE

FREQUENCIES FOR TELEPHONY

In the matter of amendment of Parts 7 and 8 of the Commission's rules to delete authority for operation by coast stations, ship stations, and aircraft stations on currently assignable freqencies for telephony within the band 4000 kc to 18000 kc; and to include authority for operation by such stations on other frequencies for telephony within the same band; Docket No. 10377.

1. On May 6, 1953, the Commission adopted a report and order in the above designated docket finalizing a plan of assignment for all areas other than the Mississippi River and connecting inland waters (except the Great Lakes) which would be used as a basis for carrying out the maritime mobile radiotelephone portion of the Geneva Agreement (1951) in the frequency bands between 4000 kc and 18000 kc. However, the effective dates of deletion of existing frequencies and availability of new frequencies were to be made the subject of later proceedings. First and Second Notices of Proposed Rule Making in this docket specifying such dates for some of the frequencies under the above-referred to plan have heretofore been promulgated and finalized.

2. This Third Further Notice of Proposed Rule Making is issued because it is now deemed feasible to propose specific availability and deletion dates for certain additional frequencies listed in the plan as set forth in the Appendix below. This notice is issued under the authority recited in the original notice of proposed rule making in this docket.

3. Any interested person who is of the opinion that the amendments proposed herein should not be adopted and any person desiring to support this proposal may file with the Commission, on or before January 11, 1954, a written statement or brief setting forth his comments. Replies to such comments may be filed within 10 days from the last date for filing the original comment. Fifteen copies of all such comments shall be furnished. The Commission will consider all comments received before taking final action in this matter.

Adopted: December 9, 1953.

Released: December 11, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WM. P. MASSING, *Acting Secretary.*

1. The following frequency in kilocycles currently available to coast stations as an assignable frequency for telephony would be deleted as of the date and in the area indicated:

| Frequency | Date of deletion | Area |
|---|---|---|
| 4357.5 | Jan. 15, 1954 | All. |

2. The following frequencies in kilocycles would become available for assignment to public coast stations for telephony and to public ship stations for telephone communication with these coast stations on the dates and in the areas indicated:

### [ 17 CFR Part 250 ]

FINANCIAL CONNECTIONS OF OFFICERS AND DIRECTORS OF REGISTERED COMPANIES AND SUBSIDIARIES THEREOF

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to revise § 250.70 (Rule U-70) under the Public Utility Holding Company Act of 1935 governing the connections with financial institutions of officers and directors of registered holding companies and subsidiary companies.

The proposal is made pursuant to sections 17 (c) and 20 (a) of the Public Utility Holding Company Act of 1935.

Section 17 (c) prohibits any registered holding company or any subsidiary company thereof from having as an officer or director any "executive officer, partner, appointee, or representative of any bank, trust company, investment banker, or banking association or firm" except as permitted by rule or regulation of the Commission "as not adversely affecting the public interest or the interest of investors or consumers." Rule U-70 defines those persons or situations to which the Commission has granted exemption from section 17 (c).

The rule presently grants exemptions, among others, in the case of operating companies and holding companies for persons whose only financial connections are with commercial banking institutions which meet described requirements. In the case of operating companies, the commercial banking institution (other than one of limited size) must have its principal office in the territory served by the operating company. In the case of holding companies, the exempted persons include directors but not officers of one or more commercial banking institutions having their principal offices within the service area of any of the holding company's principal public-utility subsidiaries. The present rule also exempts persons who themselves own, or represent institutions owning, substantial interests in registered holding companies or subsidiaries thereof, certain indenture trustees or their representatives, and persons having a financial connection with certain small investment bankers who have not since April 1, 1939, engaged in underwriting, marketing, or trading in securities of a public-utility or holding company.

The proposed revision of the rule eliminates the numerous complex exemptions and exceptions inserted in the present rule from time to time over the years to meet specific situations many of which are now only of historical importance. Thus, the rule as proposed to be revised not only is broader and more general than the present rule but also is simpler and should be more easily understood.

Under the proposed revision, registered holding companies and subsidiaries will be permitted to have as officers or directors persons whose only financial connections are with one or more commercial banking institutions, provided each such person is not at the same time an officer of a commercial banking institution and an officer of a registered holding company or subsidiary. The April 1, 1939 date relating to market activities of small investment bankers is advanced to April 1, 1949. The limitation that no holding company or subsidiary shall have as many as one-half of its directors persons with financial connections within the scope of section 17 (c) is continued but there is excepted from the limitation not only persons exempt as representatives of indenture trustees of defaulted obligations collateralized by a majority of the voting stock of the issuer (which exception is contained in the present rule), but also, insofar as public-utility companies are concerned, persons whose only financial connections are with commercial banking institutions having combined capital and surplus not in excess of $2,500,000. This new exception should give public-utility companies a wider choice in the selection of directors.

The revised rule would read as follows:

§ 250.70 *Exemptions from section 17 (c) of the act*—(a) *Exempted persons.* Pursuant to section 17 (c) of the act, which permits exceptions to the provisions thereof in cases that do not adversely affect the public interest or the interest of investors or consumers, and subject to the restrictions set forth in paragraph (b) of this section, a registered holding company or subsidiary may have as officers or directors any person or persons falling in any one or more of the categories specified below:

(1) *Connections with commercial banks.* A person whose only financial connection is with one or more commercial banking institutions: *Provided*, That said person is not at the same time an officer of a commercial bank and an officer of a registered holding company or a subsidiary thereof.

(2) *Indenture trustee or representative.* A single representative (so designated in writing to the Commission) of a corporate trustee under a trust indenture or similar instrument under which outstanding obligations of such company were issued: *Provided*, That such representative has no financial connection except with such trustee.

(3) *In connection with indenture trustee for obligations in default.* A single representative (so designated in writing to the Commission) of a corporate trustee under a trust indenture or similar instrument under which a majority of the voting stock of such company is held as security for an obligation or obligations which are in default: *Provided*, That such representative has no financial connection except with such trustee.

(4) *Connections with small investment bankers.* A person whose only financial connection is with a single investment banker which has total capital and surplus not exceeding $500,000, and which investment banker (including any business of which it is a continuation) is not, and has not at any time after April 1, 1949, engaged in underwriting or otherwise participating in the marketing of, or trading in (except as broker), securities of any public-utility or holding company other than a company exempted pursuant to clauses (3), (4), or (5) of section 3 (a), or as to which there is pending an application for such exemption.

(5) *Persons authorized by Federal Power Commission.* A person who is specifically authorized by an order of the Federal Power Commission to hold positions as officer or director of such company and as officer or director of any financial institution or institutions.

(b) *Limitations on exemptions.* The exemptions set forth in paragraph (a) of this section are subject to the following conditions and restrictions:

(1) *Number of exempted directors.* No registered holding company or subsidiary shall have as many as one-half of its directors persons with financial connections within the scope of section 17 (c), except that this limitation shall not apply (i) to persons who are exempted pursuant to the provisions of paragraph (a) (3) of this section or (ii) in the case of a public-utility company to persons whose only financial connections are with one or more commercial banking institutions each having combined capital and surplus not in excess of $2,500,000.

(2) *Dealings by company with financial institutions.* No registered holding company or subsidiary shall sell, directly or indirectly, any securities issued or held by such company to a financial institution, nor shall such financial institution engage or participate in any underwriting agreement, nor act as agent with respect to any such sale, if such company or any company of which such company is a subsidiary company has had as an officer or director at any time during the preceding 12 months a person or persons having a financial connection with such financial institution. Nevertheless, any such company may sell its securities to a commercial banking institution if each person having a financial

connection with such commercial banking institution and acting as an officer or director of such company or of any parent company thereof is (i) a person who is regularly employed by such company or one or more associate companies thereof and devotes substantially all of his working time to such employment alone or together with employment by a public-utility company which is not an associate company of any registered holding company and who has no financial connection with any investment banker, or (ii) a person whose only financial connection is with one or more commercial banking institutions having a banking office in the territory in which such company carries on operations as a public-utility company.

(3) *Trading by exempted persons.* No officer or director of a registered holding company or subsidiary thereof, exempted by paragraph (a) of this section, who has a financial connection with an investment banker, nor any investment banker with which such person has a financial connection, shall:

(i) Act as broker with respect to, or otherwise trade or deal in, any security of such registered holding company or any subsidiary thereof; or

(ii) Purchase and sell or sell and purchase any such security within any period of less than six months, unless (*a*) such security was acquired in good faith in connection with a debt previously contracted, or (*b*) all profits realized by such officer or director and by such investment banker is paid to and is recovered by the registered holding company or subsidiary company in respect of the security of which such profit is realized, within 30 days after the realization thereof.

(4) *Agreement by exempt persons and their firms.* No exemption shall be effective as to any officer or director having any financial connection with any investment banker, unless such officer or director and such investment banker shall enter into an agreement with such company, and file a copy thereof with the Commission, undertaking to comply with the conditions specified in subparagraph (3) of this paragraph and undertaking that such investment banker will file reports as to its holdings of, and transactions in, securities of companies in such holding company system (on forms U–17–1 and U–17–2) in the manner prescribed for directors of registered holding companies.

(c) *Definitions.* As used in section 17 (c) of the act and in this section:

(1) "Officer" and "executive officer" mean (i) a chairman of the board of directors, chairman of the finance committee or executive committee, president, vice president, treasurer, secretary, comptroller, and in the case of a financial institution also a cashier or trust officer, and (ii) any other person who performs functions corresponding to those normally performed by the foregoing officers, regardless of whether he has an official title or whether his title contains a designation of assistant, and regardless of whether he is serving without salary or other compensation.

(2) A "bank, trust company, investment banker, or banking association or firm" shall not be deemed to include a Federal Reserve bank, or a bank or trust company (i) which does not accept deposits, or if accepting deposits, not less than 85 percent of whose total deposits at the end of the preceding calendar year consisted of time and savings deposits as defined by paragraphs (d) and (e) of § 329.1 of the regulations and statements of policy of the Federal Deposit Insurance Corporation (12 CFR 329.1), or (ii) less than 10 percent of whose total loans and discounts at the end of the preceding calendar year consisted of commercial loans and discounts.

(3) "Financial institution" means a bank, trust company, investment banker, or banking association or firm, or a corporation a majority of whose stock, having the unrestricted right to vote for the election of directors, is owned by a bank, trust company, investment banker or banking association or firm.

(4) "Commercial banking institution" means any financial institution except an investment banker.

(5) "Investment banker" means a person engaged in business as an underwriter or a dealer, as these terms are defined in the Securities Act of 1933, but does not include (i) a bank, trust company, banking association, or banking firm which is prohibited by statute or by rule or regulation thereunder from underwriting or participating in the marketing of securities of a public-utility or holding company, or (ii) a person whose activities as a dealer are limited to dealing in evidences of indebtedness secured by mortgage, deed of trust, or other lien upon real estate as such, as distinguished from usual corporate mortgage bonds and other types of corporate securities. "Investment banker" shall include a corporation a majority of whose stock having the unrestricted right to vote for the election of directors is owned by an investment banker.

(6) A person shall be deemed to have a "financial connection" if he is an officer, director, partner, appointee or representative (including a designated representative of an indenture trustee) of a financial institution.

All interested persons are hereby invited to submit views and comments on the proposed revision of the rule. Such views and comments should be submitted to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before January 11, 1954.

By the Commission.

## CIVIL AERONAUTICS BOARD

[Docket No. 5047 et al.]

AIR FREIGHT FORWARDER INVESTIGATION

NOTICE OF HEARING

In the matter of the renewal and/or amendment of Part 296 of the Economic Regulations of the Civil Aeronautics Board and an investigation of indirect air carriage of property.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 1 (2), 205 (a), 408, 416 and 1002 (b) of said act, and the applicable regulations thereunder, that a public hearing in the above-entitled proceeding is assigned to be held on January 27, 1954, at 10:00 a. m., e. s. t., in Conference Room B, Departmental Auditorium, Constitution Avenue between Twelfth and Fourteenth Streets NW., Washington, D. C., before Examiner Edward T. Stodola.

Without limiting the scope of the issues raised by the Board's order of investigation instituting this proceeding, the amendments thereto, and the various applications for authority to engage indirectly in the air transportation of property, particular attention will be di-

rected to the following matters and questions:

(1) To what extent, in what form, and for what periods does the public interest require the authorization of indirect air carriers of property in interstate commerce?

(2) To what extent, and in what form, does the public interest require that the Board relieve domestic indirect air carriers of property from the provisions of the act?

(3) Does the public interest require the renewal and/or amendment of Part 296 of the Economic Regulations or should there be a comprehensive regulation promulgated under section 1 (2) of the act encompassing all indirect air carriers of property?

(4) Does the public interest require a regulation providing for special exemption for agricultural and horticultural shippers and to shippers' associations?

(5) To what extent is there a need for the classification of indirect air carriers and to what extent is there a need for sub-classifications within such possible indirect air carrier classifications?

(6) To what extent should indirect air carrier operations be subjected to restrictions to prevent discriminatory and destructive practices?

(7) Are indirect air carriers performing any of the functions of direct air carriers for which consideration should be given by direct carriers in lawful charges for the carriage of property?

(8) Does the public interest require a limitation on the number of indirect air carriers?

(9) Does the public interest require a restriction of service by indirect air carriers to geographical areas, specific points, particular commodities, or types of direct air carriers?

(10) Will the control relationships raised by the applications of National Air Freight Forwarding Corporation, Docket Nos. 6218 and 6219; Universal Air Freight Corporation, Docket No. 6202; and Air Cargo, Inc., Docket Nos. 6224 and 6295 be consistent with the public interest?

For further details regarding this proceeding, interested parties are referred to Board Orders Nos. E–7141, E–7357, E–7526, E–7613, and E–7662; the Reports of Prehearing Conference in this matter served on May 29, 1953, and August 10, 1953, respectively; and other documents filed in the formal docket in this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Notice is hereby further given that any person not a party of record desiring to be heard in this proceeding must file with the Board on or before January 27, 1954 a statement setting forth the matters of fact or of law which he desires to advance. Any person filing such a statement may participate in the hearing in accordance with § 302.14 of the Board's rules of practice in economic proceedings.

[Docket No. 6346]

CHARLESTON-COLUMBUS CASE

NOTICE OF HEARING

In the matter of an investigation of the need for air service between Charleston, W. Va., and Columbus, Ohio.

Notice is hereby given, pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 401, 1001, and 1002 of the said act, that a hearing in the above-entitled proceeding will be held on January 6, 1954, at 10:00 a. m., e. s. t., in Hearing Room No. 2, Ohio Departments Building, 65 South Front Street, Columbus, Ohio, before Examiner William J. Madden.

Without limiting the scope of the issues involved in this proceeding, particular attention will be directed to the following matters and questions:

1. Whether the public convenience and necessity require air transport service between Charleston, W. Va., and Columbus, Ohio, and whether the certificates of public convenience and necessity held by Eastern Air Lines, Inc., and/or Piedmont Aviation, Inc., and/or Lake Central Airlines, Inc., should be amended so as to authorize such service.

2. Whether one or more of the following route revisions should be authorized in connection with providing air transport service between Charleston, W. Va., and Columbus, Ohio:

(a) Amendment of Eastern's route No. 6 so as to add thereto Columbus and Toledo, Ohio, as intermediate points between Charleston, W. Va., and Detroit, Mich., as proposed by said carrier in its application in Docket No. 4096.

(b) Amendment of Piedmont's route No. 87 so as to extend said route from Charleston, W. Va., to Columbus, Ohio, via the intermediate point Parkersburg, W. Va.-Marietta, Ohio, as proposed by said carrier in its application in Docket No. 6347.

(c) Amendment of Lake Central's route No. 88 so as to add thereto a segment extending between Charleston, W. Va., and Detroit, Mich., via Columbus, Lima and Toledo, Ohio, as proposed by said carrier in its application in Docket No. 6370.

3. Whether the applicants are fit, willing and able properly to perform the proposed air transportation and to conform to the provisions of the act and the rules, regulations and requirements of the Board thereunder.

For further details of the issues involved in this proceeding interested persons are referred to the applications mentioned above, the consolidation order (No. E–7931), the report of the prehearing conference, and other documents of record in this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Notice is further given that any person, other than a party of record, desiring to be heard in this proceeding must file with the Board on or before January 6, 1954, a statement setting forth the propositions of fact or law which he desires to advance.

Dated at Washington, D. C., December 11, 1953.

It appearing that the Department of Justice requested the Commission to delay any action with respect to the above revocation proceeding against the license of Special Industrial Station KOG–285 until after the culmination of criminal proceedings presently pending in the State of Arizona against Robert V. H. Sugden, holder of said Special Industrial Station License; and

It further appearing that hearings in allied proceedings against the radiotelephone operator permits of Jean S. Sugden, Docket No. 10780, and Robert V. H. Sugden, Docket No. 10731, have been designated for hearing on June 1, 1954, by the Commission; and

It further appearing that in the interest of expediency and economy, hearings in the above three matters should be consolidated because of the interwoven evidence relating to each, and that counsel for the parties are agreeable to such consolidation for the purpose of taking testimony; and

It further appearing that pending final disposition of these matters, the parties will remain in status quo and respondents will be able to continue their radio activity;

*It is ordered*, This 9th day of December 1953, that the motion for continuance is granted and that the hearing scheduled for December 11, 1953, at 10:00 a. m., is continued until further order.

[Docket No. 10804]

NIAGARA FRONTIER AMUSEMENT CORP.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Niagara Frontier Amusement Corporation, Buffalo, New York, for a construction permit for new television station; Docket No. 10804, File No. BPCT–1746.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 10th day of December 1953;

The Commission having under consideration the above-entitled application, requesting a construction permit for a new television broadcast station to operate on Channel 2 assigned to Buffalo-Niagara Falls, New York; and

It appearing that prior to November 2, 1953, the above-entitled application had been mutually exclusive with the applications of WGR Broadcasting Corporation (BPCT–329), The Niagara Falls Gazette Publishing Corporation (BPCT–376) and Victory Television Corporation (BPCT–1715); that pursuant to an agreement executed on November 2, 1953, by the aforementioned applicants or their principals, Niagara Frontier Amusement Corporation was to file an amendment to its television application including a copy of the agreement executed by the above parties; and that simultaneously with the filing of said amendment all of the aforementioned parties except Niagara Frontier Amusement Corporation would file with the Commission letters requesting the dismissal of their respective television applications for Channel 2 assigned to Buffalo-Niagara Falls, New York;

It further appearing that on November 3, 1953, Enterprise Transmission, Inc. filed its application for Channel 2 assigned to Buffalo-Niagara Falls, New York, and that as a result of said filing, the amended application of Niagara Frontier Amusement Corporation was not filed and the other mutually exclusive applications were not dismissed; and

It further appearing that on the basis of the Commission's investigation of the circumstances surrounding the filing of the application of Enterprise Transmission, Inc. to ascertain whether said application was in fact a filing in good faith, whether said application may have been filed for the purpose of delaying or hindering the granting of the application of Niagara Frontier Amusement Corporation, as amended, pursuant to the above-mentioned agreement, the Commission has been unable to conclude at this time that the application of Enterprise Transmission, Inc., was filed in good faith; and

It further appearing that on December 8, 1953, Enterprise Transmission, Inc. requested the dismissal of its pending application; that Niagara Frontier Amusement Corporation did amend its application in accordance with the above-mentioned agreement of November 2, 1953; and

It further appearing that the above-entitled applicant is legally, financially and technically qualified to construct, own and operate the proposed television broadcast station except with respect to the matters discussed herein, and that the said application raises a serious question as to whether the Enterprise Transmission, Inc., application was filed in good faith and as to whether the circumstances surrounding the dismissal of the application of Enterprise Transmission, Inc., directly or indirectly, constituted additional consideration for the dismissal of an application not filed in good faith, and as to whether the granting of the above-entitled application would not subvert the Commission's policy and efforts to discourage the filing of so-called "strike" applications (i. e., one filed by an applicant not having the bona fide intention of prosecuting the application, receiving a grant and constructing a station to serve the community); and

It further appearing, that upon due consideration of the above-entitled application and the amendments filed thereto, the Commission is unable to conclude that the public interest, convenience or necessity would be served by the granting of the above-entitled application; and

It further appearing, that a letter dated December 9, 1953, from Niagara Frontier Amusement Corporation through its attorneys waives "its rights under section 309 (b) of the Communications Act, as amended, to receive notice of the grounds and reasons for the inability of the Commission to make a finding that the granting of the application would serve the public interest, convenience and necessity";

*It is ordered*, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application is designated for hearing to commence at 10:00 a. m. on the 8th day of January 1954 in Washington, D. C., upon the following issues:

1. To determine whether Enterprise Transmission, Inc. filed its application for Channel 2 assigned to Buffalo-Niagara Falls, New York, for the purpose of impeding, obstructing or delaying determination on any other application with which it may have been in conflict.

2. To determine whether the above-entitled applicant or any of the parties to its application have agreed to pay, directly or indirectly, consideration for the dismissal of the application of Enterprise Transmission, Inc.

3. To determine, in the light of the record made with respect to the above issues, whether the applicant's other qualifications warrant the granting of the above-entitled application in the public interest, convenience or necessity.

*It is further ordered*, That in the event that a grant is warranted on the basis of the record developed in the above hearing, such a grant shall be made subject to the following conditions:

(1) That no construction be commenced until the antenna site and structure are first approved by the Commission with respect to safety to air navigation.

(2) That this grant is without prejudice to any action the Commission may take with respect to any future application which is filed to effectuate the agreement made on November 2, 1953, between Niagara Falls Gazette Publishing Company, Victory Television Corporation, and Leo J. Fitzpatrick and I. R. Lounsberry (sole stockholders of WGR Broadcasting Corporation).

Released: December 10, 1953.

## FEDERAL POWER COMMISSION

[Docket Nos. G–2106, G–2270, G–2283]

EL PASO NATURAL GAS CO. AND PERMIAN BASIN PIPELINE CO.

ORDER REOPENING AND CONSOLIDATING PROCEEDINGS, DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

In the matters of El Paso Natural Gas Company, Docket Nos. G–2106 and

G-2270; Permian Basin Pipeline Company, Docket No. G-2283.

The Commission by its order issued June 29, 1953, in Docket No. G-2106, authorized El Paso Natural Gas Company (El Paso) to construct and operate, among other facilities, approximately 112 miles of 30-inch and 24-inch transmission pipeline extending from the Spraberry Area of Texas to the Plains Compressor Station, which compressor station is to be located near El Paso's existing 24-inch Dumas pipeline. El Paso was also authorized to construct and operate compressor facilities and pipelines in the Spraberry Area to be used for the transportation of gas to the above-described pipeline extending to the Plains Compressor Station.

El Paso, on September 8, 1953, petitioned the Commission for a modification of its June 29, 1953, order in Docket No. G-2106 so as to delete from the authorized facilities the 112 mile Spraberry to Plains pipeline, and change authorizations in compressor station horsepower and interconnecting pipelines. The petition also seeks modification of the order so as to authorize El Paso to deliver Spraberry Area gas to the Permian Basin Pipeline Company (Permian), which company would transport the gas for El Paso's account to the Plains Compressor Station.

El Paso, on October 9, 1953, filed an application in Docket No. G-2270 for authorization to abandon approximately 11 miles of 12¾-inch pipeline, the need for which would be eliminated by the operations proposed in the petition to modify the Docket No. G-2106 order.

Permian filed an application in Docket No. G-2283 on October 16, 1953, seeking authority to construct and operate two additional 1,320 horsepower compressor units at its Spraberry Compressor Station and authority to transport the El Paso gas to the Plains Compressor Station.

Both El Paso and Permian have requested that their respective petition and applications be heard under the shortened procedure for non-contested proceedings provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32(b)). Questions as to the comparative economics of the operations as formerly and presently proposed, and of the necessity under presently proposed operations for certain facilities heretofore authorized, require that the dockets be heard under other than the shortened procedure.

The Commission finds:

(1) Good cause has not been shown for granting El Paso's request that the petition for modification of the Commission's June 29, 1953, order in Docket No. G-2106 and the application in Docket No. G-2270 and Permian's request that the application in G-2283 be heard under the shortened procedure as provided by the Commission's rules of practice and procedure, and said request should be denied as hereinafter ordered.

(2) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for reopening the proceedings in Docket No. G-2106 for purpose of hearing on the petition to modify the June 29, 1953, order therein.

(3) It is appropriate for carrying out the provisions of the Natural Gas Act and good cause exists for consolidating the above proceedings for purpose of hearing.

The Commission orders:

(A) El Paso's request that the petition for modification of the Commission's June 29, 1953, order in Docket No. G-2106 and application in Docket No. G-2270 and Permian's request that the application in Docket No. G-2283 be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)) be and the same are hereby denied.

(B) The proceedings in Docket No. G-2106 be and the same are hereby reopened for the purpose of hearing on the petition to modify the Commission's June 29, 1953, order therein.

(C) The proceedings in Docket Nos. G-2106, G-2270 and G-2283 be and the same are hereby consolidated for purpose of hearing.

(D) Pursuant to authority contained in and by virtue of the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held commencing on December 18, 1953, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in the consolidated proceedings.

(E) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: December 9, 1953.

Issued: December 10, 1953.

[Docket Nos. IT-6087, IT-6089, IT-6090, E-6331]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREGON-WASHINGTON

NOTICE OF REQUEST FOR CONFIRMATION AND APPROVAL OF RATE SCHEDULES

DECEMBER 9, 1953.

Notice is hereby given that the Assistant Secretary of the Interior, acting on behalf of the Bonneville Power Administration, has filed with the Federal Power Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, rates and charges contained in four twenty-year contracts with the following utility companies:

Mountain States Power Co.
Pacific Power and Light Co.
Portland General Electric Co.
The Washington Water Power Co.

These contracts terminate, as of August 31, 1953, the corresponding five-year contracts which were approved by the Commission on January 22, 1952, as to the rates and charges embodied therein.

The special rates contained in these contracts are similar to those contained in the contracts to be superseded, and consist of a special application of Bonneville's approved Rate Schedules C-4 and F-4, plus the following special charges as adjustments "for the diversity in the flow of electric energy at the points of delivery":

| | Per kw of billing demand per month cents |
|---|---|
| Mountain States Power Co | [1] 1.500 |
| Pacific Power & Light Co | [2] 0.845 |
| Portland General Electric Co | 1.185 |
| The Washington Water Power Co | 0.075 |

[1] Applies to customers Willamette Valley System only.

[2] Applies to customers Main System only.

In transmitting these contracts the Assistant Secretary of the Interior describes the principal differences between the four contracts and those to be superseded in the following terms:

The previous contracts were for a term of five years with provision for successive extensions of one year if agreement on matters requiring adjustment was reached. The enclosed contracts are for a definite term of twenty years. Pursuant to applicable law, a provision has been included in the twenty-year contracts whereby the Administrator may, upon five years' notice, withdraw from the amounts otherwise available to the utilities, energy which in his judgment may be needed to satisfy the requirements of public bodies, cooperatives, and Federal agencies.

Section 8, which provides for a Minimum Energy Supply Schedule and a Generator Schedule, has been added. This section, with Exhibit A of the contract, enlarges upon and puts in tabular form that which was stated by definition only in the previous contracts.

Another new section, Section 6 Provisions for the Preference of Domestic and Rural Consumers, provides that the Administrator will not furnish the utilities firm power for any new or expanded industrial loads exceeding 10,000 kilowatts. The section also provides that the Administrator, in making his estimates of public-agency requirements for purposes of establishing the minimum energy supply schedule, will not include firm power for service by any public agencies to industrial loads exceeding 10,000 kilowatts.

The allocation of available power, as provided under Section 17 of the enclosed contracts, differs to some extent from the schedule of priorities as provided for in Section 4 of the previous contracts. These new contracts provide that the available supply of power will be allocated as follows: first, to total requirements of public agencies and other preference customers; second, to amounts necessary for existing industrial contracts and other priority contracts; third, 500,000 kilowatts of firm power to private utilities; fourth, an additional 70,000 kilowatts of firm power to industrial consumers; and fifth, an additional 1,000,000 kilowatts of firm power to the private utilities. The first four priority amounts are the same as in the previous contracts but the fifth amount of 1,000,000 kilowatts replaces the indefinite quantity expressed in the previous contracts as "the amount of all new industrial loads added by all distributors." The "new industrial loads" referred to in the previous contracts were defined as loads of 2,500 kilowatts or more. No further priority is stipulated in the new contracts. Any energy in excess of the stipulated priorities which may in the future become available shall be allocated equitably between industries and the public utilities.

The letter of transmittal further states that the other provisions of the contracts parallel those in the contracts being superseded; that the special rates and charges for power sold are similar to those of the antecedent contracts; and that provisions have been made for application of the regular rates when the available supply of firm power is sufficient to enable the Administrator to supply the firm power requirements of the private utilities.

These contracts are on file with the Commission for public inspection. Any person desiring to comment or to make representations with respect thereto should submit the same on or before January 4, 1954, to the Federal Power Commission, Washington 25, D. C.

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2389]

DELAWARE POWER & LIGHT CO. AND EASTERN SHORE PUBLIC SERVICE CO. OF MARYLAND

SUPPLEMENTAL ORDER GRANTING EXTENSION OF TIME WITHIN WHICH TO CONSUMMATE SECURITY TRANSACTIONS BETWEEN PARENT AND SUBSIDIARY

DECEMBER 10, 1953.

The Commission having by order dated June 28, 1950, granted and permitted to become effective a joint application-declaration filed by Delaware Power & Light Company ("Delaware"), a registered holding company, and its wholly-owned subsidiary, the Eastern Shore Public Service Company of Maryland ("Eastern Shore"), pursuant to sections 6 (b), 10, 12 (d), and 12 (f) of the Public Utility Holding Company Act of 1935 ("Act"), regarding the proposed issuance and sale by Eastern Shore from time to time, but not later than December 31, 1951, of up to $3,000,000 principal amount of its 4% promissory notes and 30,000 shares of its common stock, and the acquisition thereof and their subsequent pledge under its mortgage by Delaware; and the Commission by orders dated December 6, 1951, and December 12, 1952, having granted an extension of time to December 31, 1953, within which to consummate the transactions; and

Eastern Shore and Delaware having filed a further amendment to said joint application-declaration requesting an additional extension of time to December 31, 1954, within which to consummate the remainder of the proposed transactions consisting of the unsold balance of $1,000,000 principal amount of notes and 10,000 shares of common stock; and the amendment further stating that an extension of time to December 31, 1954, within which the remaining portion of the securities may be issued and sold has been authorized by order of the Public Service Commission of Maryland dated November 23, 1953; and

The Commission having examined said amendment and having considered the record herein and deeming it appropriate in the public interest and in the interest of investors and consumers to grant the requested extension of time:

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of said act, that the joint application-declaration, as further amended, be, and hereby is, granted and permitted to become effective forthwith subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

## UNITED STATES TARIFF COMMISSION

[Investigation 9]

RYE

INVESTIGATION AND HEARING

*Investigation instituted.* By direction of the President, dated December 9, 1953, the United States Tariff Commission, on the 11th day of December 1953, instituted, and hereby gives notice of an investigation under section 22 of the Agricultural Adjustment Act, as amended, and Executive Order No. 7233 of November 23, 1935, for the purpose of determining whether rye, rye flour, and rye meal are being, or are practically certain to be, imported into the United States under such conditions and in such quantities as to render or tend to render ineffective or materially interfere with the price-support program for rye undertaken by the United States Department of Agriculture pursuant to sections 301 and 401 of the Agricultural Adjustment Act of 1949, as amended, or to reduce substantially the amount of products processed in the United States from domestic rye.

*Hearing.* All parties interested will be given opportunity to be present, to produce evidence, and to be heard at a public hearing to be held in the Tariff Commission Building, Eighth and E Streets NW., Washington, D. C., beginning at 10 a. m. on the 12th day of January 1954.

*Request to appear at hearing.* Interested parties desiring to appear at the public hearing should notify the Secretary of the Commission in writing, at the Commission's offices in Washington, D. C., in advance of the hearing.

I hereby certify that the above investigation was instituted and hearing was ordered on the 11th day of December 1953.

Issued: December 11, 1953.

# FEDERAL REGISTER

VOLUME 18 NUMBER 245

*Washington, Thursday, December 17, 1953*

## TITLE 7—AGRICULTURE

### Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

REQUIREMENTS AND QUOTAS FOR 1954

The heading of Part 811 is hereby revised to read as set forth above. This part, so revised, includes regulations with respect to quotas heretofore set forth in Part 813.

*Basis and purpose.* The purpose of Sugar Regulation 811 is to determine, pursuant to section 201 of the Sugar Act of 1948, as amended (hereinafter called the "act"), the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1954, and to establish, pursuant to section 202 of the act, sugar quotas for the supplying areas in terms of short tons of sugar, raw value (formerly Part 813), equal to the quantity determined by the Secretary of Agriculture to be needed in 1954.

The determination of sugar requirements set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary of Agriculture make such determination for the calendar year 1954 during December of 1953. The determination has been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government.

Prior to the issuance of this regulation, notice was given (18 F. R. 6720) that the Secretary of Agriculture was preparing, among other things, to determine the sugar requirements and to establish quotas for the calendar year 1954 and that any interested person might present any data, views or arguments with respect thereto at a public hearing to be held in Washington, D. C., on November 16, 1953. In addition, the notice stated that any interested person might present any data, views or arguments with respect thereto in writing not later than November 27, 1953. In making this determination due consideration has been given to the data, views and arguments expressed at the hearing held on November 16, 1953, and to the data, views and arguments submitted in writing on or before November 27, 1953, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the Sugar Act of 1948 requires that the Secretary of Agriculture determine sugar requirements for the calendar year 1954 during the month of December 1953, and since the sugar quotas for some areas are relatively small, thereby making it possible for such areas to exceed their quotas within a few days after the beginning of the quota year, compliance with the 30-day effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest. Accordingly, this regulation shall be effective on January 1, 1954.

| Domestic beet sugar | 1,800,000 |
| Mainland cane sugar | 500,000 |
| Hawaii | 1,052,000 |
| Puerto Rico | 1,080,000 |
| Virgin Islands | 12,000 |

§ 811.62 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1954 the following quotas:

| Area: | *Quotas in terms of short tons, raw value* |
|---|---|
| Republic of the Philippines | 974,000 |
| Cuba | 2,478,720 |
| Other foreign countries | 103,280 |

§ 811.63 [Reserved.]

§ 811.64 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines*—(a) *Entries from unspecified countries.* The portion of any quota or deficit prorated in this section to unspecified countries may be filled by sugar or liquid sugar from any country other than those specified in this part but the quantity entered from any unspecified country shall not exceed one per centum of the total quota and deficits for foreign countries other than Cuba and the Republic of the Philippines prorated in this section.

(b) *Basic prorations.* The 1954 quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, pursuant to subsection (c) of section 202 of the act, among such countries as follows:

| Country: | *Proration in short tons, raw value* |
|---|---|
| Dominican Republic | 25,647 |
| El Salvador | 3,843 |
| Haiti | 2,402 |
| Mexico | 10,634 |
| Nicaragua | 7,269 |
| Peru | 48,241 |
| Unspecified countries | 5,164 |
| Total | 103,280 |

§ 811.65 *Direct-consumption portion of quotas or prorations*—(a) *Domestic areas.* Pursuant to subsections (a), (b) and (c) of section 207 of the act, the quotas established in § 811.61 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

| Area: | *Direct-consumption sugar, short tons, raw value* |
|---|---|
| Hawaii | 29,616 |
| Puerto Rico | 126,033 |
| Virgin Islands | 0 |

(b) *Other areas.* (1) Pursuant to subsections (d), (e) and (h) of section 207 of the act, the quotas established in § 811.62 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

| Area: | *Direct-consumption sugar, short tons, raw value* |
|---|---|
| Republic of the Philippines | 59,920 |
| Cuba | 375,000 |
| Other foreign countries | 35,115 |

(2) Notwithstanding the foregoing limitation, the following listed countries may enter within the limits of the prorations established in § 811.64 a minimum quantity of sugar for direct consumption equal to the quantities listed below for each such country:

| Country: | *Direct-consumption sugar, short tons, raw value* |
|---|---|
| Canada | 7,552 |
| China and Hong Kong | 42,987 |
| Colombia | 857 |
| Costa Rica | 2,163 |
| Dominican Republic | 2,400,958 |
| El Salvador | 4,041,686 |
| Haiti | 376,163 |
| Mexico | 1,276,612 |
| Nicaragua | 9,059,531 |
| Peru | 4,377,617 |
| United Kingdom | 144,490 |

§ 811.66 *Liquid sugar quotas.* There are hereby established, pursuant to section 208 of the act, for foreign countries for the calendar year 1954 quotas for liquid sugar as follows:

| Country: | *Liquid sugar, 72 percent total wine gallons, sugar content* |
|---|---|
| Cuba | 7,970,558 |
| Dominican Republic | 830,894 |
| British West Indies | 300,000 |
| Other foreign countries | 0 |

§ 811.67 *Restrictions on marketing and shipment.* Pursuant to section 209 of the act, all persons are hereby prohibited, during the calendar year 1954, from:

(a) Bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands, or foreign countries, (1) any sugar or liquid sugar after the applicable quota, or the proration of any such quota, has been filled, or (2) any direct-consumption sugar after the direct-consumption portion of any such quota proration thereof has been filled.

(b) Shipping, transporting, or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic beet sugar area or the mainland cane sugar area after the quota for such area has been filled.

§ 811.68 *Inapplicability of quota regulations.* Pursuant to section 212 of the act, §§ 811.61 to 811.67 shall not apply to (a) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1954; (b) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines in the calendar year 1954 for religious, sacramental, educational, or experimental purposes; (c) liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in individual sealed containers not in excess of one and one-tenth gallons each; or (d) any sugar or liquid sugar imported, brought into, or produced or manufactured in the United States for the distillation of alcohol, or for livestock feed or for the production of livestock feed.

*Statement of bases and considerations.* Section 201 of the Sugar act of 1948 reads as follows:

> The Secretary shall determine for each calendar year, beginning with the calendar year 1948, the amount of sugar needed to meet the requirements of consumers in the continental United States; such determinations shall be made during the month of December in each year for the succeeding calendar year (in the case of the calendar year 1948, during the first ten days thereof) and at such other times during such calendar year as the Secretary may deem necessary to meet such requirements. In making such determinations the Secretary shall use as a basis the quantity of direct consumption sugar distributed for consumption, as indicated by official statistics of the Department of Agriculture, during the twelve-month period ending October 31 next preceding the calendar year for which the determination is being made, and shall make allowances for a deficiency or surplus in inventories of sugar, and for changes in consumption because of changes in population and demand conditions, as computed from statistics published by agencies of the Federal Government; and, in order that such determinations shall be made so as to protect the welfare of consumers and of those engaged in the domestic sugar industry by providing such supply of sugar as will be consumed at prices which will fairly and equitably maintain and protect the welfare of the domestic sugar industry, the Secretary, in making any such determination, in addition to the consumption, inventory, population, and demand factors above specified and the level and trend of consumer purchasing power, shall take into consideration the relationship between the prices at wholesale for refined sugar that would result from such determination and the general cost of living in the United States as compared with the relationship between prices at wholesale for refined sugar and the general cost of living in the United States obtaining during 1947 prior to the termination of price control of sugar as indicated by the Consumers' Price Index as published by the Bureau of Labor Statistics of the Department of Labor.

Distribution of sugar by refiners, importers, and processors during the twelve months ended October 31, 1953, amounted to 8,216,000 short tons, raw value. Apparently, actual consumption was substantially the same, although it may have been slightly higher. In the fourteen-month interval between the year ending October 31, 1953, and the calendar year 1954 population of the continental United States is expected to increase about 2 percent. Apparent consumption during the base period, when adjusted for such population increase, would indicate a consumption of nearly 8,400,000 short tons, raw value, in 1954.

Invisible inventories (those of wholesalers, retailers and industrial users) on September 30, 1953, the latest date for which data are available, were estimated by the Bureau of Census at 456,000 tons, essentially unchanged from the 468,000 tons estimated for September 30, 1952. Such inventories usually are reduced toward the end of the year. It is possible, however, that on January 1, 1954, such inventories will be larger than customary.

Trade reports indicate that in recent weeks beet processors have been making strenuous efforts to market sugar in 1953 for consumption in 1954 in an effort to reduce the quantity of 1953-crop sugar remaining to be marketed within the 1954 quota when supplies of beet sugar for the year as a whole are expected to be larger. Stocks of sugar held by refiners and importers on October 31 and supplies remaining to be imported after that date were 104,000 tons higher than on the corresponding date of a year ago. It is possible that distribution by refiners prior to the year-end will also include more than normal quantities to be consumed in 1954. If invisible inventories and deferred arrivals are abnormally large at the end of 1953, requirements from 1954 quota supplies may be correspondingly reduced.

Employment and the disposable incomes of consumers are not expected to change greatly in 1954. Domestic sugar prices were relatively steady during most of 1953, but declines have occurred in the prices of both raw and refined sugar in recent weeks.

The Sugar Act requires that consideration be given to a supply of sugar that will maintain the relationship between the Consumers' Price Index and the price of sugar that existed in 1947 under price control. At its 1953 peak the New York price of refined sugar failed by 1.19 cents per pound to equal that level. Recently, the difference between the actual price and the price indicated by the cost of living index has widened, especially in the Mississippi Valley States where selling pressures from the domestic areas are greatest.

In view of the weakness in prices in recent weeks and of the uncertainties as to the quantities of sugar that may be marketed in 1953 for consumption in 1954, it appears necessary to establish new quota supplies initially at 400,000 tons below the level of consumption now anticipated for 1954 in order to stabilize prices at the level contemplated by the Sugar Act. Accordingly, sugar requirements for 1954 are hereby established at 8,000,000 short tons, raw value.

It is hereby found and concluded that the determination made above will meet the requirements of the Sugar Act of 1948, as amended.

*Quotas.* The basic quotes established for domestic areas are in amounts specified in the act. Section 202 of the act provides that the quota for the Republic of the Philippines shall be 952,000 short tons "as specified in section 211 of the Philippine Trade Act of 1946." Quotas under the Sugar Act are established in terms of "short tons, raw value." On the basis of the average polarization of Philippine sugar brought into the continental United States during the five years 1948–52, the statutory quota of

952,000 short tons is equivalent to 974,000 short tons, raw value. The portion of this quota which may be imported as direct-consumption sugar, established as 56,000 short tons in subsection (d) of section 207 of the act, may be filled entirely with refined sugar and is, therefore, determined to be equivalent to 59,920 short tons, raw value.

The basic quotas for other foreign countries have been established by applying the statutory percentages to the difference between the consumption estimate and the sum of the quotas established for domestic areas and the Republic of the Philippines. In accordance with subsection (c) of section 202 of the act, ninety-five percent of the quota for foreign countries other than Cuba and the Republic of the Philippines has been prorated to those countries which entered more than two percent of the average importations within the quotas for the years 1948, 1949 and 1950 on the basis of the average quantity imported from each such country within the quotas for those years. The remaining five percent of the quota has not been prorated to specific countries and may be filled by countries not receiving specific prorations. The amounts of the quotas and prorations which may be filled by direct-consumption sugar are as specified in the act. The liquid sugar quotas equal to those specified in the act.

Done at Washington, D. C., this 14th day of December 1953. Witness my hand and the seal of the Department of Agriculture.

## Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

### PART 984—HANDLING OF WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

#### CHANGES IN SALABLE, SURPLUS, AND WITHHOLDING PERCENTAGES

Upon the basis of the recommendation of the Walnut Control Board, the administrative agency for operations under the Marketing Agreement and Order (7 CFR, 1952 Rev., Part 984) effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and other available information, it is hereby found and determined that the existing regulation (18 F. R. 6397) fixing the salable, surplus, and withholding percentages for merchantable walnuts for the 1953–54 marketing year at 80 percent, 20 percent, and 25 percent, respectively, should be amended to provide for salable, surplus, and withholding percentages of 85 percent, 15 percent, and 18 percent, respectively. Therefore, it is hereby ordered that § 984.205 be, and it is hereby, amended to read as follows:

§ 984.205 *Salable, surplus, and withholding percentages for merchantable walnuts during the 1953–54 marketing year.* For merchantable walnuts, during the 1953–54 marketing year, the salable percentage shall be 85 percent, the surplus percentage shall be 15 percent, and the withholding percentage shall be 18 percent.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and to postpone the effective date of this section later than the date of its publication in the FEDERAL REGISTER. Substantial revisions have been made in the estimates of both the 1953 merchantable walnut production and trade demand for the 1953–54 marketing year since the existing percentages were fixed. On the basis of the relationship now found to exist between trade demand and the available supply, the aforesaid increase in the salable percentage, and the corresponding changes in the surplus and withholding percentages, will be necessary to make available sufficient walnuts to satisfy the trade demand. Under provisions of the order December 31, 1953, is the expiration date for bonds filed by handlers in postponement of their surplus obligations and is also the final date for settlement of their withholding obligations. It is desirable that the amended percentages be made effective upon publication of this section in the FEDERAL REGISTER so that the Board and handlers will have the maximum time in which to initiate and complete the actions necessary to settlement of the withholding obligations on the basis of the changed percentages by such final date. Therefore, good cause exists for not giving preliminary notice, engaging in rule making procedure, and postponing the effective date of this section later than the date of its publication in the FEDERAL REGISTER. (See section 4c of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.)

(Sec. 5, 48 Stat. 31, as amended; 7 U. S. C. and Sup. 608c).

Issued at Washington, D. C., this 11th day of December 1953, to become effective upon publication of this document in the FEDERAL REGISTER.

## Chapter XI—Agricultural Conservation Program, Department of Agriculture

### PART 1104—AGRICULTURAL CONSERVATION; ALASKA

#### SUBPART—1954

Productive land is the main source of the food, clothing, and shelter for the American people. The conservation and improvement of this resource for sustained, productive use is an undertaking of vital concern to citizens of all walks of life.

The Agricultural Conservation Program is an important part, but only a part, of a coordinated effort to help landowners and operators attain soil conservation objectives. The total effort includes research, education, technical assistance, cost-sharing, and such indirect aids as credit.

The fundamental purpose of the Agricultural Conservation Program is to provide a means by which the public can share with landowners and operators the cost of carrying out needed conservation work over and above that which they would do with only their own resources. It is our sincere hope that the Agricultural Conservation Program will be carried out in such a manner that it will make a marked contribution toward attainment of conservation objectives.

#### INTRODUCTION

§ 1104.300 *Introduction.* Through the 1954 Agricultural Conservation Program (referred to in this subpart as the 1954 program) administered by the Department of Agriculture, the Federal Government will share with farmers the cost of carrying out approved conservation practices in accordance with the provisions contained in this subpart and such modifications thereof as may hereafter be made. Approved practices will be deemed to have been carried out during the program year if started after the beginning of the program year and the county committee determines that they are substantially completed by the end of the program year. However, no practice will be eligible for Federal cost-sharing until it has been completed in accordance with all applicable specifications and program provisions.

#### GENERAL PROGRAM PRINCIPLES

§ 1104.301 *General program principles.* The 1954 Agricultural Conservation Program for Alaska has been developed and is to be carried out on the basis of the following general principles:

(a) The program is confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit.

(b) The program is designed to encourage those conservation practices which provide the most enduring conservation benefits practicably attainable in 1954 on the lands where they are to be applied.

(c) Costs will be shared with a farmer only on satisfactorily performed conservation practices for which Federal cost-sharing was requested by the farmer before the conservation work was begun.

(d) Costs should be shared only on practices which it is believed farmers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations on a particular farm should not be eligible for cost-sharing.

(e) The rates of cost-sharing are the minimum required to result in substantially increased performance of needed practices.

(f) The purpose of the program is to help achieve additional conservation on the land. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

(g) If the Federal Government shares the cost of the initial application of conservation practices which farmers otherwise would not perform but which are essential to the national interest, the farmers should assume responsibility for the upkeep and maintenance of those practices.

#### DISTRIBUTION AND CONTROL OF FUNDS

§ 1104.302 *Control of funds.* The State Committee will allocate the funds available for conservation practices among the counties within the State, taking into consideration, to the extent practicable, the conservation needs in the counties within the State. The county committee, in accordance with a method approved by the State Committee, will determine the extent to which Federal funds will be made available to share the cost of each approved practice on each farm, taking into consideration the county allocation, the conservation problems in the county and of the individual farm, and the conservation work for which requested Federal cost-sharing is considered by the county committee as most needed in 1954. The method approved shall provide for the issuance of notices of approval showing for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the Federal cost-share for the performance of that number of units of the practice. The amount of the Federal cost-share shall not be increased after performance of the practice.

§ 1104.303 *Adjustments.* If the total estimated earnings under the program exceed the total funds available, the Federal cost-shares will be reduced equitably, except that obligations will be paid in full for land development services furnished through the program under a purchase order for carrying out the practice contained in § 1104.315.

§ 1104.304 *Allocation.* The amount of funds available for conservation practices under this program is $21,000. This amount does not include the amount set aside for administrative expenses and the amount required for size of cost-share adjustments.

#### SELECTION AND APPROVAL OF CONSERVATION PRACTICES

§ 1104.306 *Selection of practices.* (a) Practices included in the program are only those practices for which the Production and Marketing Administration, Soil Conservation Service, and Forest Service agree that the bearing by the Federal Government of a share of the cost is essential to permit accomplishment of needed conservation work which would not otherwise be carried out in the desired volume.

(b) Each farm operator shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance in adequate volume on his farm. The county committee, taking into consideration the farmer's request and any conservation plan developed by the farmer with the assistance of any State or Federal agency, shall direct the available funds for cost-sharing to those farms and to those practices where cost-sharing is considered most essential to the accomplishment of the basic conservation objective of the Department—the use of each acre of agricultural land within its capabilities and the treatment of each acre in accordance with its needs for protection and improvement.

§ 1104.307 *Adaptation of practices and rates of cost-sharing.* In order to encourage the performance of practices which are needed most, the county committee may designate from the practices listed in this subpart, those practices which will be applicable on designated groups of farms, and may approve rates of cost-sharing lower than those set out in this subpart.

§ 1104.308 *County committee approval.* Written approval will be given only where the farmer requests cost-sharing before he begins the conservation practice. Requests may be made by contacting a representative of the county committee. The farmer will be notified in writing of the number of units of each practice approved, the date by which performance of the practice is to be reported, and the amount of funds obligated for the practice. It is the responsibility of the farmer to report performance of each practice on or before the closing date shown on the notice of approval.

#### CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

§ 1104.310 *Conservation practices and maximum rates of cost-sharing.* (a) Costs will be shared at the rates specified and within the limitations set forth in this subpart for carrying out during the period September 1, 1953, through December 31, 1954, the conservation practices included in this subpart which are approved for a farm. However, no

cost may be shared under the 1954 program which will result in additional cost-sharing for practices completed under the provisions of the 1953 program. Cost-sharing will be in the form of cash as reimbursement for a part of the cost of performing the practices, or as services furnished for carrying out the land clearing practice.

(b) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1104.311 to 1104.317. This responsibility shall include (1) a finding that the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance (or application of the practice to the land).

(c) The Forest Service is responsible for the technical phases of the practice contained in § 1104.318. This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for forestry practices, and (3) working through State and county committees, determining performance in meeting these specifications.

(d) For those practices in this subpart which authorize Federal cost-sharing for minimum required applications of commercial fertilizer, the minimum required applications shall be the minimum amounts, which, based on Experiment Station recommendations and experience in the area, are determined by the county committee to be required for adequate performance of the practice on the area involved.

§ 1104.311 *Practice 1: Diversion ditches to divert excess water to protected outlets.* These ditches are for the purpose of removing excess water from snow melting in the spring. They should be constructed on a grade ranging from 0 at the upper end to not in excess of 1 percent at the lower end. Grades should be either uniform or gradually increasing from the upper end. In all cases the grades, size, and spacing of ditches must be staked by a qualified technician. Diversion ditches must be provided with an outlet channel.

*Maximum Federal cost-share.* 50 percent of the cost, but not in excess of $0.12 per cubic yard of material moved.

§ 1104.312 *Practice 2: Establishing permanent sod waterways to dispose of excess water without causing erosion.* This practice is essential to adequate water disposal. The waterway may be either an excavated ditch or a natural drainageway. In either case, more than natural runoff is carried in the outlet channel; therefore, protection is needed to avoid channel erosion and the formation of gullies. They must be planted long enough in advance to develop a protective cover in the channel. This will take one to two years before water is diverted into them. In all cases the outlet channels will be selected by a qualified technician. New channels must be staked, constructed according to lines and grades, and sod established. Seedings in established permanent sod waterways shall be at a rate of at least 15 pounds per acre and shall contain not less than 50 percent of adapted sod-forming perennial grasses with the balance in other grasses or adapted legumes.

*Maximum Federal cost-share.* (1) 50 percent of the cost of seeding or sodding and applying the minimum required application of commercial fertilizer, including nitrogen, but not in excess of $0.75 per 1,000 square feet for seeding or sodding.

(2) 50 percent of the cost, but not in excess of $0.12 per cubic yard of earth moved with dirt-moving equipment in shaping and filling.

§ 1104.313 *Practice 3: Establishing a permanent vegatative cover on steep slopes for control of erosion.* Costs will be shared for establishing on steep slopes, a permanent cover of adapted perennial grasses or a mixture of perennial grasses and perennial or biennial legumes. The seed of these crops must be distributed over the area sown to insure a good stand at maturity. The minimum seeding rate shall not be less than 12 pounds of seed per acre.

*Maximum Federal cost-share.* 50 percent of the cost of seeding and applying the minimum required application of commercial fertilizer, including nitrogen, but not in excess of $6 per acre for seeding.

§ 1104.314 *Practice 4: Initial establishment or improvement of permanent grass or grass-legume cover for soil or watershed protection.* Costs will be shared for the initial establishment or the initial improvement of a protective vegetative cover by seeding adapted varieties of perennial grasses or legumes on areas which will remain in such cover. The seed must be adapted to local conditions, and must be properly distributed over the area sown, a sufficient amount being used to insure a good stand at maturity. The county committee will establish seeding rates for each area.

*Maximum Federal cost-share.* 50 percent of the cost of the seed and the minimum required application of commercial fertilizer, including nitrogen, but not in excess of the following rates per pound for seed:

| | |
|---|---|
| (1) Smooth bromegrass | $0.75 |
| (2) Kentucky bluegrass | .40 |
| (3) Meadow fescue | .40 |
| (4) Meadow foxtail | .40 |
| (5) Timothy | .20 |
| (6) Alsike clover | .55 |
| (7) Russian red clover | .75 |
| (8) Siberian alfalfa | .75 |
| (9) Yellow blossom sweetclover | .40 |

§ 1104.315 *Practice 5: Clearing land to permit land-use adjustments needed in establishing soil conserving cropping systems.* (a) The conservation value of this practice is in getting sufficient cleared land on the farm so that good land management practices can be carried out on all parts of the farm. Clearing areas which will result in increased erosion will not qualify for cost-sharing. Methods of clearing which result in destruction of needed organic material are considered to be disqualifying practices. Removal of mineral soil will be considered evidence of excessive removal of organic material. Needed conservation practices must be applied to land cleared under previous programs in order to qualify an applicant for cost-sharing for additional land development under this program. Costs will not be shared for clearing more than 5 acres on any farm during the 1954 program year and approval will not be given for clearing in excess of 30 acres on any farm under all programs.

(b) Clearing and developing land for cultivation involves several distinctly different types of operation. To distinguish the work for which costs will be shared, it is determined that clearing will include those operations which require the use of special equipment not normally required in farming operations for crop and livestock production. In order to take advantage of methods of progressive clearing, grubbing, and burning, costs will be shared on these items of work in each, completed during the program year. This practice has two operations: (1) Clearing: Stripping, shearing, or otherwise removing native cover. (2) Breaking: Burning, removing roots, and preparing land for tillage.

*Maximum Federal cost-share.* 50 percent of the cost of each completed operation (clearing or breaking), but not in excess of a total cost of $40 an acre for both operations.

§ 1104.316 *Practice 6: Installation of facilities for sprinkler irrigation to provide vegetative cover needed for soil protection on rolling land.* Practice applicable where primary use is for permanent pasture on excessively sloping or rolling land. The installation must be in accordance with written plans approved by the Soil Conservation Service technician and the county committee. The practice is not applicable on land for which water is not available. The power unit must be of capacity adequate to supply uniform distribution. Nozzle openings shall be of a size to hold application rate within intake capacity of soils to be irrigated.

*Maximum Federal cost-share.* (1) 50 percent of the average cost of permanently installed pipe and fittings, but not in excess of $500 per farm.

(2) 50 percent of the average cost of portable pipe and fittings, but not in excess of $500 per farm.

§ 1104.317 *Practice 7: Constructing wells for livestock water to provide soil protection through the adoption of livestock farming systems and increased acreages of permanent vegetative cover.* In order to qualify for cost-sharing the farmer must show that the well is necessary for establishing livestock on the farm. Even though the well may be constructed at the headquarters to prevent freezing during the winter months, it is not to be used primarily for household utility. The well and pumping equipment must be large enough to provide the minimum amount of water for the particular livestock enterprise. Adequate storage facilities must be provided. Pumping equipment must be installed, except for artesian wells.

*Maximum Federal cost-share.* (1) $1 per linear foot of well with bore taking casings less than 4 inches in diameter, and all artesian wells.

(2) $2 per linear foot of well with bore taking casings 4 inches, but less than 6 inches in diameter.

(3) $3 per linear foot of well with bore taking casings 6 inches or more in diameter.

§ 1104.318 *Practice 8: Planting or interplanting forest trees or shrubs on farmland for forestry purposes, windbreaks, shelterbelts, or erosion control.* Planting must be protected from fire and grazing. If shrubs are used, those that benefit wildlife should be given preference wherever practicable.

*Maximum Federal cost-share.* 50 percent of the average cost of trees and planting, including land preparation.

FEDERAL COST-SHARES

§ 1104.326 *Division of Federal cost-shares.* (a) The Federal cost-share earned in carrying out practices with conservation services shall be credited to the person to whom the services are furnished. Cost-shares for practices performed with conservation services shall have priority over cost-shares for other practices. Cost-shares earned by carrying out other practices shall be paid to the person who carried out the practices. If more than one person contributed to the carrying out of such practices, the cost-share shall be divided in the proportion that the county committee determines the persons contributed to the carrying out of the practices. In making this determination, the county committee shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the county committee that their contributions thereto were not in equal proportion. The furnishing of land will not be considered as a contribution to the carrying out of any practice.

(b) In case of death, incompetency, or disappearance of any person, any share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended (Part 1108 of this chapter).

§ 1104.327 *Increase in small Federal cost-shares.* The Federal cost-share computed for any person with respect to any farm shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may in such manner and at such time as is consistent with such legislation discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

| Amount of cost-share computed: | Increase in cost-share |
|---|---|
| $1 to $1.99 | $0.40 |
| $2 to $2.99 | .80 |
| $3 to $3.99 | 1.20 |
| $4 to $4.99 | 1.60 |
| $5 to $5.99 | 2.00 |
| $6 to $6.99 | 2.40 |
| $7 to $7.99 | 2.80 |

| Amount of cost-share computed—Con. | Increase in cost-share |
|---|---|
| $8 to $8.99 | $3.20 |
| $9 to $9.99 | 3.60 |
| $10 to $10.99 | 4.00 |
| $11 to $11.99 | 4.40 |
| $12 to $12.99 | 4.80 |
| $13 to $13.99 | 5.20 |
| $14 to $14.99 | 5.60 |
| $15 to $15.99 | 6.00 |
| $16 to $16.99 | 6.40 |
| $17 to $17.99 | 6.80 |
| $18 to $18.99 | 7.20 |
| $19 to $19.99 | 7.60 |
| $20 to $20.99 | 8.00 |
| $21 to $21.99 | 8.20 |
| $22 to $22.99 | 8.40 |
| $23 to $23.99 | 8.60 |
| $24 to $24.99 | 8.80 |
| $25 to $25.99 | 9.00 |
| $26 to $26.99 | 9.20 |
| $27 to $27.99 | 9.40 |
| $28 to $28.99 | 9.60 |
| $29 to $29.99 | 9.80 |
| $30 to $30.99 | 10.00 |
| $31 to $31.99 | 10.20 |
| $32 to $32.99 | 10.40 |
| $33 to $33.99 | 10.60 |
| $34 to $34.99 | 10.80 |
| $35 to $35.99 | 11.00 |
| $36 to $36.99 | 11.20 |
| $37 to $37.99 | 11.40 |
| $38 to $38.99 | 11.60 |
| $39 to $39.99 | 11.80 |
| $40 to $40.99 | 12.00 |
| $41 to $41.99 | 12.10 |
| $42 to $42.99 | 12.20 |
| $43 to $43.99 | 12.30 |
| $44 to $44.99 | 12.40 |
| $45 to $45.99 | 12.50 |
| $46 to $46.99 | 12.60 |
| $47 to $47.99 | 12.70 |

| $53 to $53.99 | 13.30 |
| $54 to $54.99 | 13.40 |
| $55 to $55.99 | 13.50 |
| $56 to $56.99 | 13.60 |
| $57 to $57.99 | 13.70 |
| $58 to $58.99 | 13.80 |
| $59 to $59.99 | 13.90 |
| $60 to $185.99 | 14.00 |
| $186 to $199.99 | (1) |
| $200 and over | (2) |

[1] Increase to $200.
[2] No increase.

§ 1104.328 *Federal cost-shares limited to $1,500.* The total of all Federal cost-shares under the 1954 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $1,500. All or any part of any Federal cost-share which otherwise would be due any person under the 1954 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

CONSERVATION SERVICES

§ 1104.331 *Availability.* Part or all of the Federal cost-share for an approved practice may be in the form of services furnished through the program for use in carrying out the practice. Services may not be furnished to persons who are indebted to the Federal Government, as indicated by the register of indebtedness maintained in the office of the county committee, except in those cases where the agency to which the debt is owed waives its rights to setoff in order to permit the furnishing of materials and services.

§ 1104.332 *Cost to farmer.* The farmer shall pay that part of the cost of the material or service, as established under instructions issued by the Administrator, which is in excess of the Federal cost-share attributable to the use of the service.

§ 1104.333 *Discharge of responsibility for services.* The person to whom a service is furnished under the 1954 program will be relieved of responsibility for the service upon determination by the county committee that the service was used in performing the practice for which the service was furnished. If the person uses any service for any purpose other than that for which it was furnished, he shall be indebted to the Federal Government for that part of the cost of the service borne by the Federal Government and shall pay such amount to the Treasurer of the United States direct or by withholdings from Federal cost-shares otherwise due him under the program.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1104.336 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm under the 1954 program will be subject to the condition that the person with whom the costs are shared will maintain such practices in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1104.337 *Practices defeating purposes of programs.* If the State Committee finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1954 or any previous program, including, but not limited to, failure to maintain in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1104.338 *Depriving others of Federal cost-share.* If the State committee finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1104.339 *Filing of false claims.* If the State Committee finds that any person has knowingly filed claim for payment of the Federal cost-share under the

program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-sharing under the program and shall refund all amounts that may have been paid to him under the program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1104.340 *Misuse of purchase orders.* If the State Committee finds that any person has knowingly used a purchase order issued to him for conservation services for a purpose other than that for which it was issued, and that such misuse of the purchase order tends to defeat the purpose for which it was issued, such person shall not be eligible for any Federal cost-sharing under the program and shall refund all amounts that may have been paid to him under the program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1104.341 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1104.342, and except for indebtedness to the United States subject to setoff under orders issued by the Secretary (Part 1109 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1104.342 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1954 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1954. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70–Insular Region.

§ 1104.343 *Compliance with regulatory measures.* Persons who carry out conservation practices under the 1954 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

§ 1104.344 *Practices carried out with State or Federal aid.* The Federal share of the cost for any practice shall not be reduced because it is carried out with services furnished through the program or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total Federal cost-share computed on the basis of the total number of units of the practice performed shall be reduced by the value of the aid, as determined by the county committee, in computing the amount of the Federal cost-share to be paid for performance of the practice. Services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

§ 1104.346 *Persons eligible to file application.* Any person who, as landlord, tenant, or sharecropper on a farm, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1104.347 *Time and manner of filing application and required information.* Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the county office. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the county office within the time fixed by the Administrator, which time shall not be later than December 31, 1955. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information, and any time limit fixed shall afford a full and fair opportunity to those eligible to file the form or information within the period prescribed. Such notice shall be given by mailing notice to the office of each county committee and making copies available to the press.

APPEALS

§ 1104.351 *Appeals.* Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the county committee in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-share with respect to the farm. The county committee shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the person is dissatisfied with the decision of the county committee, he may, within 15 days after the decision is forwarded to or made available to him, appeal in writing to the State Committee. The State Committee shall notify him of its decision in writing within 30 days after the submission of the appeal. If he is dissatisfied with the decision of the State Committee, he may, within 15 days after its decision is forwarded to or made available to him, request the Administrator to review the decision of the State Committee. The decision of the Administrator shall be final. Written notice of any decision rendered under this section by the county or State committee shall also be issued to each other landlord, tenant, or sharecropper on the farm who may be adversely affected by the decision.

HANDBOOKS, BULLETINS, INSTRUCTIONS, AND FORMS

§ 1104.356 *Handbooks, bulletins, instructions, and forms.* The Administrator is authorized to make determinations and to prepare and issue handbooks, bulletins, instructions, and forms required in administering the 1954 program. Persons wishing to participate in the program should obtain all information needed from the county committee.

DEFINITIONS

§ 1104.361 *Definitions.* For the purposes of the 1954 program:

(a) "Secretary" means the Secretary of the United States Department of Agriculture or the officer of the Department acting in his stead pursuant to delegated authority.

(b) "Administrator" means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means Alaska.

(d) "State Committee" means the persons designated by the Secretary as the State Committee of the Production and Marketing Administration in Alaska.

(e) "County committee" means the persons elected within a county as the county committee pursuant to regulations governing the selection and functions of the Production and Marketing Administration county committees.

(f) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity (and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(g) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with work stock, machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

(h) "Cropland" means farmland which in 1953 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes, or will constitute if tillage is continued, a wind-erosion hazard to the community.

(i) "Pastureland" means farmland, other than rangeland, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(j) "Rangeland" means any land which produces or can produce forage suitable for grazing by range livestock without cultivation or general irrigation.

(k) "Program year" means September 1, 1953, through December 31, 1954.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1104.366 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148, 16 U. S. C. 590g–590q), and the Department of Agriculture Appropriation Act, 1954.

§ 1104.367 *Availability of funds.* (a) The provisions of the 1954 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1954 program will not be available for paying Federal cost-shares for which applications are filed in the county office after December 31, 1955.

§ 1104.368 *Applicability.* (a) The provisions of the 1954 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; and (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by Alaska or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit association; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, The Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 11th day of December 1953.

PART 1105—AGRICULTURAL CONSERVATION; HAWAII

SUBPART—1954

The United States Department of Agriculture offers every farmer in the Territory of Hawaii an opportunity to conserve and improve the productivity of his land through participation in the 1954 Agricultural Conservation Program.

Under this program part of the costs of the conservation practices is borne by the Government and this represents the Nation's interest in what happens to its basic land and water resources.

Costs will be shared on performance of recommended practices at approved rates to the extent of available funds. Developed under the provisions of the Soil Conservation and Domestic Allotment Act, the program is designed to meet local conservation needs.

Approved practices will be deemed to have been carried out during the program year if started after the beginning of the program year and the county committee determines that they are substantially completed by the end of the program year. However, no practice will be eligible for Federal cost-sharing until it has been completed in accordance with all applicable specifications and program provisions.

Information contained in this subpart outlines the general provisions of the 1954 Agricultural Conservation Program for Hawaii and general specifications and rates of Federal cost-sharing for practices.

GENERAL PROGRAM PRINCIPLES

The 1954 Hawaii Agricultural Conservation Program has been developed and is to be carried out on the basis of the following general principles:

1. The program is confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit in the Territory.

2. The program is designed to encourage those conservation practices which provide the most enduring conservation benefits practicably attainable in 1954 on the lands where they are to be applied.

3. Costs will be shared with a farmer or rancher only on satisfactorily performed conservation practices for which Federal cost-sharing was requested by the farmer or rancher before the conservation work was begun.

4. Costs will be shared only on practices which it is believed farmers would not carry out to the needed extent without program assistance. Generally, practices that have become a part of regular farming operations on a particular farm or ranch will not be eligible for cost-sharing.

5. The rates of cost-sharing in the program are the minimum considered necessary to result in substantially increased performance of needed practices within the limits prescribed.

6. The purpose of the program is to help achieve additional conservation on the land. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

7. If the Federal Government shares the cost of the initial application of conservation practices which farmers and ranchers otherwise would not perform but which are essential to the national interest, the farmers and ranchers should assume responsibility for the upkeep and maintenance of those practices.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

1105.311 Practice 1: Constructing continuous terraces and or diversion ditches to control the flow of runoff water and check soil erosion on sloping farmland.
1105.312 Practice 2: Constructing interception ditches and or outlet channels or disposing of, diverting, or collecting water to control erosion or for impounding livestock water to obtain proper distribution of livestock and encourage rotation grazing and better land management as a means of protecting established vegetative cover, and for irrigation.
1105.313 Practice 3: Establishing a protective sod lining in waterways to dispose of excess water without causing erosion.
1105.314 Practice 4: Building erosion control dams or stone or vegetative barriers to prevent or heal the gullying of farmland and reduce runoff of water.
1105.315 Practice 5: Constructing permanent riprap or revetment of stone to control erosion of streambanks, gullies, dam faces, or watercourses.
1105.316 Practice 6: Initial planting of orchards on the contour to help prevent erosion.
1105.317 Practice 7: Initial establishment in the cropping system of leguminous crops for use as stubble mulch, cover, or green manure for protection of soil from erosion.
1105.318 Practice 8: Initial establishment in the cropping system of adapted nonlegumes for stubble mulch, cover, filter strip, or green manure for protection of soil from erosion.

Sec.
1105.319 Practice 9: Initial establishment of permanent pasture on severely eroded land or land so subject to erosion or with soils so shallow, alkaline, stony, or incapable of drainage, or so sandy or of such low inherent productive capacity, or where the average rainfall is so low, that for soil protection its use should be in permanent vegetative cover; or initial improvement of an established permanent grass or grass-legume cover for soil or watershed protection by seeding, sodding, or sprigging adapted perennial grasses or a mixture of perennial legumes or grasses.
1105.320 Practice 10: Applying ground limestone or its equivalent for initial treatment of cropland or pasture for correction of soil acidity and addition of needed calcium to permit best use of legumes and/or grasses for soil improvement and protection in accordance with Agricultural Extension Service recommendations where soil analysis shows the need.
1105.321 Practice 11: Controlling competitive shrubs to permit growth of adequate vegetative cover for soil protection on range or pasture lands by poisoning.
1105.322 Practice 12: Initial application of organic mulch material to any cropland or eroded pasture areas for soil protection and moisture conservation.
1105.323 Practice 13: Installation of pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover.
1105.324 Practice 14: Construction of permanent artificial watersheds and or storage tanks for accumulating water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover.
1105.325 Practice 15: Construction of permanent fences to obtain better distribution and control of livestock grazing on range or pasture land and to promote proper management for protection of established forage resources, or to protect farm woodland from grazing.
1105.326 Practice 16: Constructing or enlarging dams, pits, and ponds to impound surface water for irrigation.
1105.327 Practice 17: Reorganizing farm irrigation systems to conserve water and prevent erosion.
1105.328 Practice 18: Construction or enlargement of permanent open drainage systems to dispose of excess water.
1105.329 Practice 19: Planting, interplanting, or replanting forest trees or shrubs on farmland in windbreaks and farm woodlots or woodlands for erosion control, watershed protection, or forestry purposes.
1105.330 Practice 20: Installation of facilities for sprinkler irrigation of permanent pasture on sloping land for developing forage resources to encourage rotation grazing and better range management for protection of all grazing land in the farm against erosion.

FEDERAL COST-SHARES

DEFINITIONS

§ 1105.300 *Definitions.* For the purposes of the 1954 program:

(a) "Secretary" means the Secretary of the United States Department of Agriculture or the officer of the Department acting in his stead pursuant to delegated authority.

(b) "Administrator" means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means the Territory of Hawaii.

(d) "State Office" means the office of the Production and Marketing Administration in Honolulu, Territory of Hawaii.

(e) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise, or other legal entity (and, wherever applicable, a State, Territory, or Possession, or a political subdivision or agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm.

(f) "Farm" or "ranch" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also (1) any other adjacent or nearby farm or range land which the State Office, in accordance with instructions issued by the Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and (2) any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops. A farm or ranch shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm or ranch is located.

(g) "Cropland" means farmland which in 1953 was tilled or was in regular crop rotation, excluding (1) bearing orchards and vineyards (except the acreage of cropland therein), (2) plowable noncrop open pasture, and (3) any land which constitutes, or will constitute if tillage is continued, a wind-erosion hazard to the community.

(h) "Orchardland" means the acreage in planted fruit trees, nut trees, coffee trees, papaya trees, banana plants, or vineyards.

(i) "Pastureland" means farmland, other than rangeland, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(j) "Rangeland" means land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation and is not suitable for any other agricultural use.

(k) "Merchantable timber" means any processed or unprocessed timber which is sold for cash by the producer.

(l) "Forest Service" means Division of Forestry, Territorial Board of Agricultural and Forestry.

CONTROL OF FUNDS

§ 1105.301 *Amount of Federal cost-shares.* The State Office will determine the extent to which program funds will be made available to share the cost of each approved practice on each farm or ranch, taking into consideration the available funds, the conservation problems of the individual farm or ranch and other farms, and the conservation work for which requested Federal cost-sharing is considered as most needed in 1954. The notice of approval shall show for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the Federal cost-share for the performance of that number of units of the practice. The amount of the Federal cost-share shall not be increased after performance of the practice.

§ 1105.302 *Adjustments.* If the total estimated Federal cost-shares under the program exceed the total funds available, the Federal cost-shares will be reduced equitably.

§ 1105.303 *Allocation.* The amount of funds available for conservation practices under this program is $140,000. This amount does not include the amount set aside for administrative expenses and the amount required for size-of-cost-share adjustments in § 1105.342.

APPROVAL OF CONSERVATION PRACTICES

§ 1105.305 *Selection of practices.* (a) Practices included in the program are only those practices for which the Production and Marketing Administration, Soil Conservation Service, and Forest Service locally have agreed that the sharing by the Federal Government of a share of the cost is essential to permit accomplishment of needed conservation work which would not otherwise be carried out in the desired volume.

(b) Each farm or ranch operator shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance in adequate volume on his farm or ranch. The State Office, taking into consideration the farmer's or rancher's request and any conservation plan developed by the farmer or rancher with the assistance of any State or Federal agency, shall direct the available funds for cost-sharing to those farms and ranches and to those practices where cost-sharing is considered most essential to the accomplishment of the basic conservation objective of the Department—the use of each acre of agricultural land within its capabilities and the treatment of each acre in accordance with its needs for protection and improvement.

§ 1105.306 *Adaptation of practices.* In order to encourage the performance of conservation practices which are needed most, the State Office may designate from the practices listed in this subpart those practices which will be applicable on designated groups of farms or ranches.

§ 1105.307 *Pooling agreements.* Persons in any local area may agree in writing, with approval of the State Office, to perform designated amounts of practices which the State Office determines are necessary to conserve or improve the agricultural resources of the community. For purposes of cost-sharing, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms or ranches of the persons who performed the practices.

§ 1105.308 *Prior notice to State Office.* The State Office requires notification in advance of the farmer's or rancher's intentions to participate in the 1954 program and of his designation of practices to be used. Intentions (request for Federal cost-sharing) are to be filed on Form ACP-201, Request That Federal Government Share Costs of Needed Conservation Practices. This form may be filed with the Honolulu or Hilo office of the Production and Marketing Administration, or with authorized farm checkers, but must be submitted before April 1, 1954. Information must include a description of the practice(s) and extent of the performance anticipated for each practice.

§ 1105.309 *Program year and technical aid.* (a) Costs will be shared at the rates specified and within the limitations set forth in this subpart for carrying out during the period from January 1, 1954, to December 31, 1954, inclusive, the conservation practices included in this subpart which are approved for a farm or ranch, except that farmers or ranchers who before December 31, 1953, (1) complete all practices for which they will make claim for cost-shares under the 1953 program, or (2) have carried out practices to the maximum extent of their allowance under the 1953 program, may enroll and perform practices under the 1954 program any time after September 30, 1953. No costs will be shared under the 1954 program for any part of a practice carried out for cost-sharing under the 1953 program.

(b) The Soil Conservation Service is responsible for the technical phases of practices contained in §§ 1105.311 through 1105.315, 1105.324, 1105.326 through 1105.328, and 1105.330. This responsibility shall include (1) a finding that the practice is needed and practical on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance. In addition, the Soil Conservation Service is responsible for determining that the practices contained in §§ 1105.316, 1105.323, and 1105.325 are needed and practical on the farm. The State Conservationist of the Soil Conservation Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities.

(c) The Forest Service (Forestry Division, Territorial Board of Agriculture and Forestry) is responsible for the technical phases of the practice contained in § 1105.329. This responsibility shall include (1) providing necessary specialized technical advice and or assistance, (2) development of specifications for forestry practices, and (3) working through the State Office, determining compliance in meeting these specifications.

§ 1105.310 *Practice specifications and approval.* (a) Minimum specifications which practices must meet to be eligible for assistance are set forth in this subpart. Additional specifications may be secured from the State Office or the Soil Conservation Service Territorial Office in Honolulu.

(b) For those practices in this subpart which authorize Federal cost-sharing for minimum required applications of liming materials and commercial fertilizers, the minimum required application on which cost-sharing is authorized shall in each case be determined on the basis of the current soil test: *Provided, however,* That if the State Office determines that available facilities are inadequate to provide the necessary tests, the minimum required applications of these materials shall be those recommended for the area by the Agricultural Extension Service.

(c) Costs for practices contained in §§ 1105.313 and 1105.317 through 1105.319 may be shared even though a good stand is not established, if the State Office determines, in accordance with approved standards, that the practices were carried out in a manner which would normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the farm or ranch operator. The State Office may require as a condition of cost-sharing in such cases that the area be reseeded, or that other needed protective measures be carried out.

(d) Costs will be shared only for those practices for which cost-sharing is requested by the farm or ranch operator before performance of the practice is started. For practices for which (1) approval was given under the 1953 Agricultural Conservation Program, (2) performance was started but not completed during the 1953 program year, and (3) the State Office believes the extension of the approval to the 1954 program is justified under the 1954 program regulations and provisions, the filing of the request for assistance under the 1953 program may be regarded as meeting the requirement of the 1954 program that a request for cost-sharing be filed before performance of the practice is started. To the extent practicable, notices of approved practices shall be issued before performance of the practices is started.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

§ 1105.311 *Practice 1: Constructing continuous terraces and/or diversion ditches to control the flow of runoff water and check soil erosion on sloping farmland.* Cost-sharing will be allowed, provided the structures are properly laid out, and constructed in accordance with specifications contained in SCS Technical Standards on file in the State Office. If the land terraced is planted to clean-tilled crops, the crop rows should follow contour lines and the land surface must be protected during the rainfall season by cover crops, heavy crop residues, or organic mulches. Diversion ditches should be used on slopes between 16 percent and 20 percent and bench-type terraces on land of 20 percent or more slope. No cost-sharing will be allowed for reconstructing old terraces.

*Maximum Federal cost-share.* (a) $2 per 100 linear feet of terrace constructed in clear soil.

(b) $4 per 100 linear feet of terrace constructed in very rocky soil or exposed rocky substratum.

(c) $8 per 100 linear feet for bench terraces.

(d) $0.10 per cubic yard of earth moved in diversion ditch construction.

§ 1105.312 *Practice 2: Constructing interception ditches and or outlet channels for disposing of, diverting, or collecting water to control erosion or for impounding livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grazing land management as a means of protecting established vegetative cover, and for irrigation.* This practice does not apply to infield surface water interception on farmlands. See § 1105.311 (practice 1) for infield interception of runoff waters. Channels having an erosive grade must be protected against erosion damage by adequate sod or other lining. Outlets must be protected to discharge water without gullying. The

amount of material moved in channel construction shall be that which is determined by direct measurement of ridge or berm material above normal ground level or that determined by prior and subsequent sectional surveys. Cost-sharing will be allowed only once and that for the year of construction. Specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* $0.10 per cubic yard of material moved.

§ 1105.313 *Practice 3: Establishing a protective sod lining in waterways to dispose of excess water without causing erosion.* This practice is to prevent erosion in permanent waterways and is applicable only to waterways built or reshaped in the program year for use in removing excess water from farmland that is contoured, terraced, and/or trash-mulched. Satisfactory sod lining (dense enough to prevent soil cutting) must be established before cost-sharing may be allowed for this practice. Maximum width of waterway for which cost-sharing will be approved is 50 feet. Detailed specifications on species, seeding rates, sprig spacings, soil preparation, and irrigation are contained in Soil Conservation Service Technical Standards on file in the State Office. Bermuda, Giant Bermuda, Kikuyu, or any other locally adapted species approved by the State Office may be used.

*Maximum Federal cost-share.* $0.75 per 1,000 square feet of surface established by shaping and seeding, sodding, or sprigging, plus 50 percent of the average cost at the farm of the minimum required application of approved liming materials and commercial fertilizers, including nitrogen, for the establishment of the cover.

§ 1105.314 *Practice 4: Building erosion control dams or stone or vegetative barriers to prevent or heal the gullying of farmland and reduce runoff of water.* Receipts or invoices showing purchase of pipe and or flume material, and receipts or records showing payment for labor will be required by inspectors as evidence of accomplishment under (d) and (f) of this section. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* (a) $0.14 per cubic yard of earth moved in the construction of the dams, wings, and walls.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and or flume material delivered to the farm.

(e) $1.50 per cubic yard of rock used, for rock or rock-and-brush dams.

(f) 50 percent of the cost of constructing stone barriers for diverting and spreading surface runoff.

(g) $0.25 per 100 linear feet for planting single line vegetative barriers to impede the flow of surface runoff.

(h) $1.50 per 1,000 square feet for planting suitable permanent massed vegetative barriers.

§ 1105.315 *Practice 5: Constructing permanent riprap or revetment of stone to control erosion of streambanks, gullies, dam faces, or watercourses.* Dams for purposes other than for impounding water for irrigation or for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management are not eligible. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* $0.50 per square yard of exposed riprap surface.

§ 1105.316 *Practice 6: Initial planting of orchards on the contour to help prevent erosion.* This practice is to conserve water and reduce erosion from irrigation or storm water with orchard rows running on nonerosive grades across the main slope. Cost-sharing will be allowed for planting orchards on the contour on land having more than 2 percent slope. The land must be protected during the rainfall season by cover crops, stubble mulch, or mulch and terraces or diversion ditches.

*Maximum Federal cost-share.* $5 per acre.

§ 1105.317 *Practice 7: Initial establishment in the cropping system of leguminous crops for use as stubble mulch, cover, or green manure for protection of soil from erosion.* In order to qualify, a good stand and a good growth of the leguminous crops must be grown and left on the land as cover or turned under for green manure during the program year. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office. Receipts or invoices showing purchase of seed, or records of collecting, will be required by inspectors as evidence of seed used. In case of mixed seeding with acceptable nonlegumes (see § 1105.318, practice 8), the ratio of one-third of the required poundage of legume seed for unmixed plantings to two-thirds of the required poundage of nonlegume seed for unmixed plantings shall provide the basis for determining eligibility and cost-share. Federal cost-sharing will be limited to the acreage in excess of the normal acreage of such plantings which shall not be less than the average of all such plantings for the past three years. Any of the following crops or any other locally adapted crops approved by the State Office may be used.

| | *Minimum seeding rate (pounds per acre)* |
|---|---|
| (a) Pigeon peas | 30 |
| (b) Velvetbeans | 50 |
| (c) Field beans | 30 |
| (d) Purple vetch | 50 |
| (e) Clover | 5 |
| (f) Kudzu | 8 |
| (g) Crotalaria juncea | 10 |
| (h) Crotalaria spectabilis | 10 |
| (i) Cowpeas | 30 |

*Maximum Federal cost-share.* 50 percent of the cost of seed at the farm, but not in excess of $5 per acre of area planted.

§ 1105.318 *Practice 8: Initial establishment in the cropping system of adapted nonlegumes for stubble mulch, cover, filter strip, or green manure for protection of soil from erosion.* Para grass (Panicum purpurascens), molasses grass, Rhodes grass, feather fingergrass, acceptable small grains, and other nonlegumes determined by the State Office as suitable for this purpose, are eligible for cost-sharing. In order to qualify, a good stand and a good growth must be secured during the program year and be left on the land if for cover or turned under before year-end if for green manure. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office. Acreage harvested for seed or hay is not eligible for Federal cost-sharing. Federal cost-sharing (except for seedings for filter strips) will be limited to the acreage in excess of the normal acreage of such plantings which shall not be less than the average of all such plantings for the past three years. Receipts or invoices showing purchases of seed, or records of collecting, will be required by inspectors as evidence of seed used. In case of mixed seeding with acceptable legumes, see § 1105.317 (practice 7) for ratio specifications.

*Maximum Federal cost-share.* 50 percent of the cost of seed at the farm, but not in excess of $5 per acre of area actually planted.

§ 1105.319 *Practice 9: Initial establishment of permanent pasture on severely eroded land or land so subject to erosion or with soils so shallow, alkaline, stony, or incapable of drainage, or so sandy or of such low inherent productive capacity, or where the average rainfall is so low, that for soil protection its use should be in permanent vegetative cover; or initial improvement of an established permanent grass or grass-legume cover for soil or watershed protection by seeding, sodding, or sprigging adapted perennial grasses or a mixture of perennial legumes or grasses.* All equipment used to prepare land for seeding shall operate across the slope as near to the contour as practicable. In areas where long slopes are to be broken out of native vegetation, the land preparation shall be done in contour strips and established to improved pasture before the intermediate strips shall be broken out. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office. The seed must be well distributed over the area sown to insure a good stand at maturity. Any locally adapted crops approved by the State Office may be used but must be seeded at not less than the minimum seeding rates per acre prescribed by the State Office. In order to meet minimum requirements, slips or stools of grasses may be planted in continuous rows. Grass and legume charts are available in the State Office. Costs will be shared only if a satisfactory stand of the seeded grass or legume-grass mixture is established within the program year unless natural circumstances recognized by the State Office as being beyond control of the farmer affect growth results adversely. No area seeded shall be grazed until grass and legume-grass mixtures are well established. If clearing is done, the land must have undergone no clearing operation within the past 25 years while under control of the present operator or within 10 years in the case of a recent change in ownership or tenancy, except where the State Office determines otherwise. Land cleared must be established in perennial grasses or a legume-grass mixture as soon as practicable and

within the program year. No cost will be shared where mechanical equipment is used on slopes above 35 percent nor will cost be shared for clearing a stand of merchantable timber (including timber for fence posts and charcoal for sale). No cost will be shared for land clearing if the land cleared would be suitable for cultivation of crops. Records of labor, equipment, and material used in the clearing operation and receipts or invoices showing purchase of seed or records of costs of collecting will be required as evidence of cost.

*Maximum Federal cost-share.* (a) Seeding after land preparation, 50 percent of the cost of seed, plus 50 percent of the average cost at the farm of the minimum required application of approved liming materials and commercial fertilizers, including nitrogen, for the establishment of the cover.

(b) Clearing operations not to exceed the lesser of $15 per acre or $1,000 per farm.

§ 1105.320 *Practice 10: Initial treatment of cropland or pasture for correction of soil acidity and addition of needed calcium to permit best use of legumes and or grasses for soil improvement and protection.* This practice is applicable to land which is devoted in 1954 to grasses or legumes or which will be devoted to grasses or legumes in the planned rotation for the farm. Treatment of land which is in pasture and which is to remain in pasture will be eligible for cost-sharing only if all measures needed to assure an improved vegetative cover which will provide adequate and extended soil protection are carried out. Any acreage on which cost-sharing is given under this practice under the 1954 program will not qualify for cost-sharing for liming in subsequent years. Liming material must contain at least 80 percent calcium carbonate equivalent and be fine enough to pass through a 20-mesh screen (unless the Agricultural Extension Service of the University of Hawaii recommends otherwise) and must be evenly applied to the land. Receipts or invoices showing the purchase of lime, properly dated and signed by the vendor, will be required as evidence by the farm inspector at the time of inspection.

*Maximum Federal cost-share.* 50 percent of the average cost of the minimum required application of liming material delivered to the farm.

§ 1105.321 *Practice 11: Controlling competitive shrubs to permit growth of adequate vegetative cover for soil protection on range or pasture lands by poisoning.* Sharing costs for poisoning will be repeated for each application but not in excess of 2 per year made according to accepted practices. Receipts or invoices showing purchase and analysis of poisons used will be required by inspectors as evidence. Competitive shrubs eligible under this practice are as follows:

Guava (Psidium guajava).
Opuuma (Pithecellobium dulce).
Eimex (Rumex spinosa).
Melastoma (Melastome malabathricum).
Firebush (Myrica faya).
Pepper tree (Schinus molle).
Cactus (Opuntia megaxantha).
Java plum (Eugenia cumini).
Hawaiian holly (Schinus terminthifolia).
Cat's claw (Caesalpinia Jayabo).
Aalii (Dodonaea viscosa).
Joee (Stachytarpheta cayennensis, Verbene bonariensis).
Lantana (Lantana camara).
Waiwi (Psisium cattleianum var. lucidum).
Pamakani (Eupatorium adenophorum).
Puakiawa (Styphelia tamelameiae).
Sacramento burr (Triumfetta bartramia).
Staghorn fern (Gleichenia linearis).

*Maximum Federal cost-share.* 50 percent of the average cost of State Office approved chemicals, but not in excess of $2 per acre per application.

§ 1105.322 *Practice 12: Initial application of organic mulch material to any cropland or eroded pasture areas for soil protection and moisture conservation.* Organic material must be of a fibrous nature and shredded, chopped, or crushed. Material such as sugarcane bagasse, cane leaf trash, pineapple trash, tree fern stumps, coarse grasses, coffee husks, sawdust, and wood shavings, as well as macadamia nut husks and shells, will be eligible. The mulch must be thick enough to completely cover the surface of soil areas treated. Receipts or invoices showing purchase of materials and cost of transportation will be required by inspectors as evidence of compliance.

*Maximum Federal cost-share.* (a) 50 percent of the cost of material at the farm, but not in excess of $25 ($50 in Kula, Makawao, and Olinda farming sections of Maui) per acre treated with materials secured from outside the farm.

(b) $2.50 per acre treated with material produced on the farm.

§ 1105.323 *Practice 13: Installation of pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover.* Receipts or invoices showing purchase of pipe used will be required to determine cost.

*Maximum Federal cost-share.* 50 percent of the average cost of pipe at the farm, except that the cost-share for pipe in excess of 2 inches in diameter may not exceed the cost which may be shared for 2-inch pipe.

§ 1105.324 *Practice 14: Construction of permanent artificial watersheds and/or storage tanks for accumulating water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover.* No cost will be shared if part of the water impounded or supplied is used for irrigation or domestic purposes. Receipts or invoices showing purchase of materials used will be required to determine cost. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* (a) 50 percent of the cost of material used, other than concrete and rubble masonry.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

§ 1105.325 *Practice 15: Construction of permanent fences to obtain better distribution and control of livestock grazing on range or pasture land and to promote proper management for protection of established forage resources, or to protect farm woodland from grazing.* No cost may be shared for the maintenance or repair of existing fences or for construction of boundary fences including road fences. Required fencing of forest reserve land is not eligible. Any fencing necessary to the working of cattle (including pens and corrals) is ineligible. Receipts or invoices showing purchase of materials will be required to determine cost.

*Maximum Federal cost-share.* (a) 50 percent of the average cost at the farm of posts, wire, poles, lumber, staples, or other similar fencing materials used.

(b) $0.10 per linear foot of rock wall, minimum dimensions of which shall be: Height, 4 feet; base width, 36 inches, top width, 24 inches.

§ 1105.326 *Practice 16: Constructing or enlarging dams, pits, and ponds to impound surface water for irrigation.* No cost-sharing will be given for material moved in cleaning or maintaining a reservoir. Receipts or invoices showing purchase of materials used will be required by inspectors as evidence of cost. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* (a) $0.14 per cubic yard of earth material moved.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and outlet gates.

(e) 50 percent of the average cost of seeding or sodding dams or filter strips.

(f) 50 percent of the average cost of materials, other than concrete and rubble masonry, used in permanent structures, including soil sealing.

§ 1105.327 *Practice 17: Reorganizing farm irrigation systems to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of conveying water to and in the fields) must be carried out in accordance with a reorganization plan approved by the responsible technician. Receipts or invoices showing purchase of materials or equipment and records of labor employed will be required by inspectors as evidence of installation costs. No cost-sharing will be allowed for repairs or replacements of existing structures. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State Office.

*Maximum Federal cost-share.* (a) $0.10 per cubic yard of earth material moved in the construction or enlargement of permanent ditches, dikes, or laterals. No cost-sharing will be given for cleaning a ditch.

(b) Lining ditches or reservoirs:

(1) 50 percent of the average cost of approved material used, other than concrete and rubble masonry.

(2) $12 per cubic yard of concrete used.

(3) $7 per cubic yard of rubble masonry used.

(c) Constructing or installing permanent structures such as siphons, flumes, drop boxes or chutes, weirs, diversion gates, and permanently located pipe. No cost-sharing will be given for repairs or replacements of existing structures.

(1) 50 percent of the average cost of material used in permanent structures, other than concrete and rubble masonry but excluding forms.

(2) $12 per cubic yard of concrete used.

(3) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of pipe and fittings used for sprinkler irrigation. No cost-sharing will be allowed for repairs or replacements of existing structures. Total cost-share for portable pipe and fittings under this item shall not exceed $500 per farm.

§ 1105.328 *Practice 18: Construction or enlargement of permanent open drainage systems to dispose of excess water.* No cost will be shared for material moved in cleaning or maintaining a ditch or for structures installed for crossings or other structures primarily for the convenience of the farm operator. Receipts or invoices showing purchase of seed or materials and records of labor employed and soil moved will be required by inspectors as evidence of construction work costs. Detailed specifications are contained in Soil Conservation Service Technical Standards on file in the State office.

*Maximum Federal cost-share.* (a) $0.10 per cubic yard of material moved.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of seed or planting materials for establishing suitable cover for protection against erosion on ditch banks and right-of-way plus 50 percent of the average cost at the farm of the minimum required application of approved liming materials and commercial fertilizers, including nitrogen, for the establishment of the cover.

§ 1105.329 *Practice 19: Planting, interplanting or replanting forest trees or shrubs on farmland in windbreaks and farm woodlots or woodlands for erosion control, watershed protection, or forestry purposes.* Plantings must be protected from fire and grazing. Fencing for protection of newly planted trees in farm woodlands under this practice against grazing is eligible for cost-sharing only if construction specifications in § 1105.325 (practice 15) are employed. Recommended species of trees are as follows:

Norfolk pine (Araucaria excelsa).
Beach ironwood (Casuarina equisetifolia).
She oak (Casuarina glauca).
Sugi (Cryptomeria japonica).
Portuguese cypress (Cupressus lusitanica).
Flooded gum (Eucalyptus saligna).
Swamp mahogany (Eucalyptus robusta).
Silk oak (Grevillea robusta).
Paper bark (Melaleuca leucadendron).
Bruchbox (Trustania conferta).

*Maximum Federal cost-share.* $2 per 100 trees or shrubs planted.

§ 1105.330 *Practice 20: Installation of facilities for sprinkler irrigation of permanent pasture on sloping land for developing forage resources to encourage rotation grazing and better range management for protection of all grazing land in the farm against erosion.* Installation of sprinkler irrigation facilities must be solely for irrigation of permanent pasture or area being established in permanent pasture on sloping land. The installation must be in accordance with a written plan approved by the responsible technician. Total cost-share for this practice and for portable pipe and fittings under practice 17 (§ 1105.327) shall not exceed $500 per farm.

*Maximum Federal cost-share.* 50 percent of the cost at the farm of all necessary pipes and fittings, but not in excess of $500 per farm.

FEDERAL COST-SHARES

§ 1105.341 *Division of Federal cost-shares*—(a) *Federal cost-shares.* The Federal cost-share attributable to the use of conservation materials or services shall be credited to the person to whom the materials or services are furnished. Other Federal cost-shares shall be credited to the person who carried out the practices by which such other Federal cost-shares are earned. If more than one person contributed to the carrying out of such practices, the Federal cost-share shall be divided among such persons in the proportion that the State Office determines they contributed to the carrying out of the practices. In making this determination, the State Office shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the State Office that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance.* In case of death, incompetency, or disappearance of any person, any Federal share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended, (Part 1108 of this chapter).

§ 1105.342 *Increase in small Federal cost-shares.* The Federal cost-share computed for any person with respect to any farm shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may in such manner and at such time as is consistent with such legislation discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71 but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

| Amount of cost-share computed: | Increase cost-share |
|---|---|
| $1 to $1.99 | $0.40 |
| $2 to $2.99 | .80 |
| $3 to $3.99 | 1.20 |
| $4 to $4.99 | 1.60 |
| $5 to $5.99 | 2.00 |
| $6 to $6.99 | 2.40 |
| $7 to $7.99 | 2.80 |
| $8 to $8.99 | 3.20 |
| $9 to $9.99 | 3.60 |
| $10 to $10.99 | 4.00 |
| $11 to $11.99 | 4.40 |
| $12 to $12.99 | 4.80 |
| $13 to $13.99 | 5.20 |
| $14 to $14.99 | 5.60 |
| $15 to $15.99 | 6.00 |
| $16 to $16.99 | 6.40 |
| $17 to $17.99 | $6.80 |
| $18 to $18.99 | 7.20 |
| $19 to $19.99 | 7.60 |
| $20 to $20.99 | 8.00 |
| $21 to $21.99 | 8.20 |
| $22 to $22.99 | 8.40 |
| $23 to $23.99 | 8.60 |
| $24 to $24.99 | 8.80 |
| $25 to $25.99 | 9.00 |
| $26 to $26.99 | 9.20 |
| $27 to $27.99 | 9.40 |
| $28 to $28.99 | 9.60 |
| $29 to $29.99 | 9.80 |
| $30 to $30.99 | 10.00 |
| $31 to $31.99 | 10.20 |
| $32 to $32.99 | 10.40 |

| $35 to $35.99 | 11.00 |
| $36 to $36.99 | 11.20 |
| $37 to $37.99 | 11.40 |
| $38 to $38.99 | 11.60 |
| $39 to $39.99 | 11.80 |
| $40 to $40.99 | 12.00 |
| $41 to $41.99 | 12.10 |
| $42 to $42.99 | 12.20 |
| $43 to $43.99 | 12.30 |
| $44 to $44.99 | 12.40 |
| $45 to $45.99 | 12.50 |
| $46 to $46.99 | 12.60 |
| $47 to $47.99 | 12.70 |
| $48 to $48.99 | 12.80 |
| $49 to $49.99 | 12.90 |
| $50 to $50.99 | 13.00 |
| $51 to $51.99 | 13.10 |
| $52 to $52.99 | [1] 12.20 |
| $53 to $53.99 | 13.30 |
| $54 to $54.99 | 13.40 |
| $55 to $55.99 | 13.50 |
| $56 to $56.99 | 13.60 |
| $57 to $57.99 | 13.70 |
| $58 to $58.99 | 13.80 |
| $59 to $59.99 | 13.90 |
| $60 to $185.99 | 14.00 |
| $186 to $199.99 | [2] |
| $200 and over | [2] |

[1] Increase to $200.
[2] No increase.

§ 1105.343 *Cost-shares limited to $1,500.* (a) The total of all Federal cost-shares under the 1954 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) shall not exceed the sum of $1,500.

(b) All or any part of any Federal cost-share which otherwise would be due any person under the 1954 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade or which has the effect of evading the provisions of this section.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARES

§ 1105.351 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm or ranch under the 1954 program will be subject to the condition that the person with whom the costs are shared will maintain such practices in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1105.352 *Practices defeating purposes of programs.* If the State Office finds that any person has adopted or participated in any practice which tends to defeat the purposes of the 1954 or any previous program, including, but not limited to, failure to maintain in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1105.353 *Depriving others of Federal cost-share.* If the State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1954 program.

§ 1105.354 *Filing of false claims.* If the State Office finds that any person has knowingly filed claim for payment of the Federal cost-share under the program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-sharing under the program and shall refund all amounts that may have been paid to him under the program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1105.355 *Federal cost-shares computed and made without regard to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1105.356, and except for indebtedness to the United States subject to setoff under orders issued by the Secretary (Part 1109 of this chapter)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1105.356 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1954 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1954. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the instructions in ACP–70.

§ 1105.357 *Practices carried out with State or Federal aid.* The Federal share of the cost for any practice shall not be reduced because it is carried out with materials or services furnished through the program or by any agency of a State to another agency of the same State, or with technical advisory services furnished by a State or Federal agency. In other cases of State or Federal aid, the total Federal cost-share computed on the basis of the total number of units of the practice performed shall be reduced by the value of the aid, as determined by the State Office, in computing the amount of the Federal cost-share to be paid for performance of the practice. Materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 1105.358 *Compliance with regulatory measures.* Persons who carry out conservation practices for cost-sharing under the 1954 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws or regulations.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

§ 1105.361 *Persons eligible to file application.* Any person who, as landlord, tenant, or sharecropper on a farm or ranch, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1105.362 *Time and manner of filing application and information required.* (a) Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the State Office. Payment may be withheld from any person who fails to file any form or furnish any information required with respect to any farm or ranch which such person is operating or renting to another. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the State Office before May 1, 1955. At least 2 weeks' notice to the public shall be given of the expiration of a time limit for filing prescribed forms or required information. Such notice shall be given by mailing notice to each farm checker and making copies available to the press.

(b) If an application for a farm is filed within the time prescribed, any producer on the farm who did not sign the application may subsequently apply for his share of the cost-share, provided he does so on or before December 31, 1955.

APPEALS

§ 1105.365 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-shares with respect to the farm or ranch. The State Office shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the producer is dissatisfied with the decision of the State Office, he may, within 15 days after the decision is forwarded to or made available to him, request the Administrator to review the decision of the State Office. The decision of the Administrator shall be final. Written notice of any decision rendered under this section by the State Office shall also be issued to each other producer on the farm who may be adversely affected by the decision.

STATE HANDBOOKS, BULLETINS, INSTRUCTIONS, AND FORMS

§ 1105.366 *State handbooks, bulletins, instructions, and forms.* The Administrator is authorized to make determinations and to prepare and issue State handbooks, bulletins, instructions, and forms required in administering the 1954 program. Copies of State handbooks, bulletins, instructions, and forms containing detailed information with respect to the 1954 program as it applied to farms and ranches in Hawaii will be available in the State Office of the Production and Marketing Administration at 303 Dillingham Building, Honolulu, or the Production and Marketing Administration Branch Office at Room 140 Federal Building, Hilo, T. H. Persons wishing to participate in the program should obtain from the State Office all information needed in order to comply with all provisions of the program.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1105.371 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148; 16 U. S. C. 590g–590q), and the Department of Agriculture Appropriation Act, 1954.

§ 1105.372 *Availability of funds.* (a) The provisions of the 1954 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1954 program will not be available for paying Federal cost-shares for which applications are filed in the State Office after December 31, 1955.

§ 1105.373 *Applicability.* (a) The provisions of the 1954 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service or the Soil Conservation Service of the United States Department of Agriculture, or by the Bureau of Land Management (includ-

ing lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it; and (4) farmlands the use of which the State Office determines will probably change within 2 years to nonagricultural use.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by the Territory of Hawaii or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

Done at Washington, D. C., this 11th day of December 1953.

## TITLE 32—NATIONAL DEFENSE

CHANGES IN CODIFICATION OF SUBTITLES A AND B

In order to conform Title 32 of the Code of Federal Regulations to the present organizational structure of the Department of Defense, the following changes are made in the codification of Subtitles A and B of that title:

1. The headnote "Chapter I—Munitions Board" together with the subchapter headnotes appearing thereunder are deleted, and the regulations therein are transferred to Subtitle A.

2. Chapter IV and the regulations therein are transferred to Subtitle A.

3. Chapter II—Research and Development Board and Chapter III—Joint Chiefs of Staff are vacated.

4. The headnote "Subtitle B—Department of Defense" is changed to read "Subtitle B—Military Departments" and is transferred to precede Chapter V—Department of the Army.

VAL HOCHE,
*Assistant Administrative Secretary.*

### Chapter VI—Department of the Navy

Subchapter E—Claims

PART 750—NAVY GENERAL CLAIMS

MISCELLANEOUS AMENDMENTS

1. Section 750.3 (b) (7) is revised to read as follows:

(7) Any claim arising from the activities of the Panama Canal Company.

2. Section 750.3 (c) (3) is revised to read as follows:

(3) Any claim of military personnel or civilian employees of the Navy for damage to or loss, destruction, capture, or abandonment of personal property occurring incident to their service, which claim is cognizable under the act of May 29, 1945 (59 Stat. 225; 31 U. S. C. 222c), as amended by the act of July 3, 1952 (66 Stat. 322; 31 U. S. C. 222c), and the applicable Navy Personnel Claims Regulations (Part 751 of this subchapter).

3. Section 750.5 is revised to read as follows:

§ 750.5 *Claims in excess of $1,000.* The Navy does not have legal authorization to pay claims in excess of $1,000, with the exception of admiralty claims, even though they are otherwise cognizable under the provisions governing administrative settlement of Federal tort claims under Title 28, United States Code. The claimant's remedy in such cases is by civil action in the United States district court for the district where the claimant resides or wherein the act or omission complained of occurred, as set forth in the civil action provisions of 28 U. S. C. 1346 (b), and §§ 750.8 to 750.16.

4. Section 750.19 (b) (6) is revised to read as follows:

(6) Any claim of military personnel or civilian employees of the Navy for damage to or loss, destruction, capture, or abandonment of personal property occurring incident to their service, which claim is cognizable under the act of May 29, 1945 (59 Stat. 225; 31 U. S. C. 222c) as amended by the act of July 3, 1952 (66 Stat. 322; 31 U. S. C. 222c), and the applicable Navy Personnel Claims Regulations (Part 751 of this subchapter).

5. Section 750.31 (c) is revised to read as follows:

(c) Settlement of claims involving subrogation by reason of insurance or operation of law when the combined claims of both insured and insurer do not exceed $1,000, may be made separately with the subrogor or the subrogee for their respective interests when separate claims are submitted, or jointly with both when one claim has been filed in the names of both and signed by both, but only with the subrogee when the subrogor has received full compensation from him in cases of damage, loss, destruction, injury or death. Appropriate documentary evidence should be furnished by the subrogee in support of a subrogated claim.

6. Section 750.35 (d) is revised to read as follows:

(d) The regulations in this part in no way modify any other requirements of Navy Regulations; the Manual for Courts-Martial, United States, 1951; and the Naval Supplement to the Manual for Courts-Martial, United States, 1951, and the making of an investigation and report hereunder does not constitute or excuse compliance with any other provision of Navy Regulations; the Manual for Courts-Martial, United States, 1951; or the Naval Supplement to the Manual for Courts-Martial, United States, 1951.

7. Section 750.36 (b) is revised to read as follows:

(b) When an accident or incident occurs at a place where the naval service does not have an installation or a unit conveniently located for conducting an investigation, the commanding officer having immediate responsibility for making such investigation may request assistance from the commanding officer of any other organization of the Department of Defense. Such assistance may take the form of a complete investigation of the accident or incident, or it may cover only part of the investigation. Likewise, in the event that under similar circumstances the commanding officer or any other organization of the Department of Defense requests such assistance from the commanding officer of any naval installation or unit, the latter will comply with the request. If a complete investigation is requested, the report will be made in accordance with the regulations of the requested service. These investigations will normally be conducted without reimbursement for per diem, mileage or other expenses incurred by the investigating installation or unit.

8. Section 750.38 (a) (9) is revised to read as follows:

(9) To submit the complete investigative report to his commanding officer as promptly as the circumstances permit; and in the case of an incident involving any personal injury, or property damage estimated to be in excess of $1,000 to submit immediately a preliminary report, containing such information as is at that time available, to his commanding officer for forwarding to reach the Judge Advocate General within twenty days of the occurrence of the incident under investigation. In a case where not all of the required information is immediately available, as in an accident resulting in personal injuries requiring extended periods of hospitalization or medical care, the investigative report shall be submitted promptly containing all information available at the time of submission, and shall be completed by means of a supplementary report or reports submitted as soon as the previously omitted information becomes available.

9. Section 750.40 (b) is revised to read as follows:

(b) The commanding officer shall retain one copy of the investigative report in the files of the local activity and shall make that copy available to safety officers for use in accident prevention and to superior commands upon request. He shall promptly forward by endorsement, without regard to chain of command, the original and one copy of the report, together with all three copies of any claim filed, to the commandant of the naval district in which the incident occurs, attention District Legal Officer. In cases where the incidents occur outside the geographical limits of a naval district, the commanding officer shall promptly forward such reports to the Judge Advocate General of the Navy.

10. Section 750.40 (c) is hereby revoked.

11. Section 750.41 (b) is revised to read as follows:

(b) The District Legal Officer or other corresponding legal officer shall endorse the investigative report with his recommendations as to whether any claim or claims should be paid, and in what amount, stating the legal basis for his recommendations. In all cases where the combined liquidated and known potential claims of all possible claimants for property damage arising from one accident or incident do not exceed a total amount of $1,000, and there are no known possible claims in any amount for other personal injury or death, he shall submit the investigative report with his recommendations to the Commandant of the Naval District. The Commandant shall approve or disapprove the claims submitted to him as the law and facts may warrant. In exceptional and unusual cases the Commandant may refer the entire record, together with his recommendation, to the Judge Advocate General for appropriate action. Where there is a known possibility of a potential claim for either personal injury or death arising from any one accident or incident, all claims pertaining to the particular incident, including claims in any amount for property damage, must be forwarded to the Judge Advocate General for appropriate action.

10. Section 750.41 (c) is added to read as follows:

(c) In all cases where the action of approval or disapproval of a claim is not taken by the Commandant, the District Legal Officer shall keep one copy of the investigative report for his files and shall forward the original of the report, together with all related papers and all three copies of any claims filed, to the Judge Advocate General of the Navy.

11. Section 750.42 (a) (1) is revised to read as follows:

(1) Claims cognizable under the provisions governing administrative settlement of federal tort claims under Title 28, United States Code, and §§ 750.1 to 750.7 shall be approved or disapproved by the Judge Advocate General, the Assistant Judge Advocate General, the Director of the Applied Law Division of the Office of the Judge Advocate General, the Head, General Claims Branch, Applied Law Division of the Office of the Judge Advocate General, or the Commandant in and for each Naval District of the Naval Establishment, all of whom have been designated for that purpose. The Legal Officer, U. S. Naval Base, Newport, Rhode Island, and the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, are authorized to approve or disapprove such claims accruing to operators of fishing vessels for damage to nets, booms, lines, and other trawler impedimenta as a result of contact with naval ordnance (mines and torpedoes).

12. Section 750.42 (a) (2) is revised to read as follows:

(2) Claims cognizable under the act of December 28, 1945, and §§ 750.17 to 750.27 shall be approved or disapproved by the Secretary of the Navy, or, subject to appeal to the Secretary of the Navy, by the Judge Advocate General, the Assistant Judge Advocate General, the Director of the Applied Law Division of the Office of the Judge Advocate General, the Head, General Claims Branch, Applied Law Division of the Office of the Judge Advocate General, all of whom have been designated for that purpose.

13. Section 750.43 is revised to read as follows:

§ 750.43 *Notice and appeal.* Upon disapproval of a claim in whole or in part by the approving authority, the claimant will be notified in writing of the action taken and he will be advised in such notice of his right to appeal and that his appeal should be made to the Secretary of the Navy (Judge Advocate General) within thirty days after receipt of such notification, stating the grounds relied upon for such appeal. Such appeals, in cases of claims considered under the act of December 28, 1945, shall be decided by the Secretary of the Navy. In cases of claims considered under Title 28, United States Code, the appeal, except in cases originally processed and disapproved by the Judge Advocate General, may be decided either by the Secretary of the Navy or the Judge Advocate General. In cases originally processed and disapproved by the Judge Advocate General, the appeal shall be decided by the Secretary of the Navy.

14. Section 750.45 is revised to read as follows:

§ 750.45 *Payment of claims.* Claims approved by the Secretary of the Navy, the Judge Advocate General, the Assistant Judge Advocate General, the Director of the Applied Law Divison of the Office of the Judge Advocate General, or the Head, General Claims Branch, Applied Law Division of the Office of the Judge Advocate General as provided in § 750.42 shall be forwarded to the U. S. Navy Regional Accounts Office, Washington 25, D. C., for payment from appropriations designated for that purpose. Claims approved by the Legal Officer, U. S. Naval Base, Newport, Rhode Island, the Legal Officer, U. S. Naval Submarine Base, New London, Connecticut, or a Commandant as provided in § 750.42 shall be forwarded to such disbursing officer as may be designated by the Bureau of Supplies and Accounts for payment from appropriations designated for that purpose.

15. Section 750.46 (a) is revised to read as follows:

(a) Demands for the payment of all claims in favor of the United States shall be made only by the Judge Advocate General of the Navy or by such other officers as may be specifically designated by the Judge Advocate General for that purpose. Ordinarily, in cases where the Commandant of a Naval District determines that a valid claim exists in favor of the United States, the record together with his recommendations shall be forwarded to the Judge Advocate General for appropriate action.

16. Section 750.47 is hereby revised to read as follows:

§ 750.47 *Disclosure of information.* No military personnel or civilian employees of the Navy shall release copies of official papers or any other information which can be used as the basis of a claim against the United States, unless such release be properly authorized by competent authority and be made in the discharge of official duties. In particular, the contents of the investigative report shall not be disclosed to the claimant or his attorney or agent, nor shall the claimant be advised as to the recommendations made with regard to his claim. In cases where the claim and investigative report have been forwarded to the Judge Advocate General of the Navy for consideration, claimants who make inquiry as to the status of their claim should be advised that such information may be obtained from the Judge Advocate General.

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 34—CLASSIFICATION AND RATES OF POSTAGE

REVISION OF RATES OF POSTAGE ON CERTAIN FOURTH CLASS MAIL

Pursuant to the provision of the act of September 27, 1950 (64 Stat. 1050), this Department having requested the Interstate Commerce Commission as provided by section 207 of the act of February 28, 1925, as amended (39 U. S. C. 247), to consent to the establishment of such rate increases and other reformations as may be necessary to insure the receipt of revenue from fourth-class mail service sufficient to pay the cost of such service, and consent having been given by the Interstate Commerce Commission in its decision dated November 16, 1953, docket No. 31074, to increase postal rates on (1) catalogs and similar printed advertising matter in bound form weighing more than eight ounces but not exceeding ten pounds; and (2) controlled circulation publications weighing over eight ounces, *It is hereby ordered*, That effective February 1, 1954, Part 34, Classification and Rates of Postage (39 CFR Part 34), be amended as follows:

a. In § 34.64 *Publications issued regularly and circulated free or mainly free*, amend the caption to paragraph (a) to read "(a) *Postage rate.* (1)", and add a new subparagraph (2) to paragraph (a) to read as follows:

(2) The postage rate on controlled circulation publications weighing over eight ounces shall be eleven cents per pound or fraction thereof, computed on the entire bulk mailed at one time.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 207, 43 Stat. 1067, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 247)

b. Amend § 34.77 *Postage rates on individually addressed catalogs*, by striking out paragraph (b), and by amending paragraph (a) to read as follows:

(a) *Parcel-post zone basis.* On catalogs and similar printed advertising matter in bound form weighing more than eight ounces but not exceeding ten pounds the rate of postage based on the eight parcel-post zones shall be as follows:

| Zone | First pound (cents) | Additional half-pounds (cents) |
|---|---|---|
| Local | 12 | 0.75 |
| 1 and 2 | 13 | 1.5 |
| 3 | 14 | 2.0 |
| 4 | 15 | 2.5 |
| 5 | 17 | 3.25 |
| 6 | 18 | 4.0 |
| 7 | 19 | 5.0 |
| 8 | 20 | 6.0 |

The above rates provide for half-pound gradations and fractions of pounds less than one-half shall be considered a half pound.

(R. S. 161, 396; secs. 304, 309, 42 Stat. 24, 25, sec. 207, 43 Stat. 1067, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 247)

Other second-class matter mailed to Canada by publishers or registered news agents: 1 cent for each 4 ounces or fraction thereof.
[4] The weight limit of printed matter in general to Canada is 6 pounds 9 ounces; to Panama and Peru, 11 pounds. Printed matter packages for the Philippines are limited to 4 pounds, except those addressed to cities and containing legal, medical, scientific or technical books which may weigh up to 22 pounds. A single volume at the printed matter rate to Canada, 11 pounds; to Cuba, Mexico, Panama, or El Salvador, 60 pounds.
[5] The service of small packets is not applicable to all countries. (See § 127.10 and relative country items in Subpart F.)

GENERAL INFORMATION AND INSTRUCTIONS REGARDING ARTICLES IN THE POSTAL UNION MAILS

§ 127.2 *Classifications.* (a) Articles in the Postal Union mails are classified in general as follows:

(1) Letters (including letter-packages) and post cards (sometimes termed "LC" mails).

(2) Other articles (sometimes termed "AO" mails), consisting of commercial papers, printed matter, samples of merchandise, and small packets.

(3) There is also a classification known as "8-ounce merchandise packages" which are mailable only to the countries specially mentioned in § 127.11.

(b) For information concerning international parcel post, see Subpart B of this part.

§ 127.3 *Letters and letter packages.* (a) Postage rates: For surface rates, see § 127.1; for air mail rates, see individual country items. Limit of weight: 4 pounds 6 ounces, except to Canada it is 60 pounds. Maximum dimensions: Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however in the case of indivisible objects exchanged with the countries to which table No. 2, in § 127.1, applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches. Minimum dimensions: It is recommended that envelopes measure not less than 4 inches in length and 2¾ inches in width.

(b) Envelopes of weak or unsubstantial paper should not be used. Mail is handled often and subjected to pressure and friction in the mail bags, hence if not inclosed in strong envelopes it may be damaged. It is recommended that stamped envelopes, on sale at all post offices, be used whenever practicable. (See § 127.26 concerning "window" envelopes.)

(c) Letters shall not contain any documents having the character of actual personal correspondence addressed to persons other than the addressee or persons residing with the latter.

(d) (1) Articles liable to customs duty (merchandise) may be forwarded in letters or letter packages (surface or air) provided such importation is not prohibited by the country of destination (see subparagraph (2) of this paragraph). The sender must complete and affix to the address side of such article the green (customs) label, Form 2976, referred to in § 127.17. If the sender knows that the contents of his package are not dutiable he may, if he prefers, omit Form 2976, in which case acceptance for mailing will be at his risk, and the Department will assume no responsibility with respect to the treatment that may be accorded the article by the foreign customs authorities. Omission of this form may, however, result in delayed delivery and possible penalties against the addressee, regardless of whether the contents are dutiable or not. Special restrictions exist with respect to certain countries. Consult the individual country items.

(2) The following countries will not accept dutiable articles sent in letters or letter packages:

| | |
|---|---|
| Azores (ordinary). | Latvia. |
| Bolivia. | Lithuania. |
| Brazil. | Madeira Islands (ordinary). |
| British Honduras. | Panama (ordinary). |
| China. | Peru (ordinary). |
| Colombia. | Ryukyu Islands. |
| Ecuador (ordinary). | Salvador (El). |
| Estonia. | Spanish Guinea. |
| Greece. | Spanish West Africa. |
| Guatemala (ordinary). | Union of Soviet Socialist Republics. |
| Italy (see note). | Uruguay (ordinary). |
| Japan. | Venezuela. |
| Korea. | |

NOTE: See country item "Italy" concerning conditions under which small quantities of certain medicines are admitted in letter packages for Italy.

(3) If a letter or package containing merchandise is offered for mailing to one of the countries named in subparagraph (2) of this paragraph it may be accepted only on condition that the sender knows that the contents are not dutiable in the country of destination, in which case Form 2976 may be omitted. The Department will assume no responsibility with respect to the treatment of these articles by the foreign customs authorities.

(4) The above instructions are applicable only to letters and letter packages (surface or air). Air mail packages prepared as "small packets" or any other Postal Union article, except letters or letter packages, even though such packages are subject to the air mail letter rate of postage, must be unsealed, even if registered, and must comply in other respects with §§ 127.5 to 127.13.

(e) It is recommended that senders add the words "Letter (lettre)" on the address side of letters and letter packages which, by reason of their volume or packing, may be mistaken for other articles.

§ 127.4 *Post cards.* (a) Postage rates: For surface rates, see § 127.1; for air mail rates, see individual country items. Maximum dimensions: 6 by 4¼ inches. Minimum dimensions: 4 by 2¾ inches.

(b) Post cards shall be made of cardboard or of paper strong enough not to hinder their handling. Folded sheets of paper whose two inner faces have been glued completely one over the other, so that there is no danger of other articles slipping inside, are treated as post cards. The present post card which must be of strong cardboard does not permit the making of good carbon copies as required by business concerns. By using the folded sheet of paper, satisfactory typewritten copies may be made, after which the sheet is folded in two parts, one being the face for the address and the other the back for the message. No writing is allowed on the inside of the two halves which must be firmly glued together and conform to the dimensions prescribed for post cards.

(c) They shall bear, at the top of the address side, the heading "Carte Postale" (post card), in French, or the equivalent of that heading in another language. That heading is not obligatory for post cards manufactured by private industry.

(d) Post cards shall be sent uninclosed, that is, without wrapper or envelope.

(e) The right half, at least, of the address side is reserved for the address of the addressee and the notations or labels relating to the service. The sender uses the back and the left half of the address side, subject to the provisions of paragraph (g) of this section.

(f) Postage stamps or postage-paid impressions must appear on the address side, in the upper right-hand corner of the card.

(g) It is forbidden to join or attach samples of merchandise or similar articles to post cards. However, illustrations, photographs, stamps of any kind, labels and clippings of any kind, of paper or other very thin material, as well as address labels or slips to be folded back, may be glued thereto, on condition that such articles are not of such a nature as to alter the character of the post cards and that they adhere completely to the card. These articles may be glued only on the back or left half of the address side of the card, except address labels or slips which may occupy the entire address side. As for stamps of any kind likely to be confused with postage stamps, they may be placed only on the back.

(h) Post cards which do not fulfill the conditions laid down for that class of articles are treated as letters, with the exception, however, of those on which the irregularity consists solely of the application of the stamps on the back. The latter are considered as unprepaid and are treated accordingly. See § 127.6 (e) (2), as to cards admitted as printed matter.

(i) Postal cards: Postal cards, bearing imprinted postage, issued by the Post Office Department are subject to the foregoing conditions.

(j) International reply-paid cards: (1) International reply-paid postal cards bearing the required endorsements and imprinted postage are available in two denominations (2 cents on each half for the countries named in table No. 2 in § 127.1, and 3 cents on each half for other countries), and shall be carried in stock at all post offices where there is a demand for such reply-paid postal cards. The United States domestic reply-paid postal card should not be used for other countries.

(2) Reply-paid post cards which are privately printed for use in the international mails shall have on the front, in the French language, as the heading of the first or message part the words "Carte postale avec réponse payée" (post cards with reply paid), and the words "Carte postale réponse" (reply post card) as the heading on the second or reply part. Each of the two parts must fulfill the other conditions laid down for a single card. Prepayment of the two halves shall be by means of United States postage stamps (2 or 3 cents, as may be required) affixed to each half.

(3) The two parts of a reply-paid card must be folded one part over the other, so that the fold forms the upper edge, and they may not be sealed in any manner. It is permissible for the sender to indicate his name and address on the address side of the reply half, either in writing, printing, or by affixing a label thereto. The address on the reply half shall be folded on the inside of the article. The sender may have printed on the back of the reply half a questionnaire to be filled in by the addressee; the latter may return the inquiry half attached to the reply portion, in which case, the address on the inquiry half shall be crossed out and folded on the inside of the card.

(4) The prepayment of the reply half by means of postage stamps of the country which has issued the cards is valid only if the two parts of the card with reply paid have arrived joined together from the country of origin and if the reply half is sent from the country where it arrived by mail and is addressed to the said country of origin. If these conditions are not fulfilled, it is treated as an unprepaid post card.

§ 127.5 *Commercial papers.* (Must not be sealed—must be endorsed "Commercial Papers.")

(a) Postage rates: Surface rate for all countries, 3 cents first 2 ounces, and 2 cents for each additional 2 ounces with a minimum charge of 10 cents; for air-mail rates, see individual country items. Limit of weight: 4 pounds 6 ounces. Maximum dimensions: Length, breadth, and thickness combined, 36 inches; greatest length 24 inches. When sent in the form of a roll, the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with the countries to which table No. 2, in § 127.1, applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches. Minimum dimensions: It is recommended that envelopes measure not less than 4 inches in length and 2¾ inches in width.

(b) The following are considered as commercial papers on condition that they do not have the character of actual and personal correspondence: All papers and documents, wholly or partly written or drawn, such as out-of-date articles of correspondence (opened letters and post cards, even though they bear canceled postage stamps or postage paid impressions which have served to pay the original postage) which have already reached their original destination, and copies thereof; papers of legal procedure; documents of all kinds drawn up by ministerial officers; waybills or bills of lading; invoices; certain documents of insurance companies; copies of or extracts from documents under private seal written on stamped or unstamped paper; scores or sheets of music in manuscript; manuscripts of books or of newspapers sent separately; original and corrected exercises of students, but without any notes not relating directly to the execution of the work; all articles (even when they have the character of actual and personal correspondence) containing correspondence exchanged between students in schools: *Provided*, That such articles are sent through the intermediary of the heads of the schools concerned.

(c) These documents may be accompanied by reference slips or memorandums bearing the following or similar notations: Enumeration of the pieces composing the shipment, references to correspondence exchanged between the sender and the addressee, such as:

Enclosure to our letter of ——— addressed to ———. Our reference ———. Customer's reference ———.

(d) Commercial papers are subject to the provisions laid down for prints in regard to form and make-up.

(e) Articles sent under this classification must be endorsed "Commercial papers."

§ 127.6 *Printed matter.* Including second-class matter, except when mailed by publishers or registered news agents to Canada, as shown in footnote "3" under table No. 2, § 127.1. (Must not be sealed—must be endorsed "Printed Matter.")

(a) *Postage rates:* Surface rate for all countries, 2 cents first 2 ounces and 1½ cents for each additional 2 ounces or fraction; for air mail rates, see individual country items. No mailings to any country shall be accepted under § 34.66 of this chapter.

(b) *Limits of weight and dimensions:* The limit of weight is 6 pounds 9 ounces in general and 11 pounds for volumes of printed books sent singly, except in the case of certain countries, as shown in table No. 2, in § 127.1. Maximum dimensions: Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with the countries to which table No. 2 applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches. Minimum dimensions: It is recommended that envelopes measure not less than 4 inches in length and 2¾ inches in width.

(c) Prints may also be sent as parcel post, in which case the parcel post limits of weight and dimensions apply. See individual country items in Subpart F of this part.

(d) *Preparation for mailing:* (1) Prints for all countries (including second-class matter mailed by publishers or registered news agents to the countries to which table 2 in § 127.1 applies) must be placed either under wrapper, in rolls, between cardboard, in an open case, or in an unsealed envelope, provided, if need be, with easily removable fasteners offering no danger, or be fastened with a string which can be easily untied. Care should be exercised in all instances to see that articles of printed matter are not prepared in such a manner as to allow other articles to slip into them.

(2) Prints of the shape and consistency of a card and either folded (in such a way that they can not unfold during transportation) or unfolded may be forwarded without wrapper, envelope, or fastener.

(3) The right half, at least, of the address side of prints sent in the form of cards, including illustrated post cards, must be reserved for the address of the addressee and the service notes or labels. The postage stamps or postage-paid impressions must be placed on the address side, and insofar as possible on the right half of the cards.

(4) A package of newspapers or periodicals for transmission in international mails (except to the places to which domestic postage rates and conditions apply) at the rate of 2 cents for the first 2 ounces and 1½ cents for each additional 2 ounces or fraction thereof is restricted to a single (outside) address. Newspapers, periodicals, or other articles of printed matter addressed to several different subscribers or addressees must not be enclosed in the same package with postage stamps affixed only to the outside wrapper of the package. However, several newspapers, periodicals, or other articles of printed matter, without separate address, may be enclosed in the same package.

(5) Senders desiring that ordinary (unregistered) prints be returned if they prove to be undeliverable as addressed must place their return address on the package and a notation in a language known in the country of destination requesting its return.

(6) Prints which are dutiable in the country to which they are addressed should have a green (customs) label, Form 2976, affixed to the address side of the article. (§ 127.17.)

(e) The following are considered as printed papers: (1) Newspapers and periodicals, books, pamphlets, sheet music, visiting cards, address cards, printing proofs with or without the relative manuscript, engravings, photographs (unframed), and albums containing photographs, pictures, drawings, plans, maps, patterns to be cut out, calendars (except calendar pads with blank pages for memoranda), catalogs, prospectuses, advertisements, and printed, engraved, lithographed, or photographed notices of various kinds, and, in general all impressions or reproductions obtained upon paper, or material assimilable to paper, parchment, or cardboard, by means of printing, engraving, lithography, photography, or any other easily recognizable mechanical process, with the exception of the copying press, stamps with movable or immovable type, and the typewriter.

(2) Cards although bearing the title "Carte postale" (post card) or the equivalent of that title in any language are admitted at the rate for prints provided that they fulfill the general conditions applicable to prints. Those which do not fulfill these conditions are treated as post cards, or, if occasion arises, as letters, by application of the provisions of § 127.4.

(3) Reproductions of handwriting or typewriting obtained by means of the printing press, mimeograph, multigraph, or similar mechanical process may be accepted at the "prints" rate under the same conditions as are applicable to such matter in the domestic service. See § 34.69 of this chapter. These reproductions may receive the annotations authorized for prints. (See paragraphs (g) and (h) of this section.)

(f) The following may not be accepted at the printed matter rate: (1) Printed papers which bear any mark whatever capable of constituting a conventional language or, with the exceptions specifically authorized by paragraphs (g) and (h) of this section, those of which the text has been modified after printing.

(2) Stamps or forms of prepayment, canceled or not, including Internal Revenue strip stamps, and all printed papers representing a monetary value; articles of stationery when it appears clearly that the printed text is not the essential part of the article; framed photographs and certificates; photographic negatives and slides; films; phonograph records, and perforated papers intended to be used on automatic musical instruments; disc or wire recordings of correspondence, etc.

(3) Printed envelopes (except a single envelope included with a piece of printed matter and intended for enclosure of a reply), letterheads, billheads, calendar pads, and similar articles, as well as diaries (books), check books, greeting cards or folders, and the like, which, although containing some printed matter, such as dates, headings, etc., have blank spaces or pages in which entries are to be made in manuscript or on the typewriter, cannot be transmitted *in bulk* as printed matter. For check books to Great Britain and Northern Ireland, see relative country item.

(4) Typewritten matter, or carbon copies thereof, except as may be authorized by paragraphs (g), (h), and (i) of this section.

(g) It is permitted on the outside and inside of all printed articles: (1) To indicate, by hand or by a mechanical process, the name, title, profession, firm, and address of the sender and the addressee, as well as the date of mailing, the signature, telephone number and telephone exchange, telegraphic address and code, and current postal check or bank account of the sender, as well as an order or entry number relating exclusively to the article.

(2) To correct mistakes in printing.

(3) To strike out, underline, or encircle certain words or passages of the printed text, unless that is done for the purpose of constituting personal correspondence.

(h) It is also permitted to indicate or add by hand or by a mechanical process:

(1) On notices concerning the departure and arrival of ships and planes, the dates and time of such departures and arrivals, as well as the names of the ships, planes, ports of departure, call, and arrival.

(2) On travelers' announcements, the name of the traveler, the date, time, and name of the place through which he contemplates passing as well as the place where he is stopping.

(3) On order, subscription or offer blanks for publications, books, newspapers, engravings, and pieces of music: the publications and number of copies ordered or offered, the prices of such publications, as well as notations representing price factors, terms of payment, the edition, the names of the authors or publishers, the catalog number and the words "broché" (stitched or paper-bound), "cartonné" (boards) or "relié" (bound).

(4) On forms used in connection with loans from libraries, the titles of books, number of copies requested or sent, names of authors or publishers, catalog numbers, number of days permitted for reading, name of person desiring to consult the book, as well as other brief indications relating to the books in question.

(5) On illustrated cards, printed visiting cards, as well as on Christmas and New Year cards, good wishes, greetings, congratulations, thanks, condolences, or other forms of politeness expressed in five words or by means of five conventional initials at most.

(6) On printing proofs, such changes and additions as relate to the correction, form and printing, as well as notes such as "Ready for printing." "O. K. for printing," or any similar note relating to the preparation of the work. In case of lack of space, the additions may be made on separate sheets.

(7) On fashion plates, maps, etc., the colors.

(8) On current price lists, offers for advertisements, market and stock quotations, commercial circulars and prospectuses, figures and any other annotations representing price factors.

(9) On books, pamphlets, newspapers, photographs, engravings, sheet music, and, in general, on all printed, engraved, lithographed, or autographed literary or artistic productions, a dedication consisting of a simple tribute; and on photographs or engravings, a very concise explanatory legend as well as other summary information concerning the photograph or engraving itself.

(10) On passages cut from newspapers and periodicals, the name, the date, the number, and the address of the publication from which the article is taken.

(11) In addition to the indications afore mentioned, an order or entry number relating exclusively to the articles contained in the package may also be indicated.

(12) On notices of change of address, the old and the new addresses as well as the date of the change.

(i) It is permitted to attach: (1) The manuscript to corrected or uncorrected printing proofs.

(2) To the articles of the classes mentioned under paragraph (h) (9) of this section, an open invoice covering the article sent reduced to its essential terms.

(3) A card, envelope or wrapper bearing the address of the sender which may be prepaid for return by means of postage stamps of the country of destination of the article of printed matter.

(4) To fashion journals: cut-out patterns forming, according to the indications appearing thereon, a whole with the copy in which they are sent.

(j) Articles sent under this classification must be endorsed "Printed matter."

§ 127.7 *Books.*

NOTE: The special "book" rate formerly applicable to certain countries was discontinued effective October 31, 1953. The postage rates and conditions set forth in § 127.6 apply to books in the Postal Union mails.

§ 127.8 *Printed matter for the blind.* (Must not be sealed—must be endorsed "Printed matter for the blind".)

(a) Postage rates: Surface rate for all countries, 1 cent for each pound or fraction; for air mail rates, see individual country items. Limit of weight: 15 pounds 6 ounces. Dimensions: Same as other printed matter.

(b) Printing plates with characters for the use of the blind are treated as raised prints for use by the blind. The same applies to sound recordings and special paper intended only for the use of the blind, provided that they are sent by an officially recognized institution for the blind or addressed to such an institution.

(c) Articles sent under this classification must be endorsed "Printed matter for the blind."

§ 127.9 *Samples of merchandise.* (Must not be sealed—must be endorsed "Sample of merchandise".)

(a) Postage rates: Surface rate for all countries, 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction. For air mail rates, see individual country items. Limit of weight: 18 ounces. Maximum dimensions: Length, breadth, and thickness combined 36 inches; greatest length, 24 inches. When sent in the form of a roll the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with the countries to which table No. 2 in § 127.1, applies, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches. Minimum dimensions: It is recommended that envelopes measure not less than 4 inches in length and 2¾ inches in width.

(b) (1) Samples of merchandise must be made up in such a way that they can be easily inspected. They shall be placed in bags, boxes, or wrappers which are unsealed or which have a removable fastener.

(2) No packing is required for articles consisting of a single piece, such as pieces of wood, metal, etc., which it is not customary to pack in commercial usage, on the condition that the address and the postage stamps be placed on a tag if necessary. However, the address must always be reproduced on the article itself, in the absence of which packing may be required.

(c) (1) Packages containing samples of merchandise shall not contain any article having a salable value. Goods sent as gifts or in execution of an order, no matter how small the quantity, are not transmissible at the postage rates and conditions applicable to samples of merchandise.

(2) Except as provided for in paragraph (f) of this section, samples of merchandise must not bear any notation or contain any document having the character of actual personal correspondence, nor contain any postage stamps, any canceled or uncanceled form of prepayment, or any paper representing a value.

(d) The following are admitted at the sample rate: Electrotypes, single cut-out patterns, matrices, keys sent singly, fresh cut flowers, articles of natural history (dried or preserved animals and plants, geological specimens, etc.), tubes of serum and vaccines, medicaments of urgent need difficult to obtain, and pathological objects rendered harmless by their mode of preparation and packing. These articles, except tubes of serum and vaccines, and medicaments of urgent need difficult to obtain, sent in the general interest by laboratories, or institutions officially recognized, must not be sent for commercial purposes. Their packing must be in accordance with the general regulations concerning samples of merchandise.

(e) Pairs of articles, such as gloves, shoes, socks, etc., but not such as suspenders or drawers, are not transmissible by mail to other countries at the postage rates and conditions applicable to "samples of merchandise", but one article of a pair may be so transmitted.

(f) It is permitted to indicate, by hand or by a mechanical process, on the outside or on the inside of packages of samples and, in the latter case, on the sample itself or on a special sheet relative thereto, the name, title, profession, firm and address of the sender and the addressee, as well as the date of mailing, the signature, telephone num-

ber and telephone exchange, telegraphic address and code, current postal check or bank account of the sender, a factory mark or trade mark, a brief indication concerning the manufacturer and the jobber of the merchandise or concerning the person to whom the sample is addressed, as well as order or entry numbers, prices and any other annotations representing price factors, particulars relative to weight, measurement and size, or to the quantity to be disposed of, and such as are necessary to determine the origin and character of the goods.

(g) Articles of glass or other fragile materials, articles containing liquids, oils, fatty substances, dry powders (whether dyes or not), as well as articles containing live bees, leeches, and silkworm eggs, parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized agencies, are admitted to conveyance as samples of merchandise, provided that they are packed in the following manner:

(1) Articles of glass or other fragile materials must be securely packed (in boxes of metal, wood, or strong corrugated cardboard), so as to avoid all danger to postal employees and the mails.

(2) Liquids, oils, and substances which easily liquefy must be enclosed in hermetically sealed receptacles. Each receptacle must be placed in a separate box of metal, strong wood or strong corrugated cardboard containing enough sawdust, cotton, or spongy material to absorb the liquid in the event of breakage of the receptacle. The cover of the box must be fastened in such a way that it cannot be easily detached.

(3) Fatty substances which do not easily liquefy, such as ointments, soft soap, resin, etc., as well as silkworm eggs, the transmission of which presents fewer difficulties, must be enclosed in an inside cover (box, canvas bag, parchment, etc.), which must itself be placed in a second box of wood, metal, or stout, thick leather.

(4) Dry powdered dyes such as aniline, etc., are not admitted unless enclosed in stout tin boxes, placed in turn inside wooden boxes, with sawdust between the two packings; dry noncoloring powders must be placed in boxes of metal, wood, or cardboard. These boxes themselves must be enclosed in a canvas bag or parchment.

(5) Live bees, leeches, silkworm eggs, and parasites shall be enclosed in boxes so constructed as to avoid all danger.

(6) Articles which would deteriorate if packed in accordance with the general rules, as well as samples placed in transparent containers permitting verification of their contents, may, as an exception, be admitted in a hermetically sealed container. The same applies to samples of industrial or vegetable products mailed under seal by the factory or sealed by the inspection authorities of the country of origin. In such a case the administration concerned may require the sender or the addressee to facilitate the verification of the contents either by opening certain articles indicated by them or in some other satisfactory manner.

(h) Articles sent under this classification must be endorsed "Sample of merchandise."

NOTE: Samples of merchandise may be dispatched by parcel post, unless the merchandise is prohibited by the country of destination or by parcel post generally. When dispatched by parcel post samples of merchandise are not restricted to the Postal Union limits of weight and size mentioned herein, but may be accepted up to the limits of weight and size set forth under the caption "Parcel Post" of the various country items in subpart F of this part.

If the international parcel post is employed by which to transmit samples, on the customs declarations used, it will not be sufficient to mark the word "Samples," but "Samples of cotton," "Samples of false jewelry," etc., as the case may be. Instead of "No value," in the proper column "No commercial value" may be written or stamped in, or there may be stated the value placed by the sender on the article as a sample, leaving the question of appraisal value to be determined by the customs authorities in the country of destination.

§ 127.10 *Small packets.* (Must not be sealed—must be endorsed "Small packet".)

(a) Postage rates: Surface rate for all countries accepting small packets, 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction, with a minimum charge of 20 cents per packet; for air mail rates, see individual country items. Limit of weight: 2 pounds 3 ounces. Dimensions: Length, breadth, and thickness combined, 36 inches; greatest length, 24 inches. When sent in the form of a roll the length (the maximum of which is 32 inches) plus twice the diameter is limited to 40 inches; however, in the case of indivisible objects exchanged with Argentina, Bolivia, Brazil, Costa Rica, Dominican Republic, Ecuador, Honduras (Republic of), Mexico, Nicaragua, Philippines, Salvador (El), Spain, and Venezuela, the length (40 inches maximum) plus twice the diameter may be as much as 48 inches.

(b) In general, "small packets" are subject to the provisions applicable to "samples of merchandise" with respect to preparation, and packing.

(c) "Small packets," whether or not they are subject to customs inspection, must bear the green (customs) label, Form 2976 referred to in § 127.17.

(d) It is permissible to enclose in "small packets" an open invoice reduced to its essential terms. While the full name and address of the addressee as well as that of the sender must appear on the outside of the packet, a simple copy thereof may also be included therein. Every small packet shall be clearly marked on the wrapper by the sender with the words "Petit paquet" (small packet).

(e) As in the case of commercial papers, printed matter and samples of merchandise, small packets may not contain any letter, note, or document having the character of actual personal correspondence, and they must not be sealed.

(f) Small packets may contain articles liable to customs duty and upon receipt in the country of destination will be subject to the customs regulations of such country. However, small packets (registered or unregistered) may not contain coins, bank notes, paper money, postage stamps canceled or uncanceled, or any values payable to the bearer; platinum, gold, or silver, manufactured or unmanufactured; precious stones, jewelry, or other precious articles.

(g) Small packets may be accepted when addressed for delivery in the following countries:

(i) Small packets will be accepted at the risk of the senders when addressed to those countries not mentioned in paragraphs (g) or (h) of this section.

§ 127.11 *Eight-ounce merchandise packages.* (Must not be sealed except as stated below.)

(a) Packages of merchandise weighing 8 ounces or less are accepted for the following countries:

Argentina.
Bolivia.
Brazil.
Canada.
Chile.
Colombia.
Costa Rica.
Cuba.
Dominican Republic.
Ecuador.
Guatemala.
Haiti.
Honduras (Republic of).
Mexico.
Morocco (Spanish Zone).
Nicaragua.
Panama.
Paraguay.
Peru.
Salvador (El).
Spain (including Balearic Islands, Canary Islands, and Spanish Offices in Northern Africa).
Spanish Guinea.
Spanish West Africa.
Uruguay.
Venezuela.

(b) Postage rates: Surface rates, 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction. For air mail rates, see individual country items.

(c) Limit of weight: 8 ounces.

(d) Dimensions: Same as for letter packages. (See § 127.3.)

(e) These packages are not parcel post, must not have customs declarations attached and generally must not be sealed. However, when addressed to Canada they may be sealed if marked "May be opened for postal inspection if necessary" and c. o. d. 8-ounce merchandise packages for Mexico may also be sealed.

§ 127.12 *Combination packages.* (a) "Combination packages," that is, packages made up of two parts, firmly attached together, both addressed for delivery to the same addressee, and consisting of (1) a sealed envelope containing a written or printed communication, fully prepaid at the letter rate of postage, and (2) an unsealed container, with samples of merchandise or printed matter enclosed fully prepaid at the appropriate rate of postage, are accepted for dispatch to the following countries:

Austria.
Bolivia.
Brazil.
British Guiana.
British Honduras.
Bulgaria.
Canada.
Colombia.
Denmark.
Dominican Republic.
Faroe Islands.
Greenland.
Haiti.
Honduras (Republic of).
Iceland.
Jamaica.
Mexico.
Nicaragua.
Norway.
Philippines.
Poland.
Rumania.
Salvador (El).
Sweden.
Turks Islands.

(b) "Combination packages" destined for delivery in any of the above-mentioned countries are acceptable for transmission in the ordinary (unregistered) mails only, with the exception of the Dominican Republic and Honduras (Republic of). "Combination packages" addressed for delivery in the Dominican Republic may be dispatched in either the ordinary or registered mails, while those destined for delivery in Honduras (Republic of) may be forwarded only in the registered mails.

§ 127.13 *Articles grouped together.* (a) It is permissible to include in a single package, commercial papers, samples of merchandise and prints (other than prints for the use of the blind) on condition that each article taken singly does not exceed the limits applicable to it in regard to weight and provided that:

(1) The total weight does not exceed 4 pounds 6 ounces per package if it consists solely of commercial papers and samples; that limit is raised to 6 pounds 9 ounces if the package also contains prints, but in such case the total weight of the commercial papers and samples must not exceed 4 pounds 6 ounces.

(2) The dimensions of the package does not exceed those of letters.

(3) The postage paid is at least the minimum rate for commercial papers if the package contains commercial papers, and at least the minimum charge for samples if it is composed of prints and samples.

(b) The provision for the transmission of composite packages or articles grouped together is applicable only to articles subject to the same rate of postage per unit of weight. When articles requiring different rates are detected, the entire package shall be charged with the rate of postage applicable to the class of articles contained therein for which the rate is highest. As an example, if a package contains printed matter and articles subject to the rate applicable to "small packets" the entire package will be subject to the higher rate of 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces, with a minimum charge of 20 cents, while if a package contains samples of merchandise together with papers constituting personal correspondence the entire package will be charged at the letter rate of postage to the country concerned.

§ 127.14 *International reply coupons.* (a) A "reply coupon" (price, 11 cents) may be purchased at any United States post office. Upon presentation at a post office in any country, except Korea, the coupon will entitle the person presenting it to receive (without charge) a postage stamp or stamps of that country of sufficient value to prepay an unregistered letter of the first unit of weight to be sent to this country by surface means. Upon the presentation of a sufficient number of international reply coupons, the stamp or stamps received in exchange may be used to prepay an unregistered letter to be sent to this country by air; in this case, the weight of the letter may not exceed 20 grams (about $\frac{3}{4}$ ounce).

(b) When sold, the reply coupons must be legibly postmarked in the circle at the left side of the front.

(c) International reply coupons of the Universal Postal Union, which are printed in blue ink and bear the caption "Coupon-Réponse International," issued in countries other than Canada and Mexico are exchangeable in postage stamps at the rate of 8 cents each. Canadian and Mexican international reply coupons are redeemable in postage stamps at the rate of 3 cents each. The United States stamp or stamps given in exchange may be used to prepay postage on a letter to be sent by surface means, or—provided a sufficient number of coupons are presented—by air mail. To be acceptable for exchange, reply coupons must bear the postmark of the selling post office. Exchanged coupons must be immediately postmarked to show the date of exchange. The period of exchange is not restricted.

(d) Americo-Spanish reply coupons, which are printed in green ink, and bear the caption "Cupón Respuesta Americoespañol," are not sold in this Service. However, those issued by other countries belonging to the Postal Union of the Americas and Spain are redeemable in accordance with the same rules and rates of exchange as are applicable to international reply coupons, except that when more than 10 Americo-Spanish coupons are offered by any one individual the letters on which the postage is being prepaid must also be presented.

(e) For further information regarding "reply coupons" see § 114.25 of this chapter.

§ 127.15 *Registration.* For information concerning the registry service see Subpart D of this part and individual country items, Subpart F of this part.

§ 127.16 *Certificates of mailing.* Certificates of mailing shall be furnished on request at the time of mailing for ordinary Postal Union articles, and as additional evidence of mailing for registered or insured Postal Union articles, under the same conditions and subject to the same charge as those for parcel post packages. (See § 127.81.)

§ 127.17 *Customs forms.* (1) Green (customs) label: The green (customs) label, Form 2976, is required to be affixed to the address side of each letter or letter package containing dutiable articles (merchandise), to prints which are dutiable in the country to which they are addressed, and to each small packet. (See §§ 127.3, 127.6, and 127.10.)

(2) The form is not, under any circumstances, to be employed on parcel post packages.

(3) Facsimiles of the old Form 2976 and the revised form are shown below:

(4) When the revised form is used in its entirety, there is no need to enclose a paper form of customs declaration in the package. However, if the sender prefers not to show the nature of the contents, etc., on the outside of the article, or if for any reason the use of the revised form in its entirety is not practicable, the upper part of the revised form (detached by cutting along the dotted line) may be affixed to the cover. Old Form 2976 may be used for this purpose until the supply is exhausted.

(b) (1) Paper form of customs declaration: The paper form of customs declaration (Form 2976–A) is available for completion and enclosure within the classes of articles mentioned in paragraph (a) of this article when the description of the contents of the article is not shown on Form 2976 or on an invoice enclosed within the article. The contents of the article must be indicated in detail on the form. Notations of a general character are not allowed.

(2) Form 2976–A is not, under any circumstances, to be used in mailing parcel post packages. Information concerning the card (tag) form of customs declaration (Form 2966) to be used in connection with parcel post packages will be found in § 127.75.

§ 127.18 *Export declarations.* For information concerning postal export declarations which are required to be prepared on Department of Commerce Form 7525–V in connection with certain commercial shipments sent in the Postal Union mails or by parcel post by one business concern to another business concern between continental United States, its noncontiguous possessions, and other countries, see § 127.88.

§ 127.19 *Special delivery (exprès) service.* (a) Special delivery (exprès) service is now in force with the following countries:

Argentina.
Australia.
Austria.
Bahamas.
Belgium.
Brazil.
British Guiana.
British Honduras (Belize only).
Canada.
Chile.
China.
Corsica.
Costa Rica.

Switzerland.
Tanganyika Territory.
Turkey.
Union of South Africa.
Yugoslavia.

(b) The special-delivery service applies to all Postal Union articles (ordinary and registered) addressed for delivery in the countries shown in the preceding list, except that in the case of Canada the special-delivery service applies only to letters or articles prepaid at the letter rate (ordinary and registered), and to India it applies only to unregistered letters, post cards, and printed matter (exclusive of printed matter for the blind). The special-delivery service does not apply to International Parcel Post. See § 127.80 concerning special handling service for parcel post.

(c) Delivery is effected in the various countries according to the special-delivery regulations in force in the country of destination. See country items for further information.

(d) An article intended for special delivery in any of the countries mentioned must be prepaid the appropriate special delivery fee, in addition to the regular postage, as follows:

| | Letters and letter packages | Post Cards | Other Postal Union articles |
|---|---|---|---|
| | Cents | Cents | Cents |
| Up to 2 pounds | 30 | 20 | 35 |
| Over 2 pounds up to 10 pounds | 35 | ..... | 45 |
| Over 10 pounds | 50 | ..... | 60 |

There should be affixed to the cover an "Exprès (special delivery)" label (Form 2977), or the cover must be marked boldly in red ink "Exprès" directly below but not on the stamps. The use of special delivery stamps for other than special delivery articles is not permissible.

(e) Insufficiently prepaid articles intended by the senders for special delivery in the said countries, posted in letter boxes and drops, should be marked by postmasters "Not in special-delivery mail" and dispatched onward to destination as ordinary mail matter whenever such articles can not be returned to the sender for the deficiency in fee without seriously delaying the dispatch thereof.

(f) Articles mailed in the said countries which are intended for special delivery in this service will be marked "Exprès" or have labels affixed bearing that word, and will be subject to the same conditions in their delivery as special-delivery articles in the domestic service, attention being invited especially in this connection to § 61.21, par. (b), Postal Laws and Regulations, concerning the holding at the post office, to be called for by the addressee, of special-delivery mail which is registered and is believed to contain large sums of money or securities that can not be delivered without unusual risk.

(g) An article mailed in another country with which special-delivery (exprès) service is in operation, and which bears the United States special-delivery stamp or stamps, if treated by the office of origin as a special-delivery article, is considered in the country of origin to be short paid the amount of the special-delivery fee applicable in such country, and is subject to the collection from the addressee of double the amount of short payment. However, on receipt in this country, the delivering postmaster will allow credit for any United States special-delivery stamps affixed. If the article is not treated by the country of origin as a special-delivery article, it shall be delivered by the ordinary means.

(h) When an article mailed in another country with which there is no special-delivery service bears a United States special-delivery stamp in addition to the regular postage, such article should be given special-delivery service in this country, although special-delivery service is not required to be given in the country of origin.

(i) See § 114.18 of this chapter.

§ 127.20 *Air mail service.* (a) (1) In general, the limits of weight and dimensions and other conditions (but not postage rates) prescribed for surface mails apply also to Postal Union articles to be dispatched by air mail. (See § 127.55 (b) concerning conditions applicable to international air parcel post.)

(2) The rates (which include the postage and the fee for air service) for articles in the Postal Union mails are shown in the subheading "Air mail service" under "Postal Union Mails" of each country item, in subpart F of this part.

(3) Post cards (single) for Canada and Mexico are conveyed by air at the rate of 4 cents each. Single post cards for other countries and double post cards for all countries must be prepaid at the regular air mail letter rate to the country concerned.

(4) Articles for transmission by air to other countries should have affixed in the upper left-hand corner of the envelope or cover, immediately below the return card of the sender, the blue "Par Avion By Air Mail" label (Form 2973). Envelopes bearing distinctive air mail markings may show the printed or rubber stamped endorsement "Par Avion/By Air Mail" in blue capital letters in lieu of Form 2978.

(5) The use of air mail stamps on other than air mail articles and parcels is not permissible. Neither should envelopes bearing distinctive air mail markings be used unless the articles actually are intended to be carried by air.

(6) Offices of mailing shall exercise every precaution to assure the detection of short-paid air mail articles before they are sent to the United States exchange office of dispatch.

(7) If the office of mailing observes an unregistered air mail Postal Union article to be insufficiently prepaid and the return address on the article is at the office of mailing, or if it bears a return address other than at the office of mailing and it weighs 4 ounces or less, it shall be returned to the sender (by air if practicable) for the necessary postage. If the article bears a return address other than at the office of mailing and weighs over 4 ounces it shall be sent by air to the United States exchange office of dispatch. If the article bears no return address, it shall be sent by air to the United States exchange office of dispatch, regardless of its weight, provided it bears at least 75 per cent of the required air mail postage; otherwise the air mail markings shall be canceled and the article endorsed "Not in Air Mail" and forwarded by surface means.

(8) If the office of mailing observes a registered air mail Postal Union article to be insufficiently prepaid and the return address on the article is at the office of mailing, the missing postage shall be supplied before the article is dispatched. If the article bears a return address other than at the office of mailing it shall be sent to the appropriate United States exchange office. When such insufficiently prepaid registered articles reach the exchange office they shall be treated as prescribed in § 127.31 (d).

(9) When air mail articles returned for additional postage are subsequently remailed, the stamps originally affixed will be accepted to the amount of their face value.

(10) The weight of the card prepared as the return receipt of a registered air mail article shall not be included with the weight of the article in determining the postage required.

(11) See § 127.83 regarding the treatment of shortpaid air parcel post packages.

(12) See § 127.3 (d) concerning the acceptance of air mail letters and letter packages containing articles liable to customs duty.

(b) Other articles: Articles in the Postal Union mails classified as commercial papers, printed matter, samples of merchandise, and small packets, as well as 8-ounce merchandise packages, combination packages and articles grouped together are transmissible by air provided they are prepared for mailing as prescribed for the class of article involved, as set forth in §§ 127.5 to 127.13, inclusive, and are prepaid at the appropriate air mail rate. This rate will be the letter rate unless a special "other articles" rate is in effect to the country concerned, in which case the latter rate will apply. In either case the rate is shown in the subcaption "Air mail service" under the country heading concerned.

(c) (1) Air letter sheets: Air letters, consisting of sheets which can be folded into the form of an envelope and sealed, are acceptable for dispatch by air mail at a uniform rate of 10 cents each to all countries.

(2) Air letter sheets with printed postage and air mail markings are sold at all post offices for 10 cents each. The sheets are obtainable by postmasters on requisition in the same manner as are supplies of other postage stamped paper.

(3) Air letter sheets manufactured by private individuals or concerns, if approved by the Department for such use, may also be accepted for mailing after 10 cents in postage has been affixed.

(4) All parts of air letter sheets may be used for the sender's message except the address side. No enclosures are permitted. Air letters may be sent under registration on payment of the required registry fee in addition to the fee for the air letter sheet.

PROHIBITIONS AND RESTRICTIONS

§ 127.21 *General list of prohibited articles.* (a) Any article without address or incorrectly, insufficiently, or illegibly addressed so that it cannot be transmitted to its destination.

(b) Any article addressed to go around the world or with the address side wholly or partly divided into several spaces intended for successive addresses.

(c) Any article which is insufficiently prepaid to entitle it to be dispatched or which does not conform to the weight limits and conditions applicable thereto. (See §§ 127.30 and 127.31.)

(d) Articles so damaged in transit that they cannot be forwarded to their destination and articles recovered after depredations in the mails, which shall be forwarded to the Department for disposition.

(e) Poisons, including narcotics (opium, morphine, cocaine, etc.), explosive and inflammable articles, and all other articles excluded from the domestic mails which, either from their nature or packing, are liable to soil or damage the mails or are injurious to health, life, or property. Certain articles, however, which, from their nature or form, are liable in themselves to destroy, deface, or injure the contents of the mail bags or the persons of those engaged in the Postal Service may be transmitted in the mails to other countries, if they are bona fide trade samples and exchangeable in the mails with said countries when enclosed in the form prescribed for such articles in domestic mails.

(f) Matches, including safety matches; live or dead animals, except: (1) live bees, leeches, and silkworms, (2) dead insects or reptiles when thoroughly dried, and (3) parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized agencies.

(g) Obscene, indecent, immoral, and libelous matter.

(h) Lottery matter and advertisements of any lottery.

(i) Fraudulent matter.

(j) Treasonable matter.

(k) Publications which violate copyrights granted by the United States.

(l) Intoxicating liquors.

(m) Tobacco seed and plants, except by permit granted by the Secretary of Agriculture. (See § 127.63.)

(n) Pistols, revolvers, and other firearms capable of being concealed on the person, with certain exceptions. (See § 36.12, of this chapter; also see § 127.57.)

(o) Samples, the number of which mailed to one addressee by the same sender shows the evident intention of avoiding the collection of customs duties due to the country of destination. Samples may not contain any article having a salable value, or sent as a gift or in execution of an order.

(p) Dutiable articles are prohibited except (1) they may be sent at the letter rate of postage to the countries mentioned in § 127.3, paragraph (d), and in small packets to the countries mentioned in § 127.10, paragraphs (g) and (i); also (2) dutiable printed matter may be sent in the prints mails, unless specially prohibited by the country of destination as shown under the country items.

(q) "Small packets," addressed to those countries which have expressed an unwillingness to accept them. (See § 127.10.)

(r) Articles, other than letters and post cards, which contain writing of the nature of personal correspondence unless they are fully prepaid at the rate of postage applicable to letters for the country of destination.

(s) Coins, bank notes, paper money, or any values payable to bearer; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry stones, jewelry or other precious articles are prohibited unless sent in the registered letter mail. However, these articles are absolutely prohibited even in the registered letter mail to some countries as shown under the special prohibitions of certain country items.

(t) If not specially prohibited by the country of destination, postage stamps or forms of prepayment of postage, canceled or uncanceled, or any paper representing a value may be sent under the rate and conditions applicable to letters, or under the rates and conditions applicable to 8-ounce merchandise packages to the countries mentioned in § 127.11; otherwise they are prohibited.

(u) The right is reserved to the Government of every country to refuse to convey over its territory, or to deliver, articles admitted at reduced rates in regard to which the laws, ordinances, or decrees which regulate the conditions of their publication or circulation in that country have not been complied with, or correspondence of any kind bearing conspicuously inscriptions, designs, etc., forbidden by the legal enactments or regulations in force in the country concerned.

§ 127.22 *Gold and gold certificates.* (a) Except as indicated in paragraph (b) of this section with respect to fabricated gold, the following shall not be accepted for mailing unless the exportation thereof has been licensed by the Treasury Department or an agency thereof and the postmaster at the place where offered for mailing has received specific instructions from the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., regarding the procedure to be followed in accepting the gold or gold certificates for mailing:

(1) When offered for mailing from the continental United States (that is the States of the United States, the District of Columbia, and the Territory of Alaska) to any destination (domestic or international) outside the continental United States:

Gold certificates or gold in any form.

(2) When offered for mailing from a place outside the continental United States but which is subject to the jurisdiction of the United States to another country:

Gold certificates or United States gold coin;

Gold in any other form than United States gold coin, if such gold is held or owned by a person who is a resident of, or who is domiciled in, the continental United States. Before accepting gold in any other form than United States gold coin, pursuant to this paragraph, the accepting clerk shall require the sender to place on the wrapper of the article or parcel, and on the shipper's export declaration, when required (see § 127.88), a statement that the gold contained therein is held or owned by a person who is not a resident of, or who is not domiciled in, the continental United States. If the gold offered for mailing is fabricated gold, the accepting clerk will be governed by the provisions of paragraph (b) of this section.

(b) Fabricated gold, as defined in paragraph (c) of this section may be accepted for mailing without being licensed by the Treasury Department and without specific instructions from the Post Office Department, Bureau of Transportation, Division of International Service. However, the shipper is required to endorse the wrapper of the package with the words "Fabricated Gold." The shipper's export declaration, when required (see § 127.88), shall contain, in addition to a specific description of the contents of the package, the following notation, "Fabricated gold as defined by § 54.4 of the Gold Regulations, being exported pursuant to the authorization contained in § 54.25 (b) (2) of such regulations."

(c) Fabricated gold is defined by the Treasury Department as processed or manufactured gold in any form (other than gold coin or scrap gold) which has a gold content the value of which does not exceed 80 percent of the total domestic value of the processed or manufactured gold and which has in good faith and not for the purpose of evading or enabling others to evade the provisions of the Gold Reserve Act of 1934, the Act of October 6, 1917, as amended, or the regulations of the Treasury Department, been processed or manufactured for some one or more specific and customary industrial, professional, or artistic uses. The basis by which prospective shippers may determine the value of the gold content and the total domestic value of an article of processed or manufactured gold is set out in paragraph (d) of this section. (Fabricated gold is to be distinguished from semiprocessed gold, which may be exported only pursuant to Treasury License, and which is defined to include gold articles of which more than 80 percent of the total domestic value is attributable to the gold content thereof.)

(d) While no obligation is imposed upon postal employees to attempt to determine whether an article is semiprocessed or fabricated gold, as defined in paragraph (c), interested patrons may be informed that to make such a determination the value of the gold content is computed at $35 per fine troy ounce of gold and the total domestic value is determined on the basis of the cost of the article to the owner and not the selling price. In the case of a manufacturer or processor, the allowable elements of such value are the cost of material in the article, labor performed on the article, and processing losses and overhead applicable to the manufacture or processing of such article. In the case of a dealer or other person who holds or disposes of gold without further processing, total domestic value includes only the net purchase price paid by such person and any transportation costs incurred in obtaining delivery of such article to his usual place of business.

(e) The acceptance in the Postal Union mails or parcel post for any country of any consignment of gold coin, gold bullion, or gold dust, having a value in excess of $100 is prohibited, even though a license has been granted to export such gold coin, gold bullion, or gold dust.

(f) Prospective shippers may obtain the forms on which to apply for licenses to export gold from the Bureau of the Mint, Treasury Department, Washington 25, D. C.

§ 127.23 *Diamonds.* (a) Loose diamonds in any form (except cut gem diamonds, i. e., diamonds cut to be set in jewelry) tendered for mailing to any country shall not be accepted unless they have been inspected by the U. S. Appraiser of Merchandise at New York, N. Y., and the unbroken seal of that official appears on each package or parcel. This requirement is not applicable to diamonds forming a part of industrial tools.

(b) The foregoing restriction is based on regulations of the Office of International Trade, Department of Commerce.

§ 127.24 *Fountain pens.* Under the prohibition against gold, silver, and other precious articles appearing in connection with the Postal Union mails and the parcel post service to certain countries, fountain pens with gold nibs or points, or fountain pens with gold nibs or points and gold bands, or fountain pens with gold nibs or points mounted with gold plate, will be regarded as not included in such prohibition, but will be accepted, at the sender's risk, for dispatch to such countries until the postal administrations concerned give notice that fountain pens with gold nibs or points are included in the category of gold, silver, and other precious articles.

§ 127.25 *Tobacco seed and plants.* See § 127.63.

§ 127.26 *"Window" envelopes.* (a) Envelopes which are entirely transparent or openpanel envelopes are unmailable. The window need not form an integral part of the envelope.

(b) The panel shall lie parallel to the longest dimension, so that the address of the addressee appears in the same direction and the application of the date stamp is not hindered. The transparency of the panel shall assure perfect legibility of the address, even by artificial light, and shall not interfere with the application of a written note. Panel envelopes whose vitrified part causes reflection of artificial light are excluded.

(c) Only the name and address of the addressee may appear through the panel, and the contents of the envelope must be folded in such a way that the address cannot be covered, even partly, as a result of slipping. The address shall be indicated legibly, in ink, in typewriting, or by printing, in dark colored letters. Addresses written in ordinary or indelible pencil are not permitted.

§ 127.27 *Nonpostage stamps.* (a) "Christmas" and charity or other stamps liable to be mistaken for postage stamps must not be affixed to the address side of mail articles. The same holds true for imprints of stamps which might be mistaken for postage-paid impressions. However, there is no objection to such stamps being affixed to the reverse side of letters or other mail matter.

(b) Unless the foregoing condition is complied with, articles bearing nonpostage stamps will not be dispatched from this country, but will be returned to the senders, if known; otherwise they will be sent to the proper dead letter branch.

ARTICLES FOR OTHER COUNTRIES

§ 127.28 *Address, etc.* (a) Senders shall be cautioned that in order that the routing of the article and its safe delivery to the addressee may be assured they shall:

(1) Address the article in legible roman letters placed on the right-hand side of the article, lengthwise, in such a way as to leave the necessary space for service labels and notation (postmark, etc.).

(2) Indicate the name and address of the addressee in a precise and complete manner, with the names of the locality and country of destination in capital letters and, in the case of articles for cities or towns, the house number and street address shall be shown.

(3) Fully and properly prepay postage thereon; postage stamps or postage-paid impressions shall be placed in the upper right-hand corner of the address side. Care should be used to see that postage stamps affixed to printed matter do not adhere also to the articles themselves, thus virtually sealing them and subjecting them to additional postage at double the letter rate on delivery.

(4) Prepare the articles securely, especially if they are for distant countries; envelopes or wrappers used must be of substantial paper and the size of the articles shall not be less than 4 inches in length by $2\frac{3}{4}$ inches in width.

(5) Add the word "Lettre" (letter) on the address side of letters which, because of their bulk or the way they are made up, might be mistaken for other articles.

(6) On articles sent at reduced rates, indicate the class to which they belong by notations such as "Papiers d'affaires" (commercial papers), "Imprimés" (prints), "Impressions à l'usage des aveugles" (prints for use of the blind), "Échantillon" (sample), "Petit paquet" (small packet).

(7) Avoid using wax on the covers as in the case of letters so sealed they often adhere to each other and the addresses of some are destroyed by the tearing of the covers in the attempt to separate the articles.

(8) On the address of articles sent to General Delivery indicate the name of the addressee. The use of initials, figures, simple given names, fictitious names or conventional marks of any kind is not permitted for such articles.

(b) Addresses in foreign languages: (1) The distribution of mail for foreign destinations requires on the part of postal employees at United States exchange offices a definite knowledge of the addresses of such mail, and articles addressed in Russian, Greek, Arabic, Hebrew, Japanese, or Chinese characters are not sufficiently addressed even though the country of destination is written in English. Articles addressed in the foreign languages mentioned or other foreign languages shall bear an interlined translation of the names of the post office, province, and country of destination in English, or in lieu thereof (if the English form of the names is not known) the foreign spelling of such names shall be shown in roman characters, print or script.

(2) Unless, however, the postmaster at the office of mailing is certain that an article of mail is not sufficiently addressed to permit of its correct distribution at the United States exchange post office, he will not transmit the article to the dead letter branch or return it to the sender, but will dispatch the article to the appropriate United States exchange post office, provided the name of the country of destination may be read, leaving to the employees of the exchange post office the question of the sufficiency of the address.

§ 127.29 *Return card of senders.* It is important that the return card of senders (name, street address, city, and State) be shown in the upper left-hand corner of the address side of articles for other countries in such a way as not to affect either the clarity of the address or the application of service labels or notations. Many countries confiscate certain ordinary (unregistered) articles if they cannot be delivered as addressed unless they bear the sender's return card.

§ 127.30 *Method of prepayment.* (a) Postage can be prepaid upon articles (other than the reply half of double post cards) by means of postage stamps of the country in which the articles are mailed or postage can be prepaid in money. In this latter case the indication of the amount paid must be shown by an impression of a stamping machine. Registration fees and insurance fees, as well as the postage, may be prepaid by means of stamping machines or by means of printed indicia in appropriate cases. Such impressions must be bright red in color and indicate the country of origin when the mail is for other countries in general. However, to Argentina, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Morocco (Spanish Zone), Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain (including Balearic and Canary Islands, the Spanish offices in Northern Africa, and Andorra), Spanish Guinea, Spanish West Africa, Uruguay, and Venezuela, articles of mail matter bearing any stamped impression acceptable under the domestic regulations are likewise accepted when addressed for delivery in any of said countries. No mailings to any country shall be accepted under § 34.66 of this chapter.

(b) In addition to allowing prepayment of postage to be made by means of stamping machines, prepayment in money of postage on printed matter may be indicated by means of impressions, printed or otherwise obtained.

(c) In the case of prepayment of postage on printed matter which is shown by means of printed indicia, the indication of the country of origin may be replaced by the name of the office of origin. These printed indicia on printed matter, which must show the amount of postage paid, may be black or any other color.

(d) Postage upon articles mailed on board ships on the high seas must be prepaid by means of postage stamps of the country under whose flag the ship sails (such articles are subject to the postage rates and conditions of that country). Postage upon articles mailed on board a ship while it is in a port of any country can be prepaid only by means of postage stamps of that country (such articles are subject to the postage rates and conditions of that country).

(e) The use of air-mail or special-delivery stamps on other than air-mail or special-delivery articles is not permissible.

§ 127.31 *Optional and compulsory prepayment.* (a) Except as noted in paragraph (b) of this section, senders must fully prepay postage on all articles in the Postal Union mails, including letter-packages and "business" letters evidently not being exchanged between branches of the same firm or corporation, and on both halves of reply-paid post cards.

(b) Exceptions: Unregistered surface letters in their usual and ordinary form, including "business" letters evidently being exchanged between branches of the same firm or corporation, and ordinary (unregistered) post cards (single), deposited in the mails unpaid or insufficiently prepaid shall be forwarded to the dispatching exchange office for treatment as prescribed in § 127.34. However, when a large number of letters or single post cards is mailed unprepaid or insufficiently prepaid by the same sender, they shall not be dispatched. (See § 127.48 concerning postage chargeable on certain forwarded articles, which postage need not be prepaid.)

(c) All ordinary (unregistered) surface articles in the Postal Union mails which are required to be fully prepaid before dispatch, but which are not so prepaid, must be returned to the senders

unless the name and address of the senders are not indicated, when they must be sent to the proper dead-letter branch for disposal. See § 127.20, concerning the treatment to be accorded unpaid or insufficiently prepaid ordinary (unregistered) air mail articles.

(d) It is the responsibility of the office of mailing to see that all registered articles (surface or air) in the Postal Union mails are fully prepaid before the articles are sent to the United States exchange office of dispatch. If an unpaid or short-paid registered article reaches the exchange office, the missing postage shall be supplied, and the exchange office shall forward the article to destination and send Form 2863 showing the amount of the deficiency to the office where the sender is located. If the exchange office is an air mail field without stamp credit, the missing postage is supplied by the local post office. Upon the receipt of Form 2863, the postmaster concerned shall immediately collect the amount of the deficiency from the sender and return the notice and the amount of the deficiency in uncanceled ordinary postage stamps to the exchange office or post office from which the notice was received. If the postmaster fails to remit the required postage the exchange office or post office which supplied the deficiency shall report the matter to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

(e) When articles returned to senders for postage are subsequently remailed the postage stamps originally affixed will be accepted to the amount of their face value.

(f) See § 127.83, concerning the treatment to be accorded unpaid or insufficiently prepaid parcel post packages (surface or air).

§ 127.32 *Matter entitled to admission in the international mails free of postage.* Correspondence (that is, all articles in the mails except parcel post) of the following types may be sent in the international mails by surface means free of postage:

(a) *Official correspondence of the postal service.* Official correspondence relative to the postal service exchanged between postal administrations; between these administrations and the International Bureau, Universal Postal Union, Bern, Switzerland, the International Office, Postal Union of the Americas and Spain, Montevideo, Uruguay, and the International Transfer Office, in the Republic of Panama; between post offices of Union countries, and between post offices and postal administrations.

(b) *Americo-Spanish diplomatic and consular mail.* (1) All correspondence (official and personal) of members of the diplomatic corps of Argentina, Bolivia, Brazil, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain, Uruguay, and Venezuela addressed for delivery in any of those countries.

(2) The official correspondence of consuls (or vice consuls acting as consuls) of the countries named in subparagraph (1) when (i) addressed for delivery in the country represented by the mailing consul, (ii) addressed to the embassy or legation of the consul's country located in any of the said countries, or (iii) addressed to a consul of any of the said countries located in one of those countries.

(3) The envelopes, labels, etc., to be used by members of the diplomatic corps of the Americo-Spanish countries for mailing correspondence free of postage must show in the upper left-hand corner of the address side the name of the ambassador or minister or the name of the embassy or legation, as the case may be, together with the post-office address, and in the upper right-hand corner the words "Diplomatic mail" over the word "Free." The envelopes, labels, etc., to be used by consulates of the said countries for mailing official correspondence free of postage must show in the upper left-hand corner of the address side over the words "Official correspondence" the name and address of the consul or consulate as the case may be, as well as the name of the country represented and in the upper right-hand corner the words "Consular mail" over the word "Free."

(4) Diplomatic and consular correspondence is subject to the weight limits and dimensions shown in Table No. 2 in § 127.1, according to its classification in the Postal Union mails.

(5) Under the provisions of the Convention of the Postal Union of the Americas and Spain the diplomatic and official consular correspondence of United States representatives, as well as that of the representatives of the other Americo-Spanish countries, is granted a similar franking privilege.

(6) See § 37.8 of this chapter, relative to freedom of postage granted in the United States domestic service to the correspondence of members of the diplomatic corps and consuls of the Americo-Spanish countries.

(c) *Free mailing privilege to certain Americo-Spanish countries.* Articles entitled to pass free of postage in the domestic mails of the United States are entitled to pass free of postage to Bolivia, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador (El), Uruguay, and Venezuela. Such articles must not exceed the domestic weight limit of 4 pounds, except those exempted from that limit by law or regulation (see the Postal Laws and Regulations). In the latter case, the weight limits prescribed in Table No. 2, of § 127.1, for the class of article involved will apply.

NOTE: The free mailing privilege referred to in this paragraph does not apply to articles for Argentina, Brazil, and Spain, including the Spanish possessions.

(d) *Reply-paid postal cards.* The reply half of a double postal card bearing a postage stamp of the country which issued the double cards is to be considered as prepaid.

(e) *Return receipts.* Completed return receipts for registered or insured mail, as well as for certain ordinary parcels, shall be returned in the ordinary mail, without cover, and free of postage, to the sender.

(f) *Pan American Union mail.* Mail matter originating at the Pan American Union, bearing the card of the Union and weighing not more than 4 pounds 6 ounces when addressed to Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Morocco (Spanish Zone), Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain and Spanish possessions, Spanish Guinea, Spanish West Africa, Uruguay, and Venezuela is admitted to the mails free of postage.

(g) *Mail to and from prisoners of war and interned belligerents and civilians.* (1) All articles or correspondence and parcel post addressed to, or sent by, prisoners of war or belligerents received and interned in a neutral country, or the Bureaus of Information or the Central Agency of Information established for the benefit of such persons, are exempt from all postage charges. The same exemption from postage charges applies to articles of correspondence and parcel post sent by civilians interned in time of war, or sent to them from other countries. The mail mentioned in this subparagraph may not be registered or insured; if air mail service is desired, appropriate postage must be prepaid.

(2) The addresses on the articles and parcels mentioned in subparagraph (1) of this paragraph shall be typewritten if possible or hand printed. Such articles and parcels as well as the forms relating to them must bear one of the following notations: "Service des prisonniers de guerre" (Prisoners of War Service) or "Service des internés" (Internees Service) in the upper left corner of the address side, and in the upper right corner the words "Postage free" must be shown. In those cases where air mail postage is prepaid the postage stamps will be placed in the upper right corner of the envelope instead of the words "Postage Free." The sender's name and address shall always be placed on the back of the envelope. In addressing, sufficient space shall be left on the envelope for the inclusion of any necessary forwarding address. Also, the address shall be placed as near the lower edge of the envelope as possible so the postmark at the top will not obscure or obliterate it.

(3) See § 127.67, concerning parcel post for prisoners of war and detained or interned civilians.

(h) *Correspondence by air.* The freedom of postage referred to in the preceding paragraphs is not applicable to articles intended for transmission by air, except as stated in paragraph (a) of this section.

§ 127.33 *Postmarking and backstamping.* (a) Postal Union articles are to be postmarked.

(b) The impression of the date stamp of the office at which they arrive through error shall be placed on the back of missent letters (registered or not) and on the front of missent post cards. In the case of forwarded articles, the redispatching office applies its date stamp on the front of articles in the form of cards, on the back of letters and all other

classes of mail at the time of forwarding. Postmasters shall cause care to be taken not to deface by their own postmark, nor cover with postage-due stamps, any postmark already on an article.

§ 127.34 *Rating and marking of short-paid articles.* (a) The ascertainment and rating of deficient postage on correspondence for and from other countries, and the marking on the correspondence of the proper indications of such deficiency, is the work of the exchange post offices and not of the mailing or delivering post offices unless the latter are also exchange post offices. However, in case of obvious error on the part of the exchange office, the rating may be made at the delivery office and a report of the facts made to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C. The envelopes or wrappers of the articles involved are to be obtained where practicable and submitted with the report.

(b) Rating:

(1) Unpaid and insufficiently prepaid registered articles in the Postal Union mails exchanged with all other countries are subject to the collection of only the amount of the deficient postage. However, double the deficient postage is to be collected on unpaid and insufficiently prepaid ordinary (unregistered) articles in the Postal Union mails exchanged with all countries, except as provided in § 127.48, paragraphs (b) and (c), for certain classes of redirected articles.

(2) Articles, other than letters and post cards, which contain written communications are treated as letters and double the amount of deficient postage (at the rate for letters from the country of origin) is collected upon delivery.

(3) Packages of printed matter received from other countries, having articles of merchandise concealed therein, and packages mailed in other countries as "samples," when found to contain gifts or articles having a salable value other than that necessary in their character as bona fide samples of merchandise (see § 127.9), are treated as "small packets" when received from those countries listed in § 127.10 (h). Otherwise they are subject to the letter rate (from the country of origin) and postage due is collected accordingly.

(4) In the case of unpaid or short-paid articles returned to senders as undeliverable, the senders are charged with the amount of deficient postage which would have been collected from the addressees if the articles had been delivered. (See § 127.50 (b).)

(5) Marking: The dispatching exchange office of the country which dispatches to another an unpaid or short-paid article is required to mark, in the middle of the upper part of the address side, the capital letter "T" (including "tax" or postage due) and beside it, in very legible figures, the amount of postage due in postal gold francs and centimes. United States dispatching exchange offices will mark such articles on the basis of 3 gold centimes as the postal equivalent of 1 cent, United States currency.

(6) The United States exchange office which first receives a short-paid article from another country stamps it "Postage due __ cents" and with the initials—for instance, "NY", "SF", "NO", etc., as the case may be—or with the full name of the exchange office which so stamps it. The amount so indicated (except in case of obvious error) must be collected at the post office where the article is delivered and postage-due stamps of the same amount must be affixed to the article and canceled.

(7) When postage stamps or postage-paid impressions are used which are not valid for the prepayment of postage in the country of mailing, that fact is indicated by a zero (0) marked alongside them and a line in pencil drawn around them.

(8) Charges for postage due are in addition to any customs charges.

§ 127.35 *Return for correct or complete address.* Any article returned to sender from another country for rectification or completion of its address is not considered when mailed with a corrected or completed address as forwarded matter but as newly mailed, and consequently becomes liable to a new charge for postage.

§ 127.36 *Recall and change of address.* (a) The sender of any mail article addressed for delivery in another country may cause it to be withdrawn from the Postal Service, or have its address changed, provided (1) the article has not been dispatched from the United States, or (2) in case it has been dispatched from the United States and not delivered to the addressee, that (i) the legislation of the country of destination of the article allows such withdrawal or change of address, (ii) the article does not contain prohibited articles, and (iii) the customs examination does not reveal any irregularity.

(b) If the article has not been dispatched from the mailing post office the sender must apply to the postmaster, who will be governed by § 42.22 or § 59.68, of this chapter.

(c) If the article has been dispatched from the mailing office, but has not been dispatched from the United States, and can be intercepted at the United States exchange post office, it may, if unregistered, be returned to the sender upon compliance by him with requirements of §42.23 of this chapter; or, if registered, upon compliance with the requirements of § 59.68, of this chapter. To facilitate identification and return, the exchange office concerned shall be furnished available particulars, including description of the article, date of mailing, registration number, if registered, as well as means of transmission (by surface or air) from mailing office.

(d) If the article has been actually dispatched from the United States, the sender must apply at the post office at which the article was mailed, where he must identify himself and deposit with the postmaster a sum sufficient to cover all expenses to be incurred; and, in addition, the sender must furnish a facsimile of the address of the article, and must pay (by means of postage stamps affixed to his application, and canceled by the postmaster) a fee of 40 cents. If the request is to be sent by air mail or telegraph or cable, the sender must pay, in addition, the air mail rate or telegraph or cable charges; in this case the application shall be accompanied by postage in an amount sufficient to prepay the air mail rate or by a remittance to cover the telegraph or cable charges at the usual rate. When these formalities have been complied with, the postmaster at the mailing office is required to forward the application, together with particulars of dispatch (including the name of the United States exchange office to which the article was sent), accompanied by the facsimile of the address, to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., who will request the postal administration concerned to comply with the sender's directions.

(e) A single form of application may be used for several articles (Postal Union or parcel post) mailed at the same time, at the same office, by the same sender, and to the same addressee, in which case the sender is required to pay only one fee or one fee plus the air mail or telegraph or cable charge, as the case may be.

(f) The legislation of Aden, Australia, Barbados, British Honduras, British Post Offices in Tangier (International Zone of Morocco) and Tetuan (Spanish Zone of Morocco), Brunei, Burma, Canada, Cyprus, Cyrenaica, Gambia, Gibraltar, Gilbert and Ellice Islands, Great Britain and Northern Ireland, India, Ireland, Malaya, Nauru Island, New Zealand, Nigeria, Pakistan, Persian Gulf Ports, Rhodesia (Northern), Rhodesia (Southern), St. Helena, Sarawak, Seychelles, Sierra Leone, Solomon Islands, Somalia, South-West Africa, Trinidad and Tobago, Union of South Africa, and the Windward Islands does not allow senders of Postal Union articles to withdraw them from the mails or to change their address; consequently, senders cannot prevent the delivery to the original addressees of articles already dispatched from the United States to any of the countries named, nor from these countries when addressed for delivery in the United States. See § 127.85 for list of countries whose legislation does not permit senders to recall or change the address of parcel post packages.

(g) Except as herein provided for, postmasters are not authorized without permission from the Department to return or change the address of articles for or from other countries; but they may, upon request, forward an article to the same addressee at another post office. Requests from postal administrations or postal officials of other countries to return articles to the sender or to change the address on articles, ordinary or registered, should be referred to the Department, and the articles should be held until instruction concerning them are received from the department. Such requests from private citizens in another country or in the United States shall be replied to by postmasters with the infor-

mation that the requests cannot be considered nor the articles held and the senders shall be advised to submit their applications to the postmaster at the mailing post office in the foreign country or in the United States, according to the place of mailing. However, a request for a simple correction of address (without changing the name or the title of the addressee) may be made of the office of destination directly by the sender and should be complied with by delivering offices in this country without the formalities otherwise herein required.

§ 127.37 *Forwarding.* See § 127.48.

§ 127.38 *Inquiries.* See § 127.86 concerning ordinary mail and § 127.122, concerning registered or insured mail.

§ 127.39 *Liability to customs duty.* (a) This Department has not been advised what articles are liable to customs duty in other countries.

(b) The question of whether or not an article sent by mail from one country to another is subject to customs duty in the country of destination can be decided only by the country to which the article is sent, and is not affected by any postal convention between said countries.

(c) This Department is not authorized to question the decision of foreign officials in such matters any more than foreign officials would be authorized to question the decision of United States officials respecting the liability to United States customs duty of an article received here in the mail from abroad.

(d) It is suggested that senders avail themselves of the facilities of the Office of International Trade, Department of Commerce, Washington 25, D. C., in order to obtain information concerning the customs regulations of other countries.

(e) See § 127.113, regarding articles sent abroad for repairs.

§ 127.40 *Prepayment of customs duties.* (a) Customs duties can be prepaid by mailers on advertising matter sent to Canada and the Union of South Africa. For further information see subcaption "Observations" of "Postal Union Mails" under the country headings of those countries.

(b) There is no arrangement whereby customs duties can be prepaid through the United States Post Office Department by the senders of other dutiable articles addressed for delivery abroad.

§ 127.41 *General foreign separating scheme.* (a) (1) Surface mails for foreign destinations and United States possessions shall be routed according to instructions published in the Postal Bulletin from time to time.

(2) Packages or sacks of mixed Postal Union mail, that is, mail containing articles for different countries, shall be labeled as follows: New York—Foreign; New Orleans—Foreign; Boston—Foreign; Trans-Pacific—Foreign; etc.

(3) However, when the quantity of mail destined for delivery in the same country warrants, such mail shall be made up separately for each country of destination and labeled to the appropriate United States dispatching exchange office, followed by the name of the country. For example: New York—Foreign—France, Trans-Pacific—Foreign—Philippines, etc.

(4) It is understood, of course, that mailing post offices, unless also dispatching exchange offices, are not authorized to dispatch closed mails to other countries, and that the contents of United States domestic sacks made up by mailing offices (not dispatching exchange offices, for the country of destination concerned) are to be included in the closed mails made up in foreign sacks by United States exchange offices authorized to dispatch closed mails to the appropriate foreign exchange offices.

New York is not the exchange office for Mexico (overland).

(b) Commercial papers: In dispatching packages of "commercial papers" post offices and railway post offices must inclose them in the pouches containing letters.

(c) Daily newspapers: Daily newspapers mailed by publishers or registered news agents shall be included in separate sacks labeled to the appropriate United States exchange office of dispatch followed by the words "—Foreign (Daily Newspapers)" and be given the same dispatch as letter mail.

(d) International parcel post: See § 127.55 (g), concerning the labeling of sacks of parcel post to exchange offices.

(e) New York "Bureau Separation" of letters and post cards and of newspaper (prints) mail: In post offices and railway post office, where the space available for distribution is limited, or if the quantity of letters and post cards or of newspapers (prints) addressed to other countries is too small to warrant the assorting of them into separate sacks for each country, packages of letters and post cards or sacks of newspapers (prints) for other countries which are dispatched through the New York exchange post office shall be made up in accordance with the following bureau system of distribution as employed at the New York post office:

ARTICLES FROM OTHER COUNTRIES

§ 127.42 *Customs clearance charge (letters or letter packages).* (a) There shall be collected from the addressee of every letter or letter package (surface or air) received from abroad bearing the green (customs) label, or with the cover endorsed to indicate that the article may be opened for customs inspection, and also from the addressee of every letter or letter package (surface or air) which is subject to customs inspection even though not labeled or endorsed as indicated herein, a charge of 10 cents for each piece to cover customs clearance service.

(b) The customs clearance charge is collected whether or not the article proves, after customs inspection, to be dutiable, except when the letter or letter package is found to contain only written communications, canceled or uncanceled postage stamps, orders for merchandise, clippings from newspapers or periodicals, bank checks, bank notes, bills of exchange, values payable to the bearer, or any similar items that in the usual course of business would be enclosed in letters addressed to banking institutions, "commercial papers" (including shipping documents and nondutiable patent papers), photographs, calendars, Christmas or other greeting cards (when such clippings, photographs, calendars, and greeting cards are not sent for commercial purposes).

(c) Endorsements for the collection of the charge concerned by the office of delivery will be placed on such letters or letter packages by the exchange office of first receipt. Postage due stamps in the amount of 10 cents must be affixed to each letter or letter package subject to the customs clearance fee and canceled before delivery. This charge is canceled when the articles are forwarded to another country or returned to origin.

(d) If the addressee protests against the payment of the customs clearance fee, the post office of delivery is authorized to allow the opening by the addressee (or agent) in the presence of a postal employee, of letters or letter packages which have been subjected to customs treatment, for the purpose of ascertaining whether or not the letter or letter package contains only articles, as listed in the foregoing, which are not subject to the collection of the customs clearance fee.

§ 127.43 *Delivery fee and customs clearance charge (small packets).* There shall be collected from the addressee of every small packet received from abroad a charge of 15 cents. Postage-due stamps in the amount of 15 cents must be affixed to each small packet and canceled before delivery. This charge represents a fee of 5 cents for the delivery of small packets and a fee of 10 cents for the customs clearance of small packets, authorized by the Universal Postal Union Convention. Endorsements for the collection of the charge mentioned by the office of delivery will be placed on the small packets by the exchange office of first receipt, with indication by name or initials, of the exchange office. The charge will be canceled in the event that the articles are forwarded to another country or returned to origin.

§ 127.44 *Articles bearing fraudulent or previously used postage stamps.* (a) An article of foreign origin bearing fraudulent or previously used postage stamps, counterfeit impressions of stamping machines or printed indicia, and accompanied by form C 10 is not to be delivered unless the addressee or his representative pays the postage due and agrees to disclose the name and address of the sender and surrenders the envelope or cover concerned.

(b) The article shall be rated up in accordance with the instructions set forth in § 127.34. If delivery is effected postage-due stamps shall be attached and canceled, after which the envelope or cover shall be transmitted, with the name and address of the sender, to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

(c) If the addressee refuses to comply with these demands, the article shall be forwarded intact to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., with a complete report in the matter.

§ 127.45 *Articles without postage stamps affixed.* Articles of foreign origin which do not have postage stamps affixed, but show the endorsement "Taxe percue," "Port paye," "T. P.," "P. P.," or a similar notation, with the postmark of the foreign office, should be treated at United States post offices as fully prepaid.

§ 127.46 *Rating and marking of short-paid articles.* See § 127.34.

§ 127.47 *Recall and change of address.* See § 127.36.

§ 127.48 *Forwarding.* (a) Postal Union articles addressed to persons who have filed a change of address are duly forwarded except in those cases where the envelope or wrapper bears a notation (in the language of the country of destination) prohibiting such action. However, forwarding from one country to another takes place only if the articles meet the conditions required for the new transportation.

(b) Except as stated in paragraph (c), articles in the Postal Union mails of foreign origin (surface and air) which are redirected are forwarded by surface means, without additional postage and, if registered, without additional registry fee.

(c) Exceptions:

(1) A surface article originating in a country which has adopted in its reciprocal relations with this country a lower rate than the ordinary Postal Union rate and which, on being forwarded, enters the service of a country to which a higher postage rate applies, is chargeable (but need not be prepaid on redirection) with the same postage, less the sum prepaid, as would have been charged had the article been addressed originally to the country to whch redirected. (The rating and marking of such articles is the duty of the exchange post offices. See § 127.34.) See paragraph (i) of § 34.63 of this chapter concerning second-class matter mailed in Canada by publishers or registered news agents.

(2) An article which is redirected to a third country or to the country of mailing may be forwarded by air, provided the addressee, or someone acting in his behalf, pays in advance to the forwarding office an amount sufficient to fully prepay the United States air mail postage to the new destination. In such cases, the required postage shall be affixed to the article, and the stamps canceled by the forwarding office.

(3) An air mail article which is redirected to an address in the United States will be forwarded by air without additional postage.

(d) Except as stated in paragraph (e) of this section, articles mailed in the United States and addressed for delivery in this country shall not be redirected to another country, but shall be marked with the reason for nondelivery and treated as undeliverable matter.

(e) Exceptions:

(1) Ordinary surface letters (except those which appear to contain merchandise) and post cards may be redirected and forwarded to other countries by surface means, and are chargeable (but need not be prepaid on redirection) with the same postage, less the sum originally prepaid, as would have been charged had the articles been addressed originally to the country to which redirected. Such articles will be rated and marked by the dispatching United States exchange office. The same treatment shall be accorded undeliverable ordinary official (penalty) letters which do not bear printed instructions forbidding their forwarding. Such articles, unless redirected to one of the countries named in § 127.32 (c), are regarded as being totally unpaid and will be rated and marked by the dispatching United States exchange office for collection from the addressee of the charge to which they would have been liable if they had been addressed originally to the country to which redirected.

(2) Ordinary air mail letters (except those which appear to contain merchandise) and post cards may be redirected and forwarded to other countries by surface means without charge of additional postage.

(3) Ordinary air mail and surface letters (except those which appear to contain merchandise) and post cards may be redirected and forwarded to other countries by air, provided the sender or addressee, or someone acting in his behalf, requests that such articles be forwarded by air mail and pays in advance to the forwarding office an amount sufficient to prepay the necessary additional air mail postage to the country concerned. In such cases, credit shall be allowed for the amount of United States postage originally prepaid on the articles.

(f) At the time of forwarding, the redispatching office applies its date stamp on the front of articles in the form of cards; on the back of letters and all other classes of mail.

(g) For information regarding the forwarding of parcel post packages see § 127.98.

§ 127.49 *Undeliverable articles, treatment and marking of.* (a) Undeliverable ordinary (unregistered) prints without value are not returned to origin unless the sender has requested their return by a notation placed on the article in a language known in the country of destination. Other ordinary articles and all registered articles must always be returned. Undeliverable second-class publications mailed from Canada are given the same treatment as undeliverable domestic matter of the second-class.

(b) Undeliverable air-mail articles shall be returned to origin by surface means.

(c) For detailed instructions regarding the treatment and marking of undeliverable articles see § 114.26, Postal Laws and Regulations.

§ 127.50 *Undeliverable articles, charges.* (a) Letters received from other countries to be returned to writers through the dead letter branch are subject to a fee of 5 cents for the return of letters to writers, and the amount to be charged will be indicated on official or penalty envelopes before dispatch to post offices from the dead letter branch.

(b) Upon any unpaid or short-paid article returned as undeliverable, the sender will be required to pay the sum which would have been collectible from the addressee if the article had been delivered, and in addition, when returned through the dead letter branch, the sender will be required to pay the fee of 5 cents for the return of letters to the writers, all of which charges shall be indicated on official or penalty envelopes before dispatch to post offices from the dead letter branch.

(c) There is no charge for return postage on undeliverable fully prepaid articles in the Postal Union mails, except as follows:

(1) "Eight-ounce merchandise packages" (see § 127.11) returned as undeliverable, upon which return postage has not been prepaid, are subject on delivery to the sender to a postage charge equal to the amount of postage originally prepaid, or in the case of such articles originally sent by air to a return charge of 3 cents for the first 2 ounces and 2 cents for each additional 2 ounces or fraction.

(2) United States publications of the second-class mailed by publishers or

registered news agents at the rates prescribed in § 34.40 of this chapter are returned from Canada as undeliverable are subject on delivery to the senders to a charge at the rate of 2 cents for the first 2 ounces and 1 cent for each additional 2 ounces or fraction thereof.

(d) The special fee for delivery of "small packets" and the customs clearance charge applicable to letter packages and "small packets" in other countries are canceled when the articles are returned to the United States.

(e) See § 127.100, concerning charges collected on parcel post packages returned from other countries.

§ 127.51 *Inquiries.* See § 127.86 concerning ordinary mail and § 127.122 concerning registered or insured mail.

### Subpart B—International Parcel Post

§ 127.54 *Extent of service.* International parcel post service is maintained by direct or indirect service, that is, parcels are dispatched from the United States by surface vessels or by airplanes which land the parcel post mails at a port in the country of destination, or at a port in an intermediate country for onward dispatch from such intermediate country to the country of destination. In the latter case the parcels are subject to transit charges.

§ 127.55 *General information.* — (a) *Surface parcel post.* Surface parcels may be sent to the countries, colonies, and islands shown in Subpart F of this part, unless otherwise indicated. (See subheading "Parcel Post" under each country item.) Parcels addressed to any other destinations must not be dispatched from the United States, but returned to the sender.

(b) *Air parcel post.* (1) Parcels may be sent by air to those countries, colonies, and islands shown in Subpart F of this part, if air parcel post rates are listed under the subheading "Parcel Post" of the country item concerned.

(2) Air parcels are, in general, subject to the same limitations as to size and other conditions (but not postage rates) as are applicable to surface parcels.

(3) The same postal forms (customs declarations, dispatch note, international parcel-post sticker, etc.) as are required for surface parcels must be prepared in connection with air parcels, and in addition the blue par avion label (Form 2978) must be affixed to the address side of the package, and to the dispatch note if the country of destination requires a dispatch note.

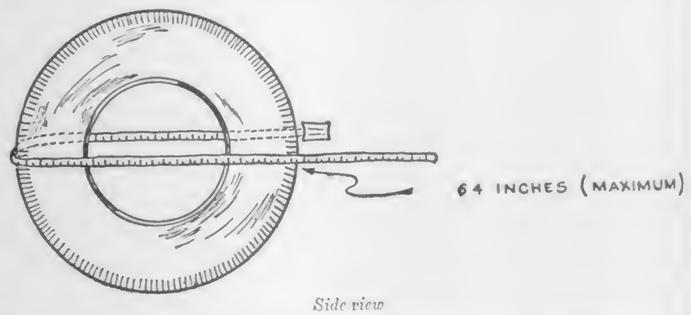
(4) The parcels will be forwarded by international air mail service to the countries of destination. After arrival in the countries of destination the parcels will be handled by surface transportation unless otherwise indicated in the subcaption "Observations" under "Parcel Post" in Subpart F of this part.

(c) *Limits of weight.* (1) The weight limit of parcels varies to the different countries, as shown in the parcel post table under each country item.

(2) Interior post offices making up sacks of international parcel post labeled to United States dispatching exchange offices must not include more than 100 pounds of parcels in such sacks.

(3) The weight limit for sacks of parcel post made up at exchange offices for foreign countries is 40 kilograms (88 pounds) gross, except that to Belgium, Czechoslovakia, Portuguese East Africa (Mozambique) and Switzerland it is 50 kilograms (110 pounds) gross and to Barbados, British Guiana, Fiji Islands, Germany, and Gold Coast Colony it is 36 kilograms (80 pounds) gross.

(d) *Dimensions.* (1) General dimensions: Greatest length, 3½ feet; greatest length and girth combined, 6 feet.



(2) In measuring a parcel the greatest distance in a straight line between its ends, but not around the parcel lengthwise, shall be taken as the length, while the distance around it at its thickest part shall be taken as the girth.

(3) Under the above maximum dimensions, a parcel not more than 3 feet 6 inches in length may measure as much as 2 feet 6 inches in girth, or around its thickest part. A shorter parcel may be thicker; thus, if it measures no more than 3 feet in length it may measure as much as 3 feet in girth, or around its thickest part. The most convenient mode of measuring is by means of a tape line 6 feet long, so much of the tape as is not used in measuring the length being the maximum girth permissible.

(4) In the case of tires of all kinds, coils of rope, hose, wire, etc., forming a parcel circular in shape, the usual method of measuring parcels by taking the greatest distance in one direction as the length, and the distance around the parcel at its thickest part as the girth is not adaptable to measuring parcels of this type.

(5) To determine whether a tire or other object circular in shape (regardless of whether there is an open space in the center) can be accommodated inside the mail sacks employed for the dispatch of parcel post to overseas foreign countries, the object, as prepared for mailing, shall be measured around its entire girth, in the direction of the diameter, as shown in the illustration. This measurement must not exceed 64 inches in order for the tire or other parcel circular in shape to be acceptable for mailing to overseas foreign countries.

(6) Measurement shall be taken as shown in the following illustration:

*Side view*

(7) Tires, coils of rope, hose, wire, etc., tendered for mailing to Canada and Mexico, need not conform to the aforementioned measurement as they may, if necessary, be forwarded to those countries outside of mail sacks. Such articles for Canada and Mexico will, however, be limited according to the maximum weight limit prescribed for parcel post packages, that is, 15 pounds in the case of Canada and 44 pounds in the case of Mexico.

(8) Exceptional dimensions: To some countries other dimensions than the general dimensions indicated are applicable. As a parcel must not exceed the maximum dimensions allowed to the country to which it is addressed, the individual country item shall be consulted.

(9) Parcels larger than the dimensions indicated must be rejected since they can not be placed in the mail bags used for dispatching parcel post to foreign countries.

(e) *Postage rates and fees.* (1) The international parcel post rates for surface parcels and for air parcels, where the latter service is available, are shown in tables under the various country items. The rates for surface parcels are indicated on the basis of each pound, a fraction of a pound being charged as a full pound. The air parcel rates are indicated on the basis of each 4 ounces, a fraction of 4 ounces being charged as a full 4 ounces.

(2) The weight of the customs declarations and other postal forms will not be included with that of the parcel in determining the amount of postage required.

(3) The rates indicated in the parcel post tables and, when applicable, the registration, insurance, c. o. d., and special handling fees, must be fully prepaid at the time of mailing by postage stamps affixed or by means of impressions of postage stamping machines. See § 127.83 concerning treatment accorded unpaid and insufficiently prepaid parcel post packages.

(4) For information concerning the postage rates applicable to parcel post packages addressed to Alaska, Canal Zone, and other possessions of the United States, see Part 34 of this chapter.

(f) *Registration and insurance.* Parcel post packages (surface or air) may be registered, insured, or sent c. o. d. if such services are in operation to the country concerned. See "Parcel Post" heading under the various country items, Subpart F of this part. Also, see Subpart D of this part.

(g) *Exchange offices.* (1) Parcels shall be sent from the office of mailing to or in the general direction of the appropriate exchange office, in accordance with instructions published in the Postal Bulletin from time to time.

(2) When there are five or more surface parcels for one country, the parcels shall be placed in a separate sack bearing labels reading "New York—Foreign—Parcel Post" or "Postal Concentration Center—New York—Foreign Parcel Post" followed by the name of the country, "France," "Switzerland," etc., or "Trans-Pacific—Foreign—Parcel Post—Japan," etc. Only parcels with customs declarations attached shall be placed in the parcel post sacks.

(h) *Observations.* Under the subheading "Observations" of each country item are shown the special restrictions and conditions applicable to the country concerned.

(i) *Supplies and needed information.* Postmasters' requisitions for the necessary blank forms and other supplies shall be addressed to their designated supply offices. Requests for information concerning the international parcel post service shall be addressed to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

(j) *U. S. A. gift parcels.* (1) Relief parcels are acceptable for surface transmission at reduced rates of postage to Ryukyu Islands. See caption "U. S. A. Gift Parcels" under the relative country item for postage rates and information as to permissible contents.

(2) The following interpretations apply with respect to permissible contents as shown under the country item:

(i) *Nonperishable food.* This includes canned, dried, or packaged foods of all kinds, as well as fruitcake, candy, or chewing gum properly packaged as nonperishable.

(ii) *Household supplies and utensils.* This includes dishes, pans, light bulbs, electrical or other household appliances, wallpaper, paint in mailable quantities, as well as other items of general household use, but not for business or professional use. Paints as well as other liquids must be packed in two receptacles, with the space between the inner and outer receptacles to be filled with sawdust, bran, or other absorbent material in sufficient quantity to absorb all the liquid content in case of breakage. Friction top containers must be soldered in four different places around the lid.

(iii) The following are not permitted in "U. S. A. Gift Parcels":

(a) Cigarettes and other forms of tobacco.

(b) School and office supplies.

(c) Bismuth nitrate, oxide, and subnitrate, in bulk. Quinidine alkaloid and quinidine salts and compounds. Radon. Radium salts and compounds. Chemicals containing artificial radioactive isotopes. Radium ore concentrates.

(iv) "U. S. A. Gift Parcels" may not contain any articles prohibited in parcels generally to the country of destination concerned.

(k) *Outside parcels.* Parcels properly prepared for mailing to foreign countries which under domestic regulations are required to be handled as "outside mail" (see § 35.11a, of this chapter), shall, when necessary, be stamped "outside mail" by the accepting employee. Such parcels shall be handled outside of mail sacks until they reach the appropriate United States dispatching exchange office.

#### Prohibitions and Restrictions

§ 127.56 *General list of prohibited articles.* The following articles are prohibited transmission in the parcel post mails to all countries:

(a) Articles which are excluded from the domestic mails of the United States. Although safety matches are admitted in the domestic mails, they are prohibited transmission in the international mails.

(b) Written communications of the nature of personal correspondence. (See § 127.65.)

(c) Enclosures which bear an address different from that appearing on the parcel itself. (See § 127.66.)

(d) Pistols, revolvers, and other firearms capable of being concealed on the person, with certain exceptions. (See § 36.12 of this chapter; also see § 127.57.)

(e) Live or dead animals, except live bees, leeches and silkworms, and dead insects or reptiles when thoroughly dried.

(f) Fruits and vegetables which easily decompose, and substances which exhale a bad odor.

(g) Lottery tickets or advertisements or circulars relative to lotteries.

(h) All obscene or immoral articles.

(i) Poisons, including narcotics (opium, morphine, cocaine, etc.).

(j) Explosive and inflammable articles and articles which, in any way, may damage or destroy the mails or injure the persons handling them. This includes inflammable liquids having a flash point by the Tagliabue open tester of 80° F. or lower; inflammable solids which are liable, under conditions incident to transportation, to cause fires through friction, through absorption of moisture, or through spontaneous chemical changes; oxidizing materials such as chlorates, permanganates, peroxides or nitrates, which yield oxygen readily to stimulate the combustion of organic matter; and poisonous articles or substances.

(k) Treasonable matter.

(l) Intoxicating liquors.

(m) Tobacco seed and plants, except by permit granted by the Secretary of Agriculture. (See § 127.63.)

(n) For special prohibitions regarding each country, see country item concerned in subpart F of this part.

§ 127.57 *Licenses covering shipments of firearms or parts thereof, implements of war and other nonexplosive munitions of war.* (a) Section 12 of the joint resolution approved by the President on November 4, 1939, provides that it shall be unlawful for any person to export, or attempt to export, from the United States to a foreign country, certain arms, ammunition, or implements of war without first having obtained a license therefor. Such licenses are issued by the Department of State (Munitions Division). Smooth-bore firearms, such as shotguns, and firearms of less than .22 caliber, are exempt from this licensing requirement.

(b) When the sender of a parcel presents a license from the Department of State authorizing the exportation of any mailable firearms or parts thereof, implements of war or other nonexplosive munitions of war, the accepting clerk shall compare the contents of the parcel as shown on the customs declaration with the commodities indicated on the license. If no inconsistency is noted the parcel may be accepted for mailing provided the contents are mailable under the provisions of §§ 36.12 and 36.18 of this chapter, and are not prohibited to the country concerned by the special prohibitions appearing under the relative country item in subpart F of this part. If the parcel is accepted for mailing the clerk shall place the endorsement "State Department export license No. ____" on the wrapper. When the entire amount authorized to be exported has been mailed the accepting clerk shall take up the license, endorse it "COMPLETED," postmark, and return it to the Munitions Division, Department of State, Washington 25, D. C. If the quantity of articles being mailed represents only a portion of the total amount authorized to be exported the sender shall be required to enter on the back of the license the amount being shipped. The license is then to be postmarked and handed back to the sender.

§ 127.58 *Gold and gold certificates.* See § 127.22.

§ 127.59 *Diamonds.* See § 127.23.

§ 127.60 *Fountain pens.* See § 127.24.

§ 127.61 *Combustible liquids.* (a) Combustible liquids having a flash point of 150° F. or lower but above 80° F. (Tag. open tester) may be sent to foreign countries generally in quantities not exceeding 1 quart in any one parcel, except that paints, varnishes, turpentine and similar substances may be sent in quantities of less than 1 gallon in any one parcel.

(b) Before accepting any parcel containing a combustible liquid for a foreign country, postmasters shall exercise particular care to see that it is packed as prescribed in § 127.72 (d), and that the country of destination does not prohibit liquids of the flash point mentioned.

(c) The wrapper of any parcel containing a combustible liquid must be endorsed by the mailer to indicate that the flash point is above 80° F.

§ 127.62 *Eggs.* Parcels containing eggs destined for foreign countries will be accepted for transmission in the parcel post mails when properly packed and conspicuously endorsed so as to assure their reaching destination without causing damage, in case of breakage, to accompanying parcels, except to such countries as prohibit the importation of eggs. See § 127.72 for packing requirements.

§ 127.63 *Tobacco seed and plants.* (a) Pursuant to the provisions of the

Tobacco Seed and Plant Exportation Act (Public, No. 543, 76th Cong.) it is unlawful to export any tobacco seed and/or live tobacco plants from the United States or any territory subject to the jurisdiction thereof to any foreign country, port, or place, unless such exportation and/or transportation is in pursuance of a written permit granted by the Secretary of Agriculture. Such permit shall be granted by the Secretary only upon application therefor and after proof satisfactory to him that such seeds or plants are to be used for experimental purposes as prescribed in the applicable regulation of the Secretary.

(b) The package or parcel must be marked "Tobacco seed and plant export permit No. ____." The permit is to be presented at the time of mailing of the package or parcel and postmarked at the mailing office and signed by the postmaster concerned or his authorized representative. The permit, after being properly executed, is to be retained by the postmaster and forwarded to the Tobacco Branch, Production and Marketing Administration, Department of Agriculture, Washington 25, D. C.

(c) A charge of 1 cent will be made for each permit presented by the sender and for each package or parcel represented if a single permit covers more than one parcel; that is, if a permit is issued for 10 parcels even though identical, the charge will be 10 cents. Postage stamps to cover the charge shall be affixed to the permit and canceled by the postmark of the office of mailing.

§ 127.64 *Motion-picture films.* (a) Unless otherwise indicated under the various country items, packages of motion-picture films will be accepted for dispatch to foreign countries by parcel post, even though ocean steamship transportation is involved, provided the films are packed in accordance with the regulations governing their transmission in the domestic mails (see § 35.16 of this chapter), and are within the limit of weight applicable to parcels for the country concerned.

(b) Parcels containing films requiring handling outside of mail sacks in the domestic service which are received at interior United States exchange offices preparing and dispatching parcel post to foreign countries will not be enclosed in sacks labeled abroad but will be sent to the appropriate coast or border exchange office as "outside mail."

§ 127.65 *Letters must not accompany parcels.* (a) A communication of the nature of personal correspondence must not be enclosed in or written on any parcel. However, a parcel may contain an open invoice, confined to the particulars which constitute an invoice, and also a simple copy of the address of the parcel, with mention of the address of the sender. If a written communication in the nature of personal correspondence be found in the parcel it shall be placed in the mails if separable, and if not separably attached the entire parcel must be rejected. (See § 127.34, as to rating and marking of short-paid articles.) In the event any such parcels are inadvertently forwarded to destination, the country of destination will collect upon the accompanying communication or communications double the letter rate of postage.

(b) If a parcel of foreign origin is found to contain a written communication, such communication is to be left in the parcel and the parcel forwarded to destination after the wrapper has been marked with the words "Written communication enclosed." The delivering post office will collect a charge equal to double the postage to which the letter would have been liable had it been mailed separately. The office which first discovers the irregularity is to forward a report thereof to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

(c) In the case of parcel post packages for Canada, however, a letter, and for Switzerland a letter or card, fully prepaid and bearing the same address as that of the parcel, may be tied or otherwise securely attached to the outside of the parcel in such manner as will prevent its separation therefrom or its interference with the address of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel; stamps to pay postage on the letter must be affixed to the envelope thereof. Parcels to which such letters are attached are treated as parcel post. Senders in Canada and Switzerland are accorded the same privilege with respect to parcels addressed for delivery in the United States.

§ 127.66 *Parcels must not contain separately addressed packages.* A parcel must not contain packages addressed for delivery at an address different from that shown on the cover of the parcel. If any such enclosed packages be detected, they must be sent forward singly charged with new and distinct parcel post rates.

PARCELS FOR OTHER COUNTRIES

§ 127.67 *Mailing of parcels.* (a) A parcel must not be posted in a letter box, but must be taken into the post office and presented for mailing at the window designated for the acceptance of parcel post. Letters must not accompany parcels. (See § 127.65.) Parcels must not contain separately addressed packages. (See § 127.66.)

(b) Prisoners of war and interned civilians and belligerents: (1) See § 127.32 (g), concerning free postage for such parcels. These parcels shall not be subjected to special services and fees, such as registration or insurance. If the mailer desires, however, certificates of mailing may be given in the usual way and at the usual charge.

(2) See Postal Bulletin instructions concerning limits of weight, dimensions, and other conditions of mailing.

§ 127.68 *Address, etc.* The name and address of the sender and of the addressee must be legibly and correctly written in every case when possible on the parcel itself or on a label gummed thereto, and must also be written on a separate slip, which slip must be enclosed in the parcel. Parcels must not be accepted when addressed to a "care" in one country and the addressee (or person for whom intended) in another country or when addressed to or sent by initials, unless the initials are the adopted trade name of the senders or addressees. Addresses in ordinary pencil are not allowed, but copying ink or indelible pencil on a surface previously dampened may be used. Sufficient space must be left for the addition of necessary service notations as well as the affixing of stamps or labels.

§ 127.69 *Dimensions.* For information regarding the dimensions of parcel post packages for foreign countries see § 127.55 (d), also each individual country heading.

§ 127.70 *Measurement.* For method of measuring a parcel see § 127.55 (d).

§ 127.71 *Postmarking.* Parcel post packages shall be postmarked under the same conditions, so far as applicable, as are prescribed for articles in the Postal Union mails. The postmark must also be applied in the appropriate spaces on the customs declaration (Form 2966), as well as on the dispatch note (Form 2972) when the latter is required.

§ 127.72 *Packing.* (a) Every parcel shall be securely and substantially packed, regard being had to the nature of the contents and climatic conditions, the length of the journey, and the numerous handlings and risks of concussion to which parcels for foreign destinations are unavoidably subjected en route. Packages must be packed in canvas or similar material, double-faced corrugated cardboard boxes, solid fiber boxes or cases, thick cardboard boxes, or strong wooden boxes made of lumber at least a half-inch thick or plywood of at least three plies. Ordinary pasteboard containers are wholly inadequate. While it is permissible to use heavy wrapping paper or waterproof paper as the outside covering, for instance, of a carton, it shall not be used as the only covering of the contents. Boxes with lids screwed or nailed on and bags closed by means of sewing may be used provided they conform to other conditions prescribed. (See individual country items in Subpart F of this part regarding special packing requirements to certain countries.)

(b) Articles of china, crockery, or glass, and hats, radios, or other articles of a fragile or easily breakable nature shall be packed in a strong (preferably wooden) box; solid fiberboard or strong double-faced corrugated fiberboard boxes (not less than 200-pound test) enclosed in strong wooden crates are also preferred, especially in the case of overseas destinations. There shall be a space of at least 1½ inches between the article and the top, bottom, and sides of the box. This space may be utilized with excelsior or other effective cushioning material, or with air-cushioned corrugated riders.

(c) Umbrellas, canes, golf clubs, fishing rods or sections thereof, and similar articles shall be packed in strong boxes made of wood at least three-eighths of an inch thick and a liberal supply of cushioning material used if the handle of the article is brittle or fragile.

(d) (1) All mailable liquids and substances which easily liquefy must be packed in two receptacles. Between the first (bottle, flask, etc.) and the second (box of metal, strong wood, strong corrugated cardboard, strong fiberboard, or receptacle of equal strength) there shall be left a space to be filled with sawdust, bran, or other absorbent material in sufficient quantity to absorb all the liquid contents in the case of breakage. It is not considered that excelsior possesses the necessary absorbent quality to meet the special requirements cited for internal packing. In the case of Great Britain and Northern Ireland, Ireland, Leeward Islands, Malaya, and Windward Islands, the outer receptacle shall be of strong wood or metal.

(2) Metal containers closed with a screw-top cover must have sufficient screw threads to require at least one and one-half complete turns before the cover will come off and be provided with a washer so as to prevent possible leakage of the contents. Compression or friction top metal containers must be soldered in four different places, equally spaced.

(e) Mailable powders and dyes in powder form must be packed in metal containers securely sealed so that none of the contents will sift out and enclosed in substantial outer containers of double-faced corrugated cardboard, thick cardboard, fiberboard, or strong wood at least a half inch thick.

(f) (1) Eggs addressed for delivery in all other countries (except Canada and hatching eggs for Cuba) must be placed in a metal egg container, and each egg in the square pockets must be surrounded with paper, cotton, excelsior, straw, or other similar material, while the metal egg container in turn must be enclosed in an outer container of wood with sufficient excelsior, straw, or similar material provided in the space between the inner and outer containers.

(2) Eggs destined for delivery in Canada may be packed either in the manner prescribed above or in wooden, papier-mache, or other box of a rigid material with a well-fitting tightly adjusted lid. Each egg must be wrapped in newspaper or other protecting material and placed on end, the vacant space in the box to be filled with newspaper or other packing material so as to prevent the eggs from striking together or against the sides, top, or bottom of the box.

(3) Eggs destined for delivery in Cuba, intended for hatching purposes, may be transmitted outside of mail sacks when each egg is wrapped separately and surrounded with excelsior, wood-wool, or other similar material and packed in a basket (preferably with a handle) or other suitable container, lined with paper, fiberboard, or corrugated pasteboard. Such parcels shall be marked "Eggs for Hatching," "Keep From Heat or Cold," "Please Handle With Care," or other suitable words.

(4) Eggs addressed for delivery in Cuba, not intended for hatching purposes, shall be packed in the manner indicated in the preceding paragraph for transmission inside of mail sacks in regular course.

(g) No indemnity is paid for damage due primarily to inadequate packing or to the inherent nature of the contents of insured, registered, c. o. d., or ordinary parcels addressed to other countries, which, from their nature, cannot reasonably be expected to travel safely in the mails.

§ 127.73 *Repacking of parcels in transit.* (a) When it is necessary to rewrap or repack parcels before they reach the dispatching exchange office but no loss or damage has been sustained by the contents, the parcel shall be marked "Received in bad condition at_____" and dated. When the contents are found to have sustained loss or damage, the repacking office shall prepare and securely attach to the parcel a suitable report addressed to the exchange office giving the reason why repacking was necessary and setting forth the loss or damage. When a repacked parcel with such report reaches the dispatching exchange office, or when a parcel has to be repacked at the exchange office and loss or damage to the contents is observed, a bulletin of verification giving the foregoing particulars shall be sent to the foreign exchange office with the parcel.

(b) When damage to a parcel is the result of improper preparation for mailing, the repacking office should send a report to the office of mailing on Form 1833. The words "before it could be delivered" should be crossed out on the form before it is used in connection with parcels for foreign countries.

§ 127.74 *Sealing.* (a) Parcels addressed for delivery in the following countries *must* be securely closed by means of sealing with wax or otherwise:

Albania.
Andorra (Republic of).
Argentina.
Australia (Insured).
Azores (registered or insured).
Bahamas (Insured).
Barbados (Insured).

Yugoslavia (Insured).

(b) Unless otherwise indicated under the relative country items, parcels are considered as sealed if they are closed by means of nails, screws, wire or metal bands, gummed paper tape, sewing, or other efficacious means, provided they are secured in such a manner that it can be readily ascertained if the parcels have been tampered with or if any of the contents have been removed or lost en route. The manner of closure is to be such as not to hinder examination in the country of destination.

(c) Parcels for countries not mentioned in the list may be sealed at the option of the senders.

§ 127.75 *Customs declarations, Form 2966.* (a) Customs declarations in the required number (as shown in the parcel post table of each country) must be completed and affixed to parcel post packages for all foreign destinations.

(b) The sender must complete the customs declaration to show the name and address of the sender and addressee, the description of contents (including quantity and value), the alternative disposition instructions, description of the parcel, and the net weight of the contents, if the latter is known.

(c) It is the duty of the accepting clerk to complete the declaration to show the gross weight of the parcel, the insurance number and amount of insurance, where applicable, and to properly postmark the form.

(d) All customs declarations shall be prepared in ink or on the typewriter.

(e) The contents of parcels must be completely and accurately described in the English language, although an interlineation in another language is permitted if desired, and in some cases is required, as shown under the various country headings. In the case of parcels containing more than one article, or articles of different kinds, the exact quantity and value of each kind of article must be stated. It is not sufficient that customs declarations bear simply the words "coat", or "stockings", but the materials of which the articles are composed must be shown, as "fur coat", "silk stockings." Also, for instance, in the case of dried fruits the particular kinds, such as "figs", "raisins", "currants", etc., must be shown. General terms such as "worn clothing", "groceries", "presents", "merchandise", "samples", and the like, will not suffice.

(f) In case the customs declaration does not furnish enough space on which to give a complete list of the contents, there will be no objection to such list being placed on the wrapper of the parcel when reference to that fact is made on the declaration itself or an additional customs declaration may be used for the purpose.

(g) It is not sufficient that the tags be tied to the parcel and allowed to hang loose. In addition to being tied by means of a cord passed through the eyelets the tag must be bound to the parcel so that it lies flat thereon and cannot be used as a handle to lift the parcel while in transit.

(h) Accepting clerks are to use extreme care in seeing that these documents are properly completed before forwarding the parcels on to dispatching exchange offices.

(i) Facsimile of Form 2966 is shown in § 127.90.

(j) See § 127.79 concerning the preparation of customs declarations for parcels forwarded under the "group shipment" arrangement.

(k) See § 127.78 regarding instructions which must be given by senders at time of mailing concerning the alternative disposition to be made of the parcels in the event of nondelivery.

(l) See Subpart D of this part with respect to special information required to be shown on the customs declarations and or dispatch notes relating to insured or c. o. d. parcels, respectively, for certain countries.

(m) See § 127.17 regarding the paper form of customs declaration (Form 2976–A) required to be enclosed in small packets and packages of dutiable articles prepaid at the letter rate of postage.

(n) Postmasters will see to it that the use of the customs declaration (Form 2966) is restricted to parcel post packages exclusively.

§ 127.76 *Dispatch notes, Form 2972.* (a) A dispatch note must be completed and affixed to each parcel post package (except in the case of group shipments, when one copy of this form is sufficient for a group) addressed for delivery in the following countries:

Afghanistan.
Algeria.
Andorra.
Anglo-Egyptian Sudan.
Argentina.
Austria.
Belgian Congo.
Belgium.
Brazil.
British Guiana.
Burma.
Cape Verde Islands.
Ceylon.
Colombia.
Corsica.
Egypt.
Eritrea.
Estonia.
France.
Germany.
Greece.
Hungary.
Indo-China.

Iraq.
Italy.
Jordan (Hashemite Kingdom).
Latvia.
Lebanon.
Libya.
Lithuania.
Luxembourg.
Madeira Islands.
Morocco (Spanish Zone).
Netherlands.
Pakistan.
Palestine.
Paraguay.
Persian Gulf Ports.
Portuguese East Africa (Mozambique)
Portuguese India.
Portuguese Timor.
Portuguese West Africa.
Reunion.
Rumania.
Salvador (El).
Saudi Arabia (Kingdom of).
Somalia.
Spain (including Balearic Islands, Canary Islands, and Spanish offices in Northern Africa).
Spanish Guinea.
Switzerland.
Syria.
Trieste (Free Territory of).
Tunisia.
Turkey.
Union of Soviet Socialist Republics.
Uruguay.
Venezuela.

(b) The sender must complete the dispatch note to show the names and addresses of the sender and addressee and the alternative disposition instructions.

(c) It is the duty of the accepting clerk to complete the dispatch note to show the weight of the parcel, amount of postage paid, number of customs declarations accompanying the parcel, the insurance number and amount of insurance, where applicable, and to properly postmark the form.

(d) Dispatch notes should be prepared in ink or on the typewriter.

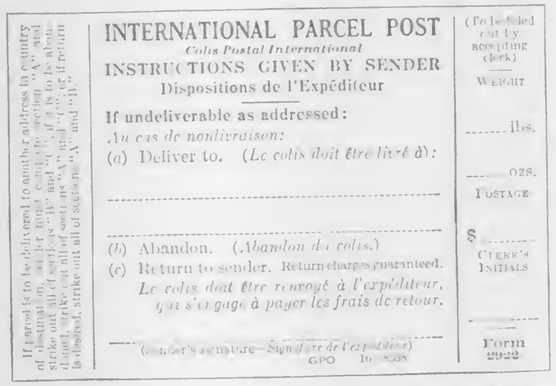
(e) Accepting clerks are to use extreme care in seeing that these documents are properly completed before forwarding the parcels on to dispatching exchange offices.

(f) A facsimile of Form 2972 (dispatch note) is shown in § 127.91.

(g) See Subpart D of this part with respect to special information required to be shown on the dispatch notes and or customs declarations relating to insured or c. o. d. parcels, respectively, for certain countries.

(h) Postmasters will see to it that the use of the dispatch note (Form 2972) is restricted to parcel post packages exclusively.

§ 127.77 *Parcel post sticker, Form 2922.* (a) The yellow "International Parcel Post" sticker must be affixed by the sender to each parcel post package addressed for delivery in a foreign country, whether the parcel is forwarded under the "group shipment" arrangement with other parcels or as a single shipment. The sender must complete the "Instructions Given by Sender" section of the form, as set forth in § 127.78, and sign the form by handwriting or otherwise.



(b) The accepting clerk will complete the column at the right hand side of the sticker by filling in both the postage and the weight, and for identification purposes will initial the sticker in the space provided. The rate of postage charged on the parcel, which is to be indicated in the space marked "Postage," does not include registry, insurance, c. o. d. or special-handling fees.

(c) If the shape or size of the parcel makes it impracticable to affix the international parcel post sticker to the wrapper thereof the sticker may be affixed to a tag which shall in turn be securely attached to the parcel.

(d) This sticker should not be affixed to parcel post packages addressed for delivery in the United States possessions.

(e) Postmasters will see to it that the use of Form 2922 is restricted to parcel post packages exclusively.

(f) See facsimile of the international parcel post sticker below.

§ 127.78 *Alternative disposition.* (a) The sender of a parcel post package for any foreign country must give instructions at time of mailing that the parcel, if undeliverable as originally addressed, is to be either (1) tendered for delivery to a second addressee in the country of destination, (2) treated as abandoned, or (3) returned to the sender.

(b) The alternative disposition instructions must be given by means of endorsements on the customs declaration (Form 2966) and on the international parcel post sticker (Form 2922). Appropriate endorsement must also be made by the sender on the dispatch note (Form 2972) in the case of a parcel for a country which requires the dispatch note in addition to the customs declaration.

(c) Accepting employees will see to it that such of the printed instructions (a), (b), or (c), appearing on the forms mentioned, as are not employed in indicating the alternative disposition to be made of the parcel are obliterated by the mailer.

(d) Parcels dispatched from the mailing office which are not marked to indicate the alternative disposition to be made of them will, as an exceptional measure, be sent onward to the country of destination and in the event of nondelivery they will be returned to the senders at their expense.

(e) See §§ 127.97, 127.98, and 127.99 regarding the treatment to be accorded

parcel post packages received from foreign countries which prove to be undeliverable.

§ 127.79 *Group shipments.* (a) The "group shipment" of parcel post packages is an arrangement by which senders of parcel post packages for certain countries have the option of attaching a single customs declaration (Form 2966) (or a single set when more than one customs declaration is required) to only one parcel of a consignment mailed simultaneously by the same sender to the same addressee at one address. In those cases where a dispatch note is required a single copy of this form is sufficient for a group. (See country items in subpart F of this part.)

(b) The following is a list of the countries, colonies, or islands to which group shipments may be sent:

Afghanistan (limited to 3 parcels).
Anglo-Egyptian Sudan (limited to 3 parcels).
Argentina (limited to 3 ordinary parcels).
Australia.
Bahamas.
Barbados (ordinary).
Belgium (ordinary).
Bermuda.
British Cameroons.
British Guiana (limited to 3 ordinary parcels).
British Honduras.
Bulgaria.
Canada (ordinary).
Cape Verde Islands (limited to 3 parcels).
Ceylon (limited to 3 parcels).
Chile (limited to 3 ordinary parcels).
Colombia (limited to 3 ordinary parcels).
Denmark (including Faroe Islands and Greenland).
Dominican Republic (limited to 3 ordinary parcels).
Ecuador (limited to 3 ordinary parcels).
Egypt (limited to 3 parcels).
Fiji Islands.
French Guiana.
Gibraltar (ordinary).
Great Britain and Northern Ireland (ordinary).
Guadeloupe.
Guatemala (limited to 3 ordinary parcels).
Hong Kong.
Iceland.
Iran (limited to 3 parcels).
Iraq (limited to 3 parcels).
Japan (ordinary).
Jordan (Hashemite Kingdom) (limited to 3 parcels).
Luxemburg.
Madeira Islands (limited to 3 parcels).
Malaya.
Malta.
Mexico (limited to 3 ordinary parcels).
Netherlands.
Netherlands New Guinea (limited 3 to parcels).
Netherlands West Indies.
New Zealand (ordinary).
Nigeria.
North Borneo (State of).
Nyasaland Protectorate.
Palestine (limited to 3 parcels).
Paraguay (limited to 3 ordinary parcels).
Portuguese East Africa (Mozambique).
Portuguese India (limited to 3 parcels).
Portuguese Timor (limited to 3 parcels).
Portuguese West Africa (limited to 3 parcels).
Rumania (limited to 3 parcels).
Ryukyu Islands (ordinary).
St. Pierre and Miquelon.
Salvador (El) (limited to 3 ordinary parcels).
Saudi Arabia (Kingdom of) (limited to 3 parcels).
Somali Land Protectorate.
Surinam.
Switzerland (limited to 3 ordinary parcels).
Thailand.
Trinidad and Tobago.
Turkey (limited to 3 parcels).
Uruguay (limited to 3 ordinary parcels).
Venezuela (limited to 3 ordinary parcels).
Western Samoa (British) (ordinary).
Windward Islands (ordinary).
Yugoslavia (ordinary).

(c) Under the group shipment arrangement, each parcel must be clearly marked with a fractional number, the numerator of which will indicate, in Arabic figures, the number of the parcel, and the denominator the number of parcels comprising the shipment. For example, if a single shipment were composed of 12 parcels, each would be numbered, respectively, 1/12, 2/12, 3/12, etc.

(d) While a group shipment to certain countries is limited to 3 parcels, there may be any number of 3-parcel groups provided that in addition to the identification numbers 1/3, 2/3, and 3/3 each group is indicated by a letter A, B, C, etc. For example, when there are two groups of three parcels each, the parcels should be marked "A–1/3," "A–2/3," "A–3/3," "B–1/3," "B–2/3," and "B–3/3."

(e) The customs declaration (or set of declarations, where a set is required) must be securely attached to one of the parcels (preferably to parcel No. 1 of the group), in order to prevent its becoming lost while the parcel is en route.

(f) The total number of parcels comprised in a shipment must invariably be indicated on the customs declaration, and, in the case of group shipments for Canada the total value must also be shown. On parcels for Guadeloupe and Mexico, the customs declaration must also show, separately, the contents of each parcel opposite the proper reference. For example, for a shipment composed of five parcels: Contents of 1/5 ----——. Contents of 2/5 ----——, etc.

(g) The "group shipment" arrangement must not be used for mixed shipments. The parcels of a "group shipment" must be all ordinary, all registered, all insured, or all c. o. d., and the appropriate registry or insurance fee collected on each individual parcel.

(h) In the case of a "group shipment" consisting of all c. o. d. parcels, the c. o. d. charges on the parcels can not be added together and only one c. o. d. fee collected on the entire "group shipment"; instead, an appropriate c. o. d. fee must be collected on each individual c. o. d. parcel. Also, the wrapper of each c. o. d. parcel must be endorsed to show the c. o. d. fee paid.

§ 127.80 *Special handling of international parcel post packages.* (a) The "special-handling" service for domestic parcel post is available also for surface and air parcel post addressed to other countries.

(b) All "special-handling" parcel post packages for other countries must bear the words "Special handling" written or printed upon the wrappers, be sacked separately from other mails, and be given the same dispatch and handling through the United States as is provided for "special-handling" domestic parcel post packages.

(c) Sacks in the domestic service containing parcel post packages for other countries which are to be specially handled must bear the distinctive "special-handling" tags so that they may be readily recognized and given proper treatment.

(d) Care must be taken by the United States exchange offices to see that surface parcels received under the "special-handling" tags are forwarded by the same ship carrying letter mails for the countries concerned when practicable and are not withheld for dispatch on those ships which are, in some instances, given preference in the dispatch of parcel post mails.

(e) Special-handling surface parcels destined for other countries received at exchange offices will not be forwarded as letter mail, but will, when practicable, be transmitted as parcel post by the same dispatch as letter mails for the countries concerned.

(f) Parcels given special handling treatment are subject to the following fees, which are in addition to postage charges:

| | Cents |
|---|---|
| Up to 2 pounds | 15 |
| Over 2 pounds and up to 10 pounds | 20 |
| Over 10 pounds | 25 |

§ 127.81 *Certificates of mailing.* (a) The postmaster at the office of mailing shall upon request at the time of mailing furnish to the sender of an ordinary parcel post package a certificate of mailing. A charge of 1 cent shall be made for each certificate issued and for each parcel described if a single certificate covers more than one parcel. Certificates of mailing shall also be furnished as additional evidence of mailing for registered and insured parcels, subject to the same charge. The charges shall be collected by means of postage stamps affixed to the certificates and canceled by the postmark of the mailing office showing the date.

(b) Certificates of mailing shall be furnished on Form 3817 for individual parcels, and on firm mailing books or looseleaf forms for three or more parcels mailed at one time. These forms shall be filled out by the senders.

(c) Certificates of mailing shall also be furnished on request on Treasury Department (Internal Revenue) Forms P. T. 26, P. T. 27–A, or 550, certifying that the sender has waived the right to withdraw the parcels from the mails. Such certificates of mailing are likewise subject to a charge of 1 cent for each parcel described.

(d) See §§ 127.63 and 127.89, concerning certificates of mailing in connection with parcels containing tobacco seeds and or plants and dried whole eggs.

(e) Payment of the charge for a certificate of mailing does not insure a parcel against loss, rifling or damage, or provide for a receipt on delivery, but merely furnishes evidence of mailing.

(f) Certificates of mailing are also issued for articles in the Postal Union mails. (See § 127.16.)

§ 127.82 *Consular invoices, etc.* (a) Postmasters shall direct the attention of mailers to the necessity for the prepara-

tion of consular invoices or other legalized documents required in connection with parcel post packages addressed for delivery in Argentina, Bolivia, Brazil, Chile, Colombia, Cuba, Ecuador, France, Guatemala, Macao, Nicaragua, Peru, Philippines, Portugal, Portuguese East Africa (Mozambique), Portuguese India, Portuguese Timor, Portuguese West Africa, Salvador (El), and Uruguay.

(b) Further information respecting the preparation of these documents will be found under each of the individual country items in Subpart F of this part referred to in the preceding paragraph.

§ 127.83 *Unpaid and insufficiently prepaid parcel post packages—(a) Treatment at offices of mailing.* When a parcel (ordinary, registered, insured, or collect-on-delivery), whether intended to be transported by surface means or by air, is observed at the office of mailing to be unpaid or insufficiently prepaid and the return address on the parcel is at the office of mailing, the parcel shall be promptly returned to the sender for the affixing of the necessary additional postage. When parcels returned for additional postage are again presented for mailing the postage stamps originally affixed shall be accepted to the amount of their face value. If the parcel bears a return address other than at the office of mailing it shall not be returned to the sender but shall be forwarded to the appropriate dispatching exchange office.

(b) *Treatment at exchange offices.* When an unpaid or insufficiently prepaid parcel (surface or air) is received at an exchange office for dispatch to a foreign country, such exchange office shall forward the parcel to its destination in the same manner as though fully prepaid (without affixing additional postage). The exchange office shall prepare a notice on Form 2918 concerning the deficiency in postage and send it to the postmaster at the office of mailing (or to the postmaster at the office where the sender is located if it is not the same as the office of mailing).

(c) *Collection of deficiency.* On receipt of the notice by the postmaster steps shall be taken to collect the amount of the deficiency from the sender. Postage due stamps in the amount involved shall be affixed to the back of the card and canceled, and the card then placed on file at the post office making the collection.

§ 127.84 *Postmasters to use discretion in reporting short payment.* Postmasters at exchange offices will use discretion in reporting cases of short payment in those instances where short-paid or unpaid parcels bear evidence, either by the presence of mucilage on the wrappers or blank spaces in the impressions of the canceling stamps, that the postage stamps might have become detached while the packages were in transit to the exchange offices.

§ 127.85 *Recall and change of address.* (a) The conditions outlined in § 127.36, with the exception of paragraph (f), concerning the recall and change of address of articles in the Postal Union mails likewise apply to international parcel post packages.

(b) Parcels for Aden, Barbados, British Honduras, Brunei, Burma, Canada, Cyprus, Gambia, Gilbert and Ellice Islands, Great Britain and Northern Ireland, India, Ireland, Malaya, Nauru, Nigeria, North Borneo, Pakistan, Rhodesia (Northern), Rhodesia (Southern), Sarawak, Seychelles, Solomon Islands, Trinidad and Tobago, and Windward Islands cannot be recalled after they have left this service nor can the addresses be changed, unless the parcels are undeliverable at the original address.

§ 127.86 *Inquiries or complaints concerning ordinary articles (Postal Union and parcel post).* (a) A charge of 13 cents shall be made for an inquiry or complaint concerning any ordinary Postal Union article or parcel post package addressed for delivery in a foreign country, unless the sender is able to show, as prescribed, prima facie loss or other irregularity through fault of the Postal Service.

(b) If the sender desires his inquiry to be sent by air mail or telegraph, he must pay, in addition to other fees and charges applicable, the postage for a one rate air mail letter to the country of destination, or the appropriate telegraph charge, as the case may be. If the sender also desires reply to his inquiry to be made by air mail or telegraph, he must pay double the air mail postage, or the telegraph charges both ways, as may be appropriate.

(c) Inquiries shall be accepted by postmasters even though the articles were mailed in a foreign country. The fee and the general procedure are the same as that concerning articles mailed in this country.

(d) The instructions regarding the acceptance of inquiries or complaints concerning registered or insured mail set forth in Subpart D of this part are also applicable to inquiries or complaints in connection with ordinary mail. (See §§ 118.3 (c) and 118.9 of this chapter, for proper handling of inquiries or complaints.)

§ 127.87 *Prepayment of customs duties.* Customs duties cannot be prepaid through the Post Office Department by the senders of dutiable parcels.

§ 127.88 *Export declarations and licenses.* (a) In order to enable the Department of Commerce to compile statistics of commercial exports by Postal Union mail or parcel post (surface or air), postmasters at first-, second-, and third-class offices will require business concerns sending merchandise valued at $25 and over to other business concerns—

(1) From continental United States, Alaska, Hawaii, Puerto Rico, or the Virgin Islands of the United States to any foreign country and to the Canal Zone;

(2) From continental United States to its noncontiguous territories or possessions* except Alaska and Hawaii; and

(3) From Puerto Rico or the Virgin Islands of the United States to continental United States;

to fill out a Shipper's Export Declaration on Department of Commerce Form 7525–V. The Shipper's Export Declaration is only required for goods mailed for commercial purposes and not for goods which involve no commercial consideration. (However, Commerce Form 7525–V must also be filed for shipments of all articles covered by a validated export license from the Office of International Trade, Department of Commerce, regardless of value or whether the sender or addressee is a business concern. See paragraphs (h) and (i) of this section.) The declaration need not be furnished for catalogs, instruction books (except technical data), and other advertising matter, or for magazines, newspapers, and periodicals, which are not regarded as merchandise.

(b) The following are the only items on the Shipper's Export Declaration (Commerce Form 7525–7) which are required to be filled in by the sender of a postal shipment (the numbers indicated correspond with those appearing on the form):

2. Name of post office where shipment is being mailed. (Insert in space on the form reading "from ---------- (U. S. port of export).")

3. Name and address of sender (exporter or forwarding agent). (If the shipment is being mailed by a forwarding agent, the name and address of the exporter, his principal, must also be shown.)

5. Name and address of addressee (ultimate consignee and intermediate consignee, if any).

8. Country of final destination.

10. Number of packages being mailed, description of merchandise and export license number and expiration date, or general license symbol.

13. Schedule B, commodity number.

14. Net quantity of merchandise, in schedule B units.

15. Value of merchandise.

(c) Only a single copy of the shipper's export declaration is required for mail shipments. A single export declaration may include any number of packages mailed by one sender the same day to one addressee. Export declarations need not be notarized.

(d) The description of contents and units of quantity must be in the detail required by schedule B, Statistical Classification of Domestic and Foreign Commodities Exported from the United States. Shippers may obtain copies of schedule B for a nominal charge from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce Field Offices located in the principal cities of the United States. General descriptions such as dry goods, groceries, millinery, etc., are not sufficient. Quantities and values must be given in whole numbers only, omitting fractions of less than one-half and counting one-half and over as a whole.

(e) Completed declarations shall be postmarked in the lower left-hand corner and forwarded from the office of mailing to——

New York Office,
Foreign Trade Division,
Bureau of the Census,
Room 434, Customhouse,
New York 4, N. Y.

(f) Declarations shall be mailed daily from first-class post offices, and from second- and third-class offices whenever there is enough accumulated to fill an envelope but in any case not less frequently than once a week.

(g) Postmasters may obtain a free supply of Form 7525–V, for limited distribution to occasional shippers only, from the Foreign Trade Division, Bureau of the Census, Washington 25, D. C. Regular exporters may obtain copies of the Shippers' Export Declaration from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., from Collectors of Customs, or from Department of Commerce Field Offices at a cost of 50 cents per block of 100. They may be printed by private parties provided they conform to the official form in size, wording, color, quality (weight) of paper stock, and arrangement.

(h) (1) In accordance with the export control regulations of the Office of International Trade, Department of Commerce, exporters of merchandise requiring validated export licenses must place the number of the license on the wrapper of each parcel or package.

(2) If the entire amount authorized by a validated license is mailed at one time, the sender must surrender the license at the post office at the time of mailing. The accepting employee will verify the contents as declared by the sender and as shown on the license, and if no discrepancy is noted will accept the parcel for mailing, take the license from the mailer, endorse the license on the back with the word "completed," and apply a legible postmark showing the date and place of mailing. The license is to be transmitted under official cover to the Office of International Trade, Department of Commerce, Washington 25, D. C.

(3) If only a part of the licensed shipment is to be mailed, the exporter will deposit the validated license with a collector of customs, and surrender at the post office in lieu thereof an extra copy of the shipper's export declaration (Commerce Form 7525–V) bearing the number of the license and an authorization dated and signed by the Collector of Customs or his representative for the shipment of the goods listed on the declaration. The accepting employee will verify the contents as declared by the sender and as listed on the declaration, and if no discrepancy is noted will accept the parcel for mailing, take the declaration from the mailer, postmark it and send it to the Office of International Trade, Department of Commerce, Washington 25, D. C.

(i) Postmasters or other postal employees will not undertake to advise prospective mailers of articles and materials requiring an individual export license. Senders desiring information relative to export control requirements (including both general and individual licenses) are to be advised to communicate with any of the Department of Commerce field offices or directly with Office of International Trade, Department of Commerce, Washington 25, D. C. Questions relating to shipper's export declarations and commodity export classification are to be submitted directly by exporters to the Foreign Trade Division, Bureau of the Census, Washington 25, D. C., for decision. Questions by postmasters concerning the above are to be submitted to the Post Office Department, Bureau of Transportation, Division of International Service, if international mail is involved, or to the Bureau of Post Office Operations, Division of Mail Classification if domestic mail is involved.

§ 127.89 *Exportation of dried whole eggs.* (a) Dried whole eggs for export only are sold by the Commodity Credit Corporation, Department of Agriculture, under a program which requires that purchasers furnish definite proof of exportation.

(b) When dried whole eggs purchased under the above-mentioned program are offered for export by mail, an endorsement must be written or stamped on each package by the sender waiving any right to withdraw it from the mails, or have it returned. The endorsement must be properly completed and signed by the exporter or his authorized representative over his title. The parcel post forms accompanying such parcels should be completed by the senders to indicate that the parcels are to be abandoned in case of non-delivery.

(c) A certificate in the following form, prepared and completed by the sender, must be presented with the shipment:

CERTIFICATE OF MAILING DRIED WHOLE EGGS

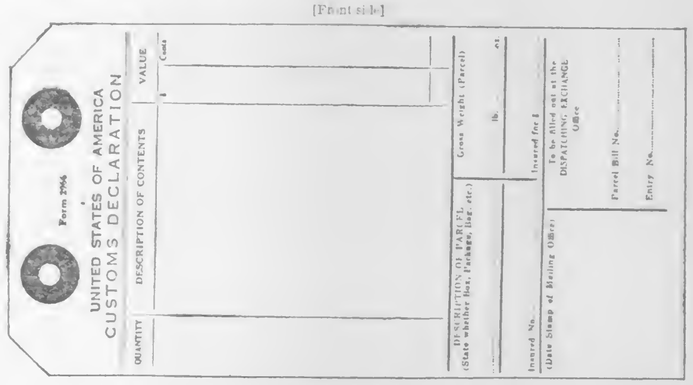
I hereby certify that there has (have) been posted at this post office today by
---------- (Name of sender) (Number)
parcels containing a total of ------ pounds of dried whole eggs on which the sender has waived the right to withdraw same from the mails or have same returned.

Parcels addressed to:

(Names and addresses of addressees)

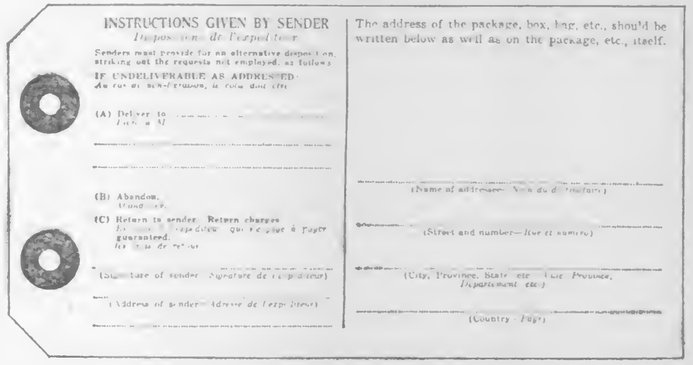
---------- Postmaster.

By ----------



[Office stamp]

---------- (Date)



(d) A single certificate may cover any number of parcels mailed by the same sender even though addressed to different countries. A charge of 1 cent will be made for each certificate of mailing issued to the sender, or for each parcel represented where a single certificate covers more than one parcel; that is, if a certificate of mailing is issued for 10 parcels, even though identical, the charge will be 10 cents. Postage stamps to cover the charge for the certificate of mailing shall be affixed to the certificate and canceled by the postmark of the office of mailing. After postmarking, the certificate will be signed by the postmaster or his authorized representative and returned to the sender.

PARCELS FROM OTHER COUNTRIES

§ 127.92 *Parcels to be considered as fully prepaid.* As parcel post packages received from a number of countries are unaccompanied by postage stamps, the postage having been prepaid by means of cash, all parcels received from abroad will be considered as full prepaid unless definite information is known to the contrary.

§ 127.93 *Delivery of parcels addressed in care of banks or other organizations.* In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

§ 127.94 *Delivery fee.* (a) Except as stated in the next paragraph, a delivery fee of 5 cents for each parcel from a foreign country is collectible on delivery to the addressee, either at the post office or his residence. The delivery fee is in addition to the postage prepaid and is intended to partly cover the cost for delivery of the parcel after its receipt in the United States. Postage-due stamps in the amount of 5 cents must be affixed to the parcel and canceled before delivery.

(b) Parcels addressed to members of the diplomatic and consular corps of Argentina, Bolivia, Brazil, Chile, Columbia, Costa Rica, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras, (Republic of), Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain, Uruguay, and Venezuela will be exempt from payment of delivery fees, except in the case of parcels addressed to members of the consular corps of these countries which contain articles liable to the payment of customs duties. Also parcels from prisoners of war will be exempt from payment of the delivery fee.

(c) Endorsement for the collection of this fee by the office of delivery shall be placed on parcels by the exchange office of first receipt.

(d) The delivery fee is in addition to the customs clearance charge mentioned in § 127.95.

§ 127.95 *Customs clearance charge.* (a) Except as stated in the next paragraph, there will be collected from the addressee of every parcel post package received from abroad a charge of 10 cents to cover customs clearance. This charge is in addition to the delivery fee of 5 cents referred to in the preceding section and is collected whether or not the parcel proves, after customs examination, to be dutiable.

(b) Parcels addressed to members of the diplomatic and consular corps of Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain, Uruguay, and Venezuela will be exempt from the payment of customs clearance charges except in the case of parcels addressed to members of the consular corps of these countries which contain articles liable to the payment of customs duties. Also parcels from prisoners of war will be exempt from payment of the customs clearance fee.

(c) As in the case of the delivery fee of 5 cents collectible from the addressee on parcel post packages received from other countries, it shall be the duty of the exchange office of first receipt to endorse all parcels for the collection from the addressee by the post office of delivery of a charge of 10 cents for customs clearance. Postage-due stamps in the amount of 10 cents plus 5 cents for the delivery fee, or a total of 15 cents, must, before delivery, be affixed to the wrapper of the parcel and canceled.

(d) As stated, the exchange office of first receipt will endorse parcel post packages for the collection of the customs clearance charge of 10 cents, and, except in case of obvious error, collection of such charges should be made only when the parcel is so endorsed.

§ 127.96 *Storage (demurrage) charge.* (a) A storage (demurrage) charge of 5 cents per day shall be imposed on each ordinary, registered, insured, and collect-on-delivery parcel post package received from a foreign country, which the addressee fails to remove from the post office within 10 days (15 days in the case of collect-on-delivery parcels), after the first attempt to deliver or the first notice that the parcel is ready for delivery at the office of address, exclusive of the day delivery is first attempted or the issuance of the first notice that the parcel is ready for delivery, Sundays, holidays, and the actual day of delivery. When a collection is made of an amount due for storage the money received will be accounted for by the affixing of postage-due stamps to each parcel in the amount of the charge paid.

(b) Postmasters will use Form 2921 in giving notice to addressees with respect to parcels held, which form bears an announcement of the charge to be imposed in case the parcels are not called for within the time specified.

(c) In the case of parcel post packages returned as undeliverable or reforwarded to Anglo-Egyptian Sudan, Argentina, Barbados, Belgium, Bolivia, Brazil, Chile, Colombia, Costa Rica, Denmark (including Faroe Islands and Greenland), Egypt, Eritrea, Estonia, Greece, Iceland, Indonesia, Italy, Japan, Korea, Latvia, Libya, Lithuania, Mexico, Morocco (Spanish Zone), Netherlands, Netherlands New Guinea, Poland, Portugal, Portuguese East Africa (Mozambique), Rhodesia (Southern), Rumania, Ryukyu Islands, Somalia, Spain and possessions, Spanish Guinea, Switzerland, Trieste (Free Territory of), Turkey, Union of Soviet Socialist Republics, Uruguay, and Yugoslavia, postmasters at offices of address will mark all such undeliverable parcels to show the amount of the storage charges, if any, which were due thereon from the addressees, in order that record thereof may be made at the United States exchange office which dispatches the undeliverable parcels in question to the country of origin. In case no storage charges have accumulated on an undeliverable parcel returned to one of these countries, the parcel shall be marked before its return by the post office of address with the words "No storage charges due" or words of similar purport.

(d) Any storage charges imposed on undeliverable parcel post packages which are returned from the countries mentioned in the preceding paragraph will be collected from the senders in this country.

(e) The United States exchange offices dispatching the parcels to the countries of origin will enter these charges on the parcel bills accompanying the returned parcels. They will also submit to the department quarterly reports of the charges in question as the basis for the preparation of accounts against the aforementioned countries, which are the only countries requiring an accounting of the storage charges accumulated on undeliverable parcels returned to the United States.

(f) Storage (demurrage) charges, which have accrued on parcels from other countries at an office of address cannot be evaded by the forwarding of such parcels to any other office for delivery. The storage charges accumulating at one or more offices shall be rated up on forwarded parcels for collection at the office of delivery. Such forwarded parcels shall be endorsed "Collect---- storage charge." In order to avoid confusion, postmasters who deliver parcels which have been forwarded from one post office to another in this country on which storage charges have accumulated will collect the amounts involved and notify the postmasters at the offices at which the charges accrued that the collections have been made.

§ 127.97 *Undeliverable parcels, return to origin.* (a) Parcel post packages which cannot be delivered and are not marked by the sender to be otherwise disposed of must be endorsed to show the cause of nondelivery, such as "Non-réclamé (unclaimed), "Refusé" (refused), etc., and returned from the post office of destination to the United States exchange office from which they were received at the expiration of 30 days from the date of their receipt at the office of destination. Should such a parcel be refused by the addressee before the expiration of the period for its detention, or the fact is established that delivery cannot be effected as addressed, it shall immediately upon such refusal, or nondelivery, be appropriately endorsed and returned to the country of origin.

(b) In the case of undeliverable parcels from abroad which are accompanied by dispatch notes the reason for nondelivery must be indicated on the dispatch notes, as well as on the wrappers of the parcels themselves.

(c) Mail entry forms accompanying undeliverable dutiable parcels shall be marked with a statement of the facts and returned to the issuing collector of customs. (See § 116.17 (e) of this chapter.)

(d) Undeliverable air parcels shall be returned to origin by surface means.

§ 127.98 *Undeliverable parcels, forwarding.* (a) Parcel post packages from other countries bearing request for delivery to a second addressee in the event of nondelivery as originally addressed shall be held at the disposal of the first addressee for one-half the 30-day detention period, and at the disposal of the second addressee for the same length of time (15 days) when, if still undeliverable, the parcel shall, if not also marked for abandonment, be appropriately endorsed and returned to origin. However, should the parcel be refused by the first addressee, it shall immediately be tendered for delivery to the second addressee. If refused by the latter before the expiration of the period of detention, the parcel shall, if not marked for abandonment, be appropriately endorsed and returned to the country of origin forthwith.

(b) Parcels which are forwarded from one post office to another in this country, are subject to an additional charge for postage in accordance with the rates applicable in the United States domestic service, such charge to be collected from the addressee, unless prepaid. Air parcels are not entitled to be forwarded to another post office by air unless United States postage at the domestic air parcel post zone rate has been paid in advance. Parcels forwarded by surface means on which the domestic postage has not been prepaid shall be marked, when forwarded, "Collect ---- postage." See § 127.96 (f) as to marking of parcels on which storage charges have accumulated. The mail entry form covering a dutiable parcel which is redirected to another post office in the United States shall be enclosed in a properly readdressed penalty envelope and securely attached to the parcel involved. The postmaster at the forwarding office shall notify the customs officer who issued the entry of the action taken, the notification to be by letter giving the number and date of the mail entry, the name of the addressee, the new address of the addressee, the name of the new post office of delivery, and the date of forwarding. (See § 116.17 (f) of this chapter.)

(c) In the case of a parcel post package originating in a foreign country addressed for delivery in the United States which proves undeliverable owing to the addressee having removed to a third country or to the country of origin, the parcel shall be held at the office of original address and instructions as to what further disposal shall be made of it obtained from the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., in specific cases. A description of the contents, the weight of the parcel, and whether ordinary, registered, insured, or c. o. d. shall be stated.

(d) A parcel (fourth class) mailed in the United States for delivery at another post office in the United States, the addressee of which has removed to a foreign country, shall not be forwarded on to the addressee abroad but shall be considered as undeliverable and treated in the usual manner.

§ 127.99 *Undeliverable parcels, abandonment.* (a) Parcel post packages from abroad which have been endorsed by the sender for abandonment if undeliverable as addressed shall be treated as abandoned at the expiration of the prescribed 30-day retention period, unless the parcels are refused by the addressees, in which case they are to be treated as abandoned immediately upon being refused.

(b) Abandoned parcels, if dutiable, shall be sent to the collector of customs from whom they were received; if nondutiable, they shall be sent to the proper dead parcel post branch for disposition. In either case the parcel shall be endorsed "Abandoned."

§ 127.100 *Undeliverable parcels, returned to United States.* (a) An undeliverable parcel returned to the United States with contents in good condition, upon which the return postage has not been prepaid, is subject on delivery to the sender to a postage charge equal to the amount of postage originally prepaid on the parcel. Air parcel post packages returned from other countries will be subject to a postage charge at the surface parcel rate applicable to the original country of destination. The amount to be collected shall be marked on the parcel by the United States exchange post office which receives it back from abroad, and collected by the post office which delivers it to the sender. The amount collected will be accounted for by affixing to the wrapper of the parcel and canceling postage due stamps in the required amount.

(b) In the case of undeliverable parcels returned from certain countries the senders must pay, in addition to the amount equal to the postage originally prepaid, storage, customs clearance, and other postal charges assessed in the country of destination, including in some cases a charge for repacking a parcel, if necessary.

(c) Returned parcels which are reforwarded from one post office to another in this country will be subject to charges for such reforwarding, in addition to the charges marked thereon by the exchange office, in accordance with the rates applicable in the United States domestic service.

(d) Returned parcels which are refused by the senders shall be marked "Refused by sender" and disposed of as dead parcel post.

(e) If the sender has removed to a foreign country, the parcel shall be held at the office of mailing and instructions as to the disposal to be made of it obtained from the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

§ 127.101 *Dispatch notes (Bulletins d'expédition).* (a) Dispatch notes accompanying parcel post packages from

other countries shall be permitted to remain with the parcels and delivered to the addressees, or, in case the parcels are undeliverable, shall be endorsed to show the cause of nondelivery and still be left attached to the relative parcels.

(b) Although these forms have a space provided for the addressee's acknowledgment of receipt, they do not require signature by the addressee. In this respect they are not to be confused with foreign return receipts which are designated "Return receipt" or "Avis de réception."

### Subpart C—Importations by Mail

#### Customs Treatment

§ 127.102 *Joint Regulations of Treasury and Post Office Departments.* All mail matter received from abroad, known or believed to contain dutiable articles, must be submitted to the Customs Service as required by the Joint Regulations adopted by the Secretary of the Treasury and the Postmaster General, appearing in Part 116 of this chapter. Postmasters shall read and comply with the instructions contained therein as they are liable under their official bonds when the improper treatment of dutiable matter results in the loss of customs revenue.

§ 127.103 *Scrutiny of international mail.* In order to avert instances of mishandling, all mail of foreign origin shall be carefully observed for evidence of customs examination. An article passed free of duty is readily recognized by the endorsement placed thereon by the Customs Service. When there is reason to believe that an article supposed or known to be dutiable has escaped examination, postmasters handling such matter in transit or for delivery shall forward it to the postmaster of the office where the nearest customs officer is stationed. See § 127.117.

§ 127.104 *Delivery and collection of duty.* (a) Articles not subject to customs duty will be stamped "Passed free of duty," or "Not dutiable" by the customs officer. Customs officers will issue mail entries to cover each dutiable shipment examined by them. The original mail entry and a duplicate thereof will be enclosed in a special mail entry envelope and affixed to the article.

(b) When delivery is effected the employee making the collection shall sign and deliver the duplicate of the mail entry to the addressee, and shall secure the addressee's signature on the original entry. The collection, with the mail entry and customs receipt Form 3437 must then be transmitted to the collector of customs who issued the entry. Postmasters may obtain supplies of the customs receipt Form 3437 by addressing a request to the Section of Forms, Customs Information Exchange, 201 Varick Street, New York 14, N. Y. The use of this form obviates the necessity of writing a letter of transmittal. Detailed instructions covering the remittance of customs charges will be found in § 116.17 of this chapter.

(c) Dutiable mail shall, so far as possible, be delivered by city, village, or rural carriers, who shall collect the duty upon delivery. If delivery cannot be made by carriers, after the first attempt, delivery notices on Form 2921 shall be immediately mailed to addressees.

(d) Addressees shall not be permitted to examine the contents of dutiable articles until the duty is paid. For information regarding the customs clearance fee and customs clearance and delivery fee applicable to Postal Union matter and parcel post, respectively, see §§ 127.42, 127.43, 127.94, and 127.95.

(e) In connection with requests for delivery of parcel post packages at the residence or place of business of the addressees after the customs duty thereon has been paid at the post office, attention is called to the circumstances that the Treasury Department has declined to refund the duty in such cases when the goods become lost between the post office and the addressee's residence or place of business, and that if there should be any loss there is no appropriation available from which the Post Office Department could make reimbursement for the amount of duty paid. This circumstance should invariably be brought to the attention of addressees or their representatives when request is made that parcels be delivered in this manner. The packages shall be marked to show that the customs duty has been paid thereon.

§ 127.105 *Undeliverable dutiable mail.* If delivery of a dutiable article is not effected and the undeliverable article is disposed of by sending to a United States exchange post office for return to the country of origin or for forwarding to another country, the original mail entry shall be marked with a statement of the facts and returned, together with the duplicate of the mail entry, to the issuing collector of customs. If, however, the article is redirected to another post office in the United States, the mail entry and the duplicate thereof shall be enclosed in a properly readdressed penalty envelope and securely attached to the article involved. The postmaster at the forwarding office shall notify the customs officer who issued the entry of the action taken, the notification to be by letter giving the number and date of the mail entry, the name of the addressee, the new address of the addressee, the name of the new post office of delivery, and the date of forwarding. (See § 116.17 (e) and (f) of this chapter.

§ 127.106 *Extraction of samples for advisory information.* Should a customs officer wish to obtain advisory information from a local trade expert covering merchandise imported in the Postal Union or parcel post mails, the package will be turned over by the Customs to the postmaster or his representative who will allow the extraction by the customs officer of a sample for that purpose. The customs officer will prepare Customs Form 6423, one copy for enclosure in the package and another for retention in the postmaster's files. Likewise, when a customs officer deems it advisable to obtain advisory information from the Customs Information Exchange, 201 Varick Street, New York 14, N. Y., the package will be turned over by the Customs to the postmaster for extraction of the sample by the customs officer as prescribed herein. Samples thus extracted shall be dispatched by the postmaster under official registration to the postmaster at New York, N. Y., for submission to the Customs Information Exchange. The customs officer will notify the Customs Information Exchange of the action taken. The postmaster at the office where a sample is removed from an ordinary or a registered package shall maintain such record as will fully show the particulars in case of inquiry or investigation.

§ 127.107 *Protests.* (a) When an addressee refuses to accept a dutiable package and protests against the payment of duty, or is dissatisfied with the rate or amount of duty assessed, the postmaster will comply with the provisions of § 116.18 (a), of this chapter, by requiring him to state his objection in writing and submit any available information or evidence substantiating his claim. The postmaster will hold the package and immediately communicate with the collector of customs who issued the mail entry, citing the number of the entry and forwarding the addressee's statement and the supporting evidence. If an addressee refuses a dutiable package and indicates he does not desire to have a protest filed with the collector, the postmaster shall proceed as prescribed in § 116.17 (e) of this chapter.

(b) An addressee, who is dissatisfied with the amount of duty assessed, may pay the charges, take delivery of the package, and subsequently file claim for a refund with the collector involved as set forth in § 127.108.

(c) Returning residents of the United States frequently mail to themselves or arrange for the mailing of personal effects and or merchandise acquired abroad. These articles are entered on the customs baggage declaration as "unaccompanied articles." If it is expected that the declared items will be contained in one shipment, the customs regulations provide that the declaration shall be prepared in duplicate, the copy being retained by the declarant for clearance purposes. When the payment of duty is protested under the above conditions, the postmaster shall secure the duplicate baggage declaration in the patron's possession and transmit it, together with the other information referred to in the preceding paragraph, to the collector who issued the mail entry. Should the addressee be unable to produce the duplicate baggage declaration, the postmaster shall obtain and furnish the collector, in lieu thereof, the addressee's statement as to the date and the port through which he reentered the country, together with any possible information regarding the name of the ship or the number of the aircraft, and the number borne by the declaration filed at the time of such arrival. The collector who issued the mail entry will communicate with the customs authorities at the port of entry relative to the matter of whether or not the package is entitled to free entry.

(d) If after considering the evidence submitted, the collector of customs notifies the postmaster that the payment of duty is waived, or if a dutiable package is conditionally free of duty upon execution of an accompanying affidavit for free entry as provided in paragraph (g) of § 116.17 of this chapter, the postmaster is requested to see that both the original and duplicate of the mail entry are returned to the issuing collector and that appropriate endorsement is made on his office record of dutiable mail.

(e) A parcel post package held at a post office pending the decision of the customs authorities is subject to storage charges as provided in § 127.96. Arrangements should be made with the addressee for the payment of the storage charges every 20 days (i. e., whenever the amount totals $1) in order to prevent the accumulation of such charges on parcel post packages held for the purpose mentioned.

§ 127.108 *Customs charges, refunds.* (a) Amounts collected on customs mail entry forms shall not be refunded by postmasters. When an addressee requests a refund of duty, the postmaster shall advise him to make application therefor to the collector of customs at the port of entry within 30 days from the date of entry. The postmaster shall suggest, if refund is claimed on account of damage, that the article be forwarded to the collector with the application. If the addressee wishes to abandon the article to the Government, he should include a statement to that effect in his application. In case the addressee also intends to file a claim for indemnity with the Post Office Department, he shall, before taking the above action, present the contents, container and complete wrapping to the postmaster for the inspection prescribed by the international indemnity application Form 2855.

(b) Refund of duties paid will be made by the Customs Service if merchandise covered by a mail entry representing 5 percent or more of the total value of all of the merchandise of the same class or kind entered in the invoice in which the item appears is abandoned and delivered within 30 days after the date of entry to the collector of customs where the entry was made.

(c) Refund of duties paid less 1 per centum will also be made by the Customs Service if merchandise covered by a mail entry and found not to conform to sample or specification is, within 30 days from the date of delivery, returned to customs custody for exportation. The postal charges incident to returning the merchandise to the sender must be borne by the addressee. (Sec. 313 (c), Tariff Act of 1930.)

§ 127.109 *Import duties.* It should be suggested to patrons desiring information concerning rates of duty on articles imported into the United States, or other customs procedure, that they communicate with the appropriate customs officer, located at various points throughout the country (see § 127.117), or with the Commissioner of Customs, Treasury Department, Washington 25, D. C. The publication United States Import Duties (1950) on sale by the Superintendent of Documents, Government Printing Office, Washington 25, D. C. (price, $2), may be of interest to persons regularly engaged in the importation of merchandise.

§ 127.110 *Prepayment of duty.* No provision is made for the prepayment abroad of customs duty on mail shipments addressed for delivery in the United States.

§ 127.111 *Articles unconditionaly free of duty.* The following classes of articles which are frequently imported in the mails are unconditionaly free of duty: Newspapers and periodicals (the term "periodicals" is to be understood to include only unbound or paper-covered publications issued within six months of the time of entry, devoted to current literature of the day or containing current literature as a predominant feature, and issued regularly at stated periods as weekly, monthly, or quarterly, and bearing the date of issue); books, engravings, photographs, etchings, bound or unbound, maps and charts imported for the use of the United States, and addressed to any department, bureau, or division of the Government; publications issued for their subscribers or exchanges by scientific or literary associations or academies; publications of individuals for gratuitous private circulation, not advertising matter; public documents issued by foreign governments; books, maps, music, engravings, photographs, etchings, lithographic prints, bound or unbound and charts which have been printed more than 20 years at the time of importation and not rebound wholly or in part in leather within such period; books and pamphlets printed wholly or chiefly in languages other than English; and books, pamphlets, and music, in raised print, used exclusively by or for the blind.

§ 127.112 *Gifts and trade samples.* All articles imported into the United States, whether sent as gifts or for other purposes, are subject to duty unless specifically exempted therefrom; furthermore, there is no authority for the free entry of samples generally, except that samples imported solely for use in taking orders for merchandise or for examination with a view to reproduction, and not intended for sale or for sale on approval, may be entered under bond for their exportation within 6 months from the date of importation, and this period may, upon application, be extended for a further period not to exceed 6 months (sec. 308 (3), Tariff Act of 1930). In accordance with the decision of the Secretary of the Treasury, effective June 1, 1917, unsealed packages, registered or unregistered, containing trade samples, whether dutiable or not, intended solely for use in soliciting orders for merchandise, may be imported in the Postal Union mails from other countries, subject to all customs duties and customs regulations in the same manner as though imported by parcel post, express, or freight. Packages containing trade samples must be plainly marked abroad with the words "trade samples" and, if sealed, they must also be marked or labeled in accordance with the instructions in § 127.114 relating to sealed articles generally.

§ 127.113 *Articles repaired abroad.* Articles sent abroad to be repaired or altered are subject to duty at their full value when returned to the United States unless certain customs regulations are complied with. These regulations include a requirement that the articles be submitted to customs officers for the issuance of a certificate of registration prior to shipment abroad. It is not sufficient that the articles be registered with the Postal Service.

§ 127.114 *Sealed articles.* All sealed articles (other than sealed parcel post packages), and "small packets" containing merchandise, shall on arrival in the United States bear an indorsement "May be opened for customs purposes prior to delivery to addressee" or words of similar purport, or the green adhesive label, C 1 (equivalent to our Form 2976), required by the Universal Postal Convention. If known to be dutiable, they shall also be marked "dutiable." Articles not so endorsed or labeled, which are found to contain merchandise free of internal-revenue tax and free of duty either because unconditionally free or because the aggregate value of the shipment is not more than $1 and the expense and inconvenience of collecting the duty accruing thereon would be disproportionate to the amount of such duty, may be delivered to the addressee without the collection of any fine. Except as provided in the preceding sentence, if the article is found to contain merchandise subject to duty (including conditionally free merchandise) or subject to internal-revenue tax the merchandise is subject to seizure and forfeiture as having been imported contrary to law. Such forfeiture may be mitigated to an amount equal to 10 percent of the loss of revenue which was or might have been sustained, provided there is no evidence indicating that failure to label or endorse the article was due to willful negligence or to an intent to defraud the revenue.

§ 127.115 *Invoices or statements of value.* (a) Commercial shipments by parcel post must be accompanied by a commercial invoice in addition to the postal form of declaration. There shall be enclosed in packages dispatched otherwise than by parcel post, and in sealed articles containing merchandise, an invoice in the case of commercial shipments, or a statement of value for merchandise not purchased nor consigned for sale, giving an accurate description and value of the merchandise for customs purposes. If impracticable to enclose such invoice or statement, it shall be securely attached to the article.

(b) When the aggregate value of a single shipment, regardless of the number of packages exceeds $100 a certified invoice (except as provided by section 8.15 of the Customs Regulations of 1943 as amended) must be procured by the sender. When the certified invoice is sent with the mail shipment, no other form of invoice or statement is required. Customs entry will be facilitated by sending the certified invoice with the mail shipment. This is not obligatory, however, as the American consul who certifies the invoice will forward a copy to the consignee, provided he is so requested by the sender and is furnished with an addressed envelope on which the postage is fully paid.

(c) Certified invoices are not required in connection with the entry of merchandise which, in accordance with sections 7.8, 7.9, 7.10, or 16.26 of the Customs Regulations of 1943, is admitted free of duty as being the growth or product of, or an actual importation into, Guam, Wake Island, Midway Islands, Kingman Reef, or American Samoa; as being the growth or product of the Virgin Islands of the United States or the Swan Islands; or as being "Philippine articles." Importations from the Canal Zone are treated in all respects as are importations from other countries. Importations may enter the area (land or water) of the Guantanamo Bay Naval Station without the payment of duty. Such importations are, however, subject to duty upon their subsequent entry into the United States.

§ 127.116 *Prohibited or restricted articles.* (a) Adulterated or misbranded drugs, foods, and other articles; articles capable of being marked, which are not marked with name of country of origin, as required by section 304 of the Tariff Act of 1930, as amended, or which are marked in a manner calculated to induce a false belief as to their origin, within the meaning of section 42 of the Trade Mark Act of 1946, and articles not marked in accordance with the provisions of paragraphs 354, 355, 357, 358, 359, 360, 361, 367, 368, and 1553 of the Tariff Act, and the regulations pursuant thereto; firearms capable of being concealed on the person; any matter urging treason or insurrection against the United States or forcible resistance to any law of the United States, or containing any threat to take the life of or inflict bodily harm upon any person in the United States; obscene articles, books, photographs, or printed matter, and all other obscene or immoral articles; articles and information for the prevention of conception or for causing unlawful abortion; matter relating to a lottery or gift enterprise (including tickets and advertising matter); marihuana, narcotic drugs (including opium, coca leaves, cocaine, isonipecaine, or derivatives thereof; intoxicating liquors or alcoholic preparations or compounds fit for use for beverage purposes (wines or beer having not more than 3.10 percent of alcohol by weight may be imported); articles from a country discriminating against the commerce of the United States; articles imported and sold through unfair competition; convict-made articles; counterfeits of coins, postage stamps and other Government securities; dangerous, caustic, or corrosive substances; dangerous or injurious articles; illustrations of foreign postage stamps, of canceled and uncanceled United States postage stamps, and of foreign revenue stamps, unless printed in black and white for philatelic purposes, and unless the illustrations of United States postage stamps (including postage stamps impressed upon stamped envelopes and postal cards) are less than three-fourths of the size or more than one and one-half times the size, in linear dimension of such stamp, and in the case of foreign revenue stamps unless the illustrations are from plates so defaced as to indicate that the illustrations are not adapted or intended for use as stamps; living disease organisms and vectors; honey bees (except from Canada); eggs of wild and game birds; gold and silver falsely stamped; hay or straw; hides; insect pests; white phosphorous matches; meat unfit for human consumption; merchandise bearing a mark or name copying or simulating a recorded trade-mark or trade name; milk and cream; migratory birds; noxious animals and birds; oleomargarine; pepper shells; wild animals and birds and parts thereof the exportation of which is prohibited from the foreign country; piratical copies of articles copyrighted in the United States; articles bearing false notices of copyright and copies of any books copyrighted in the United States which are not printed from type set or plates made in the United States or copies of American copyrighted books which are not printed and bound in the United States, except that 1,500 copies of a foreign book or periodical in the English language, which is covered by an ad interim copyright and bears a notice of copyright, may be imported under a permit issued by the Register of Copyrights.

(b) Birds of paradise, aigrettes, egret plumes, or so-called osprey plumes, and the feathers, quills, heads, wings, tails, skins or parts of skins of wild birds, either raw or manufactured and not for scientific or educational purposes. The prohibition does not apply to the feathers or plumes of ostriches or to the feathers or plumes of domestic fowls of any kind. It does apply to the plumage of all wild birds except live wild birds; whether imported separately or upon the bird itself. As the plumage of the following species may be obtained from either wild or domestic birds, such plumage may be admitted upon the presentation of a consular certificate or other satisfactory evidence that it was in fact taken from domesticated birds: Indian peacock, the rhea, the ringnecked or so-called Mongolian pheasant; mallard duck, and muscovy duck. Articles manufactured from prohibited plumage (except artificial flies used for fishing) are prohibited importation.

(c) Plants and plant products, including seeds and bulbs of all kinds, for or capable of propagation, may be imported into the United States only under the conditions set forth in the plant quarantine act, amendments thereto, and regulations thereunder. (See §§127.118, 127.119, and 127.120.)

(d) Viruses, serums, toxins, and other biological products covered by the act of July 1, 1902, may be imported only in accordance with the provisions of the act and the regulations thereunder.

(e) Gold, except as otherwise permitted by regulations issued pursuant to the Gold Reserve Act of 1934.

(f) The transportation in the Postal Union mails or parcel post from any other country into the United States of any consignment of gold coin, gold bullion, or gold dust, having a value in excess of $50, is prohibited. (See § 117.3 of this chapter.)

(g) Mail shipments of admissible arms, implements of war, and other nonexplosive munitions of war designated in the President's Proclamation No. 2776 of March 26, 1948, referred to in section 12 (i) of the Neutrality Act of 1939 (U. S. C. title 22, sec 452 (i)), or in any proclamation of the President hereafter made under the authority of said section 12 (i), shall be detained by customs until an import license from the Secretary of State has been submitted. Likewise, firearms, as that term is defined in the National Firearms Act (U. S. C. title 26, sec. 2733), as amended, shall be detained by customs until an application on U. S. Treasury Department Form 6 (Firearms), approved by the Commissioner of Internal Revenue has been submitted by the addressee.

(h) Tea is free of duty, but is subject to customs examination as to purity, quality, and fitness for consumption. Examination is not required, however, of samples of tea imported by mail from countries of production up to two pounds for use in soliciting orders and not for sale.

(i) No cigars or cheroots weighing more than 3 pounds per thousand shall be imported unless packed in boxes of 3, 5, 7, 10, 12, 13, 20, 25, 50, 100, 200, 250, or 500; nor cigarettes or small cigars weighing not more than 3 pounds per thousand unless in packages containing 5, 8, 10, 12, 15, 16, 20, 24, 40, 50, 80, or 100. Cigars, cheroots and cigarettes not contained in such packages at the time of importation may be repacked therein under customs supervision at the expense of the importer. (Sec. 111 (d), Customs Regulations of 1943.) At the option of the sender and upon compliance with section 9.8 (c) Customs Regulations of 1943, customs duty and internal revenue tax may be prepaid at Tampa or Miami, Fla., on mail shipments of cigars from Cuba not exceeding $100 in value.

PLANTS AND PLANT PRODUCTS

§ 127.118 *Plants admitted without restriction.* (a) Plants and plant products ordered by, intended for, and addressed to the Bureau of Entomology and Plant Quarantine, or the Division of Plant Exploration and Introduction, Bureau of Plant Industry, Soils, and Agricultural Engineering, of the United States Department of Agriculture, Washington 25, D. C.

(b) Plant products which may be shipped to private individuals without the issuance of a formal permit but subject to inspection and treatment when necessary are as follows:

(1) From all countries—Except as hereinafter shown in field, vegetable and flower seeds when free from soil; cut flowers except those of camellia, gardenia, cape jasmine, rhododendron, rose and lilac (from sources other than the Dominion of Canada); dried, cured, or processed fruits and vegetables, including cured figs, dates, and raisins, etc., dry beans, peas, etc., nuts, except green or unprocessed acorns and chestnuts; dried herbs and herbarium specimens of plants and plant products.

(2) From the Dominion of Canada—Fresh fruits, vegetables, including onions, onion sets, unprocessed acorns and chestnuts, and cut flowers produced in and mailed from this country, and all materials enterable without restrictions from all countries.

(c) Exceptions—The following material is not enterable without restrictions: Seeds of bamboo and other plants of the botanical tribe Bambusae, and seeds of the broad or fava bean, broomcorn, corn (maize), gram sorghums, Job's tears, Johnson grass, Lathyrus species, Napier grass, okra, pearl millet, teosinte, Sudan grass, sugar cane (true seeds), rice, sweet sorghums and the vetches (Vicia species) from all foreign countries; wheat and wheat products except fine white flour from Australia, China, India, Italy, Japan, Spain and the Union of South Africa and seeds of Chionachne, teosinte, Polytoca and Schlerachne from Australia, China, Formosa, India, Indo-China, Japan and adjacent islands, Malaya, Manchuria, New Zealand, Oceania, the Philippines, and Thailand.

§ 127.119 *Plants admitted under restriction.* (a) Parcels of plants and plant products not prohibited by quarantine when accompanied by official green and yellow special mail shipping tags addressed to the United States Department of Agriculture, Bureau of Entomology and Plant Quarantine. These tags will bear the address of that Bureau at one of the following stations: Hoboken, N. J., Washington, D. C., San Francisco, Calif., Seattle, Wash., Laredo, Tex., Miami, Fla., San Juan, P. R., or Honolulu, Hawaii. Because the tag constitutes the correct and necessary address it shall be affixed securely to the face of the parcel, and the name and address of the ultimate addressee shall not appear on the outside but shall be enclosed within the parcel. The tag also bears the number of the permit which has been issued for the entry of the shipment concerned. Upon arrival of such parcels in the United States they will be promptly dispatched to the designated office of the Bureau of Entomology and Plant Quarantine for inspection. If the contents are enterable under the corresponding import permit and are found to be, or can be rendered, apparently free from injurious insects and diseases, the parcel, after any necessary treatment of the contents, will be readdressed and forwarded under the original postage to the permittee.

(b) Parcels of plants or plant products which do not bear official mailing tags will be submitted to a plant quarantine inspector.

(c) Collectors of customs will permit plant quarantine inspectors to remove and destroy immediately plants and plant products deemed injurious to plant life. They will also permit plant quarantine inspectors to remove and destroy objectionable plants and plant products which constitute a portion of the contents of a parcel; subsequently the parcel will be forwarded to the addressee if, in the judgment of the plant quarantine inspector, no pest risk will attend this movement. When destruction is necessary the plant quarantine inspector will furnish the addressee with a memorandum describing the material seized and destroyed and giving the reasons therefor.

(d) Importation is authorized as samples of merchandise, small packets, and by parcel post of samples of shelled corn, Job's tears, and seeds of teosinte from countries other than those of south-

eastern Asia (including India, Indo-China, and China), Malayan Archipelago, Australia, New Zealand, Oceania, Republic of the Philippines, Taiwan (Formosa), Thailand, Japan, and adjacent islands; broomcorn (broomcorn and articles made of broomcorn from countries other than those of the Western Hemisphere are enterable only through approved northeastern ports during the five months' period beginning October 1 of any year) and seeds of broomcorn, sweet and grain sorghum, Sudan grass, Johnson grass, sugarcane (true seeds), pearl millet, and Napier grass from all countries and localities, and dried corn husks from the provinces of Canada, west of and including Manitoba, and from Mexico, Central America, South America, the West Indies, the Bahamas, and Bermuda. No special mail shipping tags are necessary for these shipments and upon arrival in the United States they will be referred to the nearest plant quarantine inspector for examination and if necessary, treatment. To facilitate prompt handling each such parcel should be endorsed "For plant quarantine examination."

(e) The importation is authorized as samples of merchandise, small packets, and by parcel post of samples of raw or unmanufactured ginned cotton, including all forms of cotton-mill waste, and cottonseed meal and cottonseed cake, when the parcels are securely wrapped to prevent leakage, and are conspicuously addressed to the United States Department of Agriculture, Bureau of Entomology and Plant Quarantine, at Hoboken, N. J., San Francisco, Calif., Miami, Fla., or Seattle, Wash., and, if from Mexico, at Nogales, Ariz., El Paso, Laredo, or Brownsville, Tex., with the name and address of the ultimate addressee indicated in the lower left-hand corner of the wrapper of the parcel. Parcels of these materials from Mexico observed at border exchange offices, if not addressed as indicated shall be forwarded to the United States Department of Agriculture, Bureau of Entomology and Plant Quarantine, as follows: West of Nogales, Ariz., to Nogales, Ariz; west of El Paso, Tex., to El Paso, Tex.; west of Laredo, Tex., to Laredo, Tex.; west of Brownsville, Tex., to Brownsville, Tex. Upon receipt of the parcels at the designated inspection offices of the Bureau of Entomology and Plant Quarantine they will be examined and fumigated, and forwarded to the ultimate addressee.

§ 127.120 *Prohibited plants and plant products.* (a) Except as indicated in §§ 127.118 and 127.119, importation by mail is prohibited from all countries and localities, of all plants, including cuttings, buds, scions, bulbs, roots, tubers, seeds, etc.; fruits and vegetables in the raw or unprocessed state; and other plant products.

(b) Plants and plant products as packing materials: Except in special cases where preparation, processing, or manufacturing are judged by an inspector of the United States Department of Agriculture to eliminate a risk of carrying injurious insects and diseases, the importation as packing material is prohibited of rice straw, hulls and chaff; cotton and cotton products; sugarcane, including bagasse; bamboo leaves and small shoots; leaves of plants; forest litter, soil with an appreciable admixture of vegetable matter not therein provided for by regulation; and all parts of corn and allied plants, except from Mexico and the countries of Central America, the West Indies, and South America.

### Subpart D—International Registry, Insurance, C. O. D., and Certain Ordinary Services

GENERAL INFORMATION AND INSTRUCTIONS

§ 127.121 *Packing.* (a) The responsibility of properly enclosing, packing, and sealing parcels for transmission in the international mails rests with the sender and the postal service will not assume liability for loss, rifling, or damage arising from defects which may not be observed at the time of posting. If a parcel tendered for mailing does not in the opinion of the accepting employee fulfill the prescribed packing requirements, it shall be refused. (See § 127.72, for information relative to the packing of parcels; also see individual country items in Subpart F of this part as regards sealing.)

(b) Postmasters and other postal employees shall not assist in the preparation of parcels or other mail matter addressed to other countries.

§ 127.122 *Inquiries or complaints concerning registered or insured mail and charges therefor.* (a) A charge of 13 cents shall be made for an inquiry or complaint in connection with registered or insured mail addressed to a foreign country unless the sender has failed to receive a return receipt for which he paid the required fee, or is able to show that a prima facie loss or other irregularity has occurred through fault of the Postal Service by (1) exhibiting a letter or other report from the addressee dated a reasonable time after the article involved would, in regular course, have been delivered, or (2) satisfactorily accounting for the failure to exhibit such letter or report. (See Part 118 of this chapter as to handling of inquiries or complaints.)

(b) The charge is collected only once for inquiries or requests for information concerning several articles mailed simultaneously by the same sender addressed to the same addressee.

(c) The fee shall be affixed by means of postage stamps to the inquiry form or complaint and canceled.

(d) If the sender desires his inquiry to be sent by air mail or telegraph, he must pay, in addition to other fees and charges applicable, the postage for a one rate air mail letter to the country of destination, or the appropriate telegraph charge, as the case may be. If the sender also desires reply to his inquiry to be made by air mail or telegraph, he must pay double the air mail postage, or the telegraph charges both ways, as may be appropriate.

(e) No charge shall be made for inquiries or complaints in connection with international c. o. d. mail, except the charges applicable for sending by air mail or telegraph, as the case may be, if the sender requests these services.

(f) Inquiries are accepted only within the period of one year, counting from the day following that of mailing of the article. However, simple requests for information presented after that period are complied with regarding articles mailed less than 2 years previously.

(g) See § 127.86 regarding inquiries concerning ordinary articles addressed for delivery in other countries.

§ 127.123 *Delivery of insured, registered, and c. o. d. mail.* Such mail to or from other countries shall be delivered in accordance with the domestic delivery regulations of the country of destination for articles of the same nature.

§ 127.124 *Restricted delivery by addressee.* (a) The addressee in this country may restrict delivery to himself, or to his order, of registered, insured, and collect-on-delivery mail of foreign origin upon payment of the additional fee of 20 cents prescribed in § 58.6 (b) of this chapter.

(b) See § 127.136 concerning arrangements by which senders may restrict the delivery of registered Postal Union articles.

§ 127.126 *Parcels erroneously accepted as registered, insured, or c. o. d. mail addressed to other countries.* Such parcels must be conspicuously endorsed "Returned, insured contrary to instructions", or "Returned, sent c. o. d. contrary to instructions," as may be proper, and returned to the mailing office. These irregularities shall be reported to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

§ 127.127 *Recovery of lost mail.* Offices of mailing and address shall keep a record of all mail matter reported lost, and, in the case of registered, registered c. o. d., or ordinary mail, if the article is found, immediately notify the Inspector in Charge of the Division in which the office is located. In the case of insured or insured c. o. d. mail, however, notification shall be sent to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

§ 127.128 *Refund of postage.* Requests for refund of postage and fees for which no service has been rendered will be handled as outlined in § 150.1102 of this chapter.

§ 127.129 *Domestic regulations govern.* In general the regulations covering domestic mail matter may be applied in matters not herein or otherwise specifically provided for.

SPECIAL PROVISIONS APPLICABLE TO INTERNATIONAL REGISTRY SERVICE

§ 127.130 *Service available.* Unless indicated to the contrary under the country items in Subpart F of this part, Postal Union articles of all classifications may be registered. Parcel post packages may be registered to those countries with which the registry service is in operation, as indicated in the parcel post tables of the various country items in Subpart F of this part.

§ 127.131 *Preparation for mailing; declaration of value.* (a) Mail bearing an address written in ordinary pencil or consisting of initials is not acceptable for registration. Articles, other than those in "window" envelopes, are acceptable for registration when addressed with indelible pencil.

(b) Letter packages presented for registration must be prepared in accordance with the requirements for domestic registered mail. Letters presented for registration which bear traces of opening and resealing shall be rejected, particularly, if additional sealing devices are used such as brown tape, paper strips or seals, wax seals, extra mucilage, etc.

(c) Postal Union articles presented for registration under the classifications of "commercial papers," "printed matter," "samples of merchandise" and "small packets," or as "8-ounce merchandise packages" (except as provided in § 127.11), must not be sealed.

(d) Parcel post packages intended for registration to countries permitting registration of parcel post MUST be sealed. (See § 127.74 and individual country items in Subpart F of this part.)

(e) The full value of mail accepted for registration to other countries shall be declared by the mailer at the time of mailing in accordance with the requirements for domestic registered mail.

§ 127.132 *Registry fees.* For Postal Union articles the registry fee is 40 cents for Americo-Spanish countries and 55 cents for all other countries. See country items in Subpart F of this part, caption "PARCEL POST," for fees applicable to registered parcel post packages.

§ 127.133 *Free registration.* Any matter which is entitled to freedom of postage in the international mails (see § 127.32) is also entitled to free registration, but without the right to indemnity.

§ 127.134 *Registry receipt.* (a) The usual registry receipt shall be issued for mail matter accepted for registration to other countries. The class of each article shall be noted on the registry receipt and on the mailing office record, in order to distinguish registered international parcel post from registered Postal Union mail. The following abbreviations will be used in recording mail accepted for registration.

| Classification | Abbreviation |
|---|---|
| Letters | L. |
| Post cards | P. C. |
| Commercial papers | Com. P. |
| Printed matter | Prints. |
| Samples of merchandise | Sample. |
| Small packets | S. P. |
| Parcel post | P. P. |

(b) In the case of parcels which are registered under the provisions of the Parcel Post Agreement of the Postal Union of the Americas and Spain (see § 127.159), there must be a notation on the receipt and its counterpart (mailing office record) showing the exact weight of the parcel and the total amount of postage paid, in addition to the registry number, amount of fee paid, date of mailing, and the names and addresses of sender and addressee.

(c) The registry receipt and office record covering an air mail article or air parcel shall be endorsed "Via air mail."

(d) When the sender restricts delivery to addressee only, as provided in § 127.136, the registry receipt and the mailing office record shall bear a notation to that effect.

§ 127.135 *Registry return receipts—* (a) *Requested at time of mailing.* (1) Fee 10 cents. Registered articles for which the sender requests a return receipt shall bear, on the address side, the conspicuous notation "Avis de reception" (return receipt) or the imprint of a stamp "A. R.", followed by the notation "PAR AVION" (by air mail) when the sender has requested the return of the receipt by air mail. The return of the completed return receipts by air mail will be limited to those receipts relating to articles transmitted to destination by air. See subparagraph (4) of this paragraph regarding marking of return receipt form.

(2) If the sender desires that his return receipt be sent back to him by air mail he must pay for this return, in addition to the return receipt fee stated in subparagraph (1) of this paragraph the air mail postage applicable to a one-rate air mail letter to the country of destination.

(3) Form 2865 shall be made up and fastened securely to the outside of the article. The form shall be supplied by all first-, second-, and third-class post offices, but in case of fourth-class offices it will be supplied by the United States exchange office of dispatch, unless the mailing office has been specially authorized otherwise. The domestic return receipt (Form 3811) may be used for registered articles addressed for delivery in Canada (but not to other countries) when no Form 2865 is available.

(4) When the return receipt is to be returned by air mail the form shall be marked in conspicuous characters on the address side "Renvoi Par Avion" (return by air mail) and must bear the blue Par Avion (by air mail) label, Form 2978.

(b) *Requested after mailing.* (1) Fee, 13 cents. Requests for return receipts made after mailing are accepted only within the period of one year from the day following that of mailing of the article or parcel.

(2) Except in the case of Canada, Form 542 (at first- and second-class offices) or 1510 (at third- and fourth-class offices) shall be executed and forwarded to the Inspector in Charge of the division in which the office of origin is located. Form 2865 (endorsed at the top "Request for advice of delivery made after mailing" or "Duplicate advice of delivery" as may be appropriate) shall be forwarded with Form 542 or 1510 sent from first-, second-, and third-class offices. Form 1510 shall also be endorsed to show whether the receipt was requested at or after the time the article was mailed.

(3) In the case of Canada, Form 1510 shall be executed at all offices and endorsed as indicated in subparagraph (2) of this paragraph; also, Form 2865 shall be attached (if Form 2865 is not available, domestic form of return receipt, Form 3811, may be used) and sent in the usual official penalty envelope to the proper Canadian District Post Office Inspector, as indicated in the list on page 133.

(c) *Completion of return receipts.* (1) Care shall be exercised to see that return receipts from other countries are duly signed by the addressee or his agent with ink or indelible pencil, if practicable. When registered mail is signed for by an authorized agent of the addressee the name of both the addressee and agent shall appear on the card. After completion by the office of destination, the receipts shall be postmarked and returned. The completed receipts are returned in the ordinary (unregistered) mail, by surface means unless they bear the notation 'Renvoi par avion" and a "Par Avion" label, in which case they must be returned at once by air mail. (See § 114.23 of this chapter.)

(2) Return receipts for registered articles delivered in other countries are completed in accordance with requirements of the country making delivery, which vary according to the country involved. The signature of the addressee is not required under any pretext in France. Complaints with respect to completion shall be transmitted, together with the relative receipt, to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C.

§ 127.136 *Restricted delivery by senders.* (a) Senders in this country may restrict the delivery of registered Postal Union articles addressed to the following countries on condition that the articles are accompanied with a return receipt and are endorsed by the sender in the manner indicated:

| Country | Endorsement required |
|---|---|
| Afghanistan | "A remettre en main propre." |
| Albania | "A remettre en main propre" or "Per t'u dorezuar ne dore vet." |
| Austria | "A remettre en main propre" or "Zu eigenen Handen." |
| Belgium | "A remettre en main propre" or the equivalent in the Flemish language. |
| Bulgaria | "Lichno." |
| China (Taiwan only) | "A remettre en main propre" or the equivalent in a language known at the place of destination. |
| Czechoslovakia | "A remettre en main propre." |
| Denmark | "Personlig." |
| Dominica (Windward Islands) | "To be delivered to the addressee in person." |
| Falkland Islands | "To be delivered to the addressee in person." |
| Finland | "A remettre en main propre." |
| French Somaliland | "A remettre en main propre." |
| Germany | "A remettre en main propre" or "Eigenhändig." |
| Greece | "A remettre en main propre" or "ΙΔΙΑΧΕΙΡΙΣΙΝ". |
| Hungary | "A remettre en main propre." |

| Country | Endorsement required |
|---|---|
| Ireland | "A remettre en main propre" or "Afhendist vidtakanda sjálfum." |
| Italy | "A remettre en main propre." |
| Lebanon | "A remettre en main propre." |
| Luxembourg | "A remettre en main propre." |
| Montserrat (Leeward Islands) | "To be delivered to the addressee in person." |
| Poland | "A remettre en main propre." |
| Portugal | "A remettre en main propre." |
| Rumania | "A remettre en main propre." |
| Sweden | "A remettre en main propre" or "Far utlämnas endast till adressaten personligen." |
| Switzerland | "A remettre en main propre." |
| Turkey | "Addolun kendine verilecek." |
| Union of Soviet Socialist Republics | "A remettre en main propre." |
| Uruguay | "A remettre en main propre." |

(b) The endorsements shown in the second column shall be placed above and near the address and must be underlined in red. The country of destination will make two attempts to effect delivery and if unsuccessful the article will be returned as undeliverable.

(c) Only the usual registry fee of 40 or 55 cents, plus the registry return receipt fee of 10 cents, is chargeable in connection with registered Postal Union articles of which the delivery has been restricted in accordance with the foregoing provisions.

(d) Registered Postal Union articles from other countries which are accompanied with a return receipt and bear the notation (underlined in red) "Deliver to addressee only," or a similar notation, shall be delivered only to the addressee. Two attempts must be made to deliver such articles. If delivery cannot be effected by the second attempt, the articles shall be returned to the sender as undeliverable.

§ 127.137 *Makeup and dispatch.* Registered mail shall be dispatched as directed by the Postal Laws and Regulations. See also the "General foreign separating scheme," § 127.41.

§ 127.138 *Preparation for dispatch to the New York, N. Y., exchange office.* To permit expeditious handling, registered mail proper for dispatch to other countries (except Canada or Mexico) via New York, N. Y., shall, when the quantity warrants, be dispatched in a single enclosure (a registered jacket, sack, or pouch) addressed direct to "New York-Foreign."

§ 127.139 *Indemnity.* See Subpart E of this part.

SPECIAL PROVISIONS APPLICABLE TO INTERNATIONAL INSURANCE SERVICE

§ 127.140 *Service available.* Insured parcel post service is in effect between the United States and the following countries:

Argentina.
Australia.
Azores.
Bahamas.
Barbados.
Belgium (surface only).
British Guiana.
Canada.
Cape Verde Islands.
Colombia.
Corsica.
Czechoslovakia.
Denmark (including Faroe Islands and Greenland).
Ecuador.
Finland.
France.
Germany (Western zone and western sector of Berlin).
Gibraltar.
Gold Coast Colony.
Great Britain and Northern Ireland.
Guatemala.
Iceland.
Ireland.
Italy.
Japan.
Leeward Islands.
Madeira Islands.
Netherlands.
Netherlands West Indies.
New Zealand.
Norway.
Portugal.
Portuguese East Africa (Mozambique).
Portuguese West Africa.
Ryukyu Islands.
Surinam.
Sweden.
Switzerland.
Western Samoa (British).
Windward Islands.
Yugoslavia.

§ 127.141 *Preparation for mailing.* (a) The general provisions for the preparation of ordinary parcels to other countries (see Subpart B of this part and individual country items in Subpart F) apply also to insured parcels.

(b) The condition of each parcel at the time of receipt, or dispatch, shall be carefully noted and appropriate action taken if the article is not in good condition or if other irregularities are noted.

(c) The labels or stamps on insured parcels must be so placed that they cannot serve to conceal injury to the cover. They must not be folded over two sides of the cover so as to hide the edge.

§ 127.142 *Limit of insurance.* (a) See the subcaption "Insurance" under the relative country items in Subpart F of this part for information as to limits of insurance applicable to the various countries.

(b) No parcel can be insured for more than the actual value of the contents or for more than the maximum amount of indemnity payable in connection with insured parcels for the country concerned. However, if desired by the sender a parcel may be insured for a portion of the value of the contents, in which case only the fee covering the amount of insurance desired shall be charged.

§ 127.143 *Indication of insured value.* (a) The sender of an insured parcel shall be required to indicate in United States currency (figures only) in the appropriate space on the customs declaration (Form 2966) the amount for which the parcel is insured. This will be the amount for which the sender elects to insure the parcel, which must not in any case exceed either the value of the contents or the maximum amount of indemnity payable in connection with insured parcels for the country concerned.

(b) In some cases, as shown in the subcaption "Insurance" under the relative country items in Subpart F of this part, it is necessary to mark the wrappers of the parcels to show the amount for which the parcels are insured. When the country of destination requires that the insured value be shown in gold francs, the conversion of United States currency into gold francs is made on the basis of 33 cents (approximately) equals 1 gold franc. The gold franc equivalent is determined by multiplying the amount in United States currency by 3. For example, $5.25 multiplied by 3 is equal to 15.75 gold francs.

(c) When the amount of the insured value is required to be shown both in arabic figures and in roman letters the information shall be hand printed or typewritten on a label and affixed to the parcel, and not written in ordinary script.

§ 127.144 *Marking and numbering.* (a) Each insured parcel shall be marked or labeled or stamped "Insured" in conspicuous place on the address side preferably to the left and directly beside the country of destination, or, beneath the country of destination. For this purpose the insurance stamp used in the domestic service shall be used as far as practicable, provided that the domestic "minimum fee" insurance stamp must not be used. Each insured parcel shall be given a number which must be clearly written or stamped immediately below the endorsement "Insured." Parcels marked "Insured" by other than the Postal Service, but not actually insured by the Postal Service, are not mailable.

(b) The customs declaration and the dispatch note, when a dispatch note is required, must also be marked or labeled or stamped "Insured" and bear the insurance number given the parcel.

(c) The postmarking stamp of the office of mailing must appear at all breaks (cut or torn edges) of any gummed paper strips used in the sealing of insured parcels.

(d) Parcels containing fragile or perishable articles must be so marked, i. e., "Fragile," "Perishable," "Glass," or "Eggs," as may be appropriate.

§ 127.145 *Insurance receipts.* Insured parcels may be numbered and recorded in the same series and forms (except Form 3813-B) as domestic insured mail. (Form 3813-P at all post offices of the first class and a great many offices of the second class and Form 3813-A at offices not using Form 3813-P.) The insurance receipt and office record covering an air mail article or air parcel shall be endorsed "Via air mail."

§ 127.146 *Forwarding or return to another country.* At the request of the sender or addressee, insured parcels addressed to foreign countries may be reforwarded or returned to another country, provided they can be reforwarded or returned as insured. If desired, senders may endorse their parcels "Do not forward to a third country", in which case the parcels will not be forwarded to another country.

§ 127.147 *Insurance return receipts.* Fee, 10 cents if requested at time of mailing; 13 cents if requested after mailing. Return receipts for insured parcels are furnished under the same conditions as apply to registry return receipts (see § 127.135). Such return receipts shall be stamped or marked "Insured." No return receipts are furnished in the case of insured parcels for Canada.

§ 127.148 *Indemnity.* See Subpart E of this part.

SPECIAL PROVISIONS APPLICABLE TO INTERNATIONAL C. O. D. SERVICE

§ 127.149 *Service available.* (a) C. o. d. service is in effect between the United States and Mexico.

(b) The c. o. d. service to Colombia is temporarily suspended.

(c) The c. o. d. service with Mexico applies to registered parcel post packages and to registered Postal Union printed matter, small packets, and 8-ounce merchandise packages. The c. o. d. service from Colombia applies to insured parcel post packages only.

§ 127.150 *Marking and numbering.* (a) No c. o. d. tag shall be used. Each c. o. d. parcel must bear on the address side and on the relative customs declaration the conspicuous impression of an official rubber stamp reading "c. o. d." In close proximity to such impression there must appear the number (only one original number which shall be the registration number) given the parcel. Where advisable, a separate series of numbers may be assigned for registered c. o. d. parcels and separate registration records may be maintained for such parcels. When the quantity of c. o. d. mail is limited, it may be numbered in the same series and recorded on the same forms as other registered parcels for the country concerned.

(b) C. o. d. parcels mailed in Colombia and Mexico are stamped "Reembolso."

(c) The postmarking stamp of the office of mailing must appear at all breaks (cut or torn edges) of any gummed paper strips used in the sealing of c. o. d. articles.

§ 127.151 *Registry receipts.* The usual registration receipt will be issued for c. o. d. registered parcels for other countries. In addition to the data ordinarily placed upon such receipts, there must be added a notation showing the amount of charges to be collected and the amount of the c. o. d. fee paid, exclusive of postage. The mailing office record must also show such charges and fee. Firm mailing records may be used when desired. The registration receipt and office record covering a c. o. d. air mail Postal Union article or air parcel shall be endorsed "Via air mail."

§ 127.152 *Return receipts.* Return receipts will not be furnished for registered c. o. d. parcels for Mexico.

§ 127.153 *Makeup and dispatch.* When the quantity or bulk of registered c. o. d. parcels for foreign countries available for dispatch from any United States post office, or railway post office to the United States exchange office from which they are due to be dispatched abroad is sufficient to warrant the use of a separate registry pouch or jacket, the bill should be headed to indicate that the articles described therein are c. o. d. pieces. When c. o. d. registered parcels are dispatched with other registered mail, the endorsement "c. o. d." must appear opposite the entry of each c. o. d. registered parcel.

§ 127.154 *Recording and handling.* (a) Except as may otherwise be provided, c. o. d. registered parcels for and from Mexico shall be recorded, dispatched and handled in transit between the offices of mailing and the authorized exchange offices in the same manner as other registered parcels exchanged with the country concerned.

(b) Insured collect-on-delivery parcels from Colombia shall be delivered and recorded at the post offices of address in the United States in the same manner and on the same records, so far as practicable, as domestic c. o. d. parcels, such records to show the date of receipt, c. o. d. number, office of mailing, including the name of the province, county, or district, as the case may be, if available, the amount of the c. o. d. charges to be collected on delivery, which may be indicated on the delivery office record in the following manner: "c. o. d., $_____" and disposition (including number and date of money order, if delivered, or date and to whom forwarded or returned).

(c) Collect-on-delivery registered parcels from Mexico shall be delivered and recorded at the post office of address in the same manner and on the same records, so far as practicable, as other registered parcels from the country concerned. Such records shall show the date of receipt, c. o. d. (registration) number, post office of mailing, including the name of the State, province, county, or district, if available, the amount of c. o. d. charges to be collected on delivery and disposition (including number and date of money order, if delivered, or date and to whom forwarded or returned).

(d) Extreme care shall be exercised to see that the correct amount of c. o. d. charges is recorded in the office record before a c. o. d. parcel is sent out for delivery, as the Postal Administration of the United States is responsible for any error in failing to collect the correct amount of c. o. d. charges stated on a parcel. Collection may be made from the employee responsible for error in failure to collect the amount stated on the parcel, if such collection is not made on delivery and subsequently cannot be made from the addressee. (See § 44.12 (b) of this chapter.)

§ 127.155 *Requests for change in amount of charges.* (a) Requests for an increase or reduction or cancellation of the c. o. d. charges must be made by senders, in writing to their local postmasters, a complete description of the particular c. o. d. parcel involved being given. In each instance the postmaster at the office of mailing shall make out a Form 3818 or a letter indicating the nature of the alteration of the c. o. d. charges, filling in all necessary particulars, and then transmit the Form 3818 or letter as outlined in § 127.305 (b) (7) (vi). Postage stamps in the amount of 15 cents must be affixed to the Form 3818 or letter and cancelled by the postmaster. The letter of authorization from the senders shall be filed by the postmaster at the office of mailing, with the mailing-office record.

(b) A fee of 15 cents is chargeable for a single request for an increase in or for total or partial cancellation of the c. o. d. charges on several c. o. d. parcels mailed simultaneously at the same office, by the same sender, and addressed to the same addressee. If request is to be made by telegraph or cable, as the case may be, an amount sufficient to prepay the telegram or cablegram at the usual rate must accompany the request.

(c) Requests for a reduction or cancellation of the c. o. d. charges on parcels from Colombia will be sent through the New York office. (See § 127.305 (b) (7) (viii), concerning the handling of requests for an increase or reduction or cancellation of c. o. d. charges on parcels from Mexico.) Postmasters receiving requests from the postmaster at New York for a reduction or cancellation of the amounts of the c. o. d. charges on c. o. d. parcels will promptly comply with such requests. If such requests are received direct from the foreign country, they should be referred to the postmaster at New York to have them verified. The c. o. d. parcels involved shall in the meantime be held for reply from New York.

§ 127.156 *Forwarding.* C. o. d. parcels may not be forwarded to a third country. They may, however, be forwarded within the country of destination or to the country of origin.

§ 127.157 *Delivery and accounting for charges.* (a) The delivering post office shall collect from the addressee of a collect-on-delivery parcel the full amount of the collect-on-delivery charges shown on the parcel, plus appropriate money-order fee. The full amount of the collect-on-delivery charges, without any deduction for any charges of any kind, shall be remitted to the sender by means of an international money order.

(b) Examination of the contents of a c. o. d. parcel by the addressee is prohibited until proper receipt therefor is obtained (on Form 3849b) and the c. o. d. charges and any other charges that may be due thereon have been collected even though the sender or addressee may make request that such action be permitted. The receipt shall be filed as a record of the transaction for future reference. Any postal employee permitting such preliminary examination by the addressee may be held personally responsible in case of financial loss to the sender resulting from such action.

(c) In the event of the receipt of a c. o. d. parcel from a country with which money order service is in effect, but c. o. d. service has not been inaugurated, the money order, drawn in favor of sender as usual, covering the c. o. d. charges borne by the parcel, shall be transmitted to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., advising the full particulars of mailing of the parcel.

(d) In a case, however, in which there is neither money order nor c. o. d., service with the country concerned, or such services have been suspended, postmasters shall deposit the collected c. o. d. charges, plus appropriate money order fee, in their official checking account,

draw a check in favor of the Assistant Postmaster General, Bureau of Transportation, for the amount deposited and dispose of as indicated in the preceding paragraph.

(e) When c. o. d. parcels from other countries are returned by carriers undelivered or when they are delivered and the c. o. d. charges turned in by the carriers, the office record of the parcels must be checked in the carrier's presence and the entries so checked must be initialed by the post office employee who accepts and assumes custody of the c. o. d. charges or of the undelivered c. o. d. parcels.

§ 127.158 *Indemnity.* (a) When the c. o. d. charges are less than the value, the sender may pay a higher fee in order to obtain indemnity for loss, within the limit of indemnity allowable for the fee paid.

(b) For further information see Subpart E of this part.

ORDINARY AMERICO-SPANISH PARCEL POST

§ 127.159 *Special provisions applicable to ordinary Americo-Spanish parcel post.* (a) The following special provisions are applicable to ordinary parcel post (surface or air) for the Americo-Spanish countries listed below:

| | |
|---|---|
| Argentina. | Nicaragua. |
| Bolivia. | Panama. |
| Brazil. | Paraguay. |
| Chile. | Peru. |
| Colombia. | Salvador (El). |
| Costa Rica. | Spain, including Balearic Islands, Canary Islands, and Spanish offices in Northern Africa. |
| Dominican Republic. | |
| Ecuador. | |
| Guatemala. | |
| Haiti. | |
| Honduras (Rep of). | Spanish Guinea. |
| Mexico. | Uruguay. |
| Morocco (Spanish Zone). | Venezuela. |

(b) Postmasters shall issue a receipt on Form 2932 for each ordinary parcel (surface and air) accepted for mailing to any of the countries named in paragraph (a) of this article. These receipts will be subject to a charge of 1 cent for each parcel concerned. Postage stamps to cover the charge shall be affixed to the receipts and canceled by the postmark of the office of mailing.

(c) Each descriptive receipt shall show the date of mailing, exact weight of the parcel and total amount of postage paid, and shall be completed by the sender to show the name and address of the addressee. The receipt covering an air parcel shall be endorsed "via air mail."

(d) Firm mailing sheets may be utilized by carbon process where considerable quantities of ordinary parcels are mailed to the countries listed in paragraph (a) of this article. Extreme care shall be exercised to see that the receipt is altered, whenever necessary, to show that it is being used for an ordinary Americo-Spanish parcel.

(e) No return receipts are provided in connection with ordinary parcels addressed to the countries listed in paragraph (a) of this section, and aside from the issuance of receipts to the sender such parcels shall be treated the same as other ordinary international parcels.

(f) All inquiries, complaints, and claims for indemnity on account of the loss, rifling, damage, wrong delivery or delay in delivery of ordinary parcels exchanged with the countries listed in paragraph (a) of this section, shall be forwarded to the Inspector in Charge of the Division in which post offices of origin or destination are located, in accordance with the provisions of §§ 118.9 and 118.10 of this chapter. Claims for indemnity shall not be filed until there is sufficient evidence obtained to indicate a probable loss, rifling, or damage.

§ 127.160 *Indemnity.* See Subpart E of this part.

Subpart E—Indemnity

§ 127.161 *Claims for indemnity.* (a) Claims for indemnity on account of the loss, rifling, or damage of international registered (Postal Union or parcel post) or registered c. o. d. mail shall be filed on form 565.

(b) Form 2855 shall be used in connection with complaints of the loss, rifling, or damage of international insured, insured c. o. d., or Americo-Spanish ordinary parcel post mail and for nonreceipt or shortage of c. o. d. charges borne by all international c. o. d. parcels. Instructions as to the disposition of the form will be found on page 2 thereof.

(c) The report from the addressee on which the claim is based shall accompany the claim.

§ 127.162 *Duplicate claims.* Extreme care shall be exercised to prevent duplicate applications for indemnity which shall be executed and endorsed "Duplicate" only after it has been definitely established that the original has been lost or destroyed. The "Duplicate" shall also show the last-known disposition of the original, including the date.

§ 127.163 *Proof of value.* In the event of the loss, rifling, or damage of registered, insured, c. o. d., and ordinary parcels, the burden of satisfactorily establishing the value of the contents at the time of mailing or that the amount claimed, particularly in the case of heirlooms or antiques, is not in excess of the ordinary market value of similar articles rests, in the absence of a complete description of the contents, with the claimant. Sentimental values arising from associations of articles cannot properly be allowed.

§ 127.164 *Indemnity for Postal Union registered articles.* (a) Except as stated in § 127.169, the sender of a Postal Union registered article is entitled to indemnity as follows:

(1) Any amount claimed not exceeding $3.27 in the case of total loss (envelope or wrapper and total contents, as distinguished from loss of all or a portion of the contents) of such articles for Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Haiti, Honduras (Republic of), Mexico, Morocco (Spanish Zone), Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain (including Balearic and Canary Islands, and Spanish Officers in Northern Africa), Spanish Guinea, Spanish West Africa, Uruguay, and Venezuela.

(2) Any amount claimed not exceeding $8.17 for total loss of such articles for all other Postal Union countries except Canada.

(3) For actual value not exceeding $25 for total loss of such articles exchanged with Canada.

(b) In the case of damage or of partial or complete loss or rifling of the contents when the articles are mailed in this country and responsibility rests with the Postal Administration of the United States and when bulk billed for actual amount thereof in amount claimed but not exceeding $8.17, except that the maximum amount is $3.27 in the case of the countries listed in paragraph (a) (1) of this section.

(c) In addition, in the case of partial or complete loss or rifling of the contents of such articles for Great Britain and Northern Ireland and Switzerland (regardless of where it occurs), for the actual amount thereof not exceeding $8.17; for the intrinsic value, but not exceeding $8.17, in the case of damage while in the custody of the postal service to such extent as to destroy entirely the value of an article contained in a registered packet (unless the damage arose from the fault of the sender or from causes beyond control).

(d) In the event of loss, rifling, or damage, in cases in which money in cash, bank notes or values payable to bearer are prohibited transmission in the mails, limited indemnity may be specially paid under the conditions set forth in paragraph (b) of this section.

§ 127.165 *Indemnity for Americo-Spanish ordinary and registered parcel post.* (a) Except under the same conditions as stated in § 127.169, senders of ordinary and registered parcel post packages to Argentina (ordinary only), Bolivia, Brazil, Chile, Colombia (ordinary only), Costa Rica, Dominican Republic, Ecuador (ordinary only), Guatemala (ordinary only), Haiti, Honduras (Republic of), Mexico, Morocco (Spanish Zone), Nicaragua, Panama, Paraguay, Peru, Salvador (El), Spain (including Balearic and Canary Islands and the Spanish Offices in Northern Africa), Spanish Guinea, Uruguay, and Venezuela have the right to indemnity equivalent to the actual amount of the loss, rifling, or damage of such parcels but not exceeding the maximum amount for each weight unit, as follows:

| 2 lbs. | 7 lbs. | 11 lbs. | 22 lbs. | [illegible] lbs. | 44 |
|---|---|---|---|---|---|
| $3.27 | $4.90 | $8.17 | $13.07 | $17 | $32.87 |

[1] Up to 50 pounds for Panama.

(b) See §§ 127.166 and 127.167 and the relative country heading in Subpart F of this part concerning indemnity for registered or insured parcels for Ecuador.

(c) See § 127.167 and respective country headings in Subpart F of this part relative to indemnity for insured parcels for Argentina, Colombia, and Guatemala.

§ 127.166 *Indemnity for other registered parcel post.* (a) Except as stated in § 127.169 and under the country items of certain countries in connection with registered parcels, indemnity for actual value in amount claimed up to 50 gold francs ($16.33) may be paid for the loss, rifling or damage of registered parcel post packages exchanged with Cape Verde Islands and Portuguese West Africa and up to $10 for the total loss (wrapper and contents) of such parcels exchanged with Cuba.

(b) Under the same conditions, indemnity for actual value in amount claimed may be paid for the loss, rifling or damage of registered parcel post packages exchanged with Ecuador, and for the total loss of registered parcel post packages exchanged with Portugal (including Madeira and the Azores), provided that the indemnity in any case shall not exceed the amount prescribed for the registry fee paid at the time of mailing. (See country items in Subpart F of this part for scales of fees and limits of indemnity payable.)

(c) Except as stated in this section and in § 127.165, indemnity is not paid in connection with registered parcel post packages exchanged with any other country.

§ 127.167 *Indemnity for insured parcel post.* (a) Except as stated in § 127.169, as well as under the country items of certain countries, indemnity is paid for loss, rifling, or damage of insured parcels in the actual amount, based on actual value of contents of the parcel at the time and place of mailing, provided in any case that the indemnity shall not exceed the amount prescribed for the insurance fee paid at the time of mailing. (See § 127.140 for list of countries with which insured parcels are exchanged; also see country items in Subpart F of this part for scales of fees and limits of indemnity payable.)

(b) In the case of Canada, limited indemnity may specially be paid under the usual conditions for the loss, rifling or damage of the articles enumerated in paragraph (c), of the parcel post subcaption "Insurance" under the country item "Canada" in subpart F of this part.

(c) In the case of an insured parcel forwarded or returned to a third country, the rightful claimant shall be entitled to only such indemnity, if any, for any loss, rifling, or damage which occurs subsequent to the redispatch of the parcel in the country of original address, as the country in which the loss, rifling, or damage occurred is willing or obligated to pay under any agreement in force between the countries involved.

§ 127.168 *Indemnity for c. o. d. mail.* Under the same conditions that apply to registered parcels without c. o. d. charges, indemnity is paid for the loss of registered c. o. d. parcels exchanged with Mexico, or when delivery of a c. o. d. parcel has been effected but through the fault of the Postal Service the collect-on-delivery charges, as a whole or in part, have not been remitted to the sender.

§ 127.169 *Principal exceptions to indemnity.* No indemnity will be paid:

(a) For damage to Postal Union registered articles or partial or complete loss or rifling of the contents of Postal Union registered articles, except as stated in § 127.164, paragraphs (b) and (c) of this section.

(b) As a rule, in case of parcels which have been delivered without external trace of rifling or damage and accepted without reservation as to the condition of the contents.

(c) For the loss of Postal Union registered articles in the postal service of any country which had not, up to the date of mailing of the registered articles, adhered to the Universal Postal Union Convention, unless such country had specially agreed to make reimbursement for the loss.

(d) In case of loss or damage through "force majeure".

(e) When loss, rifling, or damage has been caused by the fault or negligence of the sender or the addressee or the representative of either.

(f) When an article or parcel cannot be accounted for in consequence of the destruction of service records through "force majeure."

(g) When the contents are prohibited, except as stated in §§ 127.164 (d) and 127.167 (b).

(h) In case the claimant, with intent to defraud, shall declare the contents of a parcel to be above their real value.

(i) For an article or parcel seized by the customs.

(j) In the case of parcels which contain matter of no intrinsic value or matter which did not conform to the stipulations of the conventions applicable, or which were not posted in the manner prescribed. However, in the event of loss, rifling, or damage in this country of mail matter erroneously accepted for insurance to other countries, or, on which postage was erroneously collected at other than parcel post rates, but otherwise properly accepted for mailing, limited indemnity may specially be paid under the conditions set forth in §§ 127.164, 127.165, 127.166, 127.167 (a), and 127.168.

(k) For indirect loss or loss of profits in the case of parcels.

(l) When no inquiry or application for indemnity has been made by claimant or his representative within a year commencing with the day following the posting of the article or parcel. In the case of insured mail with Canada, however, a claim or an initial inquiry, oral or written, must be made within six months from the date of mailing unless it is established to the satisfaction of the Post Office Department that the delay was unavoidable and not the fault of the claimant.

(m) For damage which proceeds from the inherent vice or quality of the contents, that is, its inability, due to its nature, to withstand the ordinary incidents of the contemplated carriage.

(n) In case of claim for damage, unless the parcel was adequately packed for the length of the journey and for the protection of the contents; also, unless the parcel was conspicuously endorsed to show the nature of the contents, such as "Fragile", "Glass", "Eggs" or "Perishable" as may be appropriate. (See relative country item in Subpart F of this part with respect to responsibility for parcels containing eggs exchanged with Great Britain and Northern Ireland.) Except in the case of Canada no indemnity is payable under any conditions in respect of parcels which contain perishable matter.

(o) In cases in which full compensation or reimbursement has otherwise been made by the Post Office Department or by any outside firm or corporation whatsoever except on a pro-rata basis as co-insurer.

(p) For the rifling or damage of registered or insured parcels exchanged with Portugal (including Madeira and the Azores), of registered parcels exchanged with Cuba, and of c. o. d. registered mail exchanged with Mexico.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(5) *Observations.* (i) Parcels must not exceed £50 in value.

(ii) Parcels must be packed in wood, tin, canvas, linen, or similar material, and not merely in brown paper or cardboard, and be securely sealed with wax or lead, preferably lead. Parcels not packed in wooden or metal boxes must be covered with canvas, linen, or similar material, sewed up at the flaps and folds and secured with string sealed at the knots and ends. Wooden boxes must be of stout material well screwed or nailed together at the sides, top, and bottom. Light and bulky articles must be packed in strong wooden cases. Parcels containing bacon, ham, honey, cheese, cakes, puddings, fish, olives, butter, or other substances likely to cause damage by exuding, must, in addition to the outer packing described above, be inclosed in hermetically sealed tins and surrounded with some absorbent material such as sawdust.

(iii) The following details must be mentioned in the customs declarations accompanying parcels containing liquids composed of over 2 percent alcohol: (*a*) Nature of the liquid; (*b*) number of bottles or containers; (*c*) total volume of liquid in liters; (*d*) percentage of pure alcohol by volume, or total volume of pure alcohol in liters.

(iv) If this information is not furnished by the senders, the parcels will be appraised at the highest rate by the Sudan customs authorities.

(6) *Prohibitions.* (i) For sanitary reasons: Shaving brushes exported from Japan.

(ii) For the protection of animals or plants: Unseeded cotton.

(iii) (*a*) *Arms, etc.:* 303 rifles, 450 and 455 revolvers.

(*b*) Every parcel containing firearms, including bolts and triggers for firearms, must bear on the outside an indication that it contains firearms, or bolts or triggers for firearms.

(*c*) See also "Import Restrictions" following.

(iv) (*a*) For other reasons: Articles of gold, unless they bear a mark recognized by the Sudan Government.

(*b*) Current coins; counterfeit coins.

(*c*) False weights or measures.

(*d*) Cotton thread or yarn, for sale at retail, not bearing a label or mark clearly

indicating the length or weight in accordance with the weights and measures legal in the Sudan.

(7) *Import restrictions.* (i) The attention of senders should be called to the following requirements, which are to be met by addressees:

(ii) Addressees may be required to obtain import licenses in some cases.

(iii) Sulfur and certain drugs and poisons must comply with the regulations published by the Sudan Government.

(iv) Live plants (including bulbs), cotton seed, and seeded cotton require a permit issued by the Director of Agriculture, Khartoum. Cotton seed will be subject to fumigation before delivery to the addressee.

(v) Arms (other than those prohibited) require a permit issued by the Civil Secretary Khartoum, or by the Governor of the Province in which the addressee resides.

(vi) Saccharine, sugar (cane or beet) and candied sugar require a permit issued by the Sugar Control Section, Customs Department, Khartoum.

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. Dutiable articles (merchandise) dispatched in letters or packages prepaid at the letter rate of postage should bear a written notation stating that the green label, Form 2976 (C 1), was affixed at the time of mailing. (See § 127.3.)

(7) *Diplomatic and consular mail.* (See § 127.32.)

(8) *Eight-ounce merchandise packages.* Accepted. (See § 127.11.)

(9) *Observations.* (i) Any Postal Union articles (letters and letter packages, commercial papers, samples, printed matter, and small packets) which may be considered dutiable must bear the green label, Form 2976 (C 1). Such articles must also be accompanied by the paper form of customs declaration, Form 2976–A; except small packets, which must be accompanied by two copies of the customs declaration.

(ii) Articles containing catalogs, booklets, and printed matter for commercial advertising, not bearing the green label (C 1), will be delivered through the customs upon payment of duty applicable, but no fine will be imposed for the omission. Moreover, such articles, when the addressees have been duly notified but fail to respond, will be returned to origin. Other articles not prepared in the manner described in the preceding paragraph are subject to confiscation.

(iii) The following articles of printed matter are considered as dutiable in Argentina: Commercial prints; i. e., bills of exchange, checks, policies, stocks, postage stamps, letters of credit and other similar documents; invoices, credit notes, memoranda, stamped envelopes and stamped paper; lists, receipts, and other similar documents; lithographs and engravings; cardboard prints in colors or chromolithography for posting or other purposes, including bills of all kinds, calendars with or without pads; prints on bristol board, in card form or otherwise, for posting with or without inscriptions, with the exception of photographs; printed papers for posting and ordinary prints on cardboard, likewise for posting, as well as separate calendar pads; price lists and commercial catalogs relating exclusively to imported articles; engravings, chromos, engraved reproductions of oil paintings, and prints in general, in colors, on bristol board, paper, or cardboard, printed books, almanacs, and advertising posters.

(10) *Prohibitions.* (i) Money in cash, bank notes, or values payable to the bearer, jewels, precious stones or precious metals.

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: Limited to 3 ordinary parcels. (See § 127.79.)[1]
Registration: No.
Insurance: Yes.
C. o. d.: No.
Consular Invoices: Yes. See subparagraph (7) of this paragraph.

[1] The relative customs declarations should indicate the number of parcels constituting the group (2 or 3) and the combined gross weight of the parcels comprised in the group, and bear the letter indicating the particular group in case there is more than one group, so that the parcels of each group and the relative customs declarations may be associated with one another by the dispatching exchange office to enable it to properly list the parcels.

(2) *Indemnity.* For ordinary parcels, see § 127.165. For insured parcels, see subcaption "Insurance."

(3) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels surface and air). (See § 127.159.)

(4) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth. Round (spherical) parcels must not exceed 19 inches in diameter.

(5) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(6) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in United States currency and in gold francs (figures only), as per the following example:

Insured Value
$120.00 (U. S.)
360 00 Gold Francs

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) For general information concerning insurance service see §§ 127.140 to 127.148.

(7) *Observations.* (i) Postmasters will refuse to accept parcels unless packed in wooden boxes made of material at least a half inch in thickness, or enclosed in cloth, canvas, or other substantial material.

(ii) Customs declarations on parcels should bear the street addresses of the addressees and indicate the quantity and exact weight of each article enclosed in the parcel.

(iii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(iv) Ordinary and insured parcels from the United States are held at the disposal of the addressees for a period of 60 days, except that the period of retention will be extended to 90 days for articles addressed to General Delivery (Poste Restante) or those whose address has been changed by the senders, as well as in cases where the addressees are unable to complete the necessary formalities within 60 days and request in writing an extension of the period.

(v) Parcels containing used table or bed linen and used clothing of all kinds are prohibited importation unless such parcels are accompanied by a disinfection certificate issued by the competent authorities in this country and legalized by a consul of Argentina. Such certificates of disinfection may be obtained from the local board of health or from some firm with facilities for disinfecting the articles involved. Senders must endorse the wrappers of the parcels concerned to show that the certificate of disinfection is enclosed.

(vi) Consular invoices are required for used merchandise or merchandise intended for commercial purposes whose value exceeds 550 Argentine pesos (approximately $90).

(vii) Argentine consuls are located in the following cities:

| | |
|---|---|
| Boston, Mass. | New Orleans, La. |
| Chicago, Ill. | New York, N. Y. |
| Houston, Tex. | San Francisco, Calif. |

(vi) Samples of merchandise without value, and articles of printed matter when not subject to the payment of customs duties, if sent in the registered Postal Union mail, are free of certain charges in Argentina that otherwise accrue if they are sent by parcel post.

(vii) As information has been received that the Postal Administration of Argentina imposes a charge on each parcel-post package received in that service as represented by the relative customs declarations, postmasters shall suggest to mailers that they avail themselves of the "group-shipment" arrangement when transmitting parcels to that country, whenever it is practicable to do so.

(viii) Mailers shall also be advised that each parcel received in the Argentine service is subject to certain interior charges and they should, therefore, refrain from sending a number of small packages whenever it is possible to include the merchandise in packages up to the maximum weight limit.

(8) *Prohibitions.* (i) For the protection of animals or plants:

(*a*) Bees unless accompanied by an official sanitary certificate visaed by an Argentine consul.

(*b*) Furs and skins of chinchillas and vicuñas.

(*c*) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(*d*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(ii) For other reasons: Bank notes, values payable to bearer, jewels, precious stones and other precious articles. Scientific, literary, and artistic works which violate the Argentine copyright law. (2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity, when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This information shall be shown in United States currency, in arabic figures and in roman letters spelled out in full, as per the following example:

Insured Value
$75.00
Seventy-five Dollars

(iii) Parcels containing bank notes, currency notes, or any kind of securities payable to bearer; platinum, gold or silver (whether manufactured or unmanufactured); precious stones, jewelry, or other precious articles must not be accepted for mailing unless they are insured.

(iv) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(5) *Observations.* (i) When invoices describing merchandise sent in parcel post packages are not in conformity with the customs regulations, the Australian customs imposes an additional charge of 20 percent ad valorem, provided the goods imported are for commercial purposes.

(ii) When the goods imported are for personal use only, the charge is not made should the invoice not be entirely in accordance with the conditions required by the Australian customs.

(iii) It is not necessary for the invoices to accompany the parcels to which they relate.

(iv) Each dutiable parcel post package received in Australia is subject to a charge of 6 pence at time of delivery to the addressee. This charge is in addition to any customs duties which may be assessed on the parcel.

(6) *Prohibitions*—(i) *For reasons of public safety.* (a) Hop aromas, oil, flavors, and any articles of similar nature, capable of use in making beer, or for addition to beer.

(b) Leather or articles manufactured therefrom for human wear, containing barium compounds.

(c) All advertising matter relating to prohibited imports.

(d) Any literature advocating the overthrow by force of the Government or any other established government, or other treasonable activities.

(e) Oleomargarine, unless colored and marked as prescribed.

(ii) *For sanitary reasons.* (a) Medicines purporting to be remedies for drunkenness or addiction to alcohol, tobacco, or drugs.

(b) Electric or magnetic belts or other belts or appliances allegedly producing therapeutic effects through electrical, magnetic, or radio-active influences.

(c) Used bedding and flock.

(d) Vaccine or lymph from any country where foot-and-mouth disease has existed within six months prior to date of sending.

(e) Second-hand clothing for trade purposes.

(iii) *For the protection of animals or plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *For other reasons.* (a) Counterfeit or imitation coins or banknotes.

(b) Invoices, blank or partly blank, capable of being filled out and used as genuine invoices.

(c) Official uniforms or badges (naval, military, police, etc.) or any article resembling them.

(d) Goods bearing or accompanied by a false guarantee.

(e) Goods bearing the name "Anzac" or any name resembling it.

(f) Goods produced wholly or partly in prisons or by convict labor.

(g) Radiohypnotic crystals, lucky stones, and similar articles.

(h) Tobacco, cigars, cigarettes, except as bona fide samples or for the personal use of the importer, subject to payment of duty.

(i) Reproductions of works protected by British copyrights, except by permission of the copyright owner.

(j) Goods bearing on themselves or their wrappings any words in a language other than that in ordinary use in the country of production, unless such words are qualified by a definite statement in English indicating the country of origin.

(k) Straw articles, such as mats or wrappings containing merchandise, must comply with the quarantine regulations.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Addressees must obtain import licenses to take delivery of commercial shipments generally, and of gift parcels exceeding £10 ($22.40) in value.

(ii) Meat, animal sausage casings, and other edible animal products must comply with the Australian quarantine regulations.

(iii) Vaccine and lymph must be tested at an authorized laboratory in Australia. Articles containing disease germs require the authorization of the Minister of Health on recommendation of the Director of Quarantine.

(iv) Horns and hoofs, except those forming part of sporting trophies, require permission of the Minister of Commerce and Customs for importation.

(v) Weapons and other articles of a dangerous nature require authorization in advance from the Secretary of Customs.

(vi) Synthetic organic dyes and all organic intermediates used in the preparation of such materials require the written consent of the Minister of Commerce and Customs.

(vii) Bran sacks weighing less than 20 ounces require the consent of the Minister of Commerce and Customs.

(viii) Used sacks of jute, second-hand carpets and similar used articles must be disinfected to the satisfaction of the quarantine officer.

(ix) Sugar (cane or beet), so-called golden sirup and molasses require the written consent of the Minister of Commerce and Customs.

§ 127.210 *Austria*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10).

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. Articles for special delivery in localities outside the post office town are subject to collection from the addressee of a fee which is calculated in accordance with the distance of the place of destination from the post office. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 45 cents for the first 2 ounces and 24 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Combination packages.* Accepted. (See § 127.12.)

(8) *Prohibitions.* The articles prohibited or restricted as parcel post are prohibited or restricted in the Postal Union mails.

(2) *Indemnity.* No provision.

(3) *Registry service.* For general information see Subpart D of this part.

(4) *Dimensions.* Greatest length 3½ feet. Greatest length and girth combined 6 feet.

(5) *Observations.* (i) Parcels of merchandise intended for sale or commercial transactions must be accompanied by invoices.

(ii) A fee equivalent to the Belgian Congo domestic rate of postage is charged for the transmission of all parcels from the frontier office to that of destination.

(6) *Prohibitions.* (i) Jewelry, silverware and other precious articles in unregistered parcels.

(ii) Bees, leeches, and silkworms.

(iii) All plants and seeds, except vegetable and flower seeds, must be accompanied by a certificate of origin stating that the articles are free of disease.

(7) *Import restrictions.* (i) The attention of senders should be called to the following requirements, which are to be met by addressees:

(ii) Addressees must obtain import permits for all parcels except noncommercial shipments valued at $100 or less.

(iii) Permission from the Congo Government is required for importation of distilling apparatus; saccharine and products containing it; cottonseed; and medicines.

§ 127.216 *Belgium*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 42 cents for the first 2 ounces and 21 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) The indication "Printed in U. S. A." must appear on articles of printed matter imported from the United States. This marking is obligatory, except in certain cases, notably articles whose weight does not exceed four ounces or which consist of only one article or one copy. As related to music, it may consist of several instrumental parts or even a complete orchestration.

(ii) Printed matter is generally dutiable in Belgium. However, the Belgian customs authorities exceptionally admit as regular the importation of printed matter up to 2 kilograms in weight, without Form 2976 (C 1) affixed. This concession, however, applies only to price lists, catalogs, and advertising matter of business firms, and any fees or charges which may be due on such matter must be paid.

(iii) Also, the green label, Form 2976 (C 1), is not required on free copies of newly published books mailed by the publishers to Belgian literary and scientific societies and journalists, provided the outer wrappers bear a dedication or the words "Press Service" or some other indication that the copies are being sent gratuitously under the conditions mentioned.

(iv) The green label is also not required on any shipment of printed matter on which the total of the revenue duties does not exceed 5 francs.

(8) *Prohibitions.* (i) Instruments of payment, Belgian and foreign securities and coupons thereof, unless sent in registered letters.

(ii) Articles bearing on the outside facsimiles of postage stamps, even when such facsimiles cannot be confused with authentic postage stamps.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Limited to ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes (surface parcels only).
C. o. d.; No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(5) *Insurance.* (i) Surface parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable, in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both

United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) Parcels containing gold or silver, whether manufactured or unmanufactured; precious stones, jewelry or other precious articles must be insured.

(vi) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) It frequently happens that the senders of merchandise liable to ad valorem import duties in Belgium mention the amount of the invoice in the value column of the customs declarations. However, in accordance with article 3 of the law of April 8, 1922, the value to be declared for the payment of duties may not be lower than the normal gross price of similar merchandise on the Belgian markets at the time of importation after making deduction of a sum proportional to the duties to which such products are liable upon introduction.

(ii) Used clothing, even when sent as a gift, is subject to customs duties in Belgium. Since the Belgian regulations do not permit cancellation of the duties, parcels containing used clothing cannot be returned to origin or abandoned if they should be unclaimed or refused by the addressees. Parcels containing used clothing must, therefore, not be accepted for mailing to Belgium unless the sender indicates an alternate addressee in that country to whom the parcel can be tendered for delivery in case it cannot be delivered as originally addressed.

(7) *Prohibitions*—(i) *For the protection of animals or plants.* (a) Indian berries, except when addressed to a pharmacist and accompanied by an invoice from the seller.

(b) Certain plants and plant products are prohibited from importation or admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(ii) *For other reasons.* (a) Bronze, copper and nickel coins not legal tender in Belgium, unless imported for collections.

(b) New or used postage stamps (admitted only for collections).

(c) Instruments of payment, including banknotes and currency, may not be sent by parcel post unless permission for the importation has been granted by the Belgo-Luxembourg Exchange Institute. If such permission has been granted and the sender elects to forward the articles by parcel post, the parcel must be insured; otherwise such articles must be sent by registered letter mail.

(8) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Addressees must obtain import licenses for most types of merchandise, except gifts under $50.

(ii) Bone meal and other powdered animal products must be imported through customs offices where veterinary health services are in operation.

(iii) White lead must comply with the regulations of the Ministry of Industry, Labor and Welfare. This also applies to all white-lead compounds for professional use, except colors in tubes weighing less than 500 grams.

(iv) Tuberculin for animals requires special authorization from the Ministry of Agriculture for importation.

(v) Special restrictions apply to the importation of all arms except hunting and sporting arms, side arms of war, arms for Government use, and arms for collections.

§ 127.217 *Bermuda*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 27 cents for the first 2 ounces and 6 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Prohibitions.* Parasites and predators of injurious insects, intended for the control of those insects and exchanged between officially recognized institutions, are admitted in the form of samples only.

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: No.
Registration: Yes. Fee, 55 cents.
Insurance: No.
C. o. d.: No.
Consular invoice: Yes. (See subparagraph (7) of this paragraph.)

(2) *Indemnity.* See § 127.165.

(3) *Registry service.* For general information, see Subpart D of this part.

(4) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(5) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(7) *Observations.* (i) Transportation of surface parcels to Bolivia involves not only a long sea transit but also a difficult overland trip from Arica, Chile. Parcels must not be accepted which are not substantially packed.

(ii) A commercial invoice is required for the clearance of all parcels, regardless of value. Parcels (including shipments of parcels sent at one time from the same sender to the same addressee) exceeding $36.50 in value require a consular invoice in quintuplicate in addition to two commercial invoices. A fine is imposed by the Bolivian Customs for failure to present a consular invoice when required.

(iii) Consular invoices may be obtained from the Bolivian Consulate General at New York, N. Y., or from the nearest consulate of Bolivia, at a cost of 75 cents per copy or $3.75 for the set of five. A six percent consular duty is collected in the customs house in Bolivia instead of by the consulates, except in the case of honorary consuls who collect one or two percent of the original 6 percent duty.

(iv) Commercial invoices relating to shipments valued at less than $5 are stamped with the Bolivian consular seal free of charge. Commercial invoices relating to shipments valued at $5 and up to $36.50 require consular certification.

(v) The consular or commercial invoices may be sent under separate cover to the addressees or forwarded with the parcels. If they are enclosed in the parcels the customs declarations shall be marked "Consular invoice inclosed" or "Commercial invoice inclosed," as the case may be. When the invoices relate to several parcels, the parcels shall be numbered 1, 2, 3, etc., and the invoice

enclosed in parcel No. 1, the customs declarations and covers of the remaining parcels being noted "Consular (and/or commercial) invoice in parcel No. 1."

(vi) The Bolivian Consulates General are located in New York, N. Y., and San Francisco, Calif. Honorary consuls are located in the following cities:

| | |
|---|---|
| Beverly Hills, Calif. | New Orleans, La. |
| Boston, Mass. | New York, N. Y. |
| Chicago, Ill. | Pittsburgh, Pa. |
| Dallas, Tex. | St. Louis, Mo. |
| Galveston, Tex. | San Francisco, Calif. |
| Key West, Fla. | San Leandro, Calif. |
| Los Angeles, Calif. | San Luis Obispo, Calif. |
| Miami, Fla. | |

(vii) Addressees in Bolivia are required to obtain import permits prior to receipt of the goods.

(viii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(8) *Prohibitions*—(i) *For sanitary reasons.* (*a*) Adulterated or harmful beverages or foodstuffs.

(*b*) Pharmaceutical and medicinal products of unknown composition or formula, and those prohibited by the health authorities.

(*c*) Used clothing and other effects unless accompanied by a certificate of disinfection issued by the competent authority of the country of origin and legalized by the Bolivian consular service.

(ii) *For the protection of plants.* (*a*) Plants, fruit, or seeds which may be declared injurious by the agricultural authorities.

(*b*) Trees and shrubs in baskets.

(iii) *Arms, etc.* The importation of arms is subject to the restrictions laid down by the Bolivian Government.

(iv) *For other reasons.* (*a*) Jewelry and other precious articles; money in cash, bank notes, or values payable to the bearer.

(*b*) Coins of silver, nickel, copper, or alloys of those metals.

(*c*) Counterfeit money, and machines or apparatus for making it.

(*d*) Advertisements in imitation of coins, banknotes, postage stamps or other official values, with the exception of numismatic and philatelic catalogs.

(*e*) Tobacco, leaf or manufactured.

(*f*) Cigarette paper and containers (packages) for cigarettes.

(*g*) Mechanical pocket lighters.

(*h*) Materials, machines, and apparatus serving for the manufacture of cigars, cigarettes, matches, and vestas.

(*i*) Nursing bottles with tubes of rubber or glass.

(*j*) Roulette wheels, gambling devices, boxes, and other machines, apparatus, or mechanical means used for games or lotteries.

(*k*) Labels, caps, corks, and similar articles with trade-marks of foreign beverages, if imported separately.

§ 127.219 *Brazil*—(a) *Postal union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 2, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 40 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* (i) Postage rates: Letters and post cards, 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 55 cents for the first 2 ounces and 35 cents for each additional 2 ounces. (See § 127.20.)

(ii) Articles prepaid at the special "other articles" rate are given air transportation within Brazil if delivery can be expedited by so doing.

(6) *Diplomatic and consular mail.* See § 127.32.

(7) *Eight-ounce merchandise packages.* Accepted. (See § 127.11.)

(8) *Combination packages.* Accepted. (See § 127.12.)

(9) *Observations.* See "Observations" under paragraph (b) of this section concerning Brazilian invoice and import license requirements, which apply to importations into that country in the Postal Union mails.

(10) *Prohibitions.* (i) Dutiable articles (merchandise) in letters or packages prepaid at the letter rate, except that coins, banknotes, paper money, or any values payable to the bearer; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry or other precious articles are admitted in registered letters.

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(ii) For shipments valued at more than $25, five copies of a Brazilian consular invoice must be prepared and submitted to a Brazilian consul for legalization, accompanied by four copies of a commercial invoice which must be certified as to the origin of the merchandise by a recognized chamber of commerce or other authorized organization. The original consular invoice and its fifth copy with the commercial invoice are returned after legalization by the consul to the mailer, who must send them by letter to the adressee in Brazil for his use in clearing the parcel through the customs. For all parcels except small sample shipments having no commercial value, a Brazilian import license is necessary. This license is usually obtained by the addressee from the Export-Import Bureau of the Bank of Brazil, and a copy is sent to the mailer who must submit it to the Brazilian consul with the invoices for legalization. The mailer, if he prefers, may request the license direct from the Export-Import Bureau. The import license number must be shown on the consular invoice.

(iii) For shipments valued at $25 or less, no consular invoice is necessary. Two copies of the commercial invoice, certified and legalized as described above, are required. Also an import license must be obtained for any shipment which may require dollar exchange for settlement, and the number of the license must be shown on the commercial invoice.

(iv) Gift shipments less than $25 in value may be sent without commercial invoices, and no consular legalization is then required, but the addressees in Brazil must still obtain import permits.

(v) A sample consular invoice form may be obtained at a Brazilian consulate, or such invoices may be purchased from stationers or printed by mailers, provided they conform to the prescribed form. Commercial invoices may be on an improvised form. Brazilian consulates are located in the following cities:

| | |
|---|---|
| Baltimore, Md. | Charleston, S. C. |
| Boston, Mass. | Chicago, Ill. |
| Dallas, Tex. | New York, N. Y. |
| Galveston, Tex. | Norfolk, Va. |
| Houston, Tex. | Philadelphia, Pa. |
| Jacksonville, Fla. | San Francisco, Calif. |
| Los Angeles, Calif. | San Juan, P. R. |
| Miami, Fla. | Seattle, Wash. |
| New Orleans, La. | |

(vi) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(vii) A parcel destined for a person in care of a bank, organization, etc., shall bear the complete addresses of both addressees on the customs declarations and dispatch note, as well as on the parcel itself.

(viii) In order to avoid delays in the treatment of parcels by the customs in Brazil the customs declarations must show—

(*a*) Office of origin of the parcel;

(*b*) Complete addresses of sender and addressee;

(*c*) Exact designation of the merchandise, kind, quantity, value, gross, and net weight of each class of merchandise contained in the parcel. Generic or vague declarations such as "leather goods," "jewelry," "novelties," etc., are not allowed.

(ix) The customs declarations may be worded in Portuguese, French, Spanish, or English.

(8) *Prohibitions*—(i) *For reasons of public safety.* Poniards, stilettos, poniard blades; canes, umbrellas, or any other articles containing swords, daggers, or guns; handcuffs and blackjacks.

(ii) *For sanitary reasons.* (*a*) Pork grease, meats preserved or otherwise prepared, sausages, or any other alimentary product condemned by the National Analysis Laboratory.

(*b*) Any foodstuffs or medicines unfit for consumption or use.

(*c*) Secret remedies, as well as all foreign pharmaceutical products or specialties not bearing, in a conspicuous place on each bottle or box, a label with the date and number of the license issued by the National Department of Public Health. By "secret remedies" are meant those whose formulas are not listed in the official pharmacopeias as well as medicines not licensed by the National Department of Public Health.

(*d*) Coal-tar dyes except under permit issued by the competent authorities.

(iii) *For the protection of plants.* (a) The following are prohibited importation:

(*b*) Live plants or parts of live plants, and vine props, when they are affected by diseases, insects, or any evidently harmful parasites.

(*c*) Seeds and seedlings of coffee. Exceptions are made for ground coffee intended only for classification of the product in the Brazilian markets. However, in order to prevent frauds, shipments of ground coffee will be delivered

to addressees only after examination by the Serviço de Vigilancia Sanitaria Vegetal (phytopathological inspection service).

(*d*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *Arms, munitions, etc.* Regulation arms and munitions of Brazil and parts thereof. Air guns. Reducing tubes and silencers for firearms.

(v) *For other reasons.* (*a*) Articles violating the trade-mark or copyright laws.

(*b*) Any articles bearing a false indication of their origin.

(*c*) Labels, caps, or wrappers which may be used in the manufacture of beverages and other products of Brazil when intended to further the sale of such products with a false indication of foreign origin. An exception is made for shipments imported by branches of foreign establishments.

(9) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Addressees are required to obtain import permits for all parcels, regardless of value. (See subparagraph (7) of this paragraph.)

(ii) Saccharine and other artificial sweeteners require permission from the Brazilian Department of Public Health for importation. This also applies to essences for making artificial beverages.

(iii) Living parasites and predators of injurious insects, intended for control of such insects and exchanged between officially recognized institutions, may be imported with the previous authorization of the Ministry of Agriculture. The same Ministry may authorize the importation of harmful insects, bacteria cultures, fungi, or parasites for experimental purposes.

(iv) Firearms may be imported only with permission of the War Ministry.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Prohibitions*—(i) *For reasons of public safety.* Prints of forms resembling bank notes, postage stamps, and other fiduciary value and all imitation of French or foreign coins. Coins not in circulation. Pistols shooting blank cartridges which have the appearance of automatic pistols. Nonexplosive components of artillery fuses.

(ii) *For sanitary reasons.* Unverified thermometers. Nursing bottles with tubes. Saccharine and similar products.

(iii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *Arms, munitions, etc.* War arms and war material.

(v) *For other reasons*—(a) Products bearing false trademarks or false indications of origin. Boxes or cans of fish, vegetables, or prunes not bearing an indelible indication of their origin. Fish of foreign origin put up in boxes or cans weighing more than 1 kilogram. Works violating the copyright laws. Fancy honey. Certain compound medicines specially mentioned in the customs tariff. Weights and measures not of the metric system. Weights and measures of foreign origin.

(b) Generally, articles prohibited to France are likewise prohibited to Cambodia.

(c) A number of varieties of merchandise require special permission from the military authorities for importation. The list is too long to give in detail; however, senders should be advised in their own interest to ascertain before mailing whether their goods are admissible.

§ 127.227 *Canada (including Newfoundland and Labrador)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 2, in § 127.1. Small packets not accepted. Articles for places in the MacKenzie River District served only by air stage service are liable to a surcharge on delivery.

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Registry return receipt.* Requested at time of mailing, 10 cents; after mailing, 13 cents. When a return receipt is requested for a registered article addressed for delivery in Canada (including registered mail dispatched in jacket envelopes), the mailing postmaster shall prepare and send the domestic form of return receipt (Form 3811) with the article unless he has Form 2865. (See § 127.135.)

(4) *Indemnity.* See subpart E.

(5) *Special delivery.* (i) Available only for letters or articles prepaid at the letter rate. The following fees are applicable.

| | Fee, cents |
|---|---|
| Up to 2 pounds | 20 |
| Over 2 but not over 10 pounds | 35 |
| Over 10 pounds | 50 |

See § 127.19.

(ii) The following is a list of Canadian post offices at which letters or articles paid at the letter rate of postage will be given the benefit of special delivery when received bearing United States special-delivery stamps or, in addition to the proper postage, United States postage stamps, in which latter case the envelope or cover must be marked "Exprès" directly below, but never on the stamps:

(iii) The special delivery service in effect at the above-named offices is restricted to areas to which it can be provided with existing facilities.

(6) *Diplomatic and consular mail.* See § 127.32.

(7) *Freedom of postage for government correspondence.* See § 127.32 (c).

(8) *Air mail service.* Postage rates: Single post cards, 4 cents each; letters and other articles, 6 cents per ounce. (See § 127.20.) Queen bees, but not honey bees, may be sent by air mail. See "Prohibitions", paragraph (b) (6) of this section.

(9) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. The maximum weight limit of letter packages to the Yukon district and to members of the Canadian Armed Forces overseas addressed for delivery through the Canadian Army Post Office is 4 pounds 6 ounces. (See § 127.3.)

(10) *Eight-ounce merchandise packages.* Accepted. (See § 127.11.)

(11) *Combination packages.* Accepted. (See § 127.12.)

(12) *Insurance or registration.* (i) Printed matter designated as third or fourth class in the United States domestic mails, Postal Union printed matter, and 8-ounce merchandise packages may be registered or insured.

(ii) Insured packages of printed matter (except circulars and other miscellaneous printed matter) and 8-ounce packages of merchandise may be sealed if labeled or endorsed to show that they may be opened for postal or customs inspection. It is recommended that any insured packages of such matter of more than ordinary value be sealed as a protection to their contents.

(iii) Letters, commercial papers and samples of merchandise may be registered but not insured.

(13) *Observations.* (i) Mail for Canada must not be dispatched to New York in pouches or sacks bearing labels reading "New York—Foreign." Sacks containing printed matter and newspapers labeled to Canadian points must not exceed 66 pounds gross weight. Registered jacket envelopes shall be used in dispatching registered mail to post offices or railway post offices in Canada, a bill describing contents being enclosed in each jacket. Postmasters and railway mail employees of the Canadian postal service will make up registered jackets only for post offices where United States customs officers are located. Railway postal clerks receiving from Canada registered jackets addressed to them will treat the contents which are liable or supposed liable to customs duty in the manner required by §§ 116.1 to 116.26 of this chapter.

(ii) The invoices described in the "Observations" under paragraph (b) (6) of this section, must be prepared for merchandise forwarded in letter packages or in 8-ounce merchandise packages.

(iii) Printed matter, other than circulars and miscellaneous printed matter in packages weighing 8 ounces or less, but including books and catalogs having 24 pages or more, although such books or catalogs weigh 8 ounces or less, may be sealed, provided the sealed packages containing printed matter are marked or stamped "printed matter," and bear the name and address of the sender and the printed inscription "May be opened for postal and customs inspection." This does not apply to second-class matter, which must not be sealed.

(iv) There are admitted in the registered letter mails packages of bank notes put up in oblong packages tied only with a cord and then enclosed in an outer wrapper of strong woven material, linen-lined paper, or other heavy strong paper, tied with a cord and sealed at the point of closing.

(v) All printed matter imported into Canada is required to be marked with an acceptable indication of the country of origin, such as "Printed in U. S. A."

(vi) Wooden or fiber lead pencils and printed or lithographed matter of all kinds, including books, periodicals, magazines, and pictures, must be marked, stamped, branded or labeled in legible English or French words, in a conspicuous place that shall not be covered or obscured by any subsequent attachments or arrangements, so as to indicate the country of origin. Said marking, stamping, branding, or labeling shall be as nearly indelible and permanent as the nature of the goods will permit, except seals, tickets, and labels which are not capable of being marked legibly and each of which shall not exceed 1 inch in diameter, in which case the first package or covering shall be marked in compliance with the general regulations.

(vii) This exemption is held to apply only to printed or lithographed seals, tickets, and labels when imported in packages or coverings containing quantities of not more than 100 each.

(viii) Imported printed or lithographed matter, such as seals, tickets, or labels in strips, sheets, or rolls intended to be used in single units exceeding 1 inch in diameter, or perforated or otherwise prepared for ready separation into such single units, are required to be marked with an indication of the country of origin on each single unit.

(ix) Such printed matter in strips, sheets, or rolls when consisting of not more than 100 single units not exceeding 1 inch in diameter may be marked with the required indication of the country of origin on each strip, sheet, or roll.

(x) Decalcomania transfers are considered to be printed or lithographed matter for the purpose of these marking requirements, and marking on the carrier portion of either of each transfer or each sheet of transfers is regarded as satisfactory.

(xi) Blind-embossed or die-stamped indications of the country of origin on printed or lithographed matter imported into Canada will not be accepted as satisfactory compliance with the Canadian provisions for the marking of imported goods, with the exception of Christmas or greeting cards.

(xii) All such goods imported into Canada which do not comply with the requirements stated are subject to an additional duty of 10 percent ad valorem, and in addition such goods shall not be released from customs possession until they have been so marked, stamped, branded, or labeled under customs supervision at the expense of the importer.

(xiii) All classes of mail matter are accepted for transmission to the Yukon district as freely in winter as in summer; but during the winter season, October to May, parcel post will be forwarded by mail to White Horse, Yukon Territory, where arrangements can be made by addressees with the contractors of the White Horse-Dawson stage route for forwarding such matter by freight to points north of White Horse. Packages of merchandise to the maximum weight of 4 pounds 6 ounces prepaid at letter rate are transmissible at all times to the Yukon district as first-class matter. Such letter packages to be accompanied by Form 2976 (C 1).

(xiv) Advertising matter, whether imported by mail or otherwise, when in individual packages valued at not more than $1 each, addressed to different persons or firms in Canada, and when not imported for sale or in a manner designed to evade payment of customs duties, is admitted into Canada free of Canadian customs duty and without collection of the consumption or sales tax of 8 percent. The advertising matter covered by this exemption consists of advertising pamphlets, advertising show cards, illustrated advertising periodicals; price books, catalogs, and price lists; advertising almanacs and calendars, patent medicine or other advertising circulars, fly sheets or pamphlets; advertising chromos, chromotypes, oleographs or like work produced by any process other than hand painting or drawing, and having any advertisement or advertising matter printed, lithographed, or stamped thereon, or attached thereto, including advertising bills, folders, and posters, or other similar artistic work, lithographed, printed, or stamped on paper or cardboard for business or advertisement purposes, not otherwise provided for.

(xv) Bona fide trade catalogs and price lists, even though valued at more than $1 each, not designed to advertise the sale of goods by any person in Canada, are admitted free of duty when sent in single copies to merchants in Canada and for the merchant's own use and not for distribution.

(xvi) Advertising matter described above when in individual packages valued at more than $1 each and advertising matter regardless of value designed to advertise the sale of goods by any person in Canada, or specially designed to advertise professional or other services, communication, or transportation systems, hotels, summer resorts, exhibitions, or any other activity, rendered, operated, or carried on by any person in Canada, is dutiable at the rate of 10 cents per pound but not less than 25 per cent ad valorem. It is also subject to the consumption or sales tax of 8 percent on the duty-paid value unless mailed to Canada with duty fully prepaid by affixing customs-duty stamps on the reverse side of each piece according to the following scale of charges:

| | *Duty (cents)* |
|---|---|
| Up to and including 1 ounce | 2. |
| Over 1 ounce and not exceeding 3 ounces | 3 (but not less than 25%). |
| Over 3 ounces and not exceeding 5 ounces | 4 (but not less than 25%). |
| Over 5 ounces and not exceeding 7 ounces | 5 (but not less than 25%). |
| Over 7 ounces and not exceeding 9 ounces | 6 (but not less than 25%). |
| Over 9 ounces and not exceeding 11 ounces | 7 (but not less than 25%). |
| Over 11 ounces and not exceeding 13 ounces | 8 (but not less than 25%). |
| Over 13 ounces and not exceeding 15 ounces | 9 (but not less than 25%). |
| Over 15 ounces and not exceeding 16 ounces | 10 (but not less than 25%). |
| Each additional pound (see note A) | 10 (but not less than 25%). |

NOTE A: Customs duty on advertising matter weighing fractions of a pound in excess of a pound may be prepaid in accordance with the above-mentioned scale of charges.

(xvii) Canadian customs-duty stamps may be obtained in denominations of 1, 2, 5, and 10 cents from the Customs Division, Department of National Revenue, Ottawa, Ontario, Canada. Each request for stamps should be accompanied by a remittance (by money order) payable to the Receiver General of Canada.

(14) *Prohibitions.* (i) Reprints of Canadian or British works copyrighted in Canada. Counterfeit or base coins. Imitation postage stamps. Reproductions of Canadian postage stamps unless printed in publications in black and white only and with a defacing line drawn across each reproduction.

(ii) The articles prohibited or restricted by parcel post are likewise prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates.*[1]

Sealing: Optional.[2]
Group shipments: Limited to ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.[1]
C. o. d.: No.

[1] Parcels for members of the Canadian Armed Forces overseas addressed for delivery through the Canadian Army Post Office must not exceed 10 pounds in weight, and may not be insured.

[2] Insured parcels containing matter of more than ordinary value should be sealed as a protection to their contents.

NOTE: Packages weighing 8 ounces or less may not be accepted as parcel post. See "Observations" concerning acceptance of packages weighing 8 ounces or less.

There is no air parcel post service to Canada. In order to be sent to Canada by air, packages must be prepared as letter-packages or 8-ounce merchandise packages and be prepaid at the air mail letter rate of 6 cents per ounce.

[3] Parcels for places in the MacKenzie River District and in other parts of Canada served only by air-stage service are liable to a surcharge on delivery.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | *Fee, cents* |
|---|---|
| $0.01 to $5 | 5 |
| From $5.01 to $10 | 10 |
| From $10.01 to $25 | 15 |
| From $25.01 to $50 | 20 |
| From $50.01 to $100 | 30 |
| From $100.01 to $200 | 35 |

NOTE: The domestic "minimum fee" arrangement does not apply. Each insured parcel must bear an insurance number.

(ii) Insurance return receipt: Return receipts are not furnished for insured parcels addressed to Canada.

(iii) The following articles and those of similar character shall not be accepted for transmission as insured mail to Canada, but, when mailable, must be sent in registered letter packages: Precious stones, mounted or unmounted; all articles commonly known as jewelry used for personal adornment, such as rings, brooches, tie pins, chains, cuff links, dress sets, fobs, bracelets, rosary beads, lockets, necklaces, etc.; all articles of gold or other precious metals for personal use, such as cigarette holders, cigarette cases, vanity cases, cardcases, gold and silver pencils, lorgnettes, gold filled optical frames and mountings, mesh bags, watches, etc.; gold scrap, jeweler's filings, fountain pens, money packets (which are construed as including bank notes, coin, including coins not current, bullion, gold dust, bonds, and coupons payable to bearer, stocks, and other securities negotiable by bearer).

(iv) Parcels containing bees must not be accepted for insurance.

(v) Each parcel for Canada must bear as part of its address, the name of the Canadian Province in which the office of destination is located.

(vi) Claims involving damage or partial loss (rifling) of insured parcels mailed in the United States and addressed for delivery in Canada shall be filed on Form 2855 and sent direct by the postmasters to the proper District Post Office Inspector in Canada for completion and transmission to the Post Office Department, Bureau of Transportation,

Division of International Service, Washington 25, D. C., for adjustment and at the time the Form 2855 is filled out, in a case of partial loss a Form 1510 covering the parcel shall also be filled out, with a notation thereon showing the date Form 2855 was sent to Canada and the Form 1510 sent to the United States Inspector in Charge of the division in which the office of mailing is located.

(vii) Upon receipt of complaints relative to loss of insured mail, which should be accepted only after the sender has ascertained that the article was not received by the addressee, or has submitted other evidence reasonably indicating the nonreceipt of the insured parcel by the addressee, or after proper efforts without results have been made by the sender to determine whether the article has been received, a Form 2855 shall be filled out and sent to the proper Canadian District Post Office Inspector and at the same time a Form 1510 covering the article shall also be filled out, with a notation thereon showing the date Form 2855 was sent to Canada, and the Form 1510 sent to the United States Inspector in Charge of the division in which the office of mailing is located, in accordance with the following procedure:

(viii) If inquiry in the Canadian service shows that an insured parcel has been delivered intact, the Form 2855 endorsed to that effect will be returned to the postmaster in this country by the Canadian District Post Office Inspector; but if the parcel has been lost, rifled, or damaged, the latter official will secure the execution of the declaration of the addressee and forward the Form 2855 to the Post Office Department, Bureau of Transportation, Division of International Service, for consideration of the indemnity feature. If the Canadian official should inadvertently return to the postmaster a Form 2855 showing that a parcel has not been received by the addressee, or was received in a damaged or rifled condition, the postmaster shall forward the Form 2855 to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., but if the form has not been properly completed, the postmaster will return it to the proper Canadian District Post Office Inspector for that purpose.

(ix) If information is not received within a reasonable time, in response to inquiry, showing what disposition has been made of the insured parcel, and the parcel has not been otherwise accounted for, the postmaster shall take the matter up with the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., giving the names and addresses of the sender and addressee of the parcel, its number, date of mailing, and date Form 2855 was sent to Canada. When a postmaster receives a reply to an inquiry concerning insured mail addressed to Canada, the complainant shall be appropriately advised.

(x) It is required that the Inspector in Charge of the Division of Post Office Inspectors, in which the mailing post office is located, shall be furnished a Form 1510 for the files of his office in connection with all insured parcels addressed to Canada which are alleged to have been lost or rifled, whether claim for indemnity is filed or not.

(xi) If information has been received indicating that no trace of an alleged lost insured parcel mailed in Canada can be found in the Canadian district in which it was mailed, the Canadian application form will be sent direct to the postmaster at office of address of the parcel in the United States, instead of an inquiry being made first. If the postmaster at office of address in the United States finds that the addressee has not received the insured parcel the Canadian indemnity form will be completed by the addition of the declaration of the postmaster and of the addressee, and promptly returned, with any necessary additional papers connected therewith, to the Canadian District Post Office Inspector from whom the form was received, or to such other official as he may direct.

(xii) When complaints are received concerning the rifling or damage of insured parcels mailed in Canada, postmasters shall obtain, if possible, the packing of the parcels for transmission to the Canadian Administration with the complaints; however, if the packing has been destroyed or otherwise disposed of, the complaints shall be indorsed accordingly.

(xiii) Claims involving damage or partial loss (rifling) of insured parcels originating either in Canada or in the United States will follow the same procedure as herein outlined, except that no preliminary inquiries of postmasters at offices of address will be necessary before instituting the claims.

(xiv) When a Form 2855 is to be sent to Canada, first determine in what Canadian Province the post office of address is located. The name of the Province involved should then be located in column 1 of the following list and opposite it, in column 2, will be found the address of the Canadian District Post Office Inspector having jurisdiction over that Province:

| Column 1<br>If the Canadian post office of address of the insured parcel is located in the Province of— | Column 2<br>Send Form 2855 to "District Post Office Inspector" located at— |

(xv) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(5) *Observations.* (i) The parcel post service to Canada is limited to parcels weighing over 8 ounces and up to 15 pounds. Packages of merchandise weighing 8 ounces or less shall be forwarded as "Eight-Ounce Merchandise Packages" (see § 127.11) or in packages prepaid at the letter rate of postage.

(ii) Postmasters at exchange offices observing packages weighing 8 ounces or less, which were erroneously accepted for dispatch in the parcel post mails, will detach the customs declaration (Form 2966), obliterate the parcel-post sticker (Form 2922) and forward such packages in the Postal Union mails.

(iii) A letter fully prepaid and bearing the same address as that of the parcel may be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel. Stamps to pay postage on the letter must be affixed to the envelope thereof. Parcels to which such letters are attached are treated as parcel post.

(iv) For information concerning the manner in which eggs may be packed see § 127.72.

(v) The Canadian Customs laws require that properly certified invoices, in duplicate, be furnished for customs entry of merchandise imported into Canada. Senders must transmit these invoices under separate cover to the addressee.

(vi) Every such invoice shall contain a sufficient and correct description of the goods in proper commercial terms, and in respect of goods sold by the exporter shall show in one column the actual price at which the articles have been sold to the importer, and in a separate column the fair market value of each article as in condition packed ready for shipment at the time and place of shipment as provided for in the invoice forms, also the country of origin or the country of manufacture or production of each article.

(vii) When the value of goods for duty purposes is determined by the Minister of National Revenue, under the provisions of the Customs Act, by reason of the goods being exported or imported under unusual conditions, the value so determined shall be held to be the fair market value thereof.

(viii) Specimen approved invoice forms may be obtained upon application to the Department of National Revenue, Ottawa. It is permissible for exporters to use their own bill heads for invoice purposes, provided the forms are headed with the words "Selling Price to Purchaser in Canada", "Fair Market Value at Time and Place of Shipment (see clause 4 of the Certificate of Value hereon)", or "6" as required, and "Country of Manufacture or Production" or "Country of Origin", as in the specimen forms.

(ix) Certificates are to be signed by the exporter and must be written, printed or stamped on the front or back of the invoice, but not pasted thereon.

(x) Certificate of origin for entry of goods under treaty or intermediate tariffs is to be signed by the exporter in the country whence the goods are directly exported to Canada.

(xi) Packages are required to be legibly marked and numbered on the outside when of such a character as to enable such marks and the numbers to be placed thereon, and every invoice of goods is required to show the marks and numbers on the packages and the proper designation of the goods in such a manner as to indicate truly the quantities and values of the articles comprised in each exportation package.

(xii) If any package contains goods which are not included in the invoice of such package, the enclosure (to avoid seizure) shall be noted on the invoice covering the package containing the enclosure, thus—"3 parcels enclosed" (or as the case may be).

(xiii) In special cases where invoices cannot be obtained customs officers are permitted to use appraisal notes in lieu of invoices for small collection entries of goods being merchandise not for sale, valued at not more than $50 or, at certain specified ports, up to $100, in which case the articles would be appraised for duty purposes.

(6) *Prohibitions.* (i) Day-old poultry unless specially authorized by Postal Bulletin instructions.

(ii) Bees are prohibited to those offices in Canada which are not served by railway post offices. Therefore, mailers should ascertain from addressees in Canada in advance of mailing the manner in which the office of intended destination is served. Special-handling charges are applicable to honey bees in cages, but not to queen bees in small cages, alone or accompanied by a few workers, unless a considerable number of such cages are tied together for transportation outside of mail sacks. Shipments of bees are accepted only at the risk of senders.

(iii) Bees on combs and used or secondhand hives or bee supplies or prohibited. Bees not accompanied by combs must be accompanied by a declaration signed by the mailer that the food for the bees carried in the package is free from disease.

(iv) Uncooked pork, including ham, and all uncooked pork products.

(v) Automatic, semiautomatic, or auto-loading pistols, as well as revolvers and single-shot pistols, are prohibited. Military rifles require a permit from the Canadian customs for importation unless imported by reputable firms for sporting use only.

(vi) Commercial tags of metal. Prison-made goods. Plumage and skins of wild birds.

(vii) Articles so marked as to create the false impression that they were made in the United Kingdom.

(viii) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(ix) Biological products for veterinary use, including serums and vaccines, unless accompanied by a permit issued by the Veterinary Director General, Ministry of Agriculture of Canada.

(x) Eggs for hatching must be packed in new, clean containers and must be accompanied by a certificate issued by a veterinarian of the United States Bureau of Animal Industry, or one issued by a State veterinarian and endorsed by a veterinarian of that Bureau, stating that to the best of his knowledge the eggs come from a flock that is free from Newcastle disease, fowl pest, or fowl typhoid.

§ 127.223 *Cape Verde Islands*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Optional.
Group shipments: No.
Registration: No. Service from China only.
Insurance: No.
C. o. d.: No.

[1] Parcels exceeding 22 pounds are accepted only for dispatch by surface means to Taipei, Chilung, and Kaohsiung, Taiwan.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined 7 feet; provided, however, that parcels exceeding 6 feet in combined length and girth are restricted to 2½ feet in length.

(4) *Observations.* Import licenses must be obtained by the addressee for all parcels except (i) samples without commercial value, and (ii) gifts not exceeding $25 in value, limited to articles for the addressee's personal use or for his household.

(5) *Prohibitions.* Tobacco, woolen, silk or artificial silk piece goods, cosmetics and luxury items.

§ 127.232 *Colombia*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 2, in § 127.1 Small packets not accepted.

(2) *Registration.* Fee, 40 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Eight-ounce merchandise packages.* Accepted. (See § 127.11.)

(6) *Combination packages.* Accepted. (See § 127.12.)

(7) *Air mail service.* Postage rates: Letters and post cards, 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 39 cents for the first 2 ounces and 19 cents for each additional 2 ounces. (See § 127.20.)

(8) *Diplomatic and consular mail.* See § 127.32.

(9) *Freedom of postage for government correspondence.* See § 127.32 (c).

(10) *Observations.* (i) The Colombian authorities require that an import license be secured in advance by the addressees of samples of merchandise, printed matter, and 8-ounce merchandise packages. The only exceptions are single subscription or gift copies of books and periodicals, and small quantities of postage stamps exchanged by philatelists.

(ii) Packages will be returned from Colombia unless import licenses have been obtained when needed. Senders must endorse the wrappers. "Addressee has import license" or "Import license not required" as the case may be, before such packages are mailed.

(iii) Every commercial shipment of books or periodicals must be covered by a commercial invoice which may either accompany the shipment or be sent under separate cover to the addressee. The invoice must show the number of packages comprising the shipment and the value of the shipment in dollars or in the currency agreed on between the sender and addressee. The number of packages comprising the shipment must also be shown on each address label.

(iv) In the case of such shipments sent by registered mail or insured parcel post, the commercial invoices must show also each registered or insured number, the quantity of books or periodicals in each package, and the weight of the shipment.

(v) Each commercial invoice covering books or periodicals must bear the sender's declaration in the form given under paragraph (b) (7) of this section, and a copy must be sent direct to the International Section, Ministry of Posts and Telegraphs, Bogota, Colombia. If this is not done, or if the invoices are improperly prepared, the shipments may be returned from Colombia as undeliverable.

(11) *Prohibitions.* (i) Dutiable articles (merchandise) in letters and packages prepaid at letter rate. (However, such articles when wrongly accepted for mailing are delivered on payment of double duty if registered, and triple duty if ordinary. If refused by the addressees, they are seized by the customs.)

(ii) Money in cash, bank notes, or values payable to the bearer.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including surcharges.*

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: 1 Form 2972

Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: Limited to 3 ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No. Service from Colombia only.
Consular Invoice: Yes. (See subparagraph (7) of this paragraph.)

(2) *Indemnity.* For ordinary parcels, see § 127.165; for insured parcels, see subparagraph (6) of this paragraph.

(3) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See 127.159.)

(4) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(5) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(6) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, precious metals, jewelry, or other precious articles must not be accepted for mailing unless they are insured.

(v) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(7) *Observations.* (i) Senders are required to indicate as a part of the addresses of all parcels the name of the department (State) is which the office of destination is located.

(ii) The conditions of transit in Colombia are exceptional; parcels must therefore be strongly packed to avoid damage.

(iii) Air parcels are given air transportation within Colombia if delivery can be expedited by so doing.

(iv) Every parcel for Colombia, regardless of value, must be accompanied by a commercial invoice, a copy of which must be sent under separate cover to the addressee (with the consular invoice when one is required).

(v) If the value of the parcel does not exceed 50 Colombian pesos (about $25.65), the sender must add to the commercial invoice a declaration of origin of the merchandise, in Spanish, reading as follows:

Certificamos bajo juramento que los precios de esta factura son los mismos que cargamos al cliente y que la mercancia a que se refiere esta misma factura es originaria de ---------- (County of origin). En fe de lo expuesto firmamos la presente declaración en ---------- (City, State), ---------- (Day) de ---------- (Month) de ---------- (Year).

---------- (Signature of Shipper)

(Translation: We certify under oath that the prices in this invoice are the same that we charge our customers, and that the merchandise in this same invoice comes from ---------- (Country of origin). In faith of which we sign the present declaration at ---------- (City, State), on ---------- (Date).)

(vi) The foregoing declaration of origin does not require consular legalization.

(vii) Commercial shipments of books or periodicals must be accompanied by commercial invoices as prescribed for such shipments in the Postal Union mails. (See paragraph (a) (10) of this section.)

(viii) Each parcel, or group of parcels mailed simultaneously by the same sender to the same addressee, exceeding 50 pesos (about $25.65) in value requires a consular invoice which should be forwarded under separate cover to the addressee.

(ix) Consular invoices may be obtained from the Colombian Consulates located in the following cities:

| | |
|---|---|
| Baltimore, Md. | New York, N. Y. |
| Boston, Mass. | Philadelphia, Pa. |
| Chicago, Ill. | Ponce, P. R. |
| Galveston, Tex. | San Antonio, Tex. |
| Houston, Tex. | San Francisco, Calif. |
| Los Angeles, Calif. | San Juan, P. R. |
| Mayaguez, P. R. | Tampa, Fla. |
| Miami, Fla. | Washington, D. C. |
| New Orleans, La. | |

(x) Colombian consular invoices covering parcels mailed from a place where there is no Colombian Consul may be legalized by the Consul of a friendly nation, or if no such official is available, by a notary public.

(xi) The addressees in Colombia are required to obtain import licenses in order to secure delivery of parcels. For a parcel exceeding 50 pesos in value the addressee is required to send a copy of the import license to the sender, who must submit it to the Colombian Consul when obtaining the consular invoice. If a sender receives a copy of a Colombian import license for a parcel whose value does not exceed 50 pesos, he must return it to the addressee in Colombia. Parcels will not be delivered unless import licenses have been issued for them. Senders must endorse the wrapper and customs declaration of each parcel "Addressee has import license."

(xii) Parcels mailed simultaneously by the same sender to the same addressee at one address and not mailed as a "group shipment" must, nevertheless, be marked in the following manner, in order that customs officials in Colombia may more readily ascertain the combined value of the parcels contained in a single mailing:

(xiii) Each parcel comprised in a single mailing must bear a fractional number, the numerator of which indicates the number of the parcel and the denominator the number of parcels comprised in the mailing. For example, if a single mailing were composed of 15 parcels the parcels would be numbered 1/15, 2/15, 3/15, etc. Each such parcel would be required to bear two customs declarations and one dispatch note.

(xiv) In case of a parcel addressed to a bank or other organization and intended for ultimate delivery to a second addressee, the exact name and address of such addressee must be clearly shown on the parcel (wrapper if possible, or on a tag or label attached thereto). The second addressee will be notified of the arrival of the parcel, but he may not claim delivery without the written authorization of the bank (or other organization) or of the sender; in the latter case, he must arrange for its delivery through this Department.

(8) *Prohibitions*—(i) A variety of articles are prohibited from importation into Colombia under the customs regulations of that country. The prohibited list, too long to be printed in its entirety, comprises practically all items of clothing, many items of food, tobacco products, soap, cosmetics, jewelry, pocket lighters, watches, umbrellas, fans, eyeglasses, brushes, toys and games, and various articles manufactured from cloth, wood, paper, cardboard, china and porcelain.

(ii) The foregoing is intended as a general guide only. Before accepting any parcels for Colombia, employees should recommend that the prospective mailers obtain assurance from the addressees that the articles can be admitted.

Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(5) *Observations.* (i) The parcel post service to Cuba is limited to parcels weighing over 8 ounces and up to 22 pounds. Packages of merchandise weighing 8 ounces or less should be forwarded as "Eight-Ounce Merchandise Packages" (see § 127.11) or in packages prepaid at the letter rate of postage.

(ii) Postmasters at exchange offices observing packages weighing 8 ounces or less, which were erroneously accepted as parcel post, shall detach the customs declaration (Form 2966), obliterate the parcel-post sticker (Form 2922) and dispatch such packages in the Postal Union mails.

(iii) The senders of articles mailed at localities where Cuban consular representatives are stationed addressed for delivery in Cuba must present to such consular representatives, for consular certification, 1 original invoice and 5 copies. Only one set (6 copies) of invoices is necessary for one shipment sent at one time to the same addressee regardless of the number of packages comprising the shipment.

(iv) The consulate office retains all copies of the invoices except the original, which, after being visaed, is returned to the sender, who may either enclose such original invoice in the package, or transmit same under separate cover to the addressee. The Cuban Administration advises that the inclusion of the consular invoices in the packages to which they relate, particularly with respect to packages mailed by export firms, proves very advantageous in facilitating prompt delivery to the addressees, and suggests that senders enclose the invoices in the packages whenever it is practicable to do so. When the consular invoice is enclosed in the package the wrapper should be marked to show the series letter and number of the invoice enclosed: For example, "Consular invoice B 1020 enclosed." When the invoice relates to one or more packages sent at one time to the same addressee the wrappers of the other packages for which the invoice has been secured should likewise be marked with the series letter and number of such invoice.

(v) Cuban consuls are located in the following cities:

| | |
|---|---|
| Baltimore, Md. | Mobile, Ala. |
| Boston, Mass. | New Orleans, La. |
| Brooklyn, N. Y.[1] | New York, N. Y. |
| Chicago, Ill. | Norfolk, Va. |
| Cincinnati, Ohio. | Pensacola, Fla. |
| Detroit, Mich. | Philadelphia, Pa. |
| Galveston, Tex. | Portland, Oreg. |
| Jacksonville, Fla. | San Francisco, Calif. |
| Kansas City, Mo. | Savannah, Ga. |
| Key West, Fla. | San Juan, P. R. |
| Lake Charles, La. | St. Louis, Mo. |
| Los Angeles, Calif. | Tampa, Fla. |
| Louisville, Ky. | Washington, D. C. |
| Miami, Fla. | Winston-Salem, N. C. |

[1] As no Cuban consul is located in Brooklyn, N. Y., mailers in that city should forward invoices to New York, N. Y., for the necessary visa.

(vi) When there is no Cuban consul at the place where the parcel is mailed, no consular invoice is required. Instead, the sender must furnish a commercial invoice in triplicate and place on the back thereof the following statement: "No hay Oficina Consular de Cuba en la localidad donde reside el remitente de este bulto postal, ni en el lugar de la Oficina postal que se expide para Cuba" (There is no Cuban consular office in the place where the sender of this parcel resides, nor in the place where the post office sending it to Cuba is located), followed by the date and the sender's signature. One copy of the commercial invoice must be placed within the parcel, and two sent to the addressee for use in claiming the merchandise at destination.

(vii) A special invoice for fabrics is made necessary on account of the different rate of duty assessed on fabrics. Both forms of invoices are required in those instances where shipments consist of fabrics and other articles, unless such shipment does not represent a commercial transaction, in which case a small amount, approximately 3 yards of fabrics, may be entered on the ordinary invoice with other articles. Manufactured clothing is not considered as fabrics.

(viii) Consular invoices may either be prepared by senders or obtained from Cuban consulates or from firms dealing in this form of stationery. The invoices may be written in English or Spanish. When the invoices are not in Spanish the importer may be required to present to the Customs a translation of the invoice into Spanish. If the forms are prepared by the mailer, they must conform with the following information and dimensions, namely, the total dimensions of consular invoices shall be 14 by 9 inches. Invoices of one sheet shall have at the bottom of the page a blank space of not less than 3½ inches in height. On invoices of more than one sheet the blank space of 3½ inches (which is reserved for the official consular rubber stamp) shall be left blank on the last sheet only and directly following the shipper's declaration.

(ix) For information concerning the acceptance of eggs to Cuba, see § 127.72.

(6) *Prohibitions*—(i) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(ii) *For other reasons.* Books and publications violating the copyright laws; also fraudulent copies or samples of copyrighted works, products or trademarks.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees: Arms of all kinds are delivered to addressees only by special authorization from the Ministry of War and Navy. This does not apply, however, to machetes for agricultural work and small-caliber rifles.

§ 127.236 *Cyprus*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1. Small packets accepted. (See § 127.10.)

(4) *Special delivery.* Yes. Special delivery articles addressed for delivery beyond the free delivery zone of the post office of destination are subject to an additional charge to be collected from the addressee based on the distance traversed to effect delivery beyond the said zone. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 44 cents for the first 2 ounces and 23 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* See paragraph (b) (5) of this section for special requirements applicable to gift parcels, which also apply to gift shipments in the Postal Union mails.

(8) *Prohibitions.* (i) Postage stamps and stamped papers may be exchanged commercially only through Artia, S. A., ve Smeckách 30, Prague II. Gift shipments of postage stamps and stamped papers may be sent without previous permission up to the value of 60 gold francs (about $20). To receive a shipment exceeding that limit the addressee must have permission from the above-mentioned "Artia" or, if the value exceeds 600 gold francs (about $200), an import permit from the Ministry of Foreign Commerce.

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Insurance: Yes.
C. O. D.: No.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, precious metals, jewelry, or other precious articles must be insured.

(v) For general information concerning insurance service, see §§ 127.140 to § 127.148, inclusive.

(5) *Observations.* (i) Gift parcels must comply with the following requirements; otherwise they will be treated as undeliverable by the Czechoslovak authorities.

(ii) Wearing apparel, including linen and footwear, must be accompanied by a certificate enclosed in the package stating that the articles have been disinfected. A notarized statement from a reliable dry-cleaning establishment or laundry that the articles have been cleaned should meet the requirements of the Czechoslovak authorities.

(iii) Preserved foods in tin cans or other hermetically sealed containers are not permitted.

(6) *Prohibitions*—(i) *For reasons of public safety.* Secret arms, i. e., poniards, firearms or swords concealed in canes, etc., may be imported only if accompanied by a certificate.

(ii) *For reasons of sanitary policy.* Colors and mastics containing lead may be imported when the packing bears a clear and distinct indication that they contain lead.

(iii) *For the protection of animals or plants.* (a) Meat products call for a veterinary certificate and a certificate of origin, except quantities up to 10 kilograms for the personal consumption of the addressee. Bacon and lard require a certificate of origin. Veterinary certificates and certificates of origin are required for honey, beeswax, and beekeeping equipment.

(b) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *State monopolies.* German and Hungarian silver coins.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import licenses are required for commercial shipments.

(ii) The importation of silkworms is permitted only by special permission of the Ministry of Agriculture.

(iii) Shipments of arms and their parts must be accompanied during their transportation over customs territory by a certificate issued by the State police.

(iv) Tobacco and its products require the permission of the Ministry of Finance for importation, with the exception of shipments for the Monopoly or small shipments for personal use of the addressee.

(v) Czechoslovak coins, paper money, securities and other paper values of any kind, as well as savings-bank booklets, and unmanufactured gold, silver, and platinum, may be imported only by authorization of the Czechoslovak National Bank at Praha.

(vi) Salt and artificial sweetening substances require the authorization of the Ministry of Finance.

(vii) Wireless telegraph and telephone apparatus require authorization of the Ministry of Commerce.

(viii) The restrictions on the exchange of postage stamps shown in paragraph (a) (8) of this section also apply in case of shipments by parcel post.

§ 127.238 *Dahomey*—(a) *Postal Union Mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rate, 25 cents per half ounce. Air letter sheets, 10 cents each. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Prohibitions.* (i) Paper money and other instruments of payment, letters of credit, securities, or deeds may be imported by mail only if accompanied by a permit issued by the French exchange-control authorities, or if imported by a bank. Plasters and small silver ingots not bearing the stamp of an authorized assayer and an indication of their fineness.

(ii) Arabic books or prints are admitted conditionally, subject to special control. (Certificate of origin required.)

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including transit charges.*

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Prohibitions*—(i) *For sanitary reasons.* Essences for making imitation liquors.

(ii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *For other reasons.* (*a*) Foreign products natural or manufactured, having markings, labels, or wrappings of any kind which may give the impression that they are of French origin. Foreign products from a place having the same name as a place in France must bear, in addition to the name of that place, the name of the country of origin and the word "Importe" (imported) very conspicuously.

(*b*) Preserved sardines, vegetables, and plums must bear on each container an indication of the country of origin in raised or sunken letters at least 4 millimeters (5/32 inch) high, in the middle of the lid and of the bottom, in a space not bearing any inscription. Cases and wrappers containing these products must bear adhering letters indicating the country of origin. Boxes of sardines must not in any case exceed 1 kilogram.

(*c*) Weights and measures not of the metric system.

(*d*) Counters of copper, nickel, or other metal, or similar articles which may be mistaken for coins in lawful use.

(*e*) Piasters and small silver ingots, in form other than bars, must bear a conspicuous indication of their weight and fineness and the stamp of an authorized assayer.

(5) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import permits are required in many cases.

(ii) The following articles are subject to special regulations upon importation: Artificial mineral waters. Stills and other distilling apparatus. Saccharine and other sweetening substances whose use is restricted to therapeutics, pharmacy, and the preparation of nonalimentary products. Firearms not for official use; airguns; stilettos, swordcanes, brass knuckles, and other secret weapons. Coining apparatus.

(iii) Arabic books and prints are subject to special control.

§ 127.239 *Denmark*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 43 cents for the first 2 ounces and 23 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Combination packages.* Accepted. (See § 127.12.)

(8) *Prohibitions.* (i) Arms and munitions; materials for the manufacture of munitions.

(ii) Advertisements, etc., for the sale of articles on the "snowball" system.

(iii) Articles which, by their form, etc., resemble Danish or foreign coins or paper money, national or foreign stamps or other forms of prepayment, public securities, obligations payable to the bearer, stocks, or the relative coupons.

(iv) Danish and foreign coins, banknotes, stocks, bonds, and coupons may be imported only if the addressee possesses a permit issued by the National Bank of Denmark. No permit is necessary, however, in the case of foreign coins or banknotes which the addressee finds it necessary to import in order to effect the return of his foreign currency into Denmark.

(v) Foreign almanacs which do not bear the University almanac stamp. Almanacs sent singly for foreign advertising purposes may be admitted without bearing the said almanac stamp. It is recommended that senders of almanacs to Denmark address them to a single addressee. In such a case the almanacs are marked with the prescribed stamp by the customs service.

(vi) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Weight limit: 44 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Yes. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $330 | 70 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in Arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$225.55 (U. S.)
Two Hundred Twenty-five Dollars and Fifty-five Cents
676.65 Gold Francs
Six Hundred Seventy-six Gold Francs and Sixty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) The insurance of parcels containing coins, bank notes, currency notes, or any kind of securities payable to bearer, platinum, gold, or silver, whether manufactured or unmanufactured, precious stones, jewels, or other precious articles is obligatory.

(v) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) In order to facilitate the clearance of parcels through the customs it is advisable that each package be accompanied by a duplicate invoice properly signed by the sender and containing as an inclosure a specification of the goods in question, particulars (date, etc.) of their sale, and conditions of payment.

(ii) An invoice indicating the nature, quantity, and value of the contents is required for every parcel addressed to the Faroe Islands (post offices of Klaksvig, Thorshavn, Trangisvaag, and Vaag). The invoice, or invoices in the case of parcels sent under the group shipment arrangement, is to be attached to the customs declaration.

(iii) A temporary ad valorem duty has been instituted for a class of article which principally comes under the heading of luxuries, notably those which are composed wholly or partly of silk and fur; precious articles; polished precious and semiprecious stones; all kinds of pearls and manufactured coral, gold, silver, and platinum articles, gold and silver watches; artificial flowers; fine feathers; umbrellas; polished glassware (except laboratory apparatus, incandescent light bulbs, and optical glasses); and laces.

(7) *Prohibitions.* (i) The articles mentioned in subdivision (i) to (iv) of paragraph (a) (8) of this section are also prohibited by parcel post. Almanacs, are admitted by parcel post.

(ii) For the protection of animals or plants: (*a*) Eggs of all kinds for hatching; honeycomb, natural or artificial; potatoes; live animals except parasites and predators of injurious insects.

(*b*) Certain plaints and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) For other reasons: (*a*) Coins, banknotes, and securities may be admitted under the restrictions stated for their importation in the Postal Union mails.

(*b*) Medicinal products reserved for pharmacies may be imported in amounts costing less than 100 crowns only by pharmacists, laboratories recognized by the State, or authorized dealers.

(*c*) Fine-cut tobacco in small packages to which cigarette papers are attached.

(*d*) Marks or seals similar to those prescribed by the Customs Administration as revenue stamps for cigarettes, etc., as well as stamps, plates, and similar contrivances required for producing those marks. Importation reserved exclusively for the Customs Administration.

(8) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import permits are required in many cases.

(ii) Shoes made in part of pasteboard or artificial leather require special authorization from the Ministry of Commerce and Industry.

(iii) Certain restrictions apply to the importation of meat, butter, margarine, grease, and other agricultural products.

§ 127.240 *Dominican Republic*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 2 in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 40 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 31 cents for the first 2 ounces and 11 cents for each additional 2 ounces. (See § 127.20.)

(6) *Diplomatic and consular mail.* (See § 127.32.)

(7) *Freedom of postage for government correspondence.* (See § 127.32 (c).)

(8) *Eight-ounce merchandise packages.* Accepted. (See § 127.11.)

(9) *Combination packages.* Accepted. (See § 127.12.)

(10) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(11) *Prohibitions.* (i) Coins, manufactured or unmanufactured platinum, gold, or silver; precious stones, jewelry, and other precious articles. (Banknotes and values payable to bearer are admitted in registered letters.)

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(iii) For general information concerning registration and insurance, see Subpart D of this part.

(7) *Observations.* (i) Samples of merchandise without value and printed matter if sent by parcel post are subject to charges which must be paid by the addressees if delivery is effected.

(ii) When the value of a parcel post shipment arriving for one consignee in one mail from the same shipper, and shipped on the same date, exceeds $40.00, a consular invoice must be furnished in connection therewith.

(iii) Consuls of Ecuador are located in the following cities:

| | |
|---|---|
| Baltimore, Md. | Pasadena, Calif. |
| Chicago, Ill. | Philadelphia, Pa. |
| Cincinnati, Ohio. | San Diego, Calif. |
| Houston, Tex. | San Francisco, Calif. |
| Inglewood, Calif. | San Juan, P. R. |
| Kansas City, Kans. | San Luis Obispo, Calif. |
| Los Angeles, Calif. | Seattle, Wash. |
| Miami, Fla. | Stamford, Conn. |
| New Orleans, La. | Washington, D. C. |
| New York, N. Y. | |

(iv) Parcel post shipments mailed at places where no consul is stationed need not be accompanied by consular invoices, regardless of the value of the shipments. In such cases the consular fees will be collected from the addressees.

(v) The Ecuadoran authorities require that the addressees of commercial shipments by parcel post valued at $25 and over possess a copy of the shipper's export declaration (Commerce Department Form 7525–V), signed by the mailer and certified by the post office of mailing. This copy is in addition to the one required under the provisions of § 127.88. The additional copy prepared by the mailer for the purpose of fulfilling the requirements of the Ecuadoran authorities, after being postmarked in the lower left-hand corner, shall be returned to the mailer. When shipments exceeding $40 in value are mailed in cities where Ecuadoran consuls are located, the sender must present his copy of the export declaration, bearing the postmark of the office of mailing, to the said consul for legalization before sending it to the addressee.

(vi) A collection is made of a fourth of a centavo for each kilogram of gross weight of each package imported or exported.

(vii) Certificates of origin are required for the importation of plants. These are furnished by the agricultural authorities of Ecuador, and they should as a general rule be attached to the customs declarations. A copy shall be sent in the letter mails to the consignee or addressee.

(viii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(ix) After the arrival of parcels in Ecuador each addressee is contacted in order to ascertain whether he desires to accept the parcel. If the addressee refuses the parcel it is treated as undeliv-

erable and disposed of in accordance with the instructions of the sender, but if the addressee accepts the parcel it is then submitted for customs treatment. If, after customs duties have been assessed, the addressee should fail to pay those charges the parcel will not be released for return to the sender until the amount of duty assessed is paid.

(8) *Prohibitions.* (i) *For reasons of public safety.* (*a*) Uncanceled postage stamps in ordinary mail.

(*b*) Imitations of money or postage stamps, except numismatic and philatelic catalogs.

(ii) *For sanitary reasons.* (*a*) Pharmaceutical products and compound medicines whose formula is not known, and, in general, all those prohibited by the sanitary authorities.

(*b*) Beverages and foodstuffs which have been adulterated or which contain substances injurious to health, in accordance with the attestation of the sanitary authorities.

(*c*) Butter containing more than 10 per cent of stearine.

(*d*) Nursing bottles with rubber or glass tubes.

(iii) *For the protection of animals or plants.* Plants, fruits, and seeds which may contain germs or parasites declared harmful by the agricultural authorities. Bits and mouthpieces therefor made of copper or any alloy containing copper.

(iv) *Arms, etc.* (*a*) The Government alone has the right to introduce war arms of any kind, their accessories, or munitions, as well as machines, apparatus, and material used in warfare.

(*b*) Poniards; sticks, fans, and other articles containing hidden darts; razors, daggers, or firearms.

(v) *State monopolies, etc.* Leaf or manufactured tobacco and cigarette paper except for or by authorization of the Government. Unrefined salt.

(vi) *For other reasons.* (*a*) Roulette games, gambling paraphernalia, labels, imprints, or marks registered in Ecuador, unless imported by authorized manufacturers themselves.

(*b*) Leather shoes in general; cloth and rubber shoes.

(*c*) Preparations for obliterating ink and handwriting.

(*d*) All maps showing the territory of Ecuador with incorrect boundaries.

(*e*) So-called "Panama" hats and the straw used for making them; also straw called "Mocora," similar to that produced in Ecuador, and hats made therefrom.

(9) *Import restrictions.* Addressees must obtain import licenses in most cases.

§ 127.242 *Egypt*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages, and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 52 cents for the first 2 ounces and 31 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.) The addressees of articles prepaid at the letter rate, whether ordinary or registered, supposed to contain dutiable articles and received without the green label, Form 2976 (C 1), affixed, are summoned to witness their opening by the customs for disposal under the regulations. Requests for return of such articles to the senders are not complied with in any case.

(7) *Prohibitions.* (i) Bees and silkworms; also parasites and predators of injurious insects.

(ii) Tobacco, cigars, and cigarettes of any kind are not admitted as samples.

(iii) Coins; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry, and other precious articles. Remittances of currency other than Egyptian are not delivered but the addressees are offered the equivalent in Egyptian money at the official rate.

(iv) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 22 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Optional.
Group shipments: Limited to 3 parcels. (See § 127.79.)
Registration: No.
Insurance: No.
C. o. d.: No.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* Senders of merchandise must enclose in their parcels a copy of the original invoice, as well as a detailed description of the contents, in order to facilitate customs operations and prompt delivery to the addressees. Should the invoice relate to several parcels of a group shipment it may be enclosed in one of the parcels and the other parcels of the consignment marked to indicate that fact.

(6) *Prohibitions*—(i) *For sanitary reasons.* (*a*) Leaves of wormwood, extracts of absinthine, and all preparations containing absinthe. Wormwood plants may be imported only in the form of medicinal products, by pharmacists.

(*b*) Tobacco seed, Sudanese tobacco, artificial and adulterated tobacco.

(*c*) Soap containing less than 40 per cent of fatty and resinous acids or more than 3 percent of free caustic alkali calculated as sodium oxide, or composed of substances whose use may be declared unlawful by decree of the Ministry of Commerce and Industry. This prohibition does not apply to powdered, liquid, soft, potash, mineral, and medical soaps, provided that the kind of soap is indicated on the product and on the wrapper.

(*d*) Gas masks not complying with the requirements of the Ministry of Public Health.

(*e*) Chalk for children's games must bear the conspicuous note "Poison" on the box, in Arabic and in another language; it must also be accompanied by directions for use (in two versions, one in Arabic and the other in another language), warning children not to put the chalk in their mouths.

(*f*) The importation of shaving brushes as well as of hair or bristles serving for the manufacture of shaving or other brushes, is prohibited unless they are accompanied by a certificate (for each shipment) from the competent authorities in the country of manufacture or exportation, attesting that they have been disinfected and are free of all anthrax microbes.

(*g*) The importation of bedding, clothes, etc., containing unworked down is permitted only after disinfection.

(ii) *For the protection of animals or plants.* (*a*) Cotton seed, cotton-plants and cotton-stalks, even when apparently incapable of germination; seeded or unseeded cotton, even when used as packing material. However, small samples of well-seeded cotton (not exceeding 2 kilograms) are admitted when addressed in care of the Entomological Section, Ministry of Agriculture, Alexandria Custom House.

(*b*) Grape vine leaves, even when used as packing material.

(*c*) Plants of Hibiscus esculentus (okra) and Hibiscus cannabinus (hemp-mallow), as well as all parts of such plants, their pods and seeds.

(*d*) Sacks, boxes, and other receptacles, as well as any other articles which have been used for packing any of the articles mentioned above under this subitem.

(*e*) Simple chemical fertilizers must be accompanied by a certificate of analysis issued by a laboratory in the country of origin officially recognized by the Government of that country. Compound chemical fertilizers also require the special authorization of the Ministry of Agriculture of Egypt. A certificate must accompany each shipment, showing the amount of fertilizer imported, the result of its analysis, and the names of sender and addressee. Fertilizers composed of two or more simple fertilizers are considered as compound fertilizers.

(iii) *Arms, etc.* 303-caliber rifles and ammunition therefor are absolutely prohibited.

(iv) *For other reasons.* (*a*) Articles of gold and silver containing less than 15 carats of fine gold or 600 1000 of fine silver, respectively, must be stamped with the figure indicating the proportion of fine metal which they contain. Those with a greater fineness must be marked with an official stamp recognized as valid by the Egyptian Government.

(*b*) Foreign gold or silver coins, other than the pound sterling and its subsidiary gold coins, are treated like any other articles of gold or silver. Foreign coins of silver, nickel, bronze, or copper which are legal tender in their respective countries are admitted only if clipped. The same applies to all coins (other than gold), medals, medallions, etc. (including Maria Theresa thalers), which resemble coins current in Egypt or other countries. The same also applies to pounds and half-pounds sterling from which part of the gold has been removed.

(*c*) Cotton thread and yarn of all kinds is admitted if each unit bears a clear indication of the length in yards or meters or the actual weight in kilograms, okas, or pounds.

(*d*) Cotton cloth, bleached or unbleached, dyed or undyed, or interwoven with colored threads, printed, plaited, ornamented, or figured, as well as tulles and gauzes for mosquito-nets, curtains, dressmaking, etc., is subject to the following conditions: (*1*) Each piece must be folded in uniform lengths of a meter or yard, or fractions (halves, thirds, or quarters) of a meter or yard; (*2*) each piece must be marked on the outside to show the exact number of meters or yards, or fractions of those units, which it contains. Such number must be followed by a plain indication of the unit employed.

(*e*) Electric lamps must bear the name of the country of manufacture in raised, sunken, or indelible letters.

(*f*) Boxes of manufactured tobacco must bear a specific band showing the name of the importer, applied as prescribed by the Customs.

(*g*) Compound medicaments and pharmaceutical specialties prepared for retail sale must have the selling price to the public marked on each unit.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Pharmaceutical specialties require the approval of the Ministry of Public Health.

(ii) The authorization of the Ministry of Agriculture is required for the importation of the following:

(iii) Fungicides and insecticides; bees; silkworms; parasites and predators of injurious insects intended for the control of such insects and exchanged between officially recognized institutions.

(iv) The consent of the Ministry of Public Safety is required for the importation of the following:

(*a*) Arms and munitions, other than those of .303 caliber which are prohibited.

(*b*) Copies of the Koran and other Moslem religious books.

(v) The consent of the Ministry of Interior must be obtained for the importation of phonograph records of Arabic songs, and for exposed motion-picture films (developed or not) except those addressed to members of the Diplomatic Corps.

(vi) Sticks of wood intended for the manufacture of matches or match boxes may be imported only with the consent of the Customs.

(vii) Addressees must present import permits in order to receive parcels. If such permits are not presented, parcels are liable to confiscation or are subjected to a fine by the Egyptian customs authorities. Also, the Egyptian customs authorities require that a permit be obtained before undeliverable parcels will be returned to origin, and when a fine has been imposed it must be paid before the parcels will be released for return. Therefore, it should be recommended to the sender in each case that he ascertain in advance of mailing that the addressee possesses the necessary import permit.

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bank notes, paper money, bullion jewelry, or other precious articles must be insured.

(v) For general information concerning insurance service, see §§ 127.140–127.148, inclusive.

(5) *Observations.* (i) The Finnish customs authorities permit the duty-free entry of gift parcels, regardless of weight and value, containing only used clothing, used table linen or used bed linen in quantities not exceeding the normal needs of the addressee and his family.

(ii) Gift parcels or groups of such parcels containing only the articles listed below are admitted duty free, provided no parcel or group exceeds 22 pounds in weight or 5,000 Finnish marks in value:

(a) Foodstuffs other than coffee, cocoa, tea, or candy.

(b) Coffee, cocoa, and candy up to 2 pounds, 3 ounces each, and tea up to 8¼ ounces.

(c) Tobacco up to 3½ ounces (100 cigarettes, 30 cigarillos, or 25 cigars).

(d) Small quantities of clothing (new as well as used), soap, leather goods, razor blades, and similar articles of small value, not to be sold or used in commerce or trade.

(iii) Articles exceeding the above limits will be charged with customs duty and possibly other charges in Finland.

(6) *Prohibitions*—(i) *For sanitary reasons.* Medicines and drugs, including any substances which may be classed as pharmaceuticals by the Finnish authorities, may not be sent by mail unless addressed to authorized manufacturers, dealers, scientists or public health officials for use or distribution in accordance with Finnish regulations. Such substances prepared in doses for use by patients must be clearly and correctly labeled showing the nature and quantity of the ingredients. If found unacceptable under the Finnish regulations, any such articles may be prohibited or confiscated by the authorities.

(ii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *For other reasons.* (a) Chile saltpeter containing 1 percent or more of chlorates or perchlorates, taking into consideration the whole of both substances as perchlorate of potassium.

(b) The right to import crude tobacco is reserved exclusively for tobacco manufacturers.

(c) The importation of butter and cheese is admitted only with the authorization of the State Butter Control, and the merchandise must bear a stipulated trade-mark.

(d) Margarine and margarine cheese: To be admitted into the country, margarine must contain at least 82 percent of fat, but at most 10 percent of milk fat and 16 percent of water. Margarine cheese must contain fat other than milk fat, and bear the indication "Imported Margarine Cheese" and the name and address of the importer, and its surface must be colored bright red with a harmless coloring matter.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import licenses are required in some cases.

(ii) The authorization of the Ministry of the Interior is required for the importation of meat and meat products, crude animal products, rags, firearms and munitions.

(iii) Almanacs and calendars in Finnish or Swedish, as well as various kinds of printed matter of which a calendar forms the essential part, may be imported only with the consent of the competent authorities (University of Helsinki).

(iv) Playing cards are subject to the stamp tax, and the stamp must be placed on the ace of diamonds.

§ 127.250 *France (including Saar Territory and Monaco)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 42 cents for the first 2 ounces and 21 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) Periodicals, industrial, and other publications in which the number of pages used for advertisements exceeds the number of pages used for the text are chargeable for the advertisements, upon entry into France, the customs duty applicable to printed matter or lithographs, as the case may be. Individual copies addressed to subscribers are exempted from the entry duty and are delivered direct to the addressees.

(ii) All articles should bear, as a part of the address, the name of the department (Province), in which the office of destination is located. Although the French Administration has not made this provision compulsory, it is thought that this precaution will, in many instances, expedite the delivery of the article and postmasters should caution mailers to comply with this request in order to reduce the number of undeliverable articles to the minimum.

(8) *Prohibitions.* (i) Paper money and other instruments of payment, letters of credit, securities, or deeds may be imported by mail only if accompanied by a permit issued by the French exchange-control authorities, or if imported by a bank. Coins, unless imported by the Bank of France or other designated banks under special authorization.

(ii) Manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry, or other precious articles are prohibited. However, gold or silver articles will be accepted in registered letters under the following conditions:

(a) All such registered letters must be directed to the addressees in care of the Bureau de la Garantie, 4 Rue Guenegaud, Paris, and must bear the green label, Form 2976 (C 1).

(b) The French postal authorities will assume only the ordinary responsibility provided by the international regulations in case of loss of registered articles.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates.*

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs. The amount in gold francs must be underscored with a heavy line, as per the following example:

Insured Value
$145.00 (U. S.)
One Hundred Forty-five Dollars
435 Gold Francs
Four Hundred Thirty-five Gold Francs

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972). No erasure or correction is permitted in the amount of insurance shown on the dispatch note.

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) Parcels containing coin, gold or silver (whether manufactured or not), or any other precious article must be insured.

(vi) For general information concerning insurance service, see §§ 127.140–127.148, inclusive.

(5) *Observations.* (i) Parcels whose senders or addressees are designated by initials shall not be accepted. All parcels shall bear, as a part of the address, the name of the department (Province), in which the office of destination is located. Although the French Administration has not made this provision compulsory, it is thought that this precaution will, in many instances, expedite the delivery of the articles and postmasters shall caution mailers to comply with this request in order to reduce the number of undeliverable parcels to the minimum.

(ii) A number of articles addressed for delivery in France are subject to reduced rates of duty if accompanied by certificates of origin legalized by a French diplomatic or consular representative. If it is desired that the addressee receive the benefit of the minimum rate the certificate mentioned must be enclosed in the parcel and the wrapper marked, in close proximity to the address of the addressee, to show that the certificate is enclosed.

(iii) French consuls are located in the following cities:

| | |
|---|---|
| Anchorage, Alaska. | Minneapolis, Minn. |
| Atlanta, Ga. | Mobile, Ala. |
| Baltimore, Md. | New Orleans, La. |
| Birmingham, Ala. | New York, N. Y. |
| Boston, Mass. | Norfolk, Va. |
| Buffalo, N. Y. | Pittsburgh, Pa. |
| Charleston, S. C. | Philadelphia, Pa. |
| Charlotte Amalie, V. I. | Phoenix, Ariz. |
| | Ponce, P. R. |
| Chicago, Ill. | Portland, Oreg. |
| Cleveland, Ohio. | Providence, R. I. |
| Denver, Colo. | Reno, Nev. |
| Detroit, Mich. | San Francisco, Calif. |
| Galveston, Tex. | San Juan, P. R. |
| Honolulu, Hawaii. | Savannah, Ga. |
| Juneau, Alaska. | Seattle, Wash. |
| Los Angeles, Calif. | Tampa, Fla. |
| Mayaguez, P. R. | Washington, D. C. |
| Miami, Fla. | |

(iv) Parcels must not be fastened by means of wire, but use may be made of straps not having sharp edges, tightly fastened so that no sharp ends or corners are exposed.

(6) *Prohibitions.*—(i) *For reasons of public safety.* (a) Firearms, unless the addressee has obtained an import permit.

(b) Articles manufactured from celluloid, including motion-picture film (raw or exposed), celluloid bands and supports therefor, and photographic film, unless packed in double receptacles as follows:

(c) Inner packing: Articles manufactured from celluloid must be packed in boxes of tin, pasteboard or wood. Motion-picture film and celluloid bands or supports therefor must be packed in tin boxes, hermetically sealed. All space remaining in the boxes must be completely filled with packing material.

(d) Outer packing: The inner boxes must be placed together in an outer box of strong wood, the sides to be at least 10 millimeters (one-third inch) in thickness, dovetailed, and the top and bottom firmly screwed to the sides. Any portion of the outer box which may consist of more than one piece of wood must be tightly joined by tongues and grooves. This box must also contain sufficient packing material to completely surround and separate the various inner boxes and to hold them immovable.

(e) The above requirements do not apply to photographic film if closely packed with packing material sufficient in quantity to account for at least 60 percent of the total weight of the parcel.

(ii) *For reasons of sanitary policy.* (a) Penicillin.

(b) Commercial shipments of streptomycin, unless forwarded through the facilities of the "Groupement d Importation des Products Pharmaceutiques", whose representative in the United States is located at 44 Beaver Street, New York 4, N. Y.

(c) Noncommercial (gift) shipments of streptomycin may be mailed by individuals, provided the addressee in each case possesses an import license which may be issued by the French Ministry of Health upon the presentation of a certificate from the addressee's physician.

(d) Unnamed compound medicines not bearing, in conspicuous characters and in the French language, both on the container of the medicine itself and on its outside wrapper, the usual name and the dose of active substances (excluding chemical denominations and formulas), the name and address of the manufacturer, unless they appear in an official pharmacopœia.

(e) The importation of serums, vaccines, virus, toxins, and similar products is subject to authorization by the Government after they have been passed by the pharmacy faculty.

(f) Nursing bottles and nipples made with a product other than pure rubber.

(iii) *For the protection of animals or plants.* (a) Bees, honey, and beeswax must be accompanied by a certificate of origin and noninfection issued by a qualified official approved by the Government.

(b) Skins or carcasses of wild or domestic rodents are prohibited.

(c) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *State monopolies, etc.* (a) The importation of tobacco leaves and stems, manufactured tobaccos, cigars, cigarettes, chewing and smoking tobacco, is permitted only for the account of the Monopoly, with the exception stated below:

(b) Manufactured tobaccos or cigarettes, sent as gifts to individuals in France, may be imported up to the amount of 10 kilograms (22 pounds) per person per year, subject to normal customs duty. The wrapper of each parcel should be marked "À soumettre à la douane à l'arrivée" (to be submitted to customs on arrival). If the cigarettes or tobacco in any parcel exceeds 1 kilogram (2 pounds, 3 ounces), delivery cannot be made without special authority from the French Director of Indirect Taxes.

(c) Prepared wood for matches.

(v) *For other reasons.* (a) Goods bearing false marks of French manufacture.

(b) Coins and banknotes unless imported by the Bank of France or other designated banks under special authorization.

(c) All products bearing any sign or indication of such a nature as to lead one to believe that they were made in France or are of French origin (art. 15 of the General Customs Tariff of January 11, 1892).

(d) Books in the French language presented unstitched and unbound, i. e., in sheets.

(e) Merchandise not complying with the requirements of the law of April 20, 1932, relative to the indication of the origin in indelible and conspicuous Roman letters.

(f) However, for importations having no commercial character addressed to private individuals and manifestly intended for the personal use of the addressees (presents, small quantities, etc.), the indication of the origin is not required.

(g) Canned vegetables, prunes, and fish not bearing an indication of the country of origin by stamping, in plain raised or sunken letters at least 4 millimeters high, in the middle of the top or bottom and in a place not bearing any inscription (laws of July 11, 1906, and June 28, 1913).

(h) Artificial honey (law of July 15, 1921).

(i) Heavy oils and residues of petroleum and other mineral oils require previous authorization for importation.

(j) Candles, vegetable food fats, margarine, oleomargarine, olein, stearin, oleic acid, stearic acid (law of July 2, 1935, art. 15). However, edible vegetable oils and other foodstuffs of a fatty nature are admitted in gift parcels.

(k) Funeral urns.

(l) Pure powdered saccharine may be imported only by the French Government. Other artificial sweetening materials are prohibited.

(m) Negotiable securities and coupons must be imported through the Bank of France or other banks designated by the Ministry of Finances.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Certain articles imported into France for commercial purposes are subject to quota restrictions, and prospective mailers shall be instructed to ascertain whether or not the articles which they desire to send are admissible.

(ii) Prospective mailers of commercial parcels should be informed also that addressees in France must obtain import licenses in advance of the receipt of the goods. Senders should therefore inform the addressees in advance of mailing as to the nature of their shipments.

(iii) Exemption from the above requirement is granted only in the case of gift shipments mailed by individuals to individuals.

Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: No.
Registration: No.
Insurance: Yes.[1]
C. o. d.: No.

[1] Parcels weighing in excess of 22 pounds, and insured parcels, may be accepted only for the American, British and French Zones (Western Zone) of Germany, including the corresponding sectors of Berlin. Service to the Soviet Zone, including the Soviet sector of Berlin, is limited to uninsured parcels not exceeding 22 pounds in weight.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Insurance.* (i) Parcel post packages may be insured to the Western zone and the Western sector of Berlin subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of Indemnity: | *Fee, cents* |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $330 | 70 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b) as to method of converting United States currency into gold francs.

(v) Parcels containing coin, bank notes, currency notes, or any kind of securities payable to bearer; platinum, gold, or silver (whether manufactured or unmanufactured); precious stones, jewelry, or other precious articles must be insured.

(vi) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(5) *Observations*—(i) *All zones.* (*a*) Senders must indicate the zone or sector of occupation as part of the address of all parcels. Parcels for the American, British, and French zones may be addressed "Western zone" if desired, instead of to a specific zone of occupation, provided the number of the postal addressing district is included as a part of the address of such parcels. Parcels for the Soviet zone may be addressed "Eastern zone" if desired. The Western zone comprises postal addressing districts 13, 14, 16, 17, 20, 21, 22, 23, and 24. The Eastern zone comprises districts 2, 3, 10, 15, and 19. Parcels for Berlin may, if desired, be addressed "Western sector" or "Eastern sector."

(*b*) A delivery fee, based on the German domestic parcel post rates, is collected by the German postal service from addressees for delivery of parcels at their homes.

(*c*) Parcels sent as gifts and the relative customs declarations must be conspicuously marked "Gift Parcel" by the senders, who must itemize the contents and value on the customs declarations.

(ii) *Western Zones (including the Western Sector of Berlin).* (*a*) Addressees of gift parcels may receive duty free each month up to 33 pounds of foodstuffs, which may include 1 pound 1½ ounces of coffee, 2 pounds 3 ounces of powdered cocoa, and 2 pounds 3 ounces of chocolate. However, no parcel is admitted duty free if it contains only coffee, powdered cocoa, or chocolate, or any combination thereof, or if the value of such articles exceeds two-thirds of the total value of the contents. Furthermore, the weight of coffee may be only a small proportion of the total weight of the parcel.

(*b*) Exemption from duty is not granted for gift shipments of tea, luxury items, such as jewelry, new fur articles, radio equipment, photographic apparatus, perfumes, cosmetics, or any articles whose character and quantity are not in accord with the needs of the addressee and the members of his household.

(*c*) Gift parcels which prove to be undeliverable are turned over to authorized German relief organizations for distribution to the needy, unless the relative customs declaration and dispatch note bear instructions that the parcels are to be returned to the senders.

(*d*) Parcels sent for commercial purposes are admitted on condition that the contents are authorized on the basis of a general or specific import license issued by the German authorities. Each such parcel must have enclosed an invoice in duplicate showing the value of the contents, which must agree with the value on the customs declaration.

(iii) *Soviet Zone (including the Soviet Sector of Berlin).* Only gift parcels may be sent. The East German authorities require that each parcel may contain not more than 8¾ ounces of coffee, 8¾ ounces of either cocoa or chocolate, and/or 1¾ ounces of tobacco products. Parcels containing larger amounts may be confiscated by the East German customs authorities.

(6) *Prohibitions.* (i) The articles prohibited in the Postal Union mails are prohibited in either gift or commercial parcels.

(ii) Gift parcels to the Western zone may not contain any tobacco or tobacco products, cigarette papers, or saccharine.

(7) *Import restrictions.* Commercial parcels for the Western zone (including the Western sector of Berlin) require import licenses to be obtained by the addressees.

§ 127.262 *Gibraltar*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

| From $25.01 to $50 | 35 |
| From $50.01 to $80 | 55 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$72.50 (U. S.)
Seventy-two Dollars and Fifty Cents
217.50 Gold Francs
Two Hundred Seventeen Gold Francs and Fifty Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) No alteration or erasure of the insurance indication on the customs declaration (Form 2966) is allowed; if an error is made a fresh customs declaration must be prepared.

(v) Parcels containing coin, platinum, gold, or silver, whether manufactured or unmanufactured, precious stones, jewels, or other precious articles must be insured.

(vi) For general information concerning insurance service, see §§ 127.140–127.148, inclusive.

(5) *Observations.* (i) Carbon paper must be described on the customs declaration as follows: Carbon paper coated with wax and containing no oxidizable oily or fatty substance.

(ii) Gold Coast Colony regulations forbid the importation of articles to be exchanged for native goods. All gift parcels must be clearly marked as gifts. Gift parcels should not exceed £10 ($28) in value, and an addressee may not receive more than one gift parcel from any one sender during a month.

(iii) Every parcel containing precious stones, jewelry, or any article of gold, silver, or platinum exceeding $400 in value shall be packed in a box measuring not less than 3 feet 6 inches in length and girth combined.

(6) *Prohibitions*—(i) *For reasons of public safety.* Uniforms, unless addressed to persons entitled to wear them.

(ii) *For the protection of animals or plants.* (*a*) Bees, leeches, and silkworms.

(*b*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry

(iii) *Arms, etc.* (*a*) Firearms, airguns, empty cartridge cases, machines for making or filling cartridges, and other accessories.

(*b*) Brass knuckles.

(iv) *For other reasons.* (*a*) Paper money.

(*b*) Motion-picture films for public exhibition must be addressed to Accra.

(*c*) The following are admitted in insured parcels only:

(*1*) Bullion (limit of value £5); gold or silver coins for ornament (limit of value £5); gold, silver, platinum, precious stones, and jewelry; watches and clocks.

(*2*) Carbon paper, except carbon paper coated with wax and containing no oxidizable oily or fatty substance.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) The following articles are admitted only under license of the Governor: Saccharine and similar substances, or compounds thereof. Machines for duplicating keys. Handcuffs and metal tubing. Any weapon for discharging harmful gas or liquid, ammunition therefor or any other article containing such harmful substance.

(ii) Import permits are required for other types of merchandise in some cases.

§ 127.265 *Great Britain and Northern Ireland (England, Scotland, Wales and Channel Islands; also Northern Ireland).* (a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 41 cents for the first 2 ounces and 20 cents for each additional 2 ounces. (See § 127.20.)

(5) *Special delivery.* Yes. (See § 127.19.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.) Such articles not bearing the green label, Form 2976 (C 1), are subject to confiscation.

(7) *Observations.* (i) The importation into the United Kingdom of various kinds of merchandise is either entirely prohibited or permitted only under license previously obtained by the importer from the Import Licensing Department of the Board of Trade. Although such licenses are not required to accompany the parcels at time of mailing, it is suggested that exporters ascertain in advance that the importer has obtained the necessary license or is able to obtain it provided it is required. This restriction does not apply to gift shipments sent by a private sender to a private adressee nor to trade samples.

(ii) Mail articles for delivery in London, England, to secure delivery must include in all cases: 1. Name of addressee. 2. Number (or if there is no number, the name) of the house. If a house bears a name and also a number, the number should always be used, whether or not the name be added. 3. Name of street or road in which the house is located. 4. The words "London, England." 5. Initials of the postal district, followed by the number of the office of delivery; thus, "S. W. 4," "N. W. 8." In the case of articles for delivery in other parts of Great Britain and Northern Ireland, the name of the county is an essential part of the address.

(iii) It is recommended to senders that any article of printed matter with dutiable contents be plainly marked "c/o The Officer of Customs and Excise" in addition to bearing the full name and address of the addressee. A post-office fee of 6d. for clearance through the customs is charged on each package on which customs duty is levied. Delivery of packages containing books and other printed matter will be expedited if the titles and number of volumes, pamphlets, etc., of each title are shown on the outside wrapper.

(iv) Articles containing penicillin must have the wrappers marked by the senders "Addressee has import license", or similarly.

(v) The following is a list of names of the counties and principal towns in Northern Ireland:

| | |
|---|---|
| Antrim: | Londonderry: |
| Ballymena. | Coleraine. |
| Belfast. | Kilrea. |
| Carrickfergus. | Limavady. |
| Larne. | Magherafelt. |

| Downpatrick. | Moy. |
| Kilkeel. | Omagh. |
| Newcastle. | Strabane. |
| Newry. | Fermanagh: |
| Newtownards. | Enniskillen. |

(8) *Prohibitions.* (i) The permission of the British exchange control authorities is required for the importation of (*a*) paper money which is or has been legal tender in Great Britain and Northern Ireland; (*b*) British treasury notes; (*c*) all securities regardless of issue, whether canceled or not, and documents certifying to their destruction or cancellation, except sterling "Registered Certificates" relating to securities on which the interest or dividends are not payable by coupon.

(ii) Imitations of postage stamps. Articles bearing imitations of British, foreign, or colonial postage stamps, out of circulation or not.

(iv) Check books must be sent exclusively in the letter mails.

(v) Arms, parts of arms, munitions, and similar articles.

(vi) Liquids having a flash point of less than 200° F. However, paints, varnishes, turpentine, lacquer, and similar substances having a flash point between 90° and 200° F. will be accepted in quantities not exceeding one pint for transmission as "samples of merchandise" when packed in accordance with the regulations set forth in § 127.9 paragraph (g) (2). Such substances may be enclosed in friction top containers provided the top is soldered in four different places, equally spaced, if otherwise, packed in accordance with the regulations governing the transmission of liquids. An air space of at least 7½ percent of the total cubic content must be left in each container.

(vii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails, except the following: Coins, manufactured or unmanufactured platinum, gold and silver; precious stones, jewelry or other precious articles (but coins not intended for ornament and gold in ingots must not exceed £5 in value); circulars; liquids or substances for analysis or for medical examination and pathological specimens (in the form of samples); leeches and silkworms (in the form of samples); and clean rags (in the form of samples).

(viii) Parasites and predators of injurious insects, intended for the control of those insects and exchanged between officially recognized institutions, are admitted in the form of samples only.

(ix) The importation of dutiable articles into the United Kingdom by sample post is in general prohibited, and dutiable articles so imported are liable to forfeiture. The prohibition is relaxed, however, in the case of genuine trade samples which comply with the requirements of the British regulations.

Customs declaration: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Limited to ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the fees mentioned hereunder:

| Limit of indemnity: | Fees |
|---|---|
| Not over $10 | $0.20 |
| From $10.01 to $25 | .25 |
| From $25.01 to $40 | .35 |
| From $50.01 to $100 | .55 |

(ii) Only parcels mailed in continental United States (not including Alaska) may be insured for the following amounts:

| Limit of indemnity: | Fees |
|---|---|
| From $100.01 to $200 | $0.60 |
| From $200.01 to $300 | .65 |
| From $300.01 to $400 | .70 |
| From $400.01 to $500 | .75 |
| From $500.01 to $600 | .80 |
| From $600.01 to $700 | .85 |
| From $700.01 to $800 | .90 |
| From $800.01 to $900 | .95 |
| From $900.01 to $1,000 | 1.00 |

(iii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in United States currency, in arabic figures and in roman letters spelled out in full, as per the following example:

Insured Value
$76.89
Seventy-six Dollars and Eighty-nine Cents

(iv) Every parcel containing coins, bullion, precious stones, and any article of gold, silver, or platinum must be insured.

(v) Parcels containing jewelry must not have a value in excess of $1,000 when mailed in continental United States (not including Alaska), or $100 when mailed in Alaska and other Territories and possessions of the United States. Any parcel containing jewelry or any other precious article exceeding $280 in value must be packed in a box measuring not less than 3 feet 6 inches in length and girth combined.

(vi) The final decision on all questions of compensation rests with the country in whose service the loss, rifling, or damage took place.

(vii) While parcels containing eggs, when properly packed, may be accepted for insurance to Great Britain and Northern Ireland, no indemnity is payable, in the event of damage, should it be determined that responsibility for the damage rests with the Postal Administration of Great Britain and Northern Ireland. Also regardless of where the damage occurred, no indemnity is payable for the damage to insured parcels, containing eggs, originating in Great Britain and Northern Ireland and addressed to this country.

(viii) For further information concerning insurance service, see §§ 127.130 to 127.139, inclusive.

(5) *Observations.* Parcel post packages are divided into two classes, namely, bona fide unsolicited gift parcels; and all other parcels. The following shall be observed in the acceptance of parcels under the two classes mentioned:

(i) Bona fide unsolicited gift parcels addressed to individuals: All such parcels must be endorsed by the senders with the words "Unsolicited Gift." A gift is not regarded by the British service as unsolicited if it is received as a result of a prior communication sent by the recipient to the donor. While parcels sent as gifts do not require a British import license, they may, nevertheless, be subject to customs duty and, in some cases, to the United Kingdom purchase tax, which the addressee must pay in order to obtain delivery of the parcel. Ordinary (uninsured) gift parcels containing exclusively food, soap, and or second-hand clothing will not be returned to the senders unless the latter have given instructions on the relative customs declaration (Form 2966) that the parcels are to be returned if they prove to be undeliverable as addressed.

(ii) All other parcels: All acceptable merchandise not sent as an unsolicited gift will be admitted into the United Kingdom only under a license which the importer must obtain from the Import Licensing Department of the Board of Trade. All parcels not coming within the requirements set forth in subdivision (i) of this subparagraph for "Unsolicited gift parcels" will be regarded as having been accepted with the understanding that the responsibility for previously determining that the articles sent will be admitted and for obtaining the required import license rests with the sender and addressee, and the Post Office Department will assume no responsibility arising from the failure or the inability of the addressee to produce the import license.

(iii) A fee for clearance through the customs is imposed on each parcel-post package received from abroad which is subject to customs charges. The amount of the fee is 1 shilling for each parcel on which the customs charges exceed 10 shillings and 6 pence for each parcel on which the customs charges do not exceed 10 shillings.

(iv) Particulars on customs declarations must be full and precise in all details, and in case of packages containing articles of different kinds, the exact quantity of each kind of article must be stated, with descriptions and individual weights. Delivery of parcels containing books and other printed matter will be expedited if the titles and number of volumes, pamphlets, etc., of each title are shown on the customs declaration.

(v) Carbon paper coated with wax and not containing any oxidizable oily or fatty substance must be described accordingly on the customs declaration.

(vi) Parcels containing goods liable to ad valorem duty should be accompanied by an invoice showing the contents in detail and the value of each article and the cover of the parcel should be marked on the address side "Invoice inclosed." When the invoice relates to more than one parcel the cover of each parcel should be marked "Invoice enclosed in parcel No. ---."

(vii) Parcels for delivery in London, England, to secure delivery should include in all cases: 1. Name of addressee. 2. Number (or if there is no number, the name) of the house. If a house bears a name and also a number, the number should always be used, whether or not the name be added. 3. Name of street or road in which the house is located. 4. The words "London, England." 5. Initials of the postal district, followed by the number of the office of delivery, thus: "S. W. 4", "N. W. 8." In the case of parcels for delivery in other parts of Great Britain and Northern Ireland, the name of the county is an essential part of the address.

(viii) Special customs and other provisions: The British Office does not accept responsibility for any parcel containing precious stones, jewelry, or any other article of gold or silver of a value higher than $280, sent *in transit* through that office or intended for delivery in Great Britain or Northern Ireland, unless it is inclosed in a box measuring not less than 3½ feet in length and girth combined.

(ix) Parcels containing penicillin must have the wrapper marked by the senders "Addressee has import license", or similarly.

(x) The outer receptacle of a parcel containing liquids must be of strong wood or metal.

(6) *Prohibitions*—(i) *For reasons of sanitary policy.* (*a*) Soiled clothing; rags; shaving brushes made in Japan; goat hair and goat wool.

(*b*) Meat, milk, cheese, butter, margarine, lard and other greases, unless packed in hermetically sealed tins plainly marked to show the nature of the contents.

(*c*) Advertisements concerning the treatment or prevention of venereal disease, unless addressed to physicians or pharmacists.

(ii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *Arms, etc.* (*a*) Firearms (except shotguns with barrels at least 20 inches long) and other deadly weapons and parts thereof, including guns for throwing liquid or gas and munitions therefor; accessories for reducing the sound or flash of firearms.

(*b*) To Northern Ireland: Airguns, and shotguns with barrels 20 inches or more in length, in addition to the above.

(iv) *For other reasons.* (*a*) Articles violating the trademark or copyright laws.

(*b*) Oilskins and similar oiled goods, unless each parcel contains a certificate as follows: "Any oilskins or similar oiled goods in this parcel have been stoved at a temperature of 140° at least 8 hours and afterwards cured for at least a month before being packed."

(*c*) Carbon paper, unless wax-coated and not containing any oxidizable oily or fatty substance and so described on the customs declaration.

(*d*) Cut and pressed tobacco, and tobacco mixed with other substances. Practically all cigarettes manufactured in the United States are prohibited, except in unsolicited gift parcels addressed to individuals.

(*e*) Saccharine and similar substances.

(*f*) Concentrations of coffee, tea, chicory, or tobacco.

(*g*) Coins, precious stones, jewelry, and any articles of gold, silver, or platinum, unless insured. Coins of a value higher than £5 (except with a declaration that they are for ornament), gold in ingots of a value higher than £5, and silver in ingots or partially worked of a value higher than £50, even if insured.

(*h*) Advertisements of fortune tellers.

(*i*) Liquids with flash point lower than 200° F. As an exception, paints, varnishes, turpentine, lacquer and similar substances with flash point between 90° and 200° may be accepted in quantities not exceeding one pint when packed as prescribed in § 127.72 (d), with an air space of at least 7½ percent of the total cubic content left in each container; the wrapper must be marked by the sender indicating that the flash point is not lower than 90° F.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Vaccines, serums, antitoxins, salvarsan and its derivatives, insulin, tuberculin, pituitary extract for injections, and sterilized surgical sutures for human use, require authorization from the competent authority.

(ii) Foods or beverages to which any preservative or other substance has been added must comply with the British regulations for importation.

(iii) The following require permission from the British Board of Trade:

(*a*) Synthetic organic dyes and coloring materials, except bona fide trade samples.

(*b*) Preparations of snuff and tobacco stalks.

(*c*) Processed milk, unless sent as an unsolicited gift.

(*d*) Bird plumage, except of birds commonly used as food and certain other species.

(*e*) Other types of merchandise may require import licenses (see subparagraph (5) of this paragraph).

§ 127.266 *Greece (including Crete and Dodecanese Islands (Astypalaia, Chalki, Kalymnos, Karpathos, Kassos, Kastellorizon, Kos, Leipsos, Leros, Nissiros, Patmos, Rodos, Symi and Tilos))*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters and post cards, 15 cents per half-ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 48 cents for the first 2 ounces and 28 cents for each additional 2 ounces. (See § 127.20.)

(6) *Prohibitions.* (i) Dutiable articles (merchandise) in letters and packages prepaid at letter rate.

(ii) Notes of the Hellenic Bank. Coins; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry, and other precious articles.

(iii) Tobacco, cigarettes, cigars, saccharine, and its products.

(iv) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* (i) Customs declarations must show a detailed description of the contents of the parcels including the exact gross and net weight, and the quantity and value of each kind of merchandise, and, if practicable, be worded in the Greek or French language as well as in English.

(ii) Exemption from duty is granted for limited amounts of food, clothing and certain other articles sent as gifts for the personal use of the addressee or his family. Interested patrons may obtain further information from the Office of International Trade, Department of Commerce, Washington 25, D. C., or from any field office of that Department.

(iii) It is indispensable that senders enclose a copy of commercial invoices in parcels. The absence of the invoice may result in delay in delivery of parcels, difficulties in customs treatment, or even prejudice against the addressees.

(6) *Prohibitions*—(i) *For sanitary reasons.* (*a*) Fresh meat, preserved meat, rawhides, wool, other products and waste from cattle or sheep, unless accompanied by a certificate of origin showing that the place of origin free from trichina.

(*b*) Used clothing, bedding, rags, etc., for commercial purposes. Used clothing for personal use, unless cleaned.

(*c*) Cans of condensed milk, unless provided with a label in the Greek language indicating the directions for its use.

(*d*) Snuff.

(ii) *For the protection of plants.* (*a*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(*b*) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(iii) *Arms, etc.* Firearms, swords, and any other articles containing them.

(iv) *State monopolies.* (*a*) Salt; playing cards; amusement devices; petroleum; saccharine.

(*b*) Leaf tobacco for cigars and cigarette papers, unless imported by or for tobacco manufacturers, under special authorization of the Ministry of Finance.

(*c*) Aluminum sheets for tobacco manufacturing.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Certain pharmaceutical specialties require special authorization of the Greek authorities.

(ii) Hunting arms and other commercial arms require special permission from the police authorities.

(iii) Obligations, public securities and paper values of all kinds require special authorization from the Ministries of Finance and of National Economy.

(iv) Parcels sent for commercial purposes in many cases require authorization from the Greek Ministry of Commerce for delivery. The same is true of parcels sent as gifts if the value of the contents exceeds $30. It is recommended that senders of such parcels ascertain in advance from the addressees whether they will be allowed to receive them.

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: Limited to 3 ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.
Consular Invoice: Yes. (See subparagraph (6) of this paragraph.)

(2) *Indemnity.* For ordinary parcels, see § 127.165. For insured parcels, see subparagraph (5) of this paragraph.

(3) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(4) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the fees mentioned hereunder:

| Limits of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in United States currency, in arabic figures and in roman letters spelled out in full, as per the following example:

Insured Value
$75.55
Seventy-five Dollars and Fifty-five Cents.

(iii) Parcels containing coin, precious metals, jewelry, or other precious articles must be insured.

(iv) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) The customs laws of Guatemala require that a certificate of origin be furnished for every importation except in the case of merchandise not exceeding $50 in value. Nevertheless, if the articles are subject to restrictions, quotas, or special charges, the certificate is required regardless of their value.

(ii) Commercial invoices must be furnished for all merchandise imported into that country.

(iii) Both certificate of origin and commercial invoice must be visaed by a Guatemalan Consul or diplomatic representative. Senders must present to the nearest Guatemalan Consul five copies of the commercial invoice covering their parcels. The certificate of origin, and the original invoice which is returned after certification shall not be enclosed in the parcel, but forwarded under separate cover to the addressee. The remaining copies are retained by the Consul.

(iv) Consular fees are collected at the point of destination of the parcels in Guatemala. It is understood that in cases where parcels of value are received in Guatemala without the certified invoices and the addressees are unable to produce such invoices the parcels will be delivered, but the addressees will be required to pay the usual import duties plus a fine of 50 percent of the duties.

(v) The invoices must indicate (1) name and address of shipper; (2) name and address of consignee; (3) date of the invoice; (4) marks, countermarks, and numbers; (5) number and kind of package; (6) contents of merchandise in detail; (7) weights in kilograms—legal, net and gross; (8) value of merchandise; (9) expenses, such as postage, commissions, etc.; (10) declaration that all the prices and particulars are true and correct. The invoices must be signed in ink.

(vi) Guatemalan Consuls are located in the following cities:

| | |

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Yes. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $330 | 70 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters, spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$275.50 (U. S.)
Two Hundred Seventy-five Dollars and Fifty Cents
826.50 Gold Francs
Eight Hundred Twenty-six Gold Francs and Fifty Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coins, bank notes, currency notes, or any kind of securities payable to bearer; platinum, gold, or silver, whether manufactured or unmanufactured; precious stones, jewelry, or other precious articles must be insured.

(v) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) All merchandise imported by mail, except books, newspapers, and periodicals, shall be accompanied by an invoice and the accompanying customs declaration appropriately endorsed to indicate this fact, or else sent directly to the addressee so as to be received by him before he can receive the shipment mentioned in that invoice.

(ii) The invoice should contain an exact designation of the contents of the parcel, with indication of the true delivery price, and should bear the attestation of the sender himself or of a person authorized by the law of the country of origin to sign his firm name. Failure to observe these formalities will entail the return of the articles in question to origin, followed by return charges, unless the addressee consents to pay, in addition to the customs duty, a fine which varies from 10 to 1,000 crowns, depending on the importance of the violation.

(iii) Parcels destined for Iceland are subject on delivery to a small additional postal charge.

(7) *Prohibitions*—(i) *For sanitary reasons.* Used clothing, linens, rags, bedding, and wadding; wool-flock, waste paper, hair, untanned hides.

(ii) *For the protection of plants.* (a) Potatoes from districts infected with the potato-wart disease (Synchytrium endobioticum).

(b) Every shipment of potatoes must therefore be accompanied by a certificate of origin, as well as an official certificate of health particularly stating whether there has been any case of potato-wart disease within 5 kilometers of the place where the potatoes were grown within the past 5 years and whether the packing is new and uncontaminated.

(iii) *State monopolies.* (a) Monopolized medicinal products, unless addressed to pharmacies or the Department of Commerce.

(b) Wireless receivers and their accessories, parts, or batteries.

(c) Icelandic coins or bank notes or obligations stated in money or payable in Icelandic money. However, these restrictions do not apply to money orders, checks, or other remittances stated in Icelandic money and payable at official banking institutions.

(8) *Import restrictions.* Addressees are required to obtain import permits in some cases.

§ 127.275 *India (including the Andaman Islands, Bhutan, Nepal, and Tibet)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. Service applicable only to unregistered letters, post cards, and printed matter. (See § 127.19.)

(5) *Air mail service.* Postage rate: Letters, letter packages and post cards, 25 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 64 cents for the first 2 ounces and 44 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* (i) Accepted. (See § 127.3.)

(ii) Dutiable letter packages received unaccompanied by the green label, Form 2976 (C 1), or paper customs declaration, Form 2976–A, are subject to a heavy fine in addition to the customs duty.

(7) *Observations.* (i) Addressees in India are required to obtain import licenses in many cases in order to take delivery of commercial shipments.

(ii) The Postal Administration of India advises that customs duties will be assessed on articles transmitted in the sample mails to that country, unless such samples are devoid of all value and unfit for consumption or any other use except as samples for purposes of inspection. Also, the quantity composing the shipment should be less than the unit ordinarily sold at retail.

(iii) Articles for Tibet may be accepted only if they are addressed in care of an agent of the sender or of the addressee at Gyantse, in Tibet, to whom they will be delivered and who shall be responsible for their onward transmission. The Postal Administration of India advises that it cannot in any case whatsoever accept any responsibility for the articles after their delivery at Gyantse. Regulations and conditions applicable to mail destined to India apply also to articles for Tibet.

(8) *Prohibitions.* (i) Bank notes and paper money, except with the permission of the Reserve Bank of India.

(ii) Works of art (including photographs), forms ruled or printed, account and manuscript books, labels, advertising matter (except trade catalogs and circulars), almanacs in sheets or in cards, and other cards, including waste paper and old newspaper for packing, are not admitted as printed papers when sent as merchandise, inasmuch as they are liable to customs duty.

(iii) Diamonds and other precious stones, unless legally reimported by registered mail in accordance with Indian laws.

(iv) Noninflammable motion-picture films or "safety" films are admitted in letter packages when enclosed in a strong metal box and the latter is packed in a strong wooden or thick pasteboard container. A label printed in red letters or written very clearly by hand in red ink bearing the note "Contains only noninflammable films" must be placed on the outside of each package. Any article received in India containing noninflammable or "safety" films not prepared in the manner outlined above is liable to destruction. However, celluloid and articles made wholly or partly of celluloid, such as inflammable motion-picture and photographic films, are prohibited importation.

(v) All plants (except sugarcane for planting, intended for cultivation under the personal supervision of the Government expert at Coimbatore); American cotton; seeds of flax, cotton, and *bersim* (Egyptian clover).

(vi) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

[1] The weight limit of parcels for Tibet is 11 pounds.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length 3½ feet. Greatest length and girth combined 6 feet.

(4) *Observations.* (i) All parcels must be very strongly packed.

(ii) Parcel post packages addressed to box numbers and not bearing the actual address of the addressee will be returned to origin.

(iii) The customs treatment of commercial shipments in India will be facilitated if senders will enclose a copy of the relative invoice in each parcel.

(iv) Customs duty is levied in India on the full value of the article sent, including postage, insurance, commission, etc., and an addition of 4 percent to the declared value is made by the Indian customs authorities in assessing the duty unless such extra charges are shown in detail on the customs declarations, or unless it is made clear in the declarations that the charges have been included in the declared value.

(v) If books and photographs are enclosed in a parcel with other articles, their value should be shown separately in the customs declaration.

(vi) The net weight of the contents of parcels of tobacco, cigars, and cigarettes, and, in the case of cigars and cigarettes, particulars of the brands, and the number and net weight of the cigars or cigarettes of each brand should be clearly indicated on the customs declaration.

(vii) The senders of parcels must indicate clearly on the relative customs declarations the nature of the material of which the articles contained therein are made (e. g., silk stockings, silver-plated cutlery, etc.).

(viii) An incorrect declaration of the value of the contents may result in the confiscation of the parcel by the Indian customs authorities and the imposition of a heavy fine upon the addressee.

(ix) For information regarding parcels for Tibet, see paragraph (a) (7) of this section.

(5) *Prohibitions*—(i) *For reasons of public safety.* (*a*) All liquids with flash point below 200° F.

(*b*) All literature, documents, or other articles advocating the overthrow of the Government of India or any other established government, or other treasonable activities.

(ii) *For sanitary reasons.* Shaving brushes made in or exported from Japan.

(iii) *For the protection of animals or plants.* (*a*) Unginned cotton.

(*b*) Mexican jumping beans (Sebastiana palmeri of the Euphorbiaceae family).

(*c*) Insects (this includes live insects and their eggs) must be accompanied by a certificate of freedom from disease, and an importing permit.

(*d*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *Arms, etc.* (*a*) Arms, munitions, and military stores, except for the Indian Government.

(*b*) Silent revolvers and pistols; imitation or toy revolvers and pistols.

(*c*) Appliances (including pistols, pistol pencils, etc.) for discharging gas, except on behalf of the Government.

(v) *State monopolies, etc.* To the States of Cochin and Travancore: Tobacco (manufactured or unmanufactured) unless addressed to wholesalers or licensed importers.

(vi) *For other reasons.* (*a*) Banknotes and paper money, except with the permission of the Reserve Bank of India.

(*b*) Articles of gold or silver, diamonds and other precious stones. Any goods bearing a counterfeit trade-mark.

(*c*) Piece goods, such as are ordinarily sold by the yard or piece, manufactured outside of India.

(*d*) Saccharine.

(6) *Import restrictions.* Addressees are required to obtain import licenses in many cases for commercial shipments.

§ 127.276 *Indonesia (Alor Island, Amboina, Aru Island, Babar, Bali, Banda, Banka, Batjan, Bawean, Bengkalis, Billiton, Bintan, Borneo (Kalimantan), Buru, Buton, Celebes (Sulawesi), Ceram, Flores, Geser, Halmahaira, Java (Djawa), Kai Island, Kalimantan (Borneo), Kangean, Karimun, Kisar, Kundur, Laut, Lombok, Madura, Morotai, Muna, Roti, Salajar, Salibabu, Sambu, Sangir Island, Saparua, Sapudi, Siantan, Siau, Singkep, Sula Island, Sulawesi (Celebes), Sumatra, Sumba, Sumbawa, Tanimbar Island, Tarakan, Tebingtinggi, Ternate, Timor (formerly Netherlands Timor), and Weh.*)—(a) *Postal Union mails*—(1) *Classifications, rates weight limits, and dimensions.* See Table No. 1, in § 127.1. (4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* (i) Service is restricted to gift parcels. Before parcels are accepted for mailing, senders shall be required to mark them to show they are gifts. Such parcels are generally free of duty provided that (a) the value does not exceed 20 gold francs ($6.67), (b) the wrapper and customs declaration are marked "Gift Parcel—For personal use of the addressee," and (c) the parcel does not contain more than 200 cigarettes, 50 cigars, 1 pound 1½ ounces of chopped tobacco, or the same weight of assorted tobacco products.

(ii) The customs declarations must show both the gross weight of the whole parcel and the net weight of each item.

(6) *Prohibitions*—(i) *For reasons of public safety.* Cocoa leaves, dried, undried, or powdered.

(ii) *For the protection of plants.* (*a*) See paragraph (a) of this section for conditions of importation of parasites and predators of harmful insects.

(*b*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *For other reasons.* Publications advocating unlawful or treasonable activities. Counterfeit money. Articles violating the trademark laws. Amulets. Sarongs and all manufactured articles bearing batik designs.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by the addressees:

(i) Import licenses are required for all gift parcels exceeding 300 rupiahs (about $25) in value, and for those which contain any articles which may be considered by the Indonesian authorities as luxury items.

(ii) Special authorization is required for the following: Arms and parts thereof; dry white lead which must be for scientific or medical use; motion-picture films which must be inspected and approved by an official commission at Djakarta; antibiotic drugs.

§ 127.277 *Iran*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rate, 25 cents per half ounce. Air letter sheets, 10 cents each. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) It is necessary that addressees in Iran obtain an import permit from the Department of Commerce of Iran before receiving merchandise through the mail.

(ii) Addresses must be written in a precise and complete manner in Latin (English) characters lengthwise on the articles, leaving space for service notations or labels, so that the dispatch of articles and their delivery to addressees may be effected without research.

(iii) Small packets and letter-packages containing articles liable to customs duty are subject to collection from the addressees of the Iranian domestic parcel post rate.

(8) *Prohibitions.* (i) Coins; manufactured or unmanufactured platinum, gold or silver; precious stones, jewelry, and other precious articles.

(ii) Currency of all kinds, all paper values, etc.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bullion, valuable jewelry, or any other precious article must be insured.

(v) For general information concerning insurance, see §§ 127.140 to 127.148, inclusive.

(5) *Observations.* (i) The names of the county and the delivering office must form a part of the address of all mail articles. See paragraph (a) (7) of this section for names of counties comprising Ireland.

(ii) Customs declarations must be drawn up clearly and precisely and, if practicable, in accordance with the classification of the Official Import List of Ireland. They should bear the authentic signature of the sender.

(iii) The declaration must show as regards each article enclosed in the parcel: (*a*) The value, (*b*) the gross weight, (*c*) the net weight, and (*d*) the name of the country of origin. When the contents are composed of different kinds of articles, the exact quantity and value of each kind must be stated, as well as a description of the material of which the articles are composed; the number and size of each internal container being likewise given. As regards books, the following particulars are required: (*a*) The language in which the book is written, (*b*) whether it is a novel or otherwise, (*c*) the nature of the binding (leather, imitation leather, etc.), and (*d*) whether the book is newly published or has been in use already.

(iv) In the case of articles liable to customs duty which are eligible for preference, the preferential tariff will not be applied unless the customs declaration is inscribed in bold characters: "Preference claimed—Certificate of origin enclosed." Otherwise, the full customs duties will be applied to the articles.

(v) The same applies to goods imported under permit, unless the declaration is clearly marked "Imported under license," and unless the relative license is produced at the time of customs examination. In such cases the license should be procured before the goods are imported.

(vi) Parcels containing goods which are liable to ad valorem duty on importation into Ireland (e. g., boots or shoes, articles of personal clothing, other articles of personal, domestic or household use made of woven material, woven or knitted piece goods, clocks or watches, automobile parts or accessories, etc.) must, if exported on sale, be accompanied in all cases by the invoice or, if the original invoice has been forwarded separately to the addressee of the parcel, by a true copy thereof. Private parcels containing such goods of a value of £5 or over must be accompanied by any documentary evidence available.

(vii) When invoices are enclosed in parcels, the fact should be mentioned on the customs declaration.

(viii) Cinematograph films must be well packed in a tin case enclosed in a strong wooden box, and if the lid or bottom or any of the sides of the box are composed of more than one piece of wood, they must be tongued and grooved. A lining of suitable material must be placed between the upper edges of the box and lid, and the lid must be firmly screwed down. A white label bearing the word "Films" in plain black letters must be affixed to the packet.

(ix) Parcels containing articles of gold or silver, jewelry, or any other precious object exceeding £100 in value shall be packed in a box measuring not less than 3 feet 6 inches in length and girth combined.

(x) The outer receptacle of a parcel containing liquids must be of strong wood or metal.

(6) *Prohibitions—For sanitary reasons.* (*a*) Shaving brushes from Japan.

(*b*) Circulars or advertisements relating to the prevention or treatment of venereal disease, unless addressed to physicians or pharmacists.

(*c*) Margarine, skimmed milk, and other diluted or adulterated foodstuffs, unless suitably labeled.

(ii) *For the protection of animals and plants.* (*a*) Plumage. Hay and straw, including all straw articles.

(*b*) Sealskins of the genera Callorhinus alascanus, Callorhinus insinus, and Callorhinus kurilensis, unless accompanied by a certificate issued by the competent authorities of the country of origin.

(*c*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *State monopolies, etc.* Coins, other than gold or silver, minted in a foreign country.

(iv) *For other reasons.* (*a*) Coins exceeding £5 in value unless declared to be for ornament. Gold bullion over £5 in value. Silver bullion over £20 in value.

(*b*) Articles violating the trademark or copyright laws. Goods made in prisons.

(*c*) Tobacco, cigars or cigarettes packed with other articles. Extracts, essences, or concentrations of tobacco, coffee, tea, or chicory. Tobacco cut and compressed, sweetened or adulterated. See also "Import restrictions" below.

(*d*) Oiled or varnished cloth or similar articles, unless accompanied by a certificate as follows: "The oilcloth or similar articles in this parcel have been stoved at a temperature of 140° F. until completely dried, and then cured for at least a month before packing."

(*e*) Carbon paper, except for typewriter carbon paper which must be described on the customs declaration as follows: "Typewriter carbon paper coated with wax and containing no oxidizable or fatty substance."

(*f*) Saccharine and similar substances, unless sent in 11-lb. parcels containing no other merchandise.

(7) *Import restrictions.* The attention of senders should be called to the following requirements which must be met by addressees:

(i) Pork including bacon and ham; beef and mutton in any form; eggs and meat of poultry; butter and cheese; pre-

served unsweetened fruits and berries; and corn flakes require a permit from the Ministry of Agriculture at Dublin.

(ii) Tobacco in any form not prohibited, and exhausted or adulterated tea, require a license from the Revenue Commissioners at Dublin.

(iii) Certain drugs, vaccines, serums, biological products for injection, and surgical sutures for human use require an import license from the Department of Health at Dublin.

(iv) Firearms and deadly weapons and parts thereof, toy pistols and toy revolvers require a license from the Department of Justice at Dublin.

(v) A variety of agricultural supplies and other merchandise require import permits from the Ministry of Agriculture or the Ministry of Commerce and Industry at Dublin. The lists are too long to give in detail, and it is recommended that senders ascertain from addressees in advance of mailing whether the articles which they desire to mail will be admitted.

(vi) Addressees must obtain "Duty Free" licenses for all commercial parcels and for gift parcels exceeding £5 (about $14) in value.

§ 127.280 *Israel, State of*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(3) *Indemity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards 25 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 52 cents for the first 2 ounces and 31 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) A part of the city of Jerusalem is under the control of the State of Israel and a part (old city) under the control of the Hashemite Kingdom of Jordan. Articles for that part of Jerusalem under Israeli control should show "Israel" or "State of Israel" as the country of destination.

(ii) See paragraph (b) (4) of this section concerning import license requirements which are also applicable to goods sent in the Postal Union mails.

(8) *Prohibitions.* (i) Israeli currency. Parasites and predators of injurious insects, intended for the control of those insects and exchanged between officially recognized institutions, are admitted as samples only, provided that the importer has secured a permit from the Director of Agriculture and Forests at Jerusalem at least 7 days before the date of importation.

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Observations.* (i) Addressees in Israel are required to possess import licenses in order to take delivery of all parcels except the following:

(a) Bona fide gift parcels containing food for the personal consumption of the addressee.

(b) Parcels containing bona fide gifts other than food or postage stamps, provided the contents do not exceed £40 (about $112) in value and are for the addressee's personal use, and not more than one parcel or group of parcels is received by one family within 3 months.

(c) Parcels containing the property of persons who have settled in Israel or the property of tourists, if declared to the customs authorities by the owners and granted exemption from customs duty.

(ii) Parcels which do not fall within one of those categories require import licenses to be obtained by the addressees in Israel. It is the responsibility of the mailer in each case to ascertain that the addressee has obtained or can obtain the import license if required.

(iii) Customs duty can be prepaid on gift parcels by senders in certain cases. Interested patrons may be referred to the Consulate General of Israel, 11 East Seventieth Street, New York 21, N. Y., or to the Consulate of Israel, 208 West Eighth Street, Los Angeles, Calif.

(5) *Prohibitions*—(i) *For reasons of public safety.* Printed matter of a seditious character or prohibited by censorship regulations.

(ii) *For sanitary reasons.* (a) Shaving brushes made in Japan, China, or Korea.

(b) Harmful coloring materials for foodstuffs.

(c) Advertisements relating to the treatment of venereal disease, unless addressed to physicians or pharmacists for professional use.

(d) Essences and extracts of oils for manufacturing imitation or adulterated foodstuffs, unless addressed to a firm under excise control or a licensed pharmacist under permit from the Director of Medical Services, Jerusalem.

(e) Pharmaceutical preparations unless properly labeled. Such preparations sent as gifts must be adequately labeled to permit verification of the contents. Commercial shipments must be labeled in accordance with the Israeli pharmaceutical regulations. See also subparagraph (6) of this paragraph.

(iii) *For the protection of animals or plants.* (a) Used hives or equipment for beekeeping.

(b) Plants, fruits and seeds, unless authorized by the Director of Agriculture and Forests at Jerusalem.

(iv) *Arms, etc.* Daggers, unless imported as antiques.

(v) *For other reasons.* Israeli currency. Blank invoices and other papers which generally relate to delivery of merchandise.

(6) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) See subparagraph (4) of this paragraph for information as to import licenses which must be obtained for certain shipments.

(ii) Firearms require a special license.

(iii) Pharmaceutical preparations sent as gifts require a medical certificate showing that the addressee has need of the medicine. Such preparations sent as commercial shipments require a license from the Ministry of Health, Jerusalem.

(iv) Veterinary vaccines and serums require permission from the Chief of the Veterinary Department, Jerusalem.

(v) A special license from the Director of Commerce and Industry at Jerusalem is required for wheat, flour, semolina, cigarette paper, distilling apparatus, salt, and unrefined oil.

§ 127.281 *Italy, including Republic of San Marino*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Dutiable articles (merchandise) prepaid at letter rate.* (i) Prohibited except for packages containing only small quantities of streptomycin and penicillin sent at gifts. The medicine must be prepared to be used directly for personal treatment, and will be admitted on condition that the addressees submit to the customs office the regulation permit from the Italian health authorities.

(ii) Before accepting such packages for mailing the senders must be required to place the following endorsement on the wrapper, immediately below the green label (Form 2976), if practicable: "Contents: Streptomycin (and/or Penicillin) Gift."

(iii) For further information see § 127.3.

(6) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 45 cents for the first 2 ounces and 24 cents for each additional 2 ounces. (See § 127.20.)

(7) *Observations.* (i) Packages containing books, music, magazines or periodicals mailed as printed matter must be accompanied by a paper form of customs declaration, Form 2976–A, even in those cases in which the articles concerned are admitted free of duty. The declaration is required as evidence of the arrival of the printed matter in Italy, in order that the addressee may obtain from the Bank of Italy the currency necessary to pay for the printed matter in question and permission to send the relative amount out of Italy. However, when the addressees are not required to pay for the merchandise, and therefore need not send currency out of Italy, the customs declarations are not necessary.

(ii) Dutiable prints are admitted provided such articles, whether ordinary or registered, are accompanied by the green label, Form 2976 (C 1).

(iii) In order for international reply coupons to be exchanged in Italy, the reply coupons and the articles of correspondence to be prepaid must be presented at the same time.

(iv) Articles, other than letters, weighing more than 500 grams (18 ounces), are liable in Italy to a charge to be collected from the addressee upon delivery, when the addressee agrees to pay such charge. This small optional delivery fee is levied against the respective addressees in order to facilitate delivery of articles containing manuscripts, prints, or samples exceeding the weight above mentioned.

(8) *Prohibitions.* (i) Dutiable articles (merchandise) prepaid at the letter rate, except that small quantities of streptomycin and penicillin sent as gifts will be admitted under the conditions stated in the subcaption "Dutiable articles (merchandise) prepaid at letter rate".

(ii) Coins, bank notes, paper money, checks, bonds, and other values; gold and silver bullion, precious stones, jewelry and other precious articles. The term "checks" is understood to mean only personal checks on United States banks payable in Italy. Bank drafts drawn by United States banks on Italian banks in favor of Italian payees are understood to be admitted.

(iii) Articles for collections and artistic objects.

(iv) The importation of postage stamps is restricted in accordance with the Italian regulations. Mailers should consult the addressees to assure compliance with those regulations.

(v) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(vi) There is shown below a list of those articles admissible as samples of merchandise:

NOTE: The limits of weight apply not only to each article, but also to the whole of such articles sent at the same time by one and the same sender to one and the same addressee.

- Worked bone and horn. (Such articles whose mercantile value has been nullified by the senders by means of perforations are admitted up to the weight of 350 grams.)
- Small articles of wood (toys and other articles of wood).

Up to 200 grams:
- Lactated flour and other similar flours prepared for nutrition.
- Electric cords.
- Nuts, herb products, and medicinal plants.
- Canary grass, soapwort, sumac.
- Small dry oranges, and dry orange skins.
- Beans, lentils, chickpeas.
- Carob seeds and flour made therefrom.
- Sulphur.

Up to 250 grams:
- Thread of hemp, cotton, jute, wool or linen, if each packet contains only one skein.
- Dyed silk thread, including that "filled with white."

Up to 350 grams:
- Raw silk thread, including that which is simply bleached.
- Lace, braid, embroidery, galloon, ribbon, fringe, lamp wick, cord and small cord of any textile material, including that mixed with metal threads, if sent in separate pieces not measuring more than 20 centimeters in length.
- Tissues of any textile material, whether or not mixed with metal threads, provided the length does not exceed 40 centimeters.

(vii) It is not permissible to import, in one and the same packet, various merchandise when the weight of the packet exceeds one or the other of the maximum weights authorized, even if each article does not exceed the maximum fixed by the present list.

C. O. D.: No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bullion, jewelry, or any other precious article must be insured.

(v) For general information concerning insurance service, see §§ 127.130–127.139, inclusive.

(6) *Observations.* (i) Commercial parcels must be accompanied by a copy of the relative commercial invoice dated and signed by the sender.

(ii) Air parcels are given air dispatch within Italy if delivery can be expedited by so doing.

(7) *Prohibitions*—(i) *For reason of sanitary policy.* (*a*) Medicines and drugs, including serums and vaccines, not authorized by the Italian Ministry of the Interior. Accepting postal employees are not expected to know what medicines have been authorized by the Italian authorities, and any mailable medicines, etc., are to be accepted with the understanding that final decision as to the admissibility of the articles rests with the Italian authorities.

(*b*) Nursing bottles, parts thereof, and baby pacifiers must have an indelible mark applied by the manufacturer. Nursing bottles with long tubes, and pacifiers with cavities inside are prohibited, as are any similar articles of vulcanized rubber containing harmful substances.

(*c*) The containers of canned or preserved fish products must be indelibly marked describing the contents.

(ii) *For the protection of animals or plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *State monopolies, etc.* (*a*) Playing cards addressed to San Marino.

(*b*) Saccharine and its products, unless addressed to duly authorized pharmacists.

(*c*) Tobacco in any form; cigarette lighters and lighter fluids.

(*d*) Bank notes or paper money.

(iv) *For other reasons.* (*a*) Weights, measures, and instruments for weighing and measuring not meeting the required standards.

(*b*) Radio receiving sets, unless imported as household goods of persons returning permanently to Italy.

(8) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Postage stamps can be imported only in compliance with the Italian regulations.

(ii) Arms or parts thereof require permission of the authorities.

(iii) Salt and other products containing more than 25 percent of sodium chloride require special authorization.

(iv) Addressees may be required to obtain import permits in some cases.

§ 127.282 *Ivory Coast*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bullion, valuable jewelry or any other precious article must be insured.

(v) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) Gift parcels addressed to individuals are free of customs duty and taxes, provided (a) the parcel is plainly marked "Gift", (b) the contents consist solely of bona fide gifts for the addressee and his family, and (c) the value is estimated by the Japanese customs authorities at not more than 1,500 yen (about $4.20) and the duty if collected would not exceed 300 yen. In addition, it is understood that, as a concession, food and clothing are exempt from duty up to a value of about $10.00. Gift parcels sent to charitable institutions for relief purposes are likewise admitted free of duty.

(ii) See subparagraph (8) of this paragraph with respect to parcels not sent as gifts.

(iii) Human ashes may be accepted if presented for mailing by a licensed crematory or licensed mortuary. The ashes must be packed in a sealed metal container enclosed in a substantial outer container. There must be enclosed within the outer container, but outside the metal container, a certified copy of the death certificate and a statement or certificate executed by the crematory or mortuary to the effect that the ashes are those of the person named in the death certificate.

(7) *Prohibitions.* (i) Weapons of all kinds.

(ii) Articles violating Japanese patents, copyrights, or trademarks rights.

(iii) Soil or plants accompanied by soil. Insects or bacteria harmful to plants. Skins of sea otters or fur seals.

(iv) Walnuts in the shell.

(v) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(8) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by the addressees:

(i) Import licenses are required for all commercial parcels, except for (a) trade samples declared as such; (b) personal or household articles, professional articles and tools of trade declared to be for the addressee's personal use; and (c) scientific research material declared as such.

(ii) Addressees must comply with the applicable Japanese regulations in order to take delivery of the following:

(iii) Banknotes, currency, checks and other instruments of payment. Securities and documents embodying tangible assets.

(iv) Precious stones and precious metals other than personal jewelry. National treasures of any country and important art objects.

(v) Manufactured tobacco in excess of 200 cigarettes, 50 cigars, or 250 grams (8¾ ounces) of smoking or chewing tobacco or snuff. Tobacco leaves and seeds. Apparatus or papers for tobacco manufacture.

Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Optional.
Group shipments: Yes. (See § 127.79.)
Registration: No.
Insurance: No.
C. o. d.: No.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Observations.* (i) For the clearance of parcels addressed to Luxembourg, the Customs Service demands the production of the invoice relating to the articles. The sender of parcels addressed to Luxembourg must therefore attach the said invoice to his article if he wishes the clearance to be made with due celerity.

(ii) Senders of parcels for or from Luxembourg who request their parcels to be returned must transmit with their request an amount sufficient to prepay postage.

(5) *Prohibitions*—(i) *For reasons of public safety.* (a) Articles whose exterior or contents if visible contain expressions which are harmful or contrary to public order. Imitations of bank notes or other fiduciary values (postage stamps, etc.). Anonymous printed pamphlets, without indication of the name of the printer.

(b) Air guns, daggers, sword canes, loaded canes, and other hidden or secret defensive weapons.

(ii) *For sanitary reasons.* (a) Preparations containing opium or its derivatives require previous authorization from the Director General of Public Health. The parcels must bear the conspicuous and legible names and addresses of the addressee and sender, and, in conspicuous letters, the names of the substances or preparations; the label must also bear, on a red background, a death's head with the note "Poison—Gift."

(b) White lead in powder, lumps, or cakes, intended for painting. (See "Import restrictions" below.)

(iii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *For other reasons.* Saccharine and similar sweetening substances, unless addressed to pharmacists for medical purposes by Government authorization.

(6) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import licenses are required for most types of merchandise, except gifts under $50 in value.

(ii) White lead for purposes other than painting is subject to regulations fixed by the Director General of Finance.

(iii) Government authorization is required for fertilizers and other nitrogenous products.

§ 127.297 *Macao*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rate, 25 cents per half ounce. Air letter sheets, 10 cents each. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* Macao is a Portuguese colony and articles for that place should be addressed to "Macao" and not to "Macao, China" as country of destination.

(8) *Prohibitions.* (i) Coins, bank notes, paper money, values payable to the bearer; manufactured or unmanufactured platinum, gold, or silver; precious stones, jewelry, and other precious articles.

(ii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including transit charges.*

(4) *Observations.* (i) Senders of parcels valued over $20.00 mailed at those places at which a Portuguese consul is located must furnish a consular invoice signed by the sender and visaed by the Portuguese consul. A consular invoice is also required for a number of parcels mailed the same day at the same office by the same sender to the same addressee, if the total value of the merchandise is more than $20.00.

(ii) The invoices may be sent enclosed in the parcels to which they relate or they may be sent direct to the addressees in sealed envelopes, preferably registered. When sent direct to the addressees, an explanatory note must be placed on the wrappers of the parcels indicating that the invoice has been sent under separate cover.

(iii) For a list of the Portuguese consuls, see Portugal.

(iv) Macao is a Portuguese colony and parcels for that place should be addressed to "Macao" and not to "Macao, China" as country of destination.

Each air parcel must have affixed the blue Par Avion label (Form 2978). See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: Limited to 3 ordinary parcels. (See § 127.79.)
Registration: Yes. Fee, 55 cents.
Insurance: No.
C. o. d.: Yes. (Until Jan. 31, 1954, only.)

(2) *Indemnity.* See § 127.165.

(3) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(4) *Registry service.* For general information see Subpart D of this part.

(5) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Storage charges.* See § 127.96 relative to storage charges on returned parcels.

(7) *Collect-on-delivery service.* (i) Registered parcel post packages, printed matter, 8-ounce packages of merchandise, and small packets may be sent collect-on-delivery from any money-order post office in the United States.

(ii) Collect-on-delivery shipments shall in all cases be registered and based upon bona fide orders for the contents of the parcel or in conformity with agreement between the senders and addressees. It is not permissible to use the c. o. d. service as a collection agency.

(iii) The amount to be collected on parcels sent to Mexico must be shown on the parcels in pesos and centavos, the centavos to be in even centavos—for instance, 2 pesos 50 centavos, not 2 pesos 49 centavos. "Pesos" and "centavos" must be written out in full. On parcels received from Mexico the c. o. d. amount will be shown in dollars and cents.

(iv) The c. o. d. fees (which cover registration are as follows:

| | Fee |
|---|---|
| For collection of a maximum of 100 pesos and an indemnity up to $10 | $0.80 |
| For collection of a maximum of 500 pesos and an indemnity up to $50 | 1.10 |
| For collection of a maximum of 1,000 pesos and an indemnity up to $100 | 1.20 |

NOTE. No indemnity payable for rifling or damage.

(v) While postal employees may acquaint the public upon request with the information published by the Department from time to time regarding the rate of conversion of the Mexican peso, it should be made clear to the public that due to the frequent fluctuations in the conversion rate no responsibility will be assumed by the Postal Service for any quotations furnished and that the fluctuations in the rate of conversion should be taken into consideration by the senders when computing the c. o. d. charges to be collected on delivery so as to insure the receipt of the full amount desired. It should also be made clear that the responsibility of properly indorsing on registered c. o. d. parcels to Mexico the amount in pesos and centavos to be collected rests with the sender and that no indemnity is payable to cover any shortage in the remittance received when such remittance represents the equivalent of the pesos and centavos indorsed on the parcel by the sender. The question of the shortage is then one for adjustment between the sender and the addressee of the c. o. d. parcel involved.

(vi) Form 3818 or a letter (see § 127.155) indicating the nature of any alteration or cancellation of the c. o. d. charges requested by the sender on c. o. d. parcels sent to Mexico shall be sent direct to the postmaster at the United States exchange office from which the parcel concerned was due to be dispatched in a direct mail to Mexico.

(vii) If the United States exchange office of dispatch is not definitely known to the postmaster at the office of mailing, the Form 3818 or letter, in order not to delay the matter, should be sent to the postmaster at Laredo or El Paso, Tex., according to whichever of these two offices can be reached more quickly from the office of mailing. In general, El Paso is reached more quickly from places in western United States and Laredo from other places.

(viii) Requests for alteration or cancellation of c. o. d. charges in connection with c. o. d. parcels sent from Mexico to this country will be sent by the proper Mexican exchange office to one of the United States exchange offices listed in paragraph (j), which in turn will transmit the request to the United States office of destination. Postmasters receiving requests from one of the United States exchange offices referred to for changes in or cancellation of the amounts of c. o. d. charges on c. o. d. articles mailed in Mexico will promptly comply with such requests. (The requests should be filed at the office of destination as a record.) However, such requests which may be erroneously sent from any Mexican post office direct to the office of destination in this country should be sent to the Post Office Department, Bureau of Transportation, Division of International Service, Washington 25, D. C., to have them verified, and the c. o. d. parcels involved held for further instructions.

(ix) The postmarking stamp of the office of mailing must appear at all breaks (cut or torn ends) of the gummed-paper strips employed in the sealing of registered c. o. d. parcel post packages.

(x) The following is a complete list of all the offices in this country and Mexico through which c. o. d. articles may now be exchanged:

(xi) Senders' return receipts will not be furnished for collect-on-delivery parcels for Mexico.

(xii) For further information concerning collect-on-delivery service see Subpart D of this part.

(8) *Observations.* (i) Packages, except packages of moving-picture films, automobile tires, coils of rope, hose, wire, etc., and packages of newspapers from news dealers especially marked to go as "outside pieces," shall not be accepted for transmission to Mexico when their bulk will prevent their inclosure in mail sacks at the United States exchange post office of dispatch. Automobile tires, up to a weight limit of 44 pounds each, may be accepted for places in Mexico reached by railroad from the United States. The Mexico office will not accept responsibility for any damage that may occur to packages of automobile tires when their transmission is outside of mail sacks. Packages such as herein described will be accepted outside of mail sacks when they originate in Mexico and are destined for the United States.

(ii) Air parcels are given air transportation within Mexico if delivery can be expedited by so doing.

(iii) The Postal Administration of Mexico has requested that it be recommended to senders of parcels destined for that country which are directed to the ultimate addressee through the intermediary of a first addressee (bank or other organization) that the names and addresses of both addressees be indicated on the wrappers of the parcels as well as on the customs declarations.

(iv) The Mexican Administration has established a system of advising the second addressee of the arrival of such a parcel at the office of destination. This advice of arrival, which bears a notation that the parcel will not be delivered except upon written authorization from the first addressee, is sent only once. It is sent at the same time as the advice is sent to the first addressee. The Mexican Administration states that, in practice, it has been found that banking institutions are sometimes negligent in advising their client (a second addressee) of the arrival of his merchandise, and that the sending of an advice of arrival to the second addressee serves to notify him that the parcel is on hand.

(v) These instructions contemplate that both addresses appearing on a parcel shall be addressed to a single office. Therefore, parcels should not be accepted for mailing if directed to a first addressee at a certain office and to a second addressee at another office.

(vi) For information concerning customs duties on advertising matter, yearbooks, and directories, see subcaption "Observations" under Postal Union Mails.

(vii) The Mexican domestic rate of postage will be charged on each parcel post package which is forwarded from one office to another office in that country when it bears an indication that the mailer desires it tendered for delivery at an alternative address. In the event the parcel can not be delivered at the alternative address indicated, it will be returned to origin rated for the collection of the forwarding charges. These charges, in addition to others which may have accrued on the parcel, will be collected from the mailer at time of return.

(viii) Mail shall be dispatched according to special instructions issued to cover designated post offices in a particular State. At United States exchange post offices concerned parcel post packages for Mexico shall not be inclosed in the same sacks with regular mail articles. New York is not the exchange office for Mexico (overland).

(ix) Insecticides, fungicides, and germicides shall be prepared for mailing to Mexico as follows:

(x) Each receptacle shall be plainly marked with the word "Poison" and the label or printed name of the manufacturer.

(xi) The inner boxes or tubes containing the materials must be of metal, wood, glass, or fiber, and the outer container must be of metal or fiberboard, securely fastened and sealed.

(xii) For liquids, the inner container must not only be surrounded by sufficient absorbent material, but must also be enveloped in padding material. Wood shavings cannot be considered as absorbent. The inner packing for insecticides, fungicides and germicides in solid or powder form must likewise be surrounded by packing material.

(xiii) A large variety of items, when the value exceeds 100 Mexican pesos, require import licenses which the addressees must obtain prior to the receipt of the goods. This applies to gifts as well as commercial shipments. Senders should therefore be advised to ascertain in advance of mailing whether their parcels will be admissible. Information as to what articles require import permits, and as to rates of Mexican customs duty, may be obtained from the American Republics Division, Office of International Trade, Department of Commerce, Washington 25, D. C., or from any field office of that Department.

(xiv) Each parcel exceeding 1,000 pesos in value must be accompanied by a commercial invoice in triplicate.

(9) *Prohibitions.*—(i) *For sanitary reasons.* Pacifiers for the amusement of babies. For medicines, cosmetics, and toilet articles, see "Postal Union mails."

(ii) *For the protection of plants.* (a) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(b) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(iii) *Arms, etc.* Pistols, hunting and target arms, require a certificate from the Mexican consul at the place of shipment. Pistols and other instruments for the projection of tear gas are prohibited.

(iv) *For other reasons.* (a) Works violating the Mexican copyright laws.

(b) Bank notes, coins of all kinds, and values payable to bearer. As an exception, the Bank of Mexico and the banks associated therewith are authorized to import bank notes exclusively for the purpose of exchange.

(c) Uncanceled postage stamps unless mailed under registration.

(d) Cigars and cigarettes, unless they bear Mexican revenue stamps applied by the manufacturers.

(10) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by the addressees:

(i) Meat or other animal products in cans, except in quantities less than 11 pounds, require an inspection certificate from the Ministry of Agriculture and Fomento.

(ii) Arms require special permission from the Secretariat of War and Navy.

(iii) See subparagraph (8) of this paragraph concerning import permits required for certain items exceeding 100 pesos in value.

§ 127.306 *Morocco (French Zone).*

NOTE: See "Morocco, Tangier (International Zone)" for service to French Post Office in Tangier).

(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee 55 cents. (See §§ 127.130—127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 47 cents for the first 2 ounces and 27 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Prohibitions.* (i) Paper money and other instruments of payment, letters of credit, securities, or deeds may be imported by mail only if accompanied by a permit issued by the French exchange-control authorities, or if imported by a bank. Manufactured or unmanufactured platinum, gold, or silver; jewelry, or other precious articles.

(ii) Coins may be imported only by the State Bank of Morocco and banking establishments approved by the French Protectorate.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 3 Form 2966.
Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Yes. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, $3\frac{1}{2}$ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of Indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.29 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) The insured value shall also be shown in United States currency (figures only) in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) Parcels containing coin, bullion, jewelry, or any other precious article must be insured.

(vi) For general information concerning insurance service, see §§127.140 to 127.148, inclusive.

(6) *Observations.* (i) In the Netherlands parcels are charged 5 cents a day for storage, beginning the second day after first presentation; the minimum storage charge is 10 cents; the maximum, 1 florin (100 cents).

(ii) A delivery charge of 20 cents is collected each time a parcel is presented at the residence of the addressee after one unsuccessful presentation.

(iii) Gift parcels may not contain more than 1,000 cigarettes, which amount represents the monthly quota that individuals in the Netherlands are allowed to receive. Larger quantities of cigarettes, or excessive amounts of other tobacco products addressed to any person, are liable to confiscation by the Netherlands customs authorities.

(7) *Prohibitions*—(i) *The following are admitted conditionally.* (a) Dried milk products (powdered, in cubes), on condition that the outer wrapping or the container or wrapper in which such products are inclosed bears the note "In Nederland ingevoerd" (Imported into the Netherlands) in conspicuous characters 2 centimeters high when the package contains more than 1 kilogram of such merchandise and one-half centimeter high for a quantity up to 1 kilogram. The articles must also be accompanied by a certificate of origin conforming to the model prescribed by the Minister of Finance, issued by a Netherlands consul in the country of origin. (These provisions do not apply to dried milk products colored light rose or mixed with at least 10 percent of bran.) These restrictions do not apply in the case of small quantities of dried milk products sent in gift parcels.

(b) Serums and vaccines must comply with the Netherlands' legal requirements. In case of official control in the country of origin, they should also bear the mark required in that country.

(ii) *For the protection of plants:* (a) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(b) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(iii) *Arms, etc.* Firearms and their parts unless accompanied by an import permit.

(iv) *For other reasons.* (a) Counterfeit works of art; pirated literary and scientific works.

(b) German or Belgian coins, except up to the amount of 40 marks or 50 francs in silver and 10 marks or $12\frac{1}{2}$ francs in nonprecious metal.

(c) Netherlands coins and banknotes.

(8) *Import restrictions.* (i) Commercial shipments of merchandise are admitted only if an import permit has been obtained by the addressee from the Netherlands authorities. This permit is not required for gift shipments sent for relief purposes.

(ii) Authorization from the 'Nederlandsche Bank" is required to be obtained by the addressee for the importation of gold, other precious metals or diamonds, manufactured or not; art treasures; postage stamps; instruments of payment, valid or not (including checks) paper values; and public credit documents and securities. It is understood that the term "paper values" includes paper money. Prospective senders should be advised that, unless the addressee possesses the necessary authorization, which should be secured before the articles are mailed, the articles may be confiscated by the Netherlands customs authorities.

§ 127.311 *Netherlands New Guinea*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 1 in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Limited to ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $165 | 60 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED", and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b) as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, platinum, gold, or silver (whether manufactured or unmanufactured) precious stones, jewels, or other precious articles must be insured.

(v) Insured parcels for the Cook Islands and other islands mentioned under New Zealand are subject to the following restrictions: In the case of parcels for Savage (Niue) and Rarotonga, the insurance is effective until delivery. In the case of all the other islands, insurance is effective only as far as Rarotonga and no indemnity will be paid for loss, rifling, or damage occurring to parcels for these other islands after they leave Rarotonga.

(vi) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(5) *Observations*—(i) Each commercial shipment must be covered by a commercial invoice showing the current domestic price of the goods (that is, what the price would be if sold in the United States) and the selling price to the purchaser in New Zealand. The invoice must include a certificate as to the value of the goods, prepared in prescribed form and signed by the shipper. Printed blanks for the invoice and certificate can be purchased from printing firms specializing in such supplies.

(ii) The completed invoice must be sent to the addressee by letter mail. It is desirable to send one copy by air mail and another by the ordinary means.

(6) *Prohibitions*—(i) *For reasons of sanitary policy.* (a) Rags, except new clean material which has not been used.

(b) Used clothing, except for the personal use of the addressee. Such articles are submitted to disinfection in New Zealand at the expense of the addressee.

(ii) *For the protection of plants.* All plants, bulbs, fruit, etc., received from places beyond the Dominion are subject to restrictions on admission, and in some cases are refused admission altogether. Full information on the subject may be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *Arms.* Firearms, except by an authorized merchant or pursuant to a permit issued by a police superintendent or inspector in New Zealand.

(iv) *For other reasons.* (a) Goods manufactured or produced wholly or in part by prison labor.

(b) With the exception of such appliances as are necessary to serve as containers for bees imported with the consent of the Minister of Agriculture, no appliances which have been used in connection with bees are admitted into the Dominion.

(7) *Import restrictions.* Addressees in New Zealand are required to obtain import licenses for all parcels except bona fide gifts not exceeding £10 ($28.20) in value.

§ 127.317 *Nicaragua*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits, and dimensions.* See Table No. 2, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 40 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 35 cents for the first 2 ounces and 14 cents for each additional 2 ounces. (See § 127.20.)

(6) *Diplomatic and consular mail.* See § 127.32.

(2) *Indemnity.* See § 127.165.

(3) *Registry service.* For general information see Subpart D of this part.

(4) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(5) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Observations.* (i) Mailers of parcel post packages addressed for delivery in Nicaragua must transmit three copies of the relative commercial invoice prepared in Spanish to the nearest Nicaraguan consul for legalization. After legalization, the original invoice should be included in one of the packages of the shipment, while another copy should be forwarded, under separate cover, to the addressee. The parcel containing the invoice must be indorsed to indicate that fact. The third copy will be retained by the consul.

(ii) Legalized invoices are not required for shipments when the value of the contents is less than $10 but for convenience a commercial invoice, not legalized, should be included in one of the packages.

(iii) Nicaraguan consuls are located in the following cities:

Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels which contain coin, banknotes, paper money, bullion, jewelry, or other precious articles must be insured.

(v) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(5) *Prohibitions*—(i) *For sanitary reasons.* (a) Merchandise coming under the pharmacy monopoly unless addressed to authorized persons and institutions.

(b) Used sacks.

(c) Sausages, pastes, and other similar foodstuffs may be imported only in the form of parcels not weighing more than 5 kilograms.

(ii) *State monopolies, etc.* Mixed stock tonics and mixed artificial fertilizers.

(iii) *For other reasons.* Advertisements of prohibited remedies or merchandise included in the pharmacy monopoly.

(6) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Addressees in Norway must obtain import licenses for gift parcels exceeding 200 kroner (approximately $28) in value. License-free gift parcels may not contain more than 4 pounds 6 ounces of coffee, or 22 pounds of sugar.

(ii) Special permission is required for the importation of arms and parts thereof; almanacs and calendars; hair washes containing alcohol, unless denatured; butter; radio apparatus.

(iii) Norwegian currency and Norwegian securities require authorization from the National Bank of Norway.

§ 127.322 *Nyasaland Protectorate*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

[1] Air parcels are limited to 44 pounds in weight.

(2) *Indemnity.* See § 127.165.

(3) *Registry service.* For general information see Subpart D of this part.

(4) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels, (surface and air). (See § 127.159.)

(5) *Dimensions.* Greatest combined length and girth, 7 feet, on condition that parcels exceeding 6 feet in combined length and girth shall not exceed 2½ feet in length. Greatest length permissible, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Observations.* (i) For shipments of a commercial nature, the sender must prepare four copies of a commercial invoice and send them to the addressee under separate cover. Each copy must bear the following declaration in Spanish, signed by the sender: "Conste bajo la gravedad del juramento, con la firma puesta al pie de esta declaración, que todos y cada uno de los datos expresados en esta factura son exactos y verdaderos, y que la suma total declarada es la misma en que se han vendido las mercaderías." (It is declared, under oath, by the signature at the end of this declaration, that each and every one of the statements made in this invoice is correct and true, and that the total amount declared therein is that for which the goods were sold.)

(ii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(iii) Fatty, liquid, or easily liquefiable substances are admitted at the risk of the sender. (Owing to climatic conditions in Panama care must be exercised to see that these articles are packed according to instructions governing their admission to the international parcel post mails.)

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 44 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: No.
Registration: Yes. Fee, 55 cents.
Insurance: No.
C. o. d.: No.
Consular invoice: Yes. (See subparagraph (6) of this paragraph.)

(2) *Indemnity.* See § 127.165.

(3) *Registry service.* For general information see subpart D of this part.

(4) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(5) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Observations.* (i) A consular invoice must be furnished for parcels valued at $49 or over mailed in cities where a Peruvian Consul is located. Parcels valued at less than $49, regardless of whether there is a Peruvian Consul at the place of origin, need not be accompanied by consular invoices. In such cases the consular fees are collected from the addressees at the time of delivery. Parcels not accompanied by consular invoices must be accompanied by commercial invoices. The invoices in question may be enclosed in the parcels to which they relate, or the invoices may be sent under separate cover direct to the addressee, at the option of the sender.

(ii) Parcels containing used clothing must be accompanied by a certificate of disinfection issued by a competent authority (for example, local Board of Health) or by a firm with facilities for disinfecting the articles involved. The certificate must be legalized by a Peruvian consulate. Senders shall endorse the wrappers of parcels containing used clothing to show that the certificate of disinfection is enclosed.

(iii) Peruvian consuls are located in the following cities:

| | |
|---|---|
| Boston, Mass. | New Orleans, La. |
| Chicago, Ill. | New York, N. Y. |
| Cleveland, Ohio | Philadelphia, Pa. |
| Dallas, Texas | Portland, Oreg. |
| Detroit, Mich. | St. Louis, Mo. |
| Honolulu, T. H. | San Francisco, Calif. |
| Houston, Tex. | San Juan, P. R. |
| Los Angeles, Calif. | Seattle, Wash. |
| Mayaguez, P. R. | Washington, D. C. |
| Miami, Fla. | |

(iv) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(7) *Prohibitions*—(i) *For sanitary reasons.* (a) Food products which are adulterated or sent under false declarations.

(b) Glass nursing bottles with rubber or glass tubes.

(c) Certain products, such as flour and milk for children and invalids, unless registered with the Director of Public Health, or specially authorized by him for importation.

(ii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *Arms, etc.* War material. Firearms and accessories therefor may be imported on condition that the addressee obtains a permit from the Peruvian authorities.

(iv) *State monopolies, etc.* Cooking salt. Playing cards. Tobacco, cigars or cigarettes, unless addressed to the Estanco del Tobaco (Tobacco Monopoly). Cigarettes for medical use only may be imported after a license has been secured from the Direccion General de Hacienda (Treasury Department of Peru).

(v) *For other reasons.* (a) Saccharine and similar products, and substances containing them, unless specially authorized for medical use by the Director of Public Health.

(b) Pharmaceutical specialties and cosmetics, such as powders, dentifrices, rouge, hair dyes, depilatories, etc., unless registered with the Director of Public Health or specially authorized by him for importation.

(c) Maps and all geographic material showing the boundaries of Peru incorrectly.

§ 127.330 *Philippines (Republic of the)*—(a) *Postal Union Mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 2, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages, and post cards, 25 cents per half ounce, except that when mailed in Guam the rate is 10 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 81 cents for the first 2 ounces and 60 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Combination packages.* Accepted. (See § 127.12.)

(8) *Observations.* See paragraph (b) (4) of this section concerning certificate of origin and consular invoice required in certain cases for packages containing merchandise.

(9) *Prohibitions.* The articles prohibited or restricted as parcel post are prohibited or restricted in the Postal Union mails.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Observations.* (i) A certificate of origin is required in all cases where the value of the contents of a parcel is over $10. If the value exceeds $100, a consular invoice is necessary, in addition to the certificate of origin. If the value is $10 or less, only the regular postal customs declaration form is required.

(ii) One of the following three types of certificate of origin must be stamped, typed, or otherwise permanently attached to the invoice:

TYPE 1—CERTIFICATE FOR WHOLLY UNITED STATES ARTICLES

I hereby declare under oath (acting in the capacity indicated below) that the articles covered by this certificate of United States origin are wholly of the growth, product or manufacture of the United States. No foreign materials other than those of the Philippines were used at any stage in the manufacture or production of such articles.

---

Manufacturer, seller, or exporter
(Capacity of declarant should be stated)

TYPE 2—CERTIFICATE FOR UNITED STATES ARTICLES CONTAINING FOREIGN MATERIALS VALUED NOT EXCEEDING 20 PERCENT OF THE VALUE OF SUCH ARTICLES IMPORTED INTO THE PHILIPPINES

I, acting in the capacity indicated below, hereby declare under oath that there were used in the manufacture or production of the articles coverd by this certificate of

---

---

(Number of units in terms of pounds, yards, or other applicable units and description)
foreign materials other than those of the Philippines which were valued by the United States Customs officers at the time of importation into the United States for the purpose of the United States Customs law at ---------- plus,
(State unit value)
if not included in such value, ----------, the cost per unit of bringing such materials to the United States.

---

Manufacturer, seller, or exporter
(Capacity of declarant should be stated)

TYPE 3—CERTIFICATE OF UNITED STATES ARTICLES CONTAINING FOREIGN MATERIALS WHEN IT IS IMPRACTICABLE TO ASCERTAIN THE EXACT NUMBER OF UNITS AND VALUE OF FOREIGN MATERIALS

I, the undesigned, do hereby solemnly and truly declare that the above-described articles are the products of the United States. There were used in their production materials imported into the United States from foreign countries (except the Philippines) the aggregate value of which at the time of importation into the United States does not exceed twenty percent (20%) of the value of the articles imported into the Philippines.

---

Manufacturer, seller, or exporter
(Capacity of declarant should be stated)

(iii) The certificate of origin must be subscribed and sworn to by the sender or by his duly authorized agent, before a Philippine consular officer or before any person authorized by law to administer oaths. If sworn and subscribed to before a Philippine consular officer, the original and four copies of the invoice and certificate of origin must be presented to the consular officer. The latter retains one of the copies and forwards two other copies to his home government. The original copy of the document is to be forwarded by the sender of the parcel direct to the addressee, or enclosed in the parcel to which it relates.

(iv) In cases where the consular invoice is required, five copies of the consular invoice must be presented to the consular officer for certification. The original consular invoice, after certification, is to be forwarded by the sender of the parcel direct to the addressee, or enclosed in the parcel to which it relates.

(v) When a shipment exceeding $100 in value consists of more than one parcel, a single consular invoice may cover the entire shipment, provided the number of parcels involved is shown on the invoice. The consular invoice should accompany the first parcel or be sent direct to the addressee, and when the other parcels comprising the shipment are mailed, the sender must mark the wrappers to indicate the number, date, and place of issue of the covering consular invoice.

(vi) The forms prescribed by the Philippine Government (FA Form No. 48, certificate of origin, and FA Form No. 49, consular invoice) if not available at Philippine consulates, may be obtained from commercial printers.

(vii) Philippine consular officers are located in the following cities:

| | |
|---|---|
| Agaña, Guam. | New York, N. Y. |
| Chicago, Ill. | San Francisco, Calif. |
| Honolulu, Hawaii. | Seattle, Wash. |
| Los Angeles, Calif. | Washington, D. C. |
| New Orleans, La. | |

(viii) The Philippine authorities recommend that articles such as watches, rings, and other valuable jewelry be forwarded in registered letter packages.

(5) *Prohibitions.* (i) Counterfeit or mutiliated coins. False or fraudulent banknotes or securities.

(ii) Gambling devices.

(iii) Publications violating the Philippine copyright laws.

(iv) Oplum pipes and parts thereof.

(v) Firearms of all kinds, unless authorized by the Philippine authorities.

(vi) Articles bearing on the wrappers any numbered stamps other than lawful postage stamps.

(vii) Living plant material unless licensed by the Philippine Bureau of Plant Industry, packed in accordance with the regulations of that Bureau, and accompanied by a certificate of inspection issued by competent authorities in the United States.

(viii) Any of the following articles, unless sent as gifts:

(*a*) Canned or preserved bacon, ham, or poultry meat. Lard and substitutes therefor. Oleomargarine. Canned anchovies. Canned beets, cabbage, carrots, cauliflower, and corn. Vegetable juices other than tomato. Pineapple juice. Jams, jellies, and marmalades. Yeast. Peanut butter. Shelled and roasted peanuts. Peanut oil and other edible oils. Pepper, paprika, and saffron. Sugar, molasses, syrup, chocolate candy. Vinegar.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* It is particularly necessary that parcels for Poland be securely packed and carefully wrapped, and that the alternative disposition desired by the senders in case of nondelivery be properly indicated.

(6) *Prohibitions*—(i) *For reasons of public safety.* Military arms and war material.

(ii) *For sanitary reasons.* (*a*) Substitutes for saffron.

(*b*) Wallpaper, printed paper, fabrics, and other articles dyed with colors based on arsenic.

(*c*) Colors based on aniline containing arsenic (fuchsine and other names), in lumps, powder, or paste (not in crystals).

(*d*) Beans of the *Phaseolus lunatus* and *Rangoon* species, as well as all species of poisonous beans.

(iii) *For the protection of plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau, located at principal ports of entry.

(iv) *State monopolies, etc.* (*a*) Articles coming under the State monopolies may be imported only by the monopoly Administrations.

(*b*) Unmanufactured gold and unmanufactured platinum; Polish money of legal tender which is not being legally reimported; postage stamps exceeding 100 grams in weight; and current Polish postage stamps unless import license has been secured in advance by the addressee.

(v) *For other reasons.* (*a*) Fishberries (Berries of Cocculus [Anamirta] indicus).

(*b*) Tokens, counters, and other articles in imitation of coins. Counterfeit paper money or securities.

(*c*) All kinds of labels, caps, corks, empty containers, etc., bearing the firm name of foreign producers, imported without the goods.

(*d*) Saccharine and similar substances unless addressed to factories or wholesale drug stores under special permits.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Gift parcels are subject in Poland to fees and taxes on certain items of merchandise, and addressees must obtain import licenses if specified quotas are exceeded. Interested mailers may obtain information as to the charges assessed on various articles, quota restrictions, and other Polish regulations from the Office of International Trade, Department of Commerce, Washington 25, D. C., or from any field office of that Department.

(ii) The permission of the Polish Currency Commission is required for the importation of negotiable securities, dividend coupons of such securities, and paper money.

§ 127.333 *Portugal*—(*a*) *Postal Union mails*—(1) *Classifications, rates, weight*

*limits and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

Each air parcel must have affixed the blue Par Avion label (Form 2978). (See § 127.55 (b).)

Weight limit: 11,[1] 22 pounds.
Customs declarations: 2 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Registered or insured parcels must, and ordinary parcels may, be sealed.
Group shipments: No.
Registration: Yes. (See subparagraph (6) of this paragraph.)
Insurance: Yes.
C. o. d.: No.
Consular invoice: Yes. (See subparagraph (5) of this paragraph.)

[1] Parcels exceeding 11 pounds accepted for Lisbon only.

(2) *Indemnity.* See subparagraph (6) of this paragraph; also Subpart E of this part.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* (i) Articles containing serums and vaccines must be conspicuously labeled to show the nature of the contents in order that they may be given preferred treatment.

(ii) Senders of parcels valued over 550 escudos mailed at these places at which a Portuguese consul is located must furnish a consular invoice signed by the sender and visaed by the Portuguese consul. A consular invoice is also required for a number of parcels mailed the same day at the same office by the same sender to the same addressee, if the total value of the merchandise is more than 550 escudos.

(iii) The invoices may be sent enclosed in the parcels to which they relate or they may be sent direct to the addressees in sealed envelopes, preferably registered. When sent direct to the addressees, an explanatory note must be placed on the wrappers of the parcels indicating that the invoice has been sent under separate cover.

(iv) Portuguese consuls are located in the following cities:

| | |
|---|---|
| Baltimore, Md. | New Bedford, Mass. |
| Boston, Mass. | New York, N. Y. |
| Fall River, Mass. | Philadelphia, Pa. |
| Honolulu, Hawaii. | Providence, R. I. |
| Houston, Tex. | San Francisco, Calif. |
| Los Angeles, Calif. | |

Consular invoices are not required for shipments mailed at localities where no Portuguese consular representative is located.

(v) Parcels containing crude celluloid, motion picture films, or other articles of celluloid must be designated, both on the customs declaration and on the parcel itself, by a label bearing the word "Celluloid" in conspicuous black letters.

(6) *Registration and insurance.* (i) Parcels may be registered or insured, subject to the following limits of indemnity in case of total loss only (cover and contents), when prepaid at the postage rate applicable in addition to the registry or insurance fees mentioned hereunder:

REGISTERED PARCEL-POST PACKAGES

| Limit of indemnity: | Fee, cents |
|---|---|
| Up to $25 | 55 |
| From $25.01 to $50 | 65 |

INSURED PARCEL-POST PACKAGES

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |

(ii) Parcels containing coin, bullion, jewelry, or any other precious article or paper payable to bearer, must be registered.

(iii) For general information concerning registration and insurance, see Subpart D.

(7) *Prohibitions*—(i) *For sanitary reasons.* (*a*) Serums, vaccines, and other similar products unless addressed to authorized firms and laboratories; the wrappers and labels should in all cases bear clear, complete information, in the Portuguese language, concerning the name and composition of the medicine.

(*b*) Saccharine and similar substances without indication of their contents.

(ii) *For the protection of animals or plants.* (*a*) Traps and decoys of all kinds for hunting.

(*b*) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(*c*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *State monopolies, etc.* Even though duly prepaid, articles may not contain or bear on the outside stamps which resemble Portuguese postage stamps.

(iv) *For other reasons.* (*a*) Foreign products violating the copyright or trade-mark laws.

(*b*) Motion-picture films, or other articles of celluloid must be packed in tin boxes, duly soldered, protected by strong wooden boxes, tied and sealed in accordance with regulations. Every parcel must be designated, both on the customs declarations and on the parcel itself by a label bearing the note "Celluloid" in conspicuous black letters.

(*c*) Tinder. Tobacco, prepared or unprepared. Essences for making wines.

(*d*) In uninsured parcels. Gold, silver, jewels, precious stones; coins, current or obsolete; postage stamps, revenue stamps, and uncanceled prepayment forms of all kinds; bank notes; any values payable to bearer.

(8) *Import restrictions.* (i) Addressees are required to obtain import permits for parcels regarded by the Portuguese authorities as commercial shipments.

(ii) Medicaments and foodstuffs injurious to the public health, and medicaments whose composition is not known or has not been duly registered, or those whose labels do not show the names of the active ingredients, require the

authorization of the Director General of Health.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder.

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs. The amount in gold francs must be underscored with a heavy line, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bank notes, currency notes in circulation, or any kind of securities payable to bearer; platinum, gold, or silver (whether manufactured or unmanufactured); precious stones, jewelry, or other precious articles must not be accepted for mailing unless they are insured.

(v) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* (i) Parcels may be accepted for any place, but are delivered from the following offices only and addressees of parcels for other places must claim them at one of these places:

| Inhambane. | Villa Luiza (Marracuene). |
| Lourenço Marques. | |

(ii) No packing is required for ordinary parcels consisting of a single article, such as a piece of wood, metal, etc., which is not usually packed by the trade.

(iii) Senders of parcels valued over 550 escudos mailed at those places at which a Portuguese consul is located must furnish a consular invoice signed by the sender and visaed by the Portuguese consul. A consular invoice is also required for a number of parcels mailed the same day at the same office by the same sender to the same addressee, if the total value of the merchandise is more than 550 escudos.

(iv) The invoices may be sent enclosed in the parcels to which they relate or they may be sent direct to the addressees in sealed envelopes, preferably registered. When sent direct to the addressees, an explanatory note must be placed on the wrappers of the parcels indicating that the invoice has been sent under separate cover.

(v) For a list of the Portuguese consuls, see Portugal.

(vi) Air parcels are given air dispatch within Portuguese East Africa if delivery can be expedited by so doing.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees.

(i) Addressees are required to obtain import licenses for parcels regarded by the customs authorities as commercial shipments.

(ii) Arms, munitions, and war material require the authorization of the military authorities.

(iii) Pharmaceutical specialties require the approval of the health delegates of the districts, acting on the advice of the inspectors of the pharmaceutical monopoly.

Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Optional.
Group shipments: No.
Registration: No.
Insurance: No.
C. o. d.: No.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* (i) A fee of 6 pence or 1 shilling (according to value) for customs clearance, etc., is levied on every dutiable parcel entering Southern Rhodesia.

(ii) Limit of value, £50. The value shown on the customs declaration must be the current value of the finished articles in the open market at the time of dispatch. In case of undervaluation, the parcel is liable to confiscation.

(6) *Prohibitions and import restrictions.* (i) The importation for commercial purposes of many types of merchandise, including books, magazines and other printed matter, is either prohibited or admitted only if a permit has been granted to the prospective addressee by the Rhodesian Division of Trade and Industrial Development. Only the following classes of shipments may be imported without permits:

(a) Bona fide gifts not exceeding £5.5s ($14.70) in value.

(b) Gift or commercial shipments of educational, scientific and religious publications up to a total value of £10 ($28) per person per year.

(c) Used personal effects of persons who have settled in Southern Rhodesia.

(d) Samples and advertising matter up to £5.5s ($14.70) of declared value.

(ii) Every shipment coming within one of the above categories must be plainly marked on the wrapper and on the customs declaration to indicate its character. Other shipments are not to be accepted unless the sender is assured that the addressee possesses the necessary authority for importation, and the sender shall then mark the wrapper "Importation into Southern Rhodesia authorized." Goods which are not in the exempted categories and whose importation has not been authorized are liable to confiscation.

§ 127.341 *Rumania*—(a) *Postal Union mails—(1) Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted, see "Observations." (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rate, 15 cents per half ounce. Air letter sheets, 10 cents each. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.) Rumania requires that two copies of the paper form of customs declaration (Form 2976–A), in addition to a commercial invoice, be properly completed and enclosed in each package. Articles subject to customs treatment prepaid at the letter rate of postage and not bearing the green label Form 2976 (C 1), will be treated in accordance with the customs laws, which consider such irregularities as contraventions for which fines are imposed. If the fine is not paid, the articles are confiscated and not returned to the senders.

(7) *Combination packages.* Accepted. (See § 127.12.)

(8) *Observations.* (i) Rumania requires that two copies of the paper form of customs declaration (Form 2976–A), in addition to a commercial invoice, be properly completed and enclosed in each small packet.

(ii) See paragraph (b) (5) of this section for restrictions on gift parcels, which also apply to gift packages in the Postal Union mails.

(9) *Prohibitions.* (i) Coins; manufactured or unmanufactured platinum, gold, or silver; precious stones, jewelry, and other precious articles.

(ii) Bank notes, paper money, and other paper values issued in countries other than Rumania.

(iii) Advertisements, coupons, and other articles relating to business done in accordance with the "snowball" system.

(iv) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post—(1) Table of rates—(i) Surface parcel rates, including transit charges and surcharges.*

Registration: No.
Insurance: No.
C. o. d.: No.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* The following restrictions are imposed by the Rumanian authorities with respect to gift parcels:

(i) No gift parcel may exceed 4 pounds 6 ounces in gross weight, and only one such parcel may be received by one addressee per month.

(ii) Each parcel must be mailed by an individual, as the Rumanian authorities will not admit gift parcels mailed by or on behalf of commercial firms or organizations of any kind.

(iii) Each parcel must contain a detailed list of its contents, in addition to the postal customs declaration.

(iv) The contents of gift parcels, which must be for the addressee's personal use, are limited to the items and the quantities of each shown in the following lists:

| | |
|---|---|
| *(a) Clothing, etc.* | |
| Scarfs, towels, neckties, waterproof garments, blouses, dresses, suits, overcoats, hats, sweaters. | 1 of each. |
| Undergarments, handkerchiefs | 2 of each. |
| Gloves, stockings, footwear | 1 pair of each. |
| Sewing thread | 100 grams (3½ ounces). |
| Woolen yarn | 450 grams (15¾ ounces). |
| Cotton, linen or hempen cloth | 3 meters (9 feet 9 inches). |
| Woolen cloth | 3 meters (9 feet 9 inches). |
| Cloth of natural or artificial silk, nylon, etc | 3 meters (9 feet 9 inches). |
| *(b) Miscellaneous* | |
| Toilet water | 250 grams (8¾ ounces). |
| Perfumes | 50 grams (1¾ ounces). |
| Toilet articles, brushes, combs, cosmetics, etc | 100 grams (3½ ounces). |
| Razors, scissors, hairclippers | 1 article. |
| Watches, eyeglasses, eyeglass lenses, leather articles, musical instruments. | 1 of each. |
| Fountain pens and mechanical pencils | 1 article. |
| Medical and optical instruments, household appliances | 2 articles. |
| Razor blades | 10 blades. |

(v) Articles sent in gift parcels are subject to customs duty in Rumania. A parcel may be returned to origin if the addressee fails to pay the duty, if the parcel does not comply with the above requirements, or if it contains articles of used clothing not accompanied by a certificate of disinfection.

(vi) Rumania collects from addressee for delivery a fee not exceeding 15 centimes (gold) for each 5 kilograms (11 pounds) or fraction of weight, in addition to a fixed charge of 50 centimes (gold) for submission of each parcel to the Customs.

(vii) Parcel post packages containing merchandise, except for those places shown below, must be accompanied by a commercial invoice. If several parcels are sent to the same addressee, the invoice should be included in one parcel only; in the other parcels should be inserted a note giving the name of the sender and the contents of the parcel.

(viii) When parcels are destined for the cities of Arad, Bacau, Botosani, Braila, Brasov, Bucuresti, Cernauti, Cetatea Alba, Chisinau, Cluj, Constanta, Craiova, Focsani, Galati, Giurgiu, Iasi, Oradea, Ploesti, Satu-Mare, Sibiu, Targu-Mures, Timisoara, and Turnu-Severin; one copy of the invoice should be placed inside the parcel and the other forwarded under separate cover to the addressee.

(ix) The customs declarations must be completed, indicating in detail the contents of the parcel; that is, the number of articles, the quality, the proportion of the materials composing each article of merchandise, the exact weight as well as the number of threads to a centimeter and to a square meter of fabrics, the fineness and kind of metals composing the articles or their garnishments. Customs declarations must also contain the gross and the net weight in grams of the parcel. It is necessary whenever possible to inclose in each parcel copy of the open invoice of the contents as well as the complete copy of the addresses of the sender and addressee.

(x) Attention is directed to the fact that articles for Rumania are often incorrectly addressed, use being made of obsolete place-names (for example, the old names Hermanstadt, Nagyvarad, and Kolosvary are used instead of the present designations Sibiu, Oradea, and Cluj respectively), and delay in delivery may be occasioned thereby.

(xi) Parcels containing used clothing must be accompanied by a certificate of disinfection.

(6) *Prohibition.* (i) *For sanitary reasons.* All foods or drinks which do not fulfill the conditions laid down by the Rumanian regulations.

(ii) *For the protection of plants.* Trees and shrubs, as well as the different parts or organs thereof can be imported only if accompanied by a certificate establishing that the place of origin is not infested by phylloxera or black rot.

(iii) *Arms, etc.* War arms and their parts and ammunition therefor (except those intended for the State).

(iv) *For other reasons.* (a) Coins which are not legal tender in Rumania (with the exception of antique coins).

(b) Articles of gold or silver which are not of the required fineness.

(7) *Import restrictions.*—The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import licenses are required for many types of commodities.

(ii) Special permission of the Rumanian State Monopolies is required for the importation of tobacco in any form, cigarette papers, lighters, playing cards, and salt.

(iii) Articles containing money are subject to the control of the National Bank of Rumania, and remittances can be delivered to addressees only upon proper authorization from that Bank.

(iv) Measuring instruments and standards require special permission of the Ministry of Industry and Commerce.

(v) Compound medicines and pharmaceutical specialties, as well as mineral waters, require authorization of the Chief Sanitary Council of Rumania.

(vi) Saccharine and similar products require authorization from the Director of Customs of Rumania.

(vii) Arms (other than prohibited war arms) require authorization from the Council of Ministers.

(viii) See subparagraph (5) of this paragraph for special restrictions on gift parcels.

(ix) Machines for prepaying postage on mail matter require the approval of the Director General of Posts of Rumania.

(x) Used military clothing.

§ 127.342 *Ryukyu Islands (including Okinawa and the other islands of the Ryukyu Group south of 30° north latitude, including Kuchinoshima).*

NOTE: Ryukyu (Nansei) Islands north of 30° north latitude (excluding Kuchinoshima) are subject to postage rates and conditions applicable to Japan.

(a) *Postal Union mails—(1) classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rate, 25 cents per half ounce. Air letter sheets, 10 cents each. (See § 127.20.)

(6) *Observations.* Articles should be addressed in English, but it will be permissible for the address to be shown also in any other language provided those addressed in another language bear an interlined translation in English of the name of the post office, island where located, and the words "Ryukyu Islands."

(7) *Prohibitions.* Dutiable articles (merchandise) prepaid at letter rate.

NOTE: The weight limit and other tabulated information following the parcel post rate tables are also applicable to "U. S. A. Gift Parcels."

(2) *Observations.* In addition to the conditions applicable to parcels generally, as set forth in paragraph (b) of this section, the following special requirements imposed by the Department of the Army must be met in order for parcels to be accepted at the reduced postage rate as "U. S. A. Gift Parcels":

(i) Each parcel must be mailed as a gift by an individual sender to an individual addressee for the personal use of himself or his immediate family. The items which may be included in "U. S. A. Gift Parcels" are limited to nonperishable food, clothing and clothes-making materials, shoes, and shoe-making materials, mailable medical and health supplies, and household supplies and utensils, if permitted under existing postal regulations.

(ii) Vegetable seeds may be included provided the total domestic retail value of such vegetable seeds does not exceed $5.

(iii) When a relief parcel is presented for mailing under these regulations the words "U. S. A. Gift Parcel" shall be conspicuously endorsed by the mailer on the address side of the parcel and on the customs declaration. The use of the words "U. S. A. Gift Parcel" will be a certification by the mailer that the provisions of the Army regulations have been met.

(iv) Also see § 127.55 (j).

§ 127.343 *St. Helena—(a) Postal Union mails—(1) Classifications, rates, weight limits, and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

C. o. d.: No.

(2) *Indemnity.* See § 127.165.

(3) *Registry service.* For general information see Subpart D of this part.

(4) *Receipts for ordinary parcels.* Receipts are to be issued for ordinary parcels (surface and air). (See § 127.159.)

(5) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(6) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(7) *Observations.* (i) The customs declarations must be completed in English with an interlineation in either French or Spanish. The gross weight of the entire parcel and the net weight of its contents must be given. Packages and the customs declarations which accompany them must bear a complete local address; that is, the name of the street and the number of the house or other designation of the exact address at which the addressees may be found. Packages not thus fully addressed, especially in the larger cities of Spain, are likely to be delayed in delivery. This information is desired by the Spanish customs authorities in order to adjust customs and transportation charges.

(ii) In the case of parcels addressed in care of banks or other organizations, the second addressee shall be advised concerning the arrival of the parcel, but he shall not have authority to claim delivery except upon written authorization from the first addressee or from the sender; in the latter case, the sender shall take steps, through the administration of the country of origin of the parcel, for its delivery to the second addressee.

(iii) In connection with packages to be sent by air parcel post, the attention of senders should be called to the following conditions:

(a) The addressees must provide themselves in advance with the corresponding import permit issued by the Ministry of Commerce of Spain.

(b) Addressees must provide themselves in advance with the required health permit or other corresponding permit issued by the Direction General of Health, or other authority concerned, when the parcels contain medicines or other similar products.

(c) In the case of merchandise to be paid for by the addressee, the latter must be in possession of the equivalent in currency of the country of origin of the merchandise, allotted by the Spanish Institute for Foreign Exchange.

(d) If addressees fail to present the import permit, health permit, or other permits as may be required according to the nature of the contents, the parcels will be treated as undeliverable 15 days after their arrival in Spain.

(e) The United States Post Office Department assumes no responsibility on account of failure or inability of the addressees to take delivery of the parcels.

(8) *Prohibitions.* (i) Coins, unless specially authorized. Rosaries and other religious articles. Flints for lighters. Reproductions of official Spanish Navy hydrographic charts. Revolutionary propaganda and other objectionable printed matter.

(ii) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: No.
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (4) of this paragraph.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet 7 inches, provided that parcels exceeding 6 feet in combined length and girth shall not exceed 30 inches in length.

(4) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of indemnity: | Fee, cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $350 | 70 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "Insured" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) See § 127.143 (b), as to method of converting United States currency into gold francs.

(iv) Parcels containing coin, bank notes, paper money, bullion, jewelry, or other precious articles must be insured.

(v) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(5) *Prohibitions*—(i) *For sanitary reasons.* Shaving brushes, unless accompanied by a certificate of origin attested by the Swedish consular authority at the place of origin or by the competent authorities of the country of origin that the brushes are not of Japanese manufacture or exported from that country.

(ii) *For the protection of animals or plants.* (a) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(b) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(iii) *Arms, etc.* Firearms of all kinds, cartridge holders, and bullets, except by special authorization or on behalf of the Government.

(iv) *State monopolies, etc.* (a) Pharmaceutical drugs, including bacteriological preparations, unless imported by managers of pharmacies, government institutions, or specially authorized manufacturers or wholesalers.

(b) Saccharine and other artificial sweetening substances, unless imported by managers of pharmacies, or specially authorized scientists and manufacturers.

(c) Perfumes and other alcoholic preparations, unless specially authorized by the Alcohol Control Administration. Eau de Cologne and hair lotions for resale must be accompanied by a statement from the manufacturer that they have been denatured by means of dry extract of colocynth (at least 0.3 gram of extract per liter). The statement may be entered on the invoice.

(d) Tobacco in any form, unless addressed to the Tobacco Monopoly. However, manufactured tobacco may be imported for the Royal Family and by envoys accredited to the Swedish Court for personal use, and by authorized tobacco dealers. Machines, tools, and paper for tobacco manufacture require government authorization to be imported.

(e) As an exception to the foregoing, tobacco manufactures not exceeding 35 ounces in any one parcel may be sent as gifts to individuals for their personal use.

(v) *For other reasons.* (a) Merchandise intended for sale bearing a designation making it appear to have been produced or manufactured in Sweden.

(b) Articles of gold and silver unless they are made from metal of a certain fineness.

(c) Banknotes, coins, and securities are restricted as indicated under paragraph (a) of this section.

(6) *Import restrictions.* Merchandise may be imported only under license issued by the Swedish authorities. Exemption is granted for gift parcels containing food and clothing not exceeding 100 crowns in value for each commodity. Coffee is limited to 6 lbs. 9 oz. in one parcel.

§ 127.361 *Switzerland (including Liechtenstein)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 121.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages, and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 43 cents for the first 2 ounces and 22 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) Articles enclosing prints are subject to customs duties amounting to from 5 centimes up to 5 francs per kilogram, according to the nature of the contents.

(ii) All packages of printed matter and of samples of merchandise whose weight, nature, or other characteristics give rise to the supposition that they are subject to customs examination [for information concerning Swiss Customs Regulations it is suggested that the senders avail themselves of the facilities of the Office of International Trade, Department of Commerce, Washington 25, D. C.] are required to have affixed to the wrappers thereof a green customs label, Form 2976 (C 1). (See § 127.17.)

(8) *Prohibitions.* The articles prohibited or restricted as parcel post are prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including transit charges.*

Each air parcel and the relative dispatch note must have affixed the blue Par Avion label (Form 2978). (See § 127.55(b).)

Weight limit: 44 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: 1 Form 2972.
Parcel-post sticker: 1 Form 2922.
Sealing: Insured parcels must, and ordinary parcels may, be sealed.
Group shipments: Limited to 3 ordinary parcels. (See § 127.79.)
Registration: No.
Insurance: Yes.
C. o. d.: No.

(2) *Indemnity.* See subparagraph (5) of this paragraph.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, $3\frac{1}{2}$ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Insurance.* (i) Parcel post packages may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable in addition to the insurance fees mentioned hereunder:

| Limit of Indemnity: | Fee cents |
|---|---|
| Not over $10 | 20 |
| From $10.01 to $25 | 25 |
| From $25.01 to $50 | 35 |
| From $50.01 to $100 | 55 |
| From $100.01 to $200 | 60 |
| From $200.01 to $300 | 65 |
| From $300.01 to $330 | 70 |

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-five Dollars and Seventy-five Cents
77.25 Gold Francs
Seventy-seven Gold Francs and Twenty-five Centimes

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) Parcels containing coin, bullion, jewelry or any other precious article must be insured. Parcels containing the articles mentioned, as well as those containing banknotes or other paper values, must be sealed with wax or lead seals, or with gummed paper tape bearing a distinctive mark or imprint of the sender.

(vi) For general information concerning insurance service, see §§ 127.140 to 127.148, inclusive.

(6) *Observations.* A letter or card fully prepaid and bearing the same address as that of the parcel may be tied to or otherwise securely attached to the outside of the parcel in such manner as to prevent its separation therefrom and not to interfere with the address of the parcel. Stamps to cover postage on the parcel must be affixed to the wrapper of the parcel. Stamps to pay postage on the letter must be affixed to the envelope thereof; or, in case of a post card, to the address side of the card, preferably the upper right-hand portion. Parcels to which such letters or cards are attached are treated as parcel post.

(7) *Prohibitions*—(i) *For sanitary reasons.* All shipments, regardless of weight, containing meat, or meat preparations, must be accompanied by a "certificate of origin and inspection of meats" and comply with other requirements of the Swiss regulations governing the importation of such products.

(ii) *For the protection of animals or plants.* (a) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(b) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *For other reasons.* (a) Horoscopes sent by persons or firms engaged in that kind of business.

(b) Articles of precious metal and alloys of such metals, must conform to the regulations of the Swiss Government with respect to indications of fineness.

(8) *Import restrictions.* Certain merchandise is subject to import permits or quotas. As it would not be practicable to reproduce the list, senders should be informed that information can be obtained by them or by the addressees from the competent Swiss authorities.

§ 127.362 *Syria (Republic of)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.)

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 25 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 52 cents for the first 2 ounces and 31 cents for each additional 2 ounces. (See §127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) The importation of merchandise is subject to the obtaining by the addressee of an import permit. (2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Observations.* (i) Plants, seeds, bulbs, and other parts of plants intended for propagation are subject to inspection and disinfection, and are destroyed if such is seen to be necessary.

(ii) A delivery fee of 43 centimes (gold) is charged on parcels up to a weight limit of 33 pounds in the urban zone and 64 centimes (gold) in the suburban zone, and 47 centimes (gold) for parcels up to a weight limit of 44 pounds in the urban zone and 68 centimes (gold) in the suburban zone, which charges must be borne by the addressee.

(5) *Prohibitions*—(i) *For reasons of public safety.* Saccharine and similar products, except in very small amounts imported as remedies by pharmacists or physicians.

(ii) *For sanitary reasons.* Nursing bottles, nipples, and pacifiers which are not made of pure rubber and marked accordingly, and vulcanized by heat.

(iii) *For the protection of animals or plants.* Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iv) *Arms, etc.* Arms of all kinds, except that hunting and commercial arms may be imported with authorization of the Director of Public Safety.

(v) *State monopolies, etc.* (a) Playing cards.

(b) Tobacco. Manufactured tobaccos, cigars and cigarettes for the personal use of importers are admitted up to 10 kilograms per year per addressee.

(vi) *For other reasons.* (a) Salt for private use.

(b) Counterfeit money, base coins, and copper coins.

(6) *Import restrictions.* (i) Annual quotas are fixed by decree covering the importation of pure or mixed cotton fabrics, plain or twilled, and ticking, damasks and figured fabrics, clothing, lingerie and clothing accessories, with or without handwork.

(ii) Addressees may be required to obtain import licenses in some cases.

§ 127.370 *Turkey*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets accepted. (See § 127.10.) The special conditions set forth under "Dutiable articles merchandise) prepaid at letter rate" are also applicable to small packets.

(2) *Registration.* Fee, 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. (See § 127.19.)

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 49 cents for the first 2 ounces and 28 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* (i) Accepted under the following conditions:

(a) Articles whose introduction is not subject to any import quota restriction (mail articles containing such objects are freely admitted to importation).

(b) Articles exempt from the import quota, but whose importation is subject to the authorization of the competent authorities (mail articles containing such objects are admitted provided the import permit is obtained in time).

(c) It is incumbent upon senders to obtain information in advance concerning the two classes of articles above mentioned.

(ii) Articles containing objects whose entry is prohibited or subject to restriction through the import quota decrees will be returned to origin.

(iii) As to articles containing the objects mentioned under subdivision (i) (b) of this subparagraph, they must either be accompanied by import permits or else the said permits must be presented at the post office by the addressees within a period of 3 days from the notice of arrival of the articles. Absence of the permit in question will likewise give rise to return to origin.

(iv) If the import permit is furnished by the sender, such permit must be enclosed within the article and the fact of the insertion indicated on the cover of the article by the note "Permis d'importation inséré" (importation permit enclosed). (See § 127.3.)

(v) Revenue and charity stamps, and canceled or uncanceled postage stamps, are subject to customs duty in Turkey, and letters or letter packages containing them must have Form 2976 (C 1) affixed.

(7) *Observations.* (i) Articles must be addressed in Turkish or French with an interlineation in English.

(ii) Calendars of all sorts, paper or cardboard patterns used in sewing, fashion publications and photographs

(except professional periodical publications containing information on sewing handicrafts) must have Form 2976 (C 1) affixed when mailed to Turkey.

(8) *Prohibitions.* (i) Samples of tea, coffee, flour, rice, and cereals sent in the "samples" mails are restricted to 100 grams (approximately 3½ ounces) net weight. Samples of dyes of all kinds are restricted to 25 grams (approximately 1 ounce) net weight. Sample packages in general are not admitted if the amount of the customs duty on such samples exceeds 15 kurus. Coins; manufactured or unmanufactured platinum, gold, or silver; precious stones, jewelry, and other precious articles. (However, registered letters may contain paper money.)

(ii) Stocks, bonds, and coupons, unless addressed to the Central Bank of the Turkish Republic, require the authorization from the Ministry of Finance.

(iii) Turkish money, as well as checks and drafts expressed in Turkish money, require authorization from the Ministry of Finance.

(iv) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including surcharges.*

(c) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(d) Parasites and predators of injurious insects, unless intended for the control of those insects and exchanged between officially recognized institutions.

(iv) *Arms, munitions, etc.* (a) Saltpeter, empty cartridges (except those for hunting arms).

(b) Arms and munitions of war and their accessories.

(c) Secret and prohibited arms (pontards, bayonets, sword canes, air rifles, and air pistols, etc.).

(d) Gas masks for either war or industrial use, and all other material for protection against gas, may be imported only by the Red Crescent Association.

(v) *State monopolies, etc.* (a) Salt.

(b) The following may be imported only by the Monopoly Administration: Tobacco and its products; cigarette paper and apparatus for making cigarettes; tobacco seed; tea; playing cards other than children's games.

(vi) *For other reasons.* (a) Military goods (other than those imported by the Government).

(b) Containers bearing names or trade-marks of foreign firms.

(c) Merchandise bearing false trademarks.

(d) Tokens having the form of coins.

(e) Tablets of acetylsalicylic acid (American brands). Tablets of colored quinine.

(f) Packets of iodoform gauze which are not enclosed in sealed bottles.

(g) Silver coins and all foreign specie coins (except gold coins and ancient coins for collections), obsolete paper money, imitations of Turkish or foreign money for ornament.

(h) Calculating machines, unless imported by the Government.

(i) Apparatus for exploding mines.

(j) Mirrors and other heliostat accessories, unless imported by the Government.

(k) Illegal measuring devices.

(l) Glasses magnifying more than eight times, unless ordered by the Government.

(7) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by addressees:

(i) Import licenses must be obtained for many types of merchandise, and others are subject to import quotas.

(ii) The permission of the competent Turkish authorities is required for the importation of the following:

(iii) Pharmaceutical specialties, except small quantities for medical or veterinary use or samples for physicians.

(iv) Mineral waters. Antiques. Silkworm eggs.

§ 127.372 *Union of South Africa—(Provinces of Cape of Good Hope, Natal [including Zululand and Amatongaland], Orange Free State and Transvaal; also British Bechuanaland, Swaziland and Basutoland)*—(a) *Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) *Registration.* Fee 55 cents. (See §§ 127.130–127.139.)

(3) *Indemnity.* See Subpart E of this part.

(4) *Special delivery.* Yes. Special delivery articles are delivered only from head and branch offices where telegraph messengers are located. Free delivery is effected to any point within 1 mile of the special-delivery office; beyond that distance there is collected a charge of 6 pence per mile or fraction thereof, in addition to the cost of any conveyance necessary. For further information concerning special-delivery service, see § 127.19.

(5) *Air mail service.* Postage rates: Letters, letter packages and post cards, 25 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 68 cents for the first 2 ounces and 47 cents for each additional 2 ounces. (See § 127.20.)

(6) *Dutiable articles (merchandise) prepaid at letter rate.* Accepted. (See § 127.3.)

(7) *Observations.* (i) See paragraph (b) (4) of this section for information as to the South African import-license requirements and the markings required for various types of shipments. Advertising catalogs, price lists, and trade publications or firms or persons having no established place of business in the Union of South Africa and no permanent agent holding stocks in South Africa are admitted free of duty. Therefore, under such circumstances, single catalogs or price lists of foreign firms sent through the post addressed to importers, merchants, manufacturers, public libraries, and similar institutions, are not dutiable.

(ii) All other advertising matter, including that addressed to private individuals, is subject to customs charges. Senders may, if they so desire prepay such charges by affixing to the packets customs-duty stamps of the Union of South Africa, obtainable from the official representative of the Department of Customs of the Union of South Africa, 44 Whitehall Street, New York 4, N. Y.

(iii) Remittances by money order or postal order are not accepted by the Department of Customs, Union of South Africa, in prepayment of customs duty. It is possible, however, to forward to the addressee direct an international postal money order covering the estimated amount of the duty and other charges.

(8) *Prohibitions.* (i) Magazines and periodical publications of the sensational variety, such as "western," "detective," "romance," "confession," or "comics."

(ii) Back numbers of any magazines or periodicals mailed more than 2 months from date of issue.

(iii) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails, except that diamonds and other precious stones and coins are admitted in the registered letter mails.

Insurance: No.
C. o. d.: No.

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest length, 3½ feet. Greatest length and girth combined, 6 feet.

(4) *Observations.* (i) The South African Government requires that import permits be obtained by the addressees to take delivery of all shipments except those in the following categories which are exempt from import control:

(*a*) Bona fide gifts not exceeding £5 (about $14) in value.

(*b*) Medicines and therapeutic devices for the addressee's personal use, not exceeding £5 in value.

(*c*) Books, newspapers, catalogues, printed music and periodicals (other than those of the sensational or "comic" variety which are prohibited) sent to firms or private individuals for their own use.

(*d*) Samples having no commercial value.

(*e*) Articles being returned to South Africa after repairs costing £5 or less.

(*f*) Articles originating in South Africa being returned for repair or for replacement due to defect.

(*g*) Articles authorized under South African quota regulations.

(*h*) Used household or personal effects of persons who have arrived in South Africa.

(ii) Before mailing any parcel post or regular mail package whose contents do not conform to one of the above categories, the sender should ascertain whether the addressee will be permitted to receive it. The sender must mark the wrapper of each parcel or package "Addressee has import permit," or, if the contents are in one of the exempted categories, "Exempt from import control."

(iii) Commercial shipments of printed matter require separate import permits to be obtained by the addressees for the portions classified as (*a*) scientific, educational and technical, (*b*) nonfiction, and (*c*) fiction. It is desirable that mailers of such shipments prepare separate invoices in respect of each classification, each invoice to show the total number of parcels in the shipment, and the invoice number to be marked on each package.

(iv) The value shown on the customs declaration must be the current value of the finished articles in the open market at the time of dispatch. In case of undervaluation the parcel is liable to confiscation.

(5) *Prohibitions*—(i) *For sanitary reasons.* Serums, vaccines, and cultures of pathogenic microorganisms capable of communicating diseases to man may be imported only under permit from the Ministry of Public Health. Mallein and tuberculin for veterinary use may be imported only under permit from the chief veterinary surgeon of the Government. The bottle or receptacle intended to contain the serum, lymph, or other substances to be used in the preventive treatment of human diseases must bear a label showing the name and address of the manufacturer, and the date of manufacture or date after which the use of the preparation is not recommended.

(ii) *For the protection of animals or plants.* (*a*) Honey, confections sweetened with honey, syrups, malt and medicaments mixed with honey; flypaper and other substances containing honey for catching flies.

(*b*) Used beehives and other containers for bees, honey or beeswax.

(*c*) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(iii) *Arms, etc.* Munitions and fuses for firearms.

(iv) *For other reasons.* (*a*) Diamonds and precious stones; coins; gold dust or nuggets.

(*b*) Eau de Cologne, to Basutoland.

(*c*) Cheddar, Gouda, Edam, Chedlet, Cheshire, Little Wilts, Pont du Salud, Kraft, and similar cheeses, except by previous permission from the Minister of Agriculture.

(*d*) Flour; rice.

(*e*) Magazines and periodical publications of the sensational variety, such as "western," "detective," "romance," "confession," or "comics."

(*f*) Back numbers of all magazines or periodicals mailed more than two months from date of issue.

(6) *Import restrictions.* The attention of senders should be called to the following requirements, which are to be met by the addressees:

(i) Addressees are required to obtain import licenses for many types of merchandise. (See subparagraph (4) of this paragraph.)

(ii) Permits issued by the Commissioner of Police at Pretoria are required for the delivery of knives having cutting edges 4 inches or more in length; pocket knives whose blades can be fixed when opened; imitation firearms; devices for discharging gas or liquid; rubber batons.

§ 127.373 *Union of Soviet Socialist Republics—a. Postal Union mails*—(1) *Classifications, rates, weight limits and dimensions.* See Table No. 1, in § 127.1. Small packets not accepted.

(2) Registration. Fee, 55 cents. (See §§ 127.130–127.139.)

(3) Indemnity. See Subpart E of this part.

(4) *Special delivery.* No service.

(5) *Air mail service.* Postage rates: Letters and post cards, 15 cents per half ounce. Air letter sheets, 10 cents each. Other Postal Union articles, 52 cents for the first 2 ounces and 31 cents for each additional 2 ounces. (See § 127.20.)

(6) *Observations.* (i) The postal administration of the Union of Soviet Socialist Republics has advised that a large number of newspapers from abroad arrive in that country without address, due to the fact that the wrappers are generally made of paper not strong enough to withstand the long voyage and repeated handlings, and must therefore be sent to the dead letter office by that service; and has requested that publishers use only very strong paper for making address wrappers and that the address be reproduced on the article itself, in order to insure its delivery in case the wrapper is torn off en route.

(ii) The following regulations govern the admission of "prints" containing literary publications and fashion journals addressed to private individuals:

(*a*) Fashion journals sent simply to state enterprises engaged in garment making or the sale of clothing, or to private individuals, are admitted without hindrance, provided that the regulations in force relative to printed matter are observed.

(*b*) Printed articles containing fashion journals addressed to private persons are to be delivered to the addressees only if the respective licenses are presented, regardless of the sender (private person or firm). If such licenses are not submitted, the articles in question will be returned to origin.

(*c*) Articles of printed matter and any other articles containing periodical or nonperiodical literature, sent by bookstores or other firms to individuals are admitted without a license only if they contain a single copy of each publication (book, magazine, or newspaper).

(iii) Packages containing seeds, plants, and parts of plants intended for propagation are subject, after their arrival in the Union of Soviet Socialist Republics, to an examination by the Quarantine Inspection Service which shall decide whether or not such shipments are admissible. Shipments which do not conform to the regulations will either be returned to the country of origin or destroyed.

(iv) Duty-prepaid packages not exceeding 18 ounces in weight containing medicines may be imported in letter packages (surface or air) and will be delivered on condition that the prescription of the treating physician in the Union of Soviet Socialist Republics is presented by the addressee at time of delivery. Only the quantities of medicines mentioned in the prescription will be delivered.

(v) The import duties must be prepaid by the senders through the facilities of one of the several firms in the United States authorized by the appropriate Soviet agency to accept prepayment of Soviet customs duties. Interested patrons shall be advised to communicate with the Eastern European Branch, Office of International Trade, Department of Commerce, Washington 25, D. C., or with any field office of the Department of Commerce.

(*b*) When the import duties have been paid to one of the authorized firms, the mailer of the package must place the following endorsement on the wrapper: "Soviet Import Duties Paid. License No. ....." The placing of this endorsement on the wrappers of letter-packages weighing not more than 18 ounces and containing mailable medicines may be regarded as authority for accepting the packages for mailing to the Union of Soviet Socialist Republics, even though merchandise is normally prohibited transmission to the Union of Soviet Socialist Republics in letter-packages. These packages may be accepted for transmission by surface or air mail and may be registered on payment of the registry fee of 55 cents in addition to the postage. Such packages must bear the green customs label. (See § 127.17.)

(7) *Prohibitions.* (i) Dutiable articles (merchandise) in letters and packages prepaid at letter rate, except for duty-prepaid packages of medicine mailed as prescribed under subparagraph (6) of this paragraph.

(ii) Values payable to bearer, coins, manufactured or unmanufactured platinum, gold or silver, precious stones, jewelry, and other precious articles.

(iii) Paper money of the Union of Soviet Socialist Republics.

(iv) Checks, drafts, foreign obligations, stocks, and coupons, except in accordance with the regulations of the State Bank of the Union of Soviet Socialist Republics.

(v) Bank notes and currency of the former Polish Bank and former Government of Poland.

(vi) Printed matter which may injure the Union of Soviet Socialist Republics economically or politically.

(vii) Printed matter to which marks have been added to emphasize certain words or sentences, or to correct errors in printing.

(viii) Postage stamps, canceled or not; philatelic collections; obsolete bonds or bills of exchange addressed to private individuals. Match-box labels for collectors, if more than one of a kind is sent, without a permit from the Ministry of Foreign Trade.

(ix) The articles prohibited or restricted as parcel post are also prohibited or restricted in the Postal Union mails.

(b) *Parcel post*—(1) *Table of rates*—(i) *Surface parcel rates, including transit charges.*

(2) *Indemnity.* No provision.

(3) *Dimensions.* Greatest combined length and girth, 6 feet. Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

(4) *Storage charges.* See § 127.96, relative to storage charges on returned parcels.

(5) *Observations.* (i) Parcels containing used clothing and used shoes are admitted only on the condition that the articles are fit for use and are accompanied by certificates from a commercial firm attesting that the said articles have been subjected to disinfection. The certificates must be dated and the relative articles should be mailed as soon after such date as possible. The wrapper of each such parcel must be endorsed to indicate that the certificate of disinfection is enclosed. Parcels not accompanied with disinfection certificates will be returned to origin.

(ii) Parcels, even though containing used clothing, are delivered to the addressee only upon the payment of the customs duties levied thereon.

(iii) The customs declaration accompanying a parcel for personal use shall contain, besides the usual information, a note indicating that the parcel is absolutely intended for the personal use of the addressee and has no commercial value for the sender.

(iv) In case of discovery, in parcels for personal use and parcels of merchandise, or articles concealed against customs inspection, or not indicated in the customs declarations, not only the said articles, but the entire parcel in which they are found, will be confiscated. Prohibited articles listed on the customs declaration are returned to origin; those not listed are confiscated.

(v) Parcels must not be closed by means of metal bands or metal straps.

(6) *Prohibitions and import restrictions.* (i) All parcel post packages, regardless of weight, if they contain articles with a mercantile value, are delivered to the addressees only upon the presentation of permits issued by the Ministry of Foreign Trade or its branches.

(ii) Parcel post packages not forwarded for commercial purposes, and containing only such articles as shown in the following list in quantities not exceeding those indicated therein, are admitted importation without production of a permit from the Ministry of Foreign Trade:

LIST OF ARTICLES ALLOWED TO ENTER WITHOUT A PERMIT WHEN INTENDED FOR PERSONAL USE—Continued

| List of articles | Gross weight limit or total number of articles per year |
|---|---|

Parcels not coming within the exemptions above referred to will be admitted only upon production of the permit of importation delivered by the Ministry of Foreign Trade, or for want thereof, they will be returned to their origin.

(iii) Parcel post packages meeting the provisions above mentioned are delivered to the addressee upon payment of the customs duties. Each parcel containing such articles in quantities exceeding those specified, is also admitted but charged with five times the amount of duties for the excess besides the ordinary customs charges.

(iv) If the addressee abuses the facilities granted to receive parcels for personal use by receiving parcels for commercial value, he will be prosecuted by the civil courts.

(v) Articles considered as parcels intended for commercial trade are:

(a) Those sent by an individual to a commercial firm;

(b) Those sent by a commercial firm to an individual; and

(c) Parcels having the character of a collective shipment even when intended for several persons when each of these addressees, taken as an individual, is not to receive articles in excess of those provided for above for his or her personal use.

(vi) Parcels addressed to State institutions or cooperative associations require an importation permit unless they contain samples without commercial value. No such permit is required for parcels addressed to scientific institutions of higher learning and containing books or apparatus and instruments presented to it for inspection and study.

(vii) Articles of military equipment (including portions of machine guns, etc.; playing cards of all kinds, ammunition for

berries (Baccae cocculi indici); double-bottomed containers and other receptacles with secret compartments; labels and all sorts of envelopes and packing materials, such as bottles, etc., bearing foreign trade-marks, sent apart from the goods for which intended; blue vitriol of all kinds.

(viii) Certain plants and plant products are prohibited from importation or are admitted under restrictions. Interested patrons may be informed that information can be obtained from the Bureau of Entomology and Plant Quarantine, Department of Agriculture, Washington 25, D. C., or from one of the offices of that Bureau located at principal ports of entry.

(ix) All parcels containing meat and any meat products, as well as smoked meat, sausages, and other mixtures of meat prepared by means of heat, must be accompanied by a veterinary certificate containing the following information:

(a) Nature of contents.

(b) Weight.

(c) Names and addresses of sender and addressee.

(d) A statement that the contents come from animals subjected to veterinary inspection and which were healthy at the time of butchering; that they contain no antiseptic substance; and that they are prepared and shipped in accordance with the requirements of alimentary hygiene.

(e) Signature of official veterinarian, confirmed by an official seal.

NOTE: Parcels received without veterinary certificate may be destroyed.

(x) The articles which are prohibited or restricted in the Postal Union mails are also prohibited or restricted by parcel post.
